

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

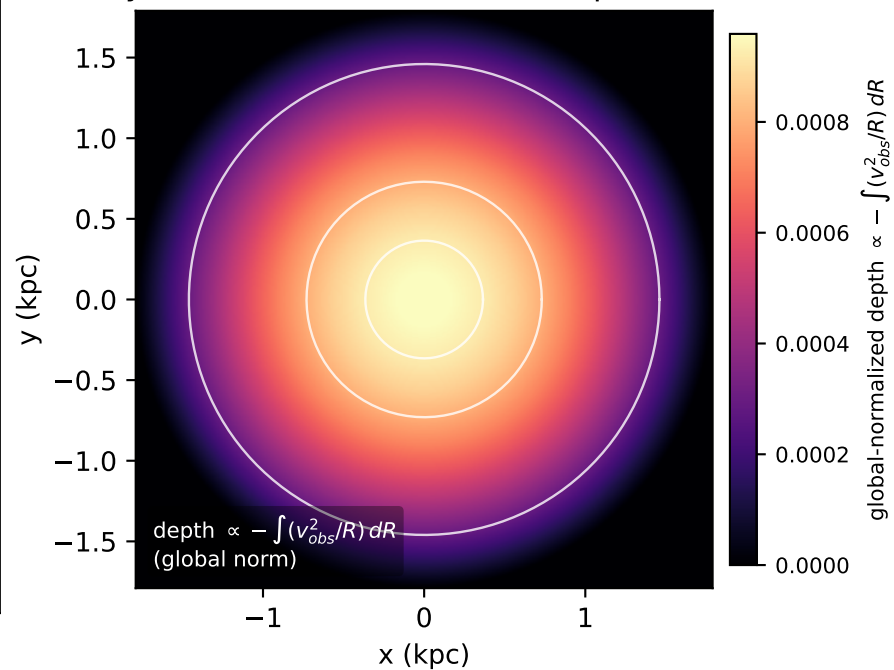

CamB: rotation curve

Inferred potential (up to constant)

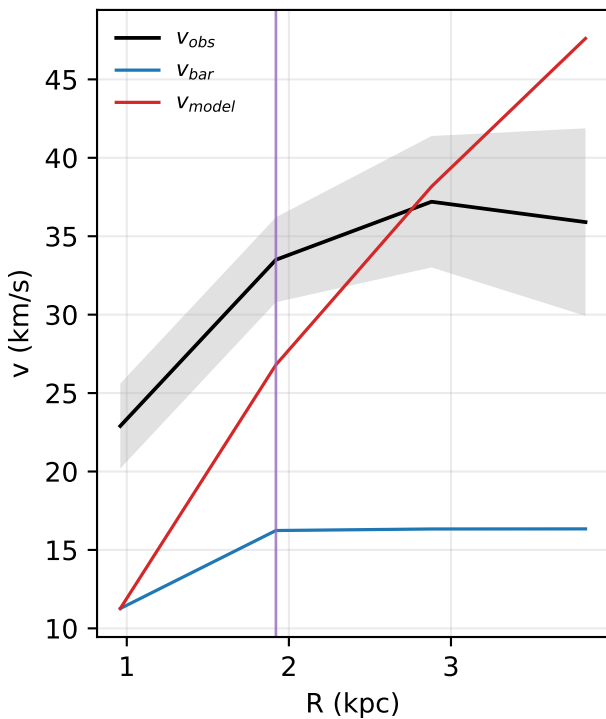

Dyed fabric (inferred effective potential)

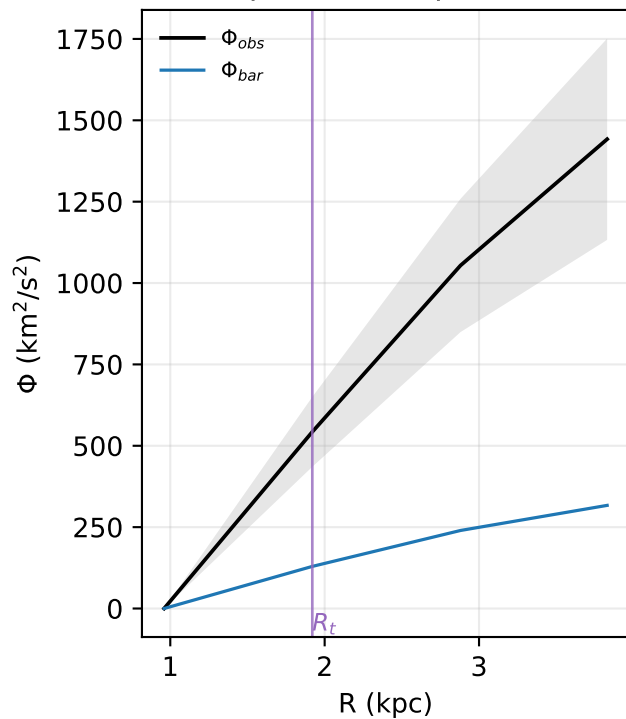

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

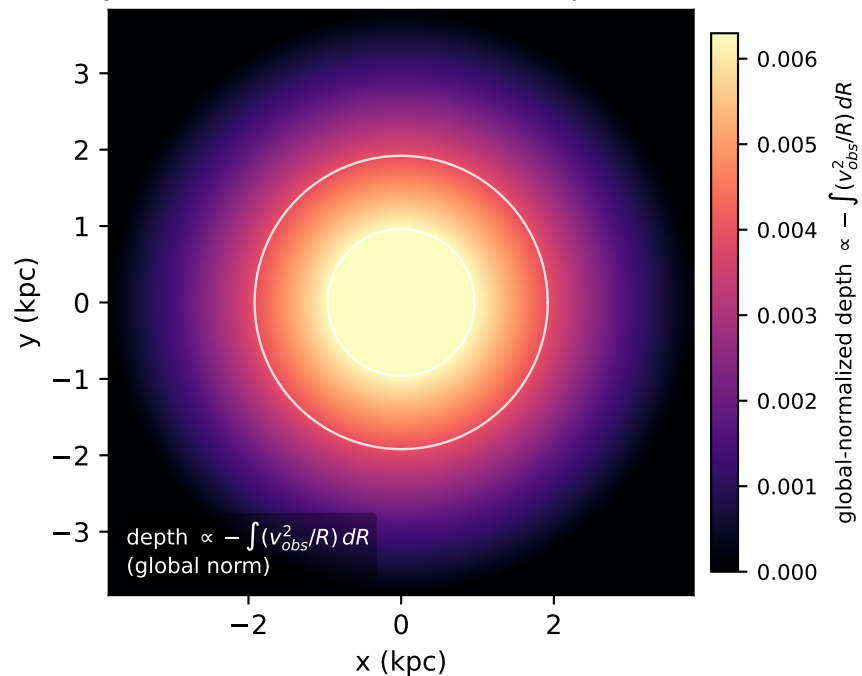

D512-2: rotation curve

Inferred potential (up to constant)

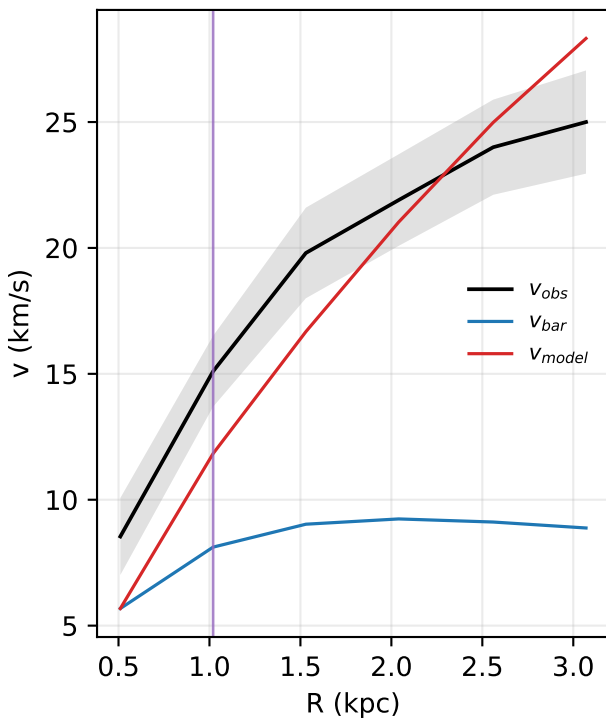

Dyed fabric (inferred effective potential)

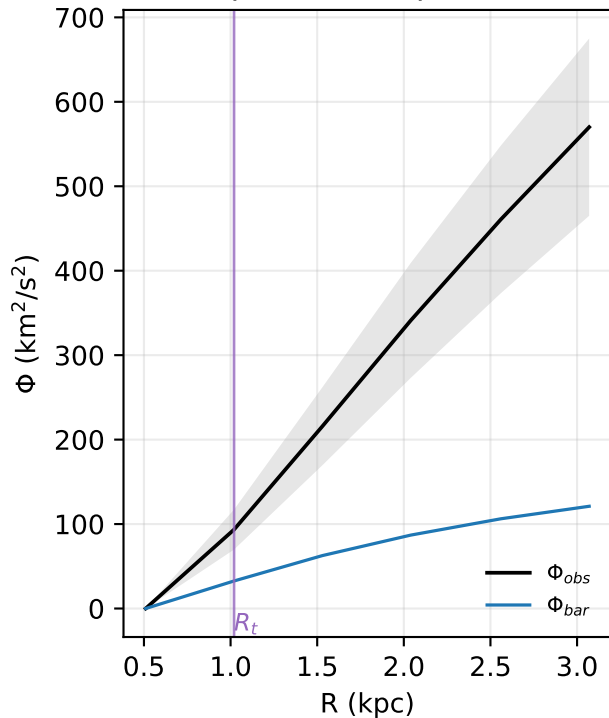

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

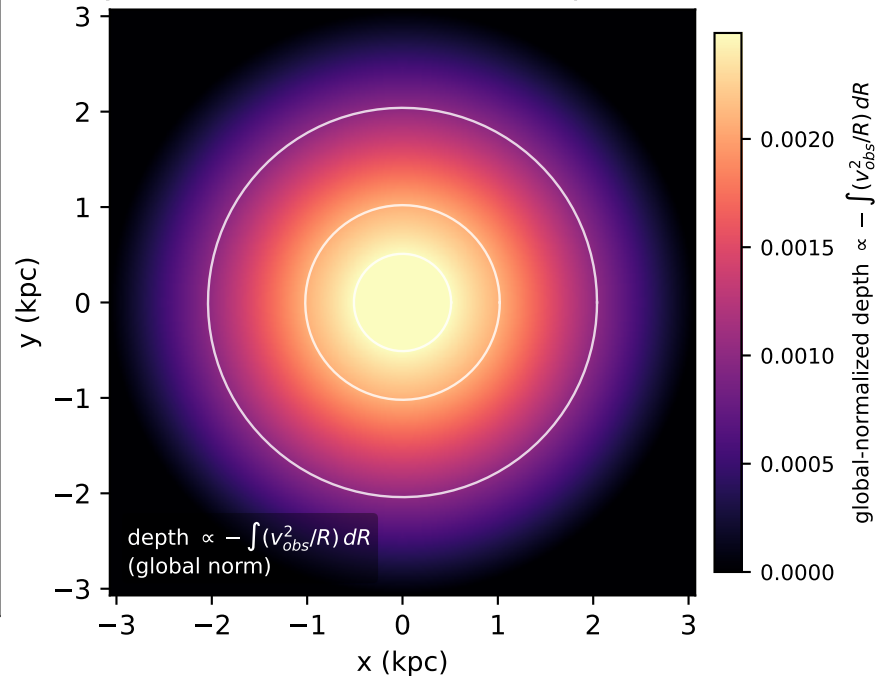

D564-8: rotation curve

Inferred potential (up to constant)

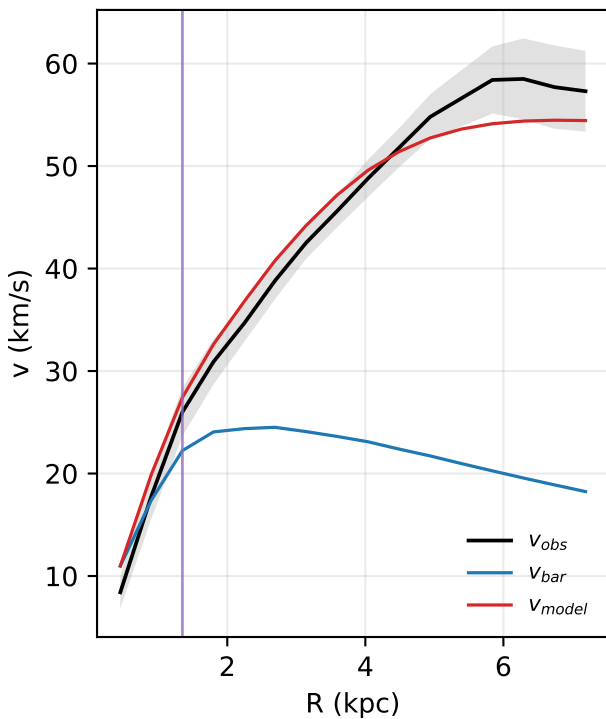

Dyed fabric (inferred effective potential)

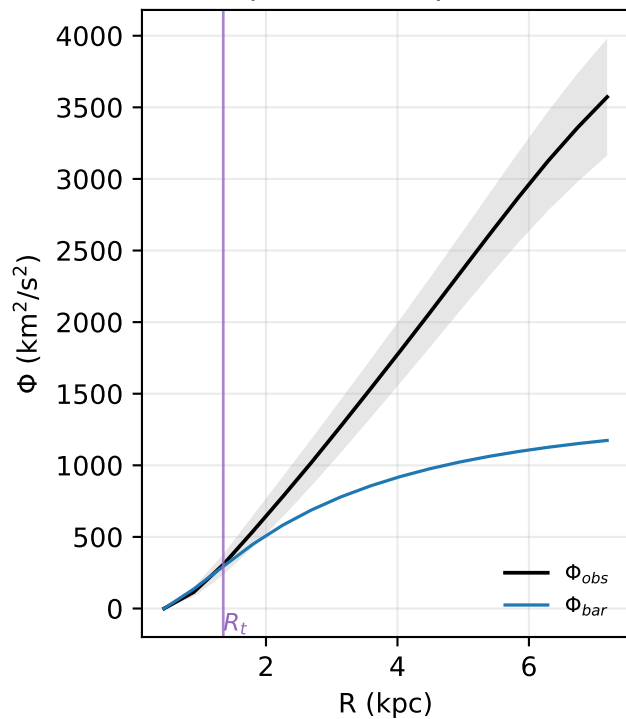

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

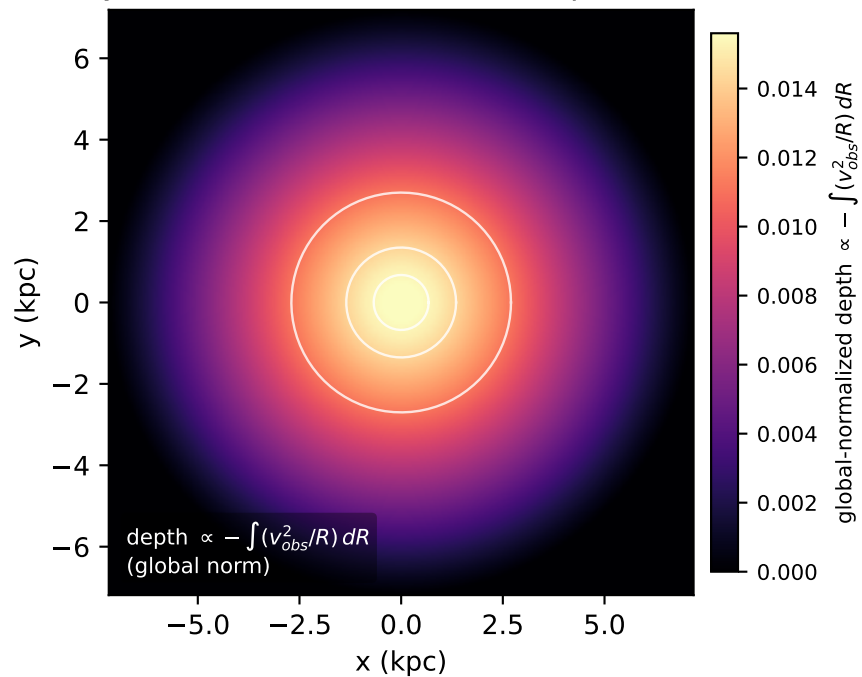

D631-7: rotation curve

Inferred potential (up to constant)

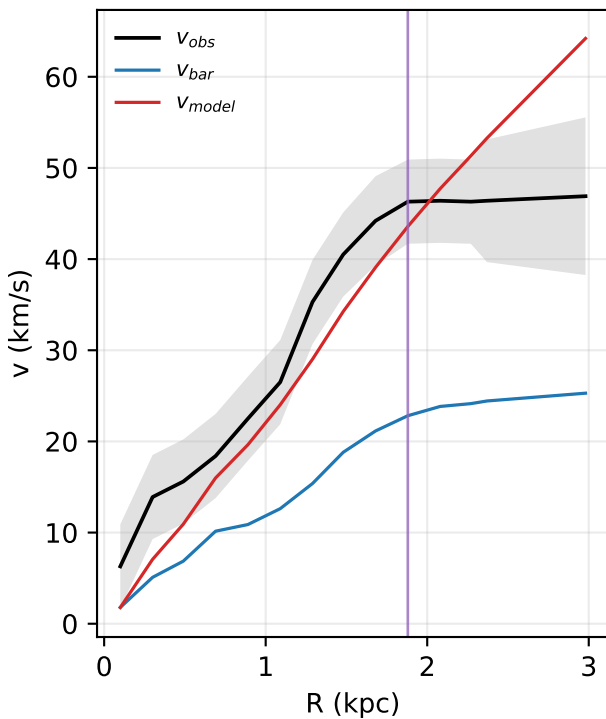

Dyed fabric (inferred effective potential)

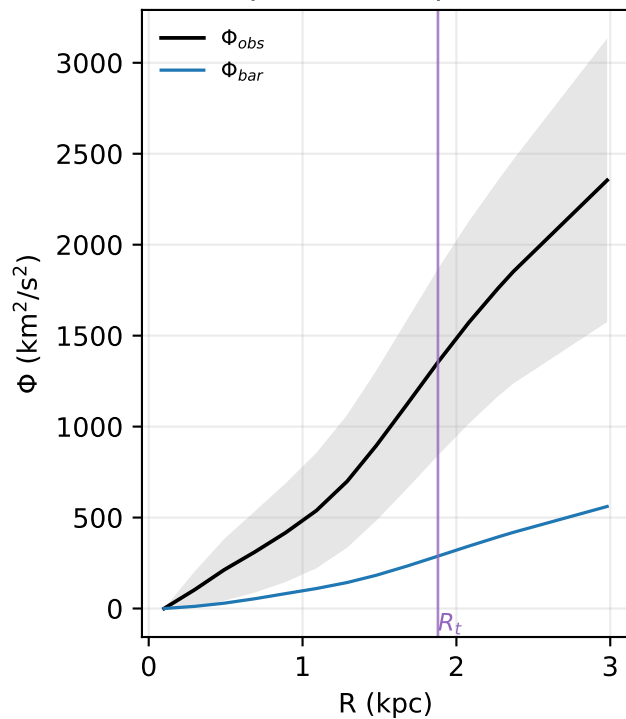

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

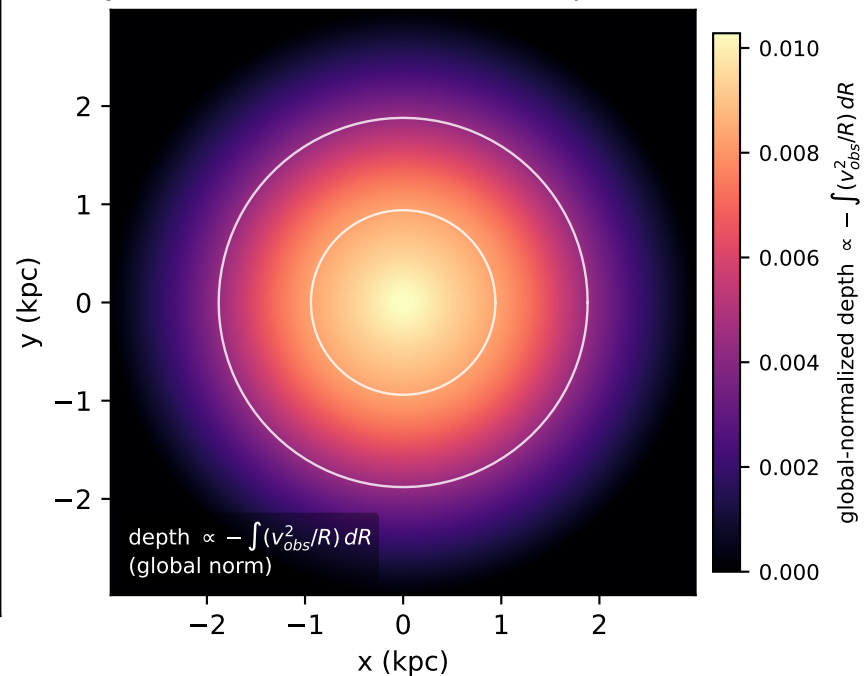

DDO064: rotation curve

Inferred potential (up to constant)

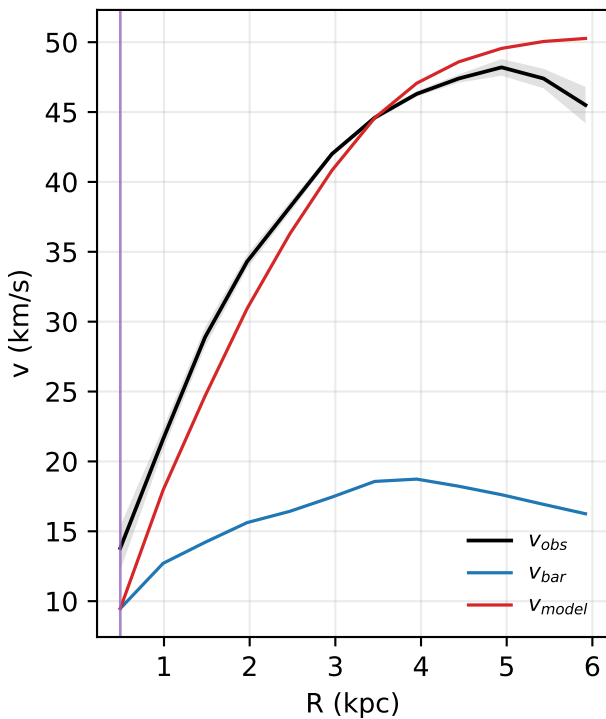

Dyed fabric (inferred effective potential)

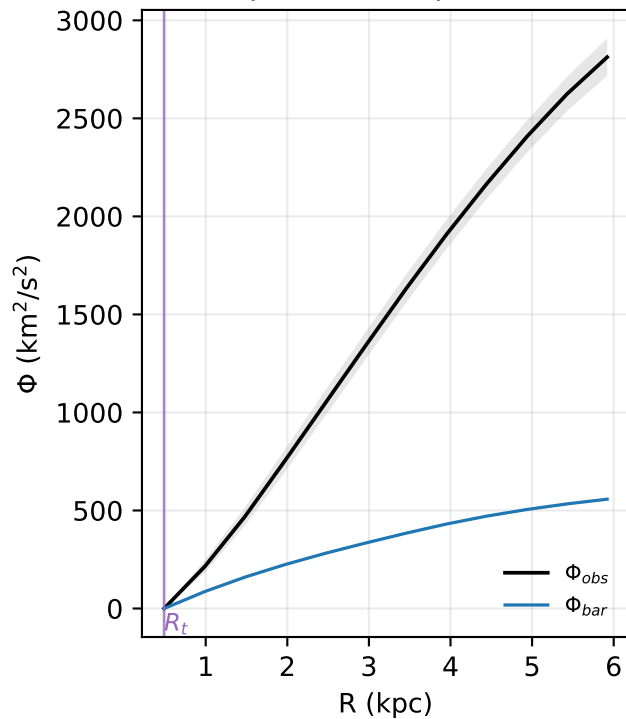

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

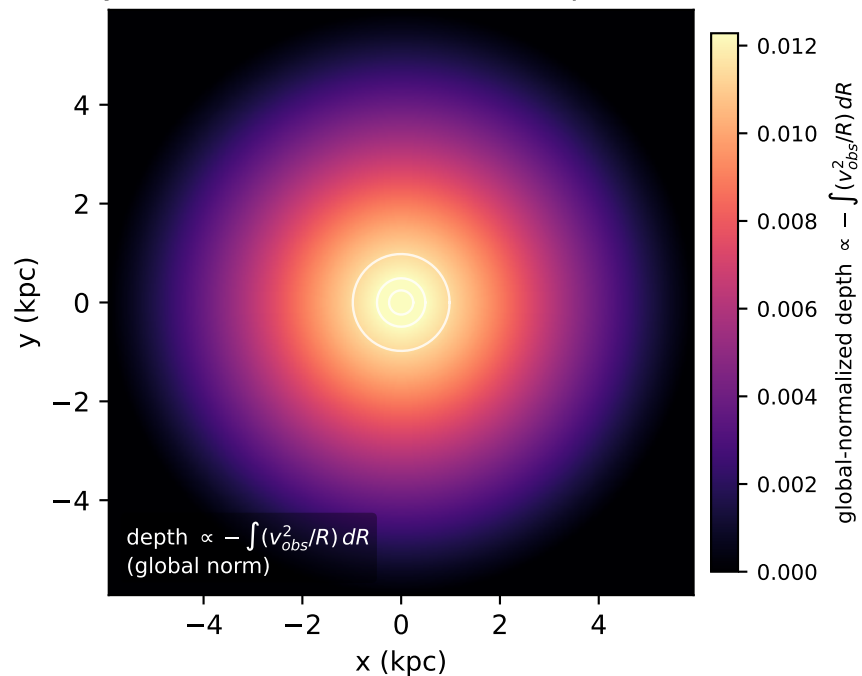

DDO154: rotation curve

Inferred potential (up to constant)

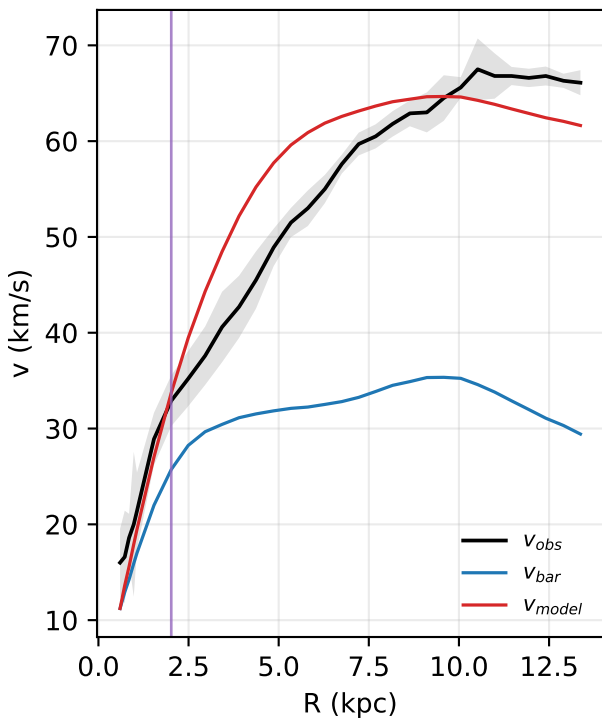

Dyed fabric (inferred effective potential)

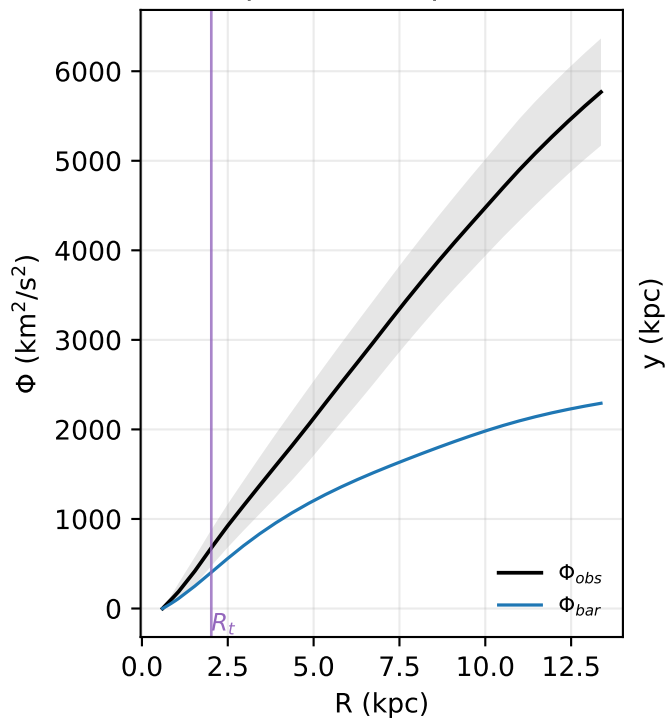

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

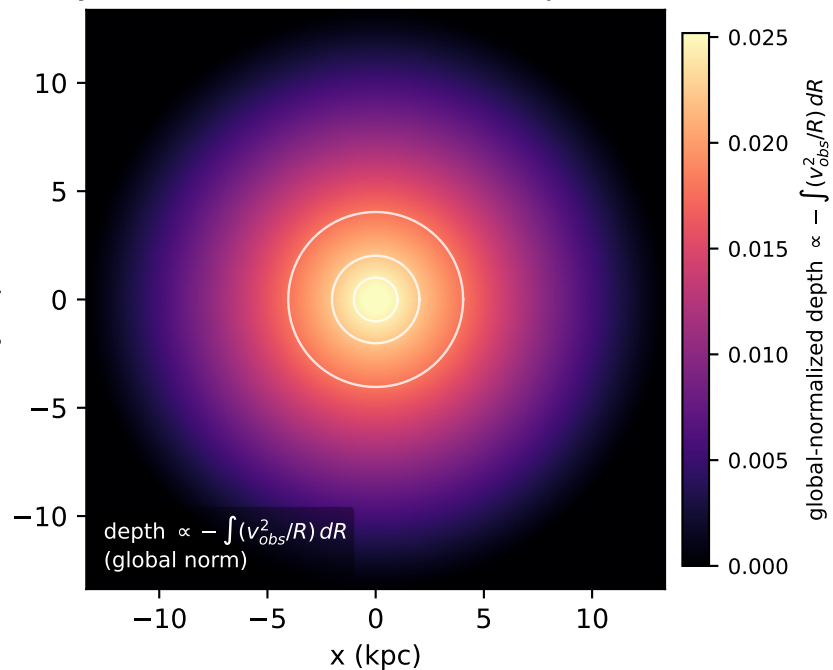

DDO161: rotation curve

Inferred potential (up to constant)

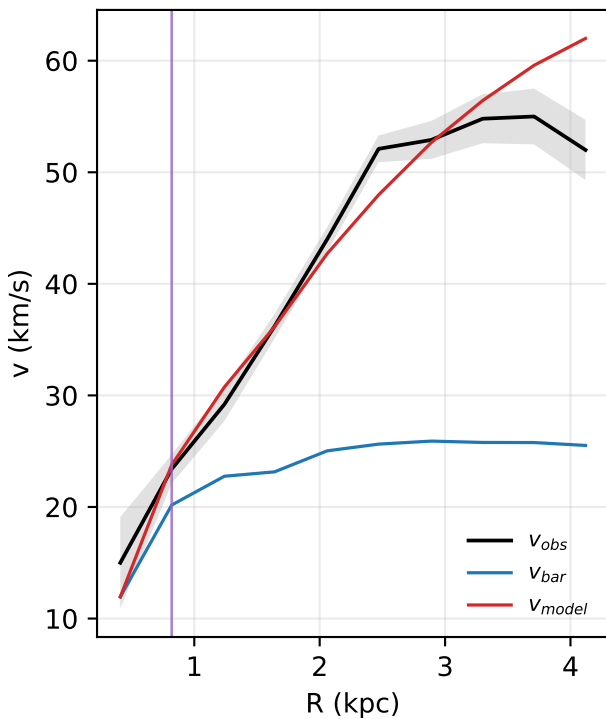

Dyed fabric (inferred effective potential)

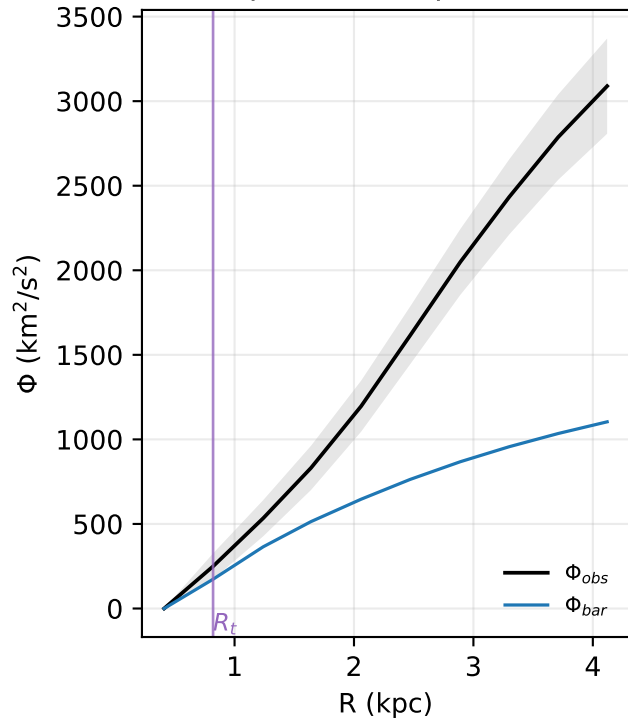

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

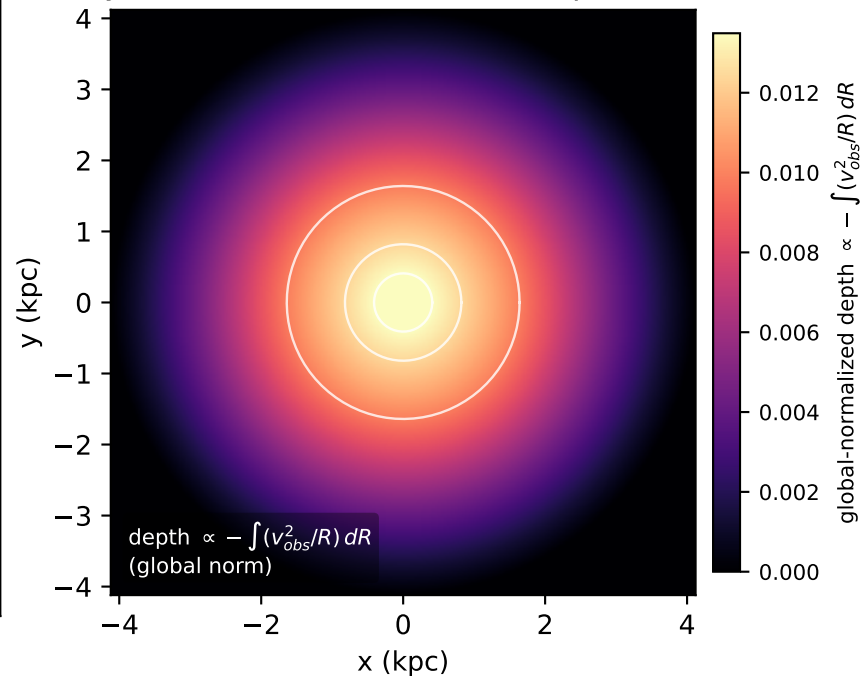

DDO168: rotation curve

Inferred potential (up to constant)

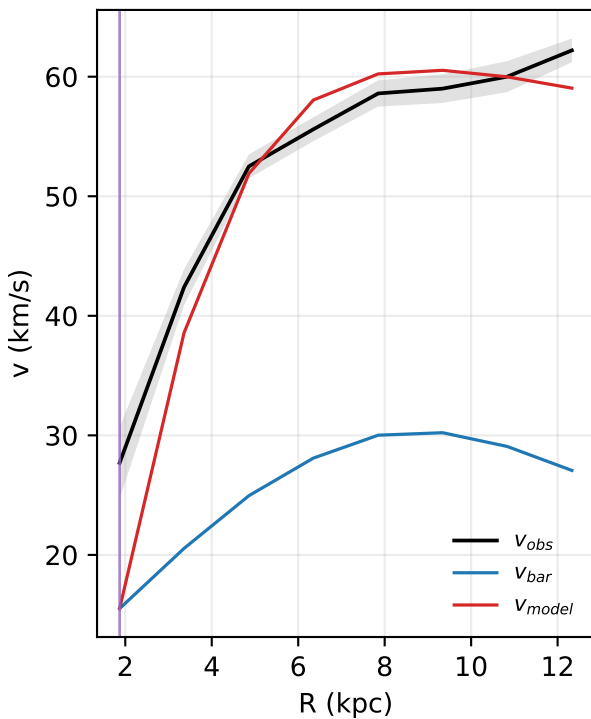

Dyed fabric (inferred effective potential)

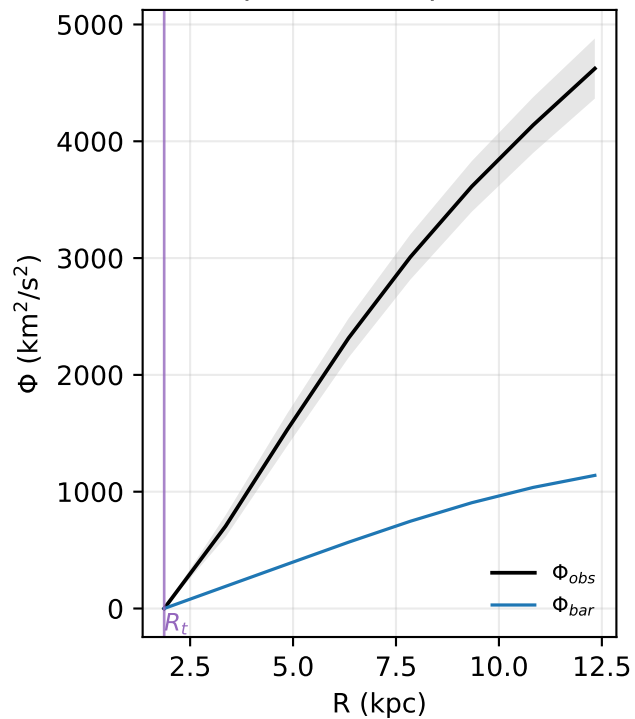

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

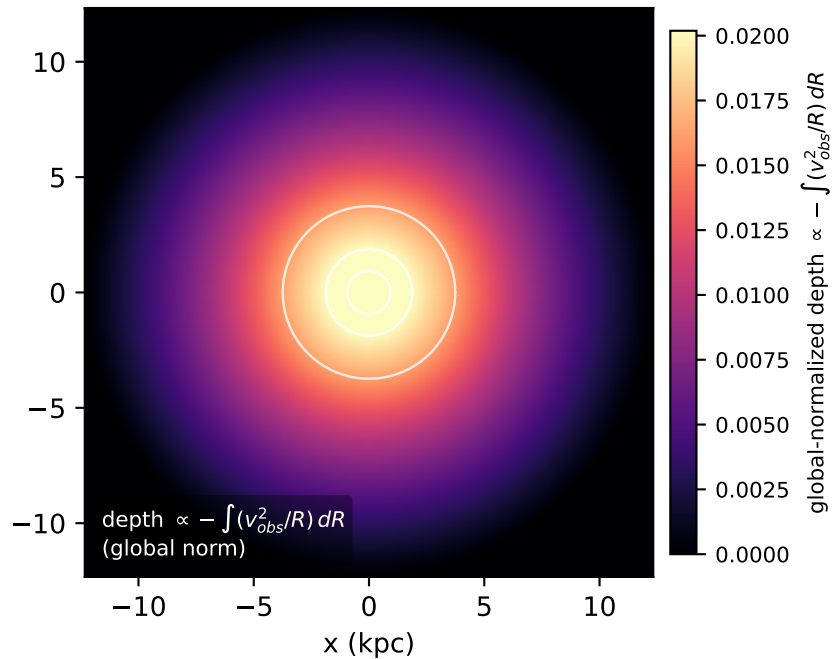

DDO170: rotation curve

Inferred potential (up to constant)

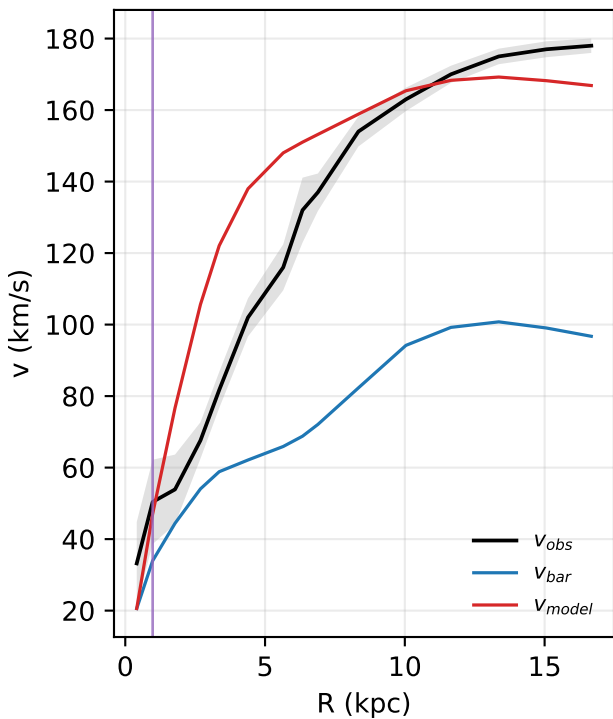

Dyed fabric (inferred effective potential)

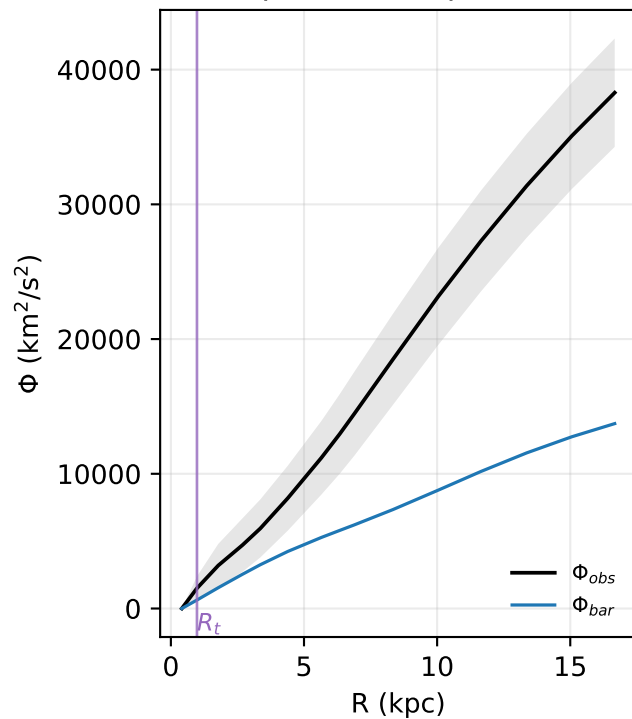

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

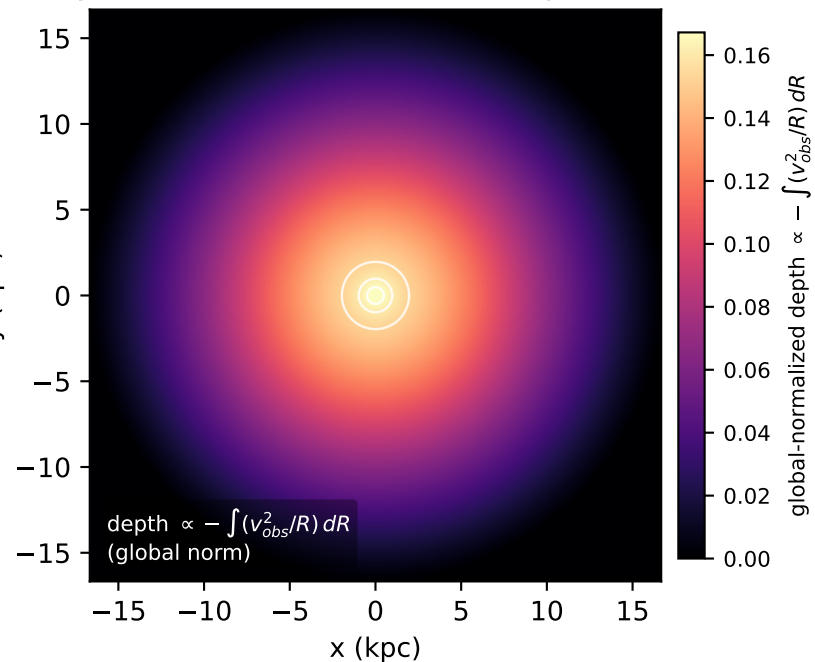

ESO079-G014: rotation curve

Inferred potential (up to constant)

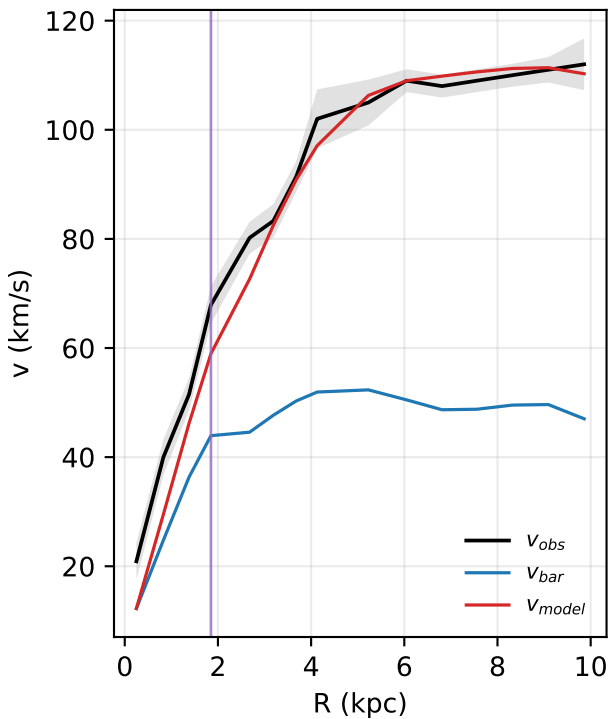

Dyed fabric (inferred effective potential)

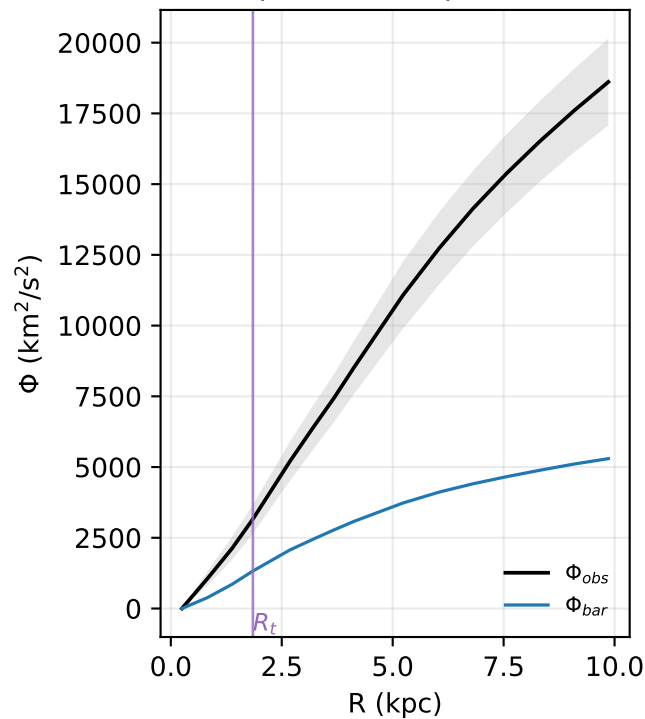

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

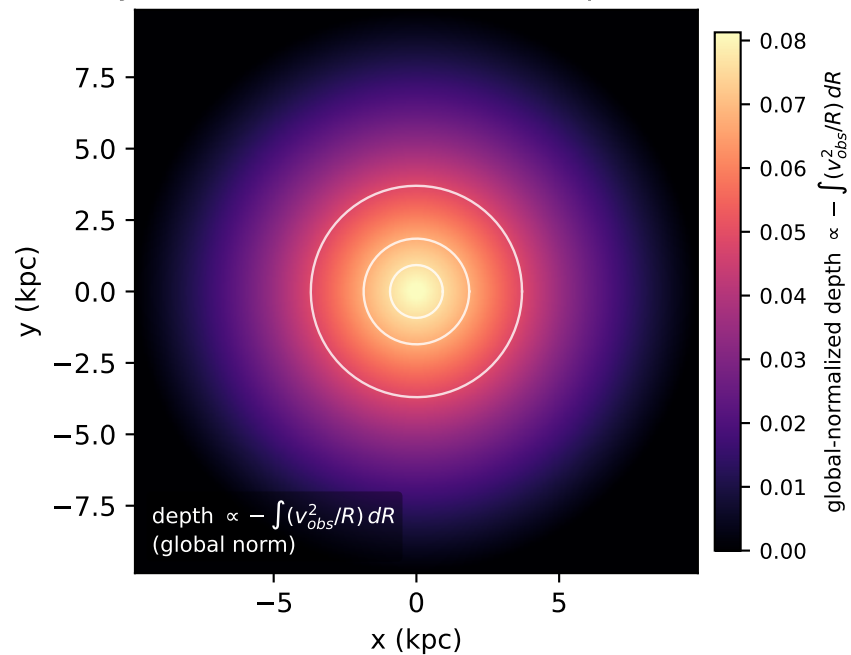

ESO116-G012: rotation curve

Inferred potential (up to constant)

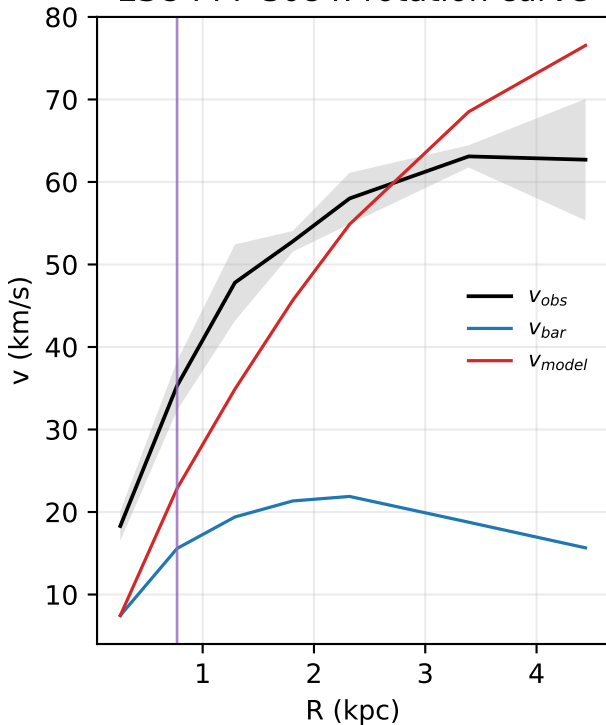

Dyed fabric (inferred effective potential)

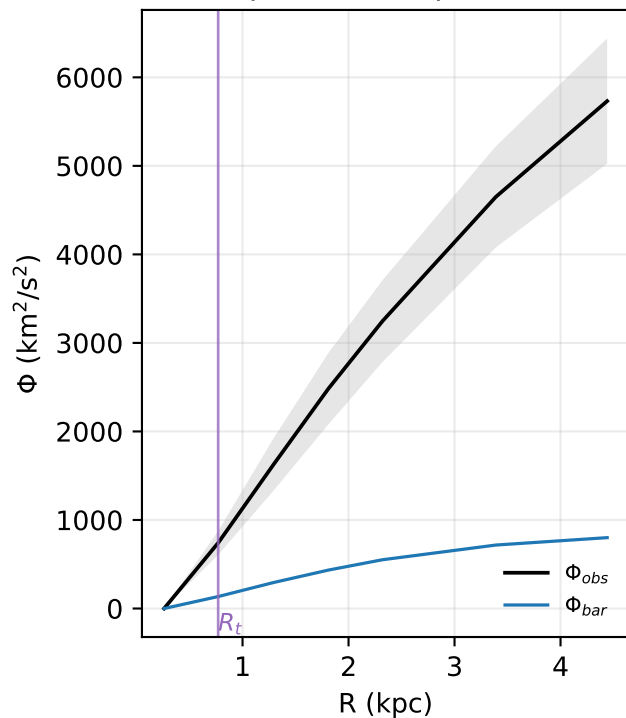

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

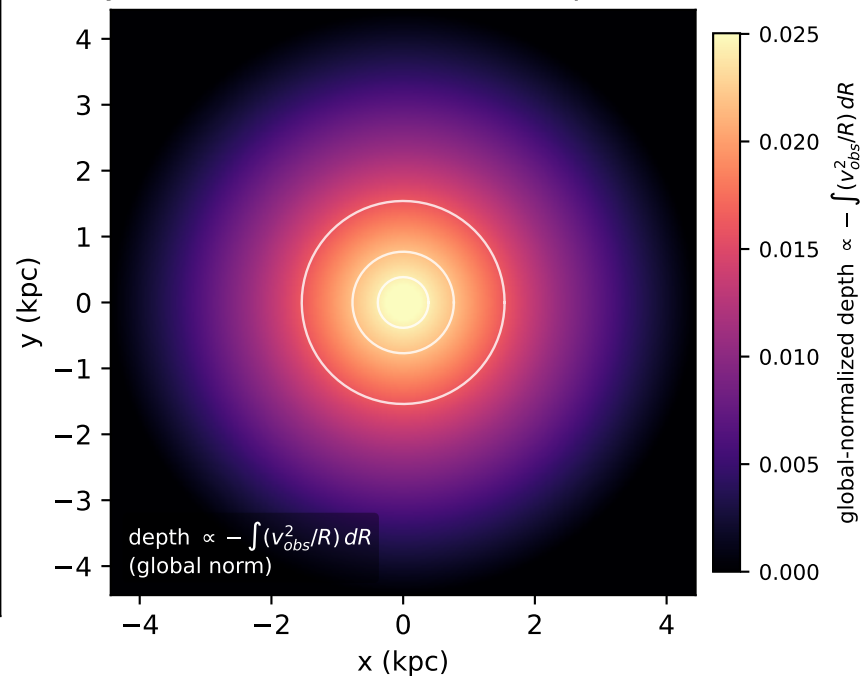

ESO444-G084: rotation curve

Inferred potential (up to constant)

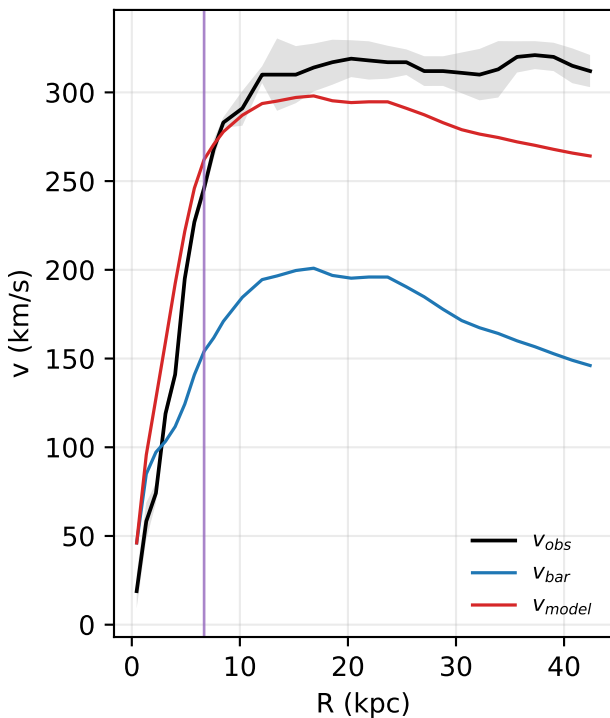

Dyed fabric (inferred effective potential)

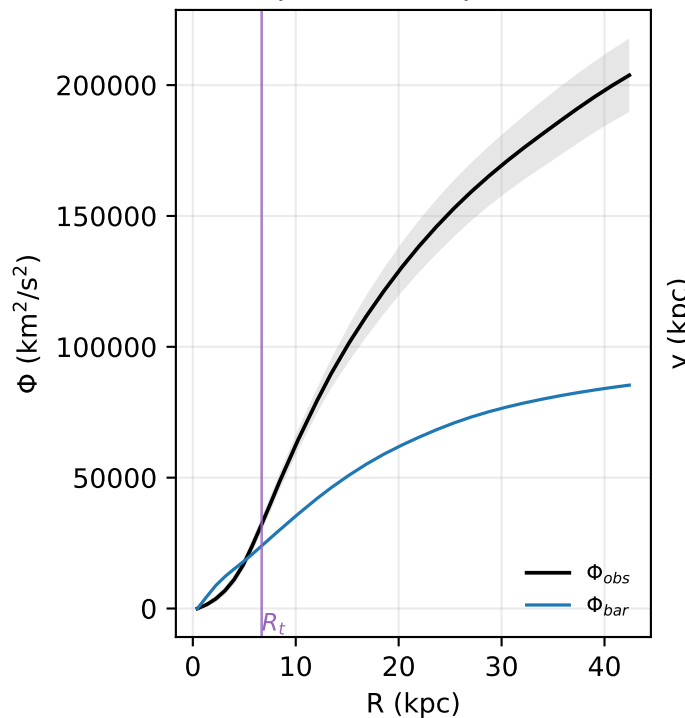

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

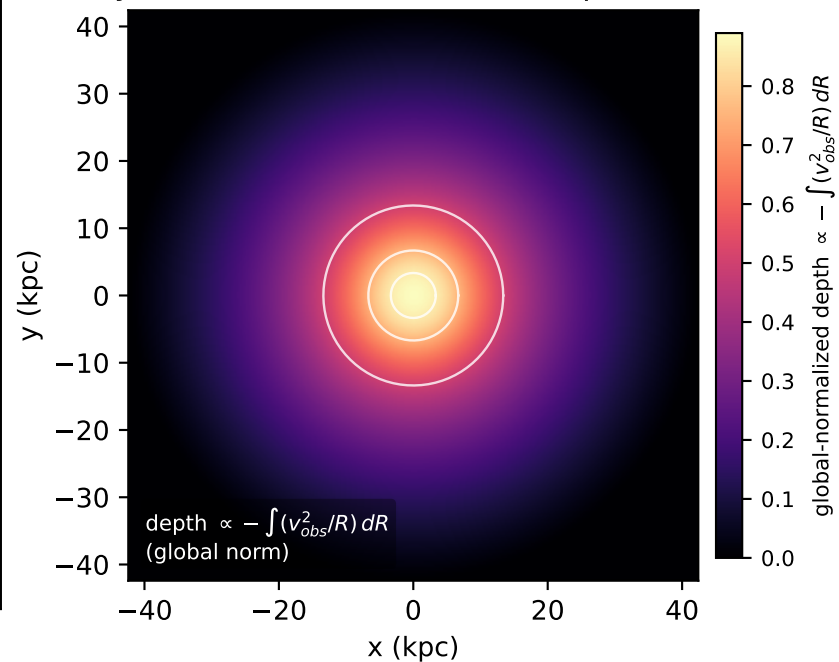

ESO563-G021: rotation curve

Inferred potential (up to constant)

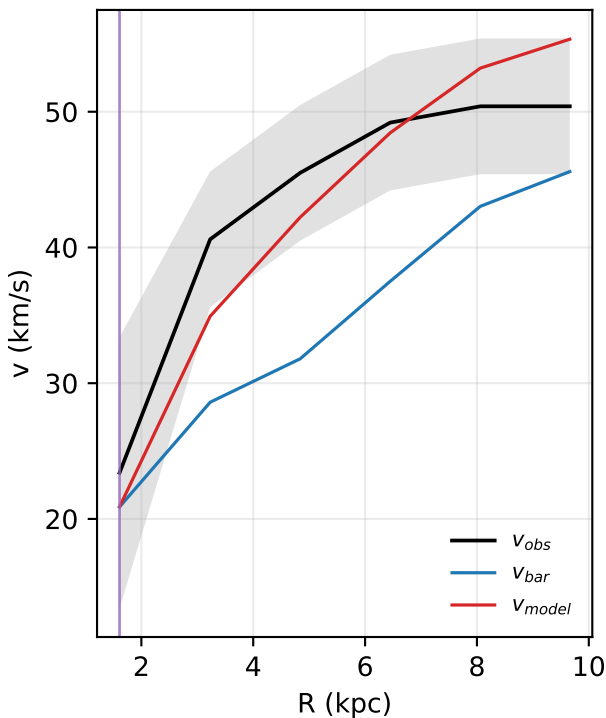

Dyed fabric (inferred effective potential)

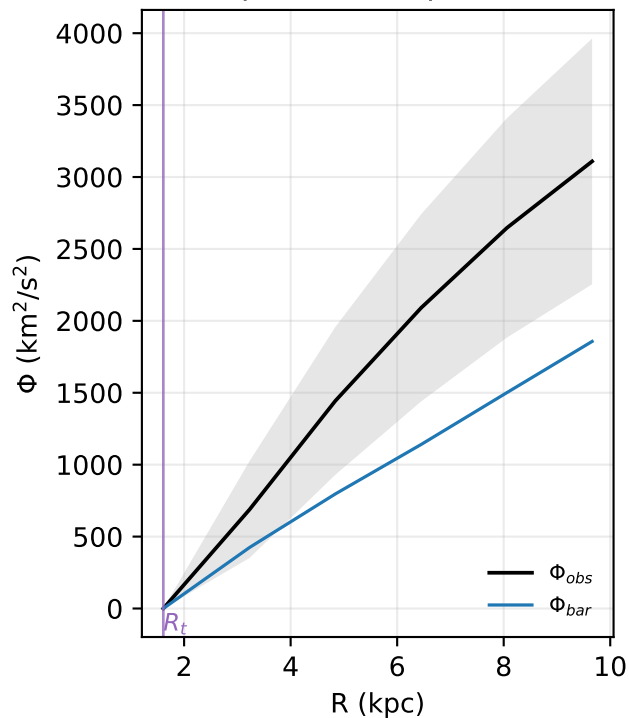

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

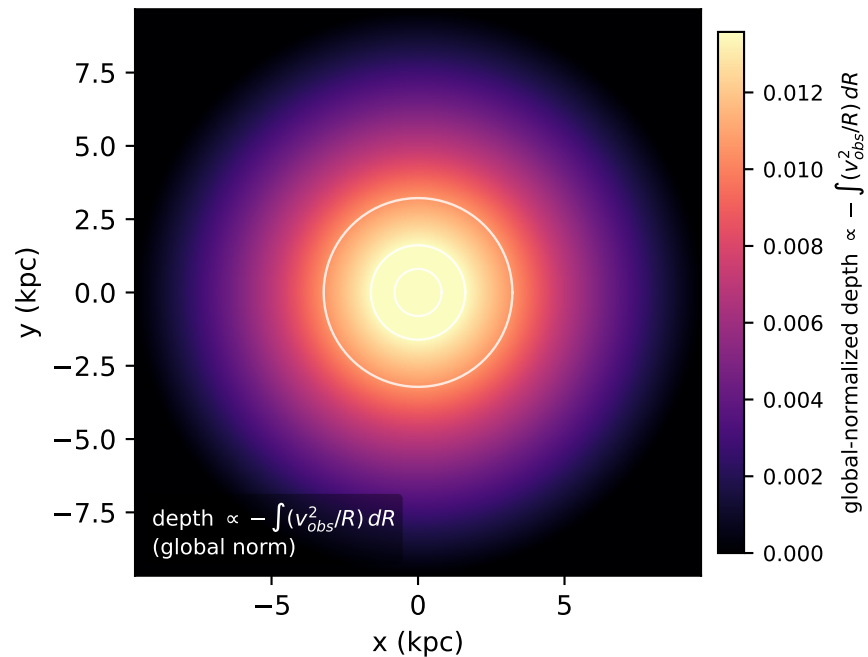

F561-1: rotation curve

Inferred potential (up to constant)

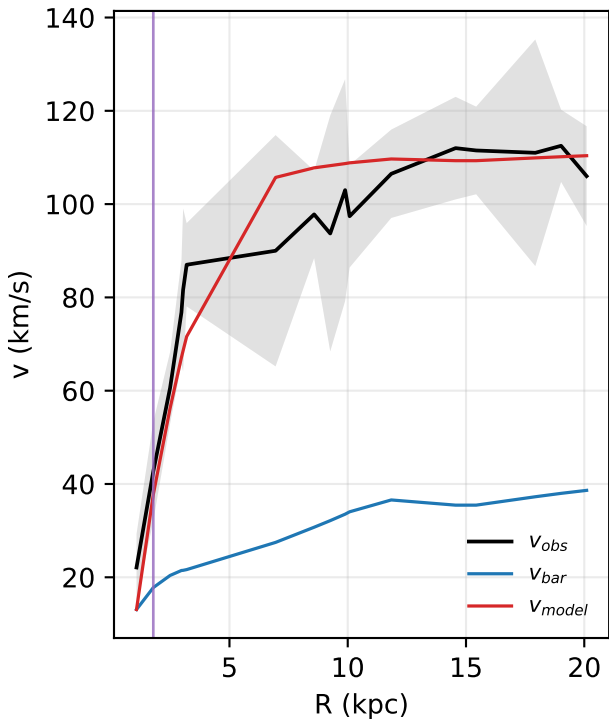

Dyed fabric (inferred effective potential)

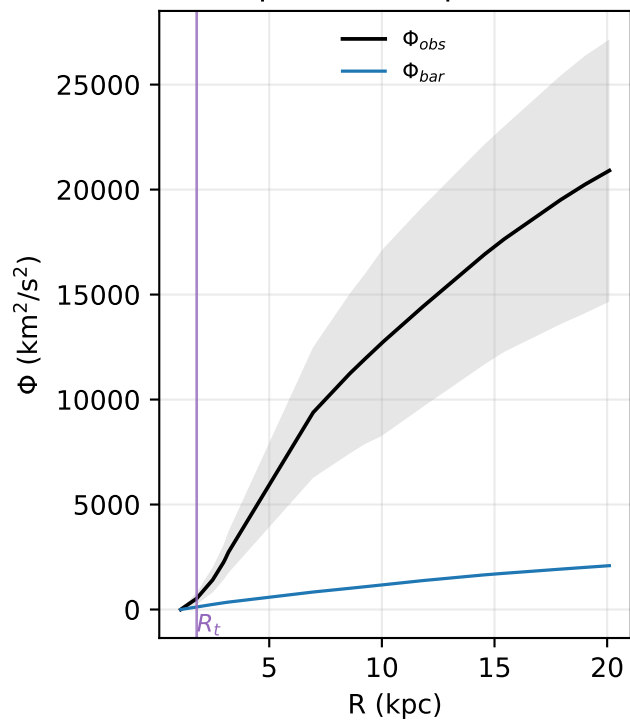

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

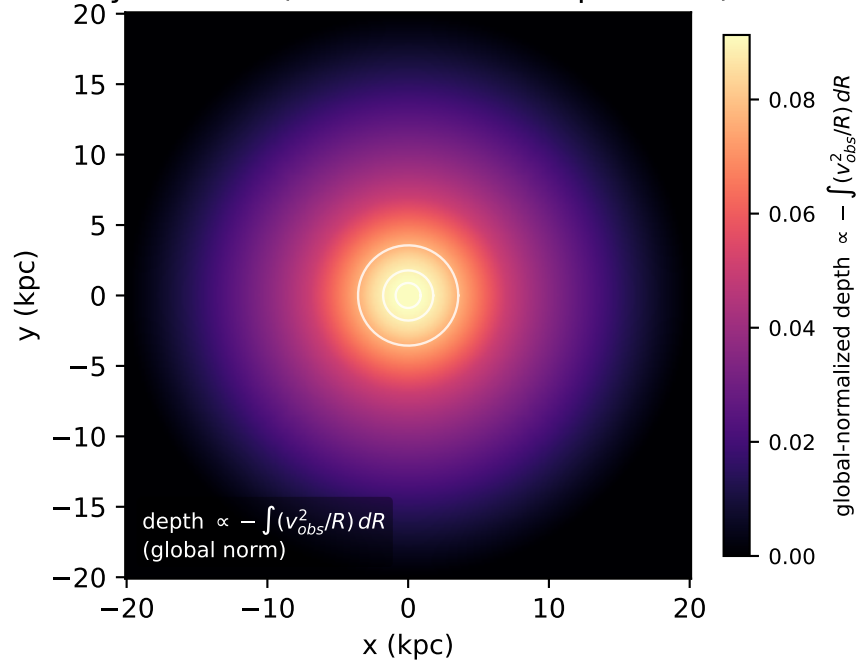

F563-1: rotation curve

Inferred potential (up to constant)

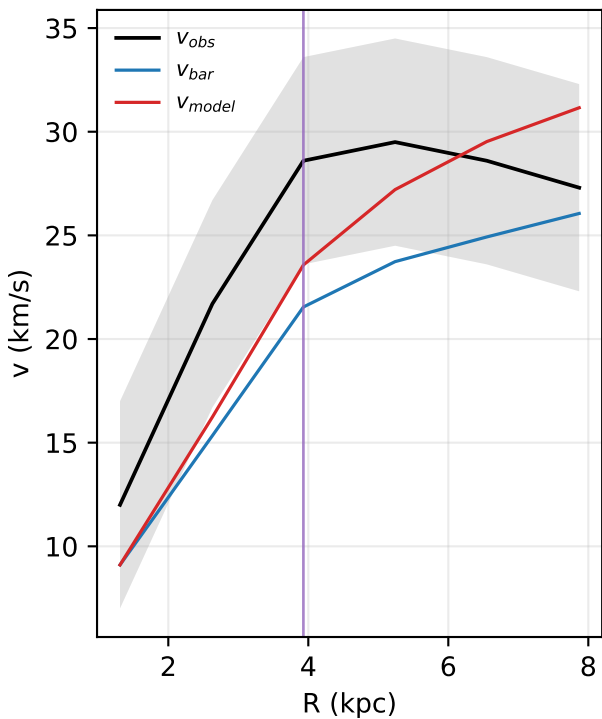

Dyed fabric (inferred effective potential)

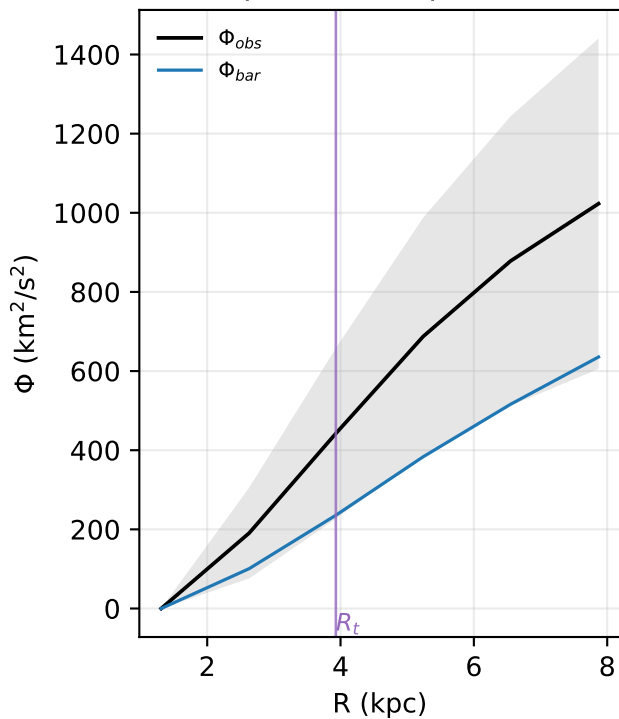

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

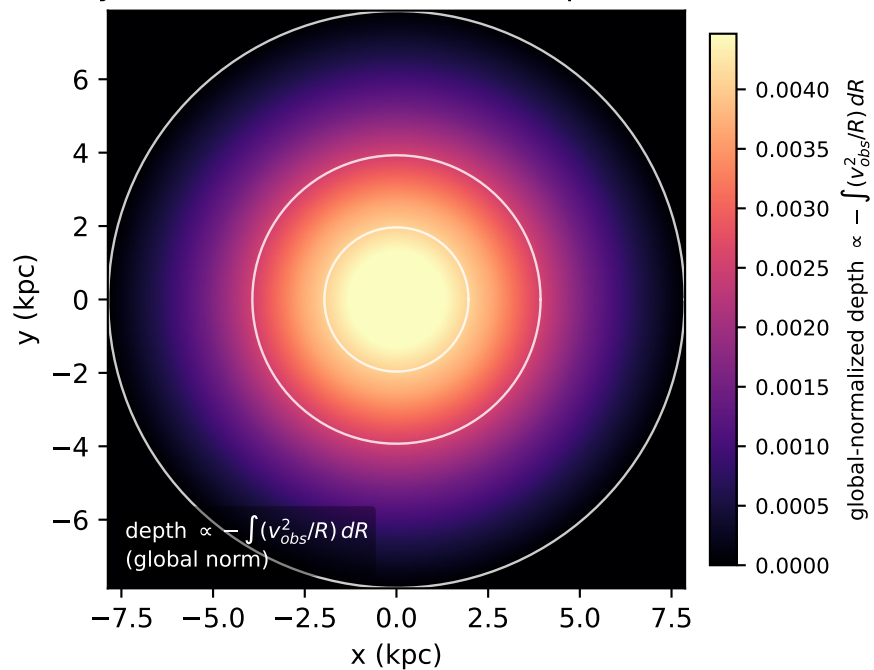

F563-V1: rotation curve

Inferred potential (up to constant)

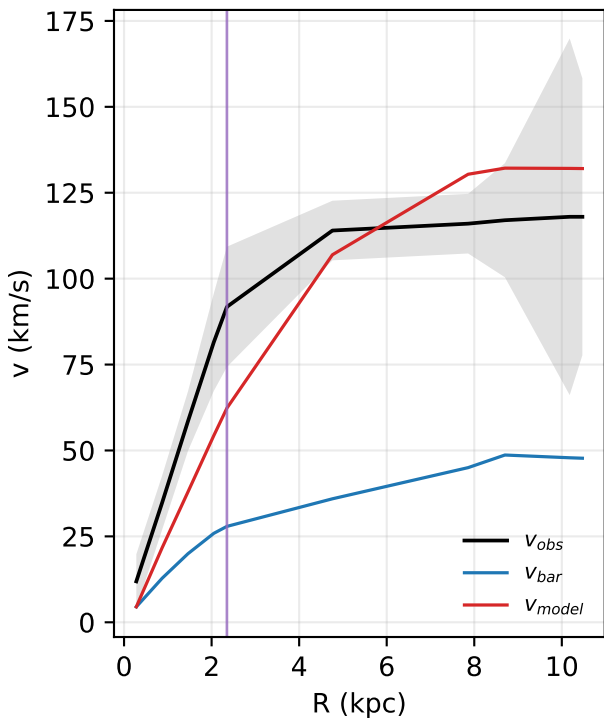

Dyed fabric (inferred effective potential)

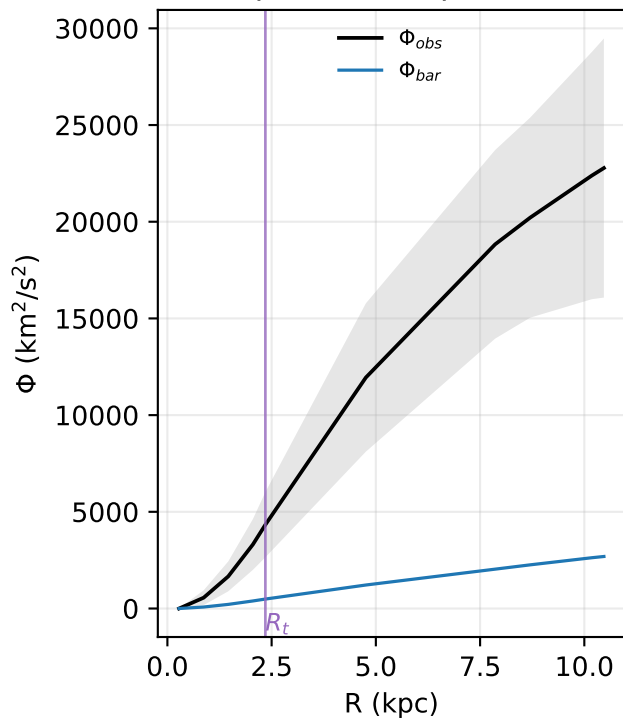

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

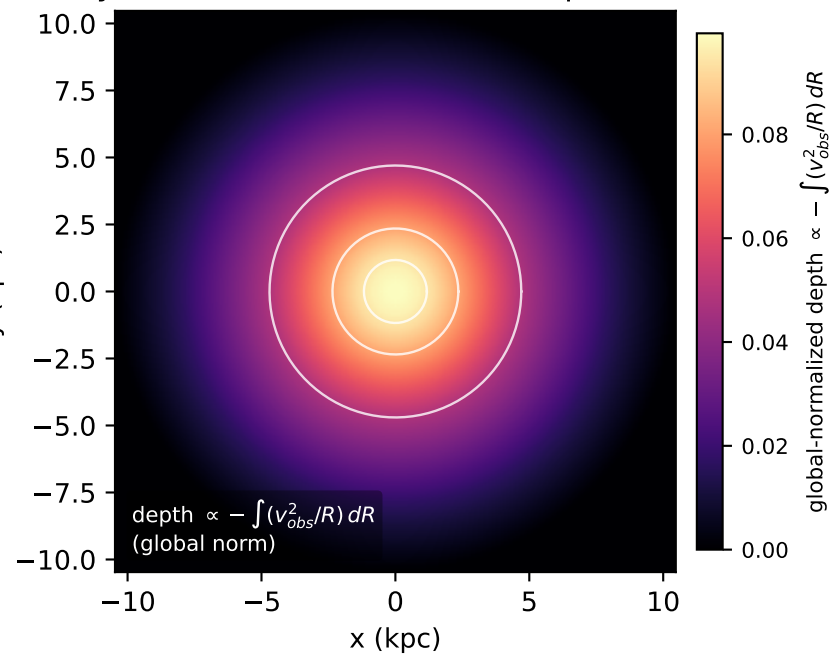

F563-V2: rotation curve

Inferred potential (up to constant)

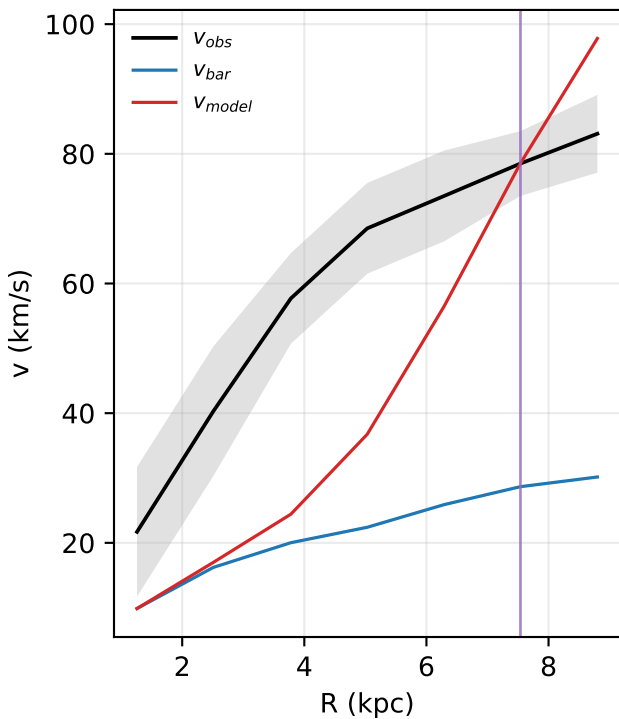

Dyed fabric (inferred effective potential)

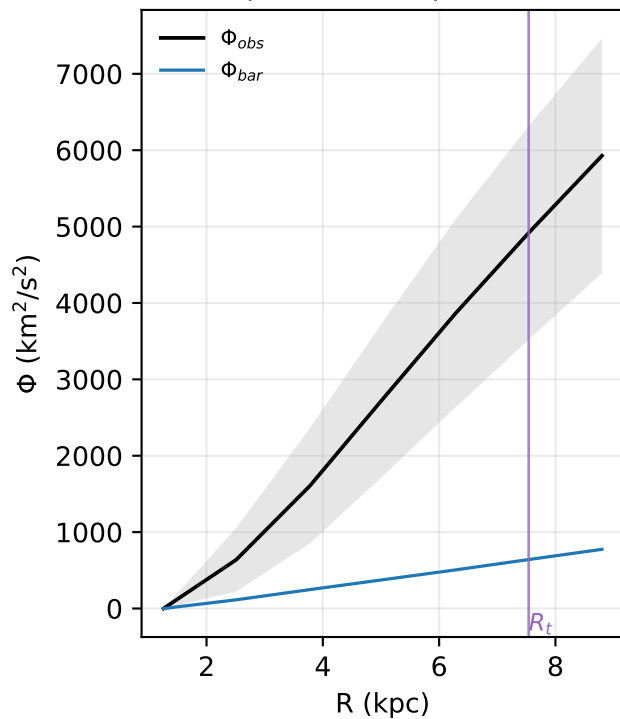

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

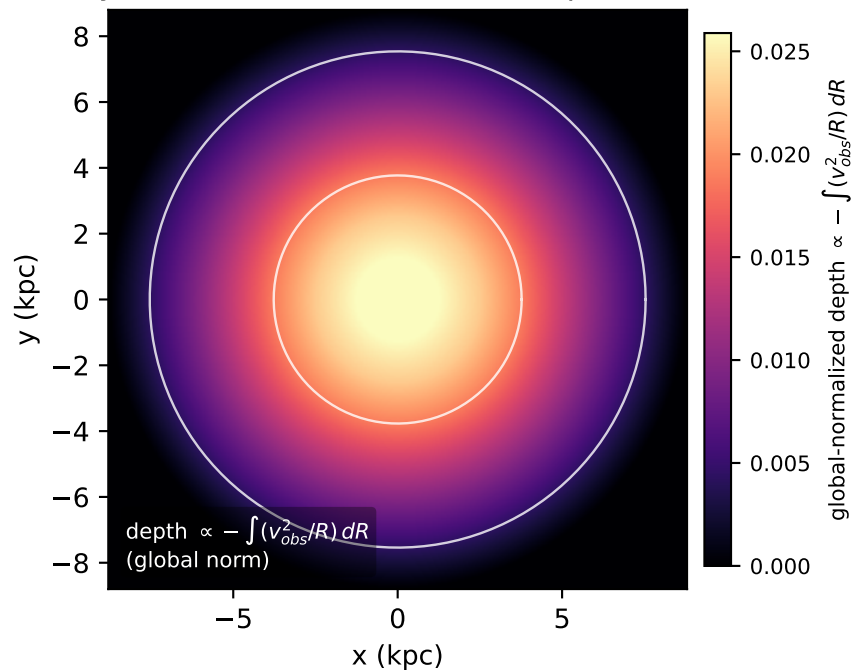

F565-V2: rotation curve

Inferred potential (up to constant)

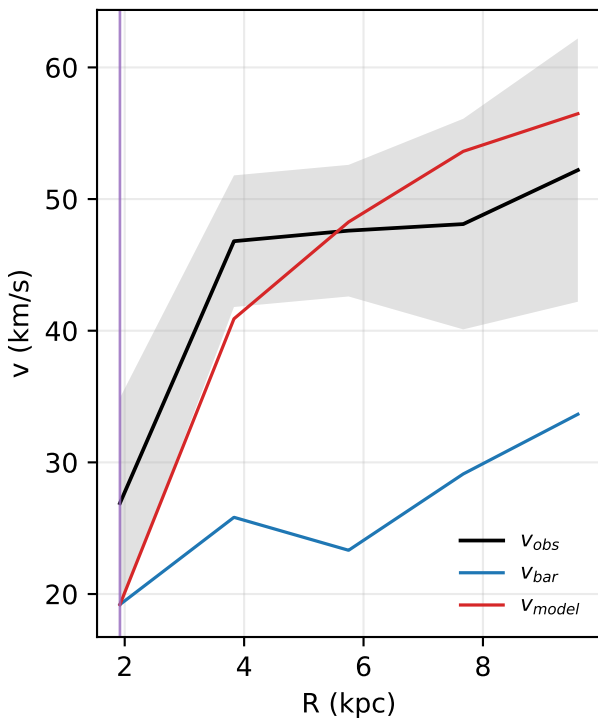

Dyed fabric (inferred effective potential)

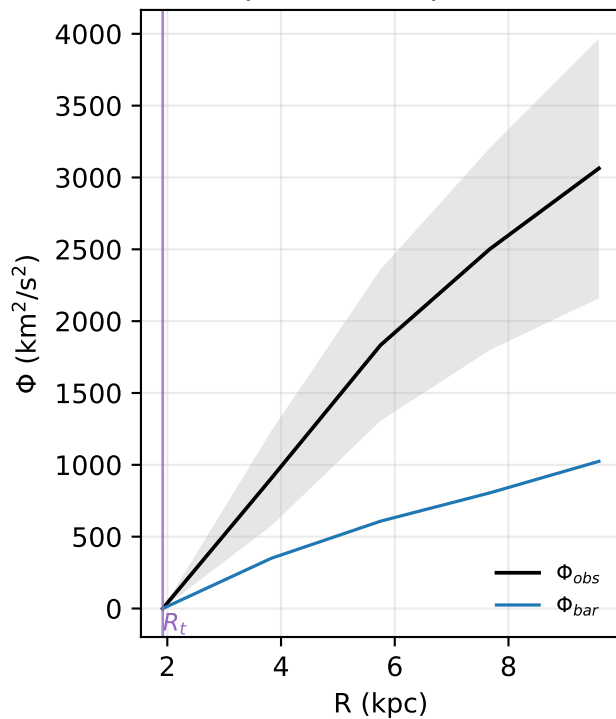

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

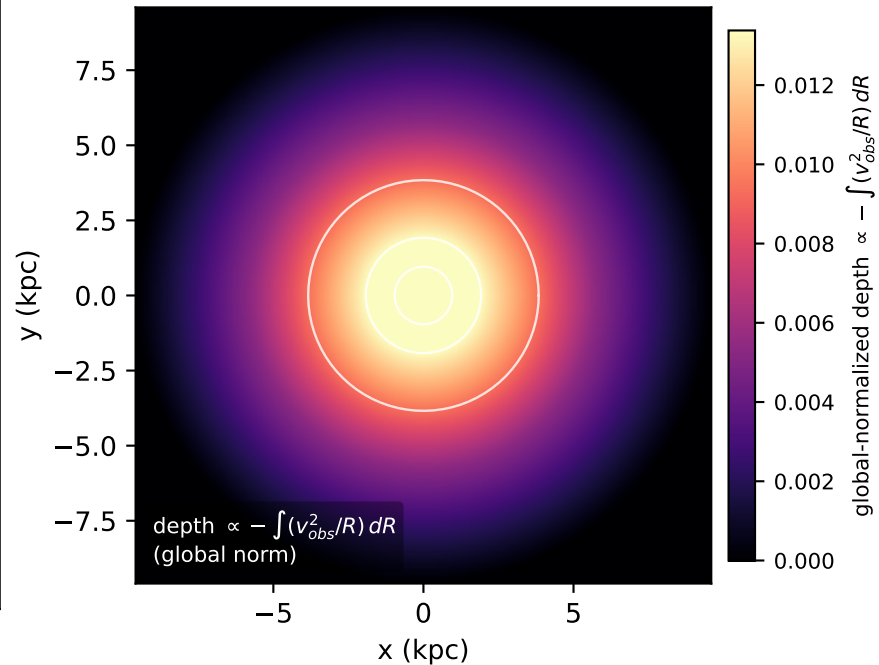

F567-2: rotation curve

Inferred potential (up to constant)

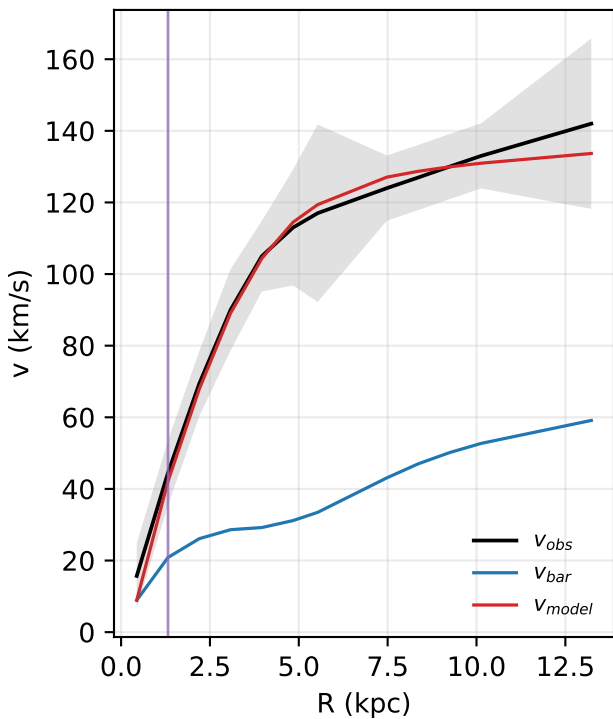

Dyed fabric (inferred effective potential)

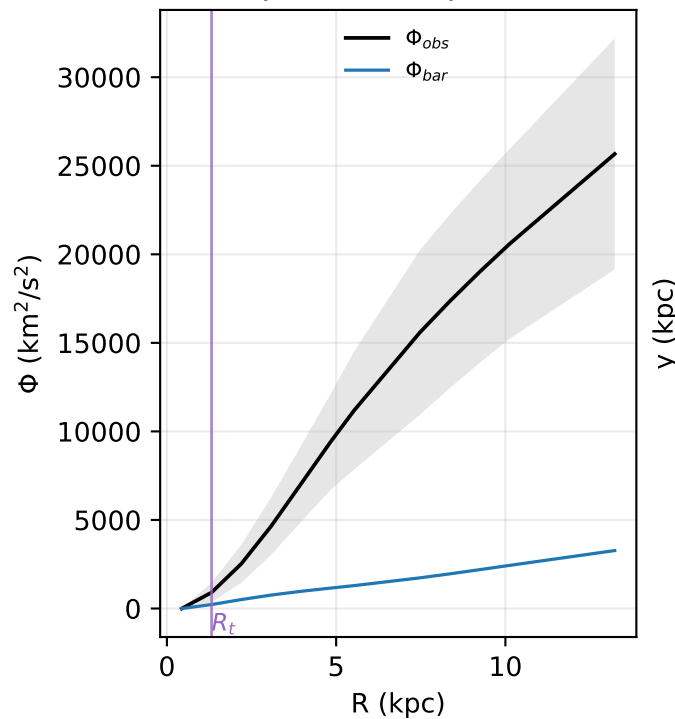

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

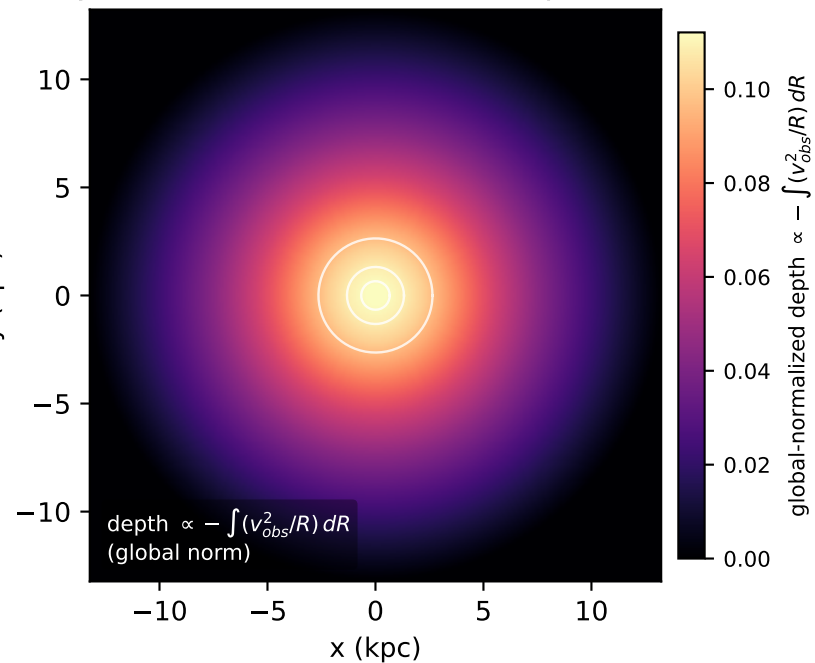

F568-1: rotation curve

Inferred potential (up to constant)

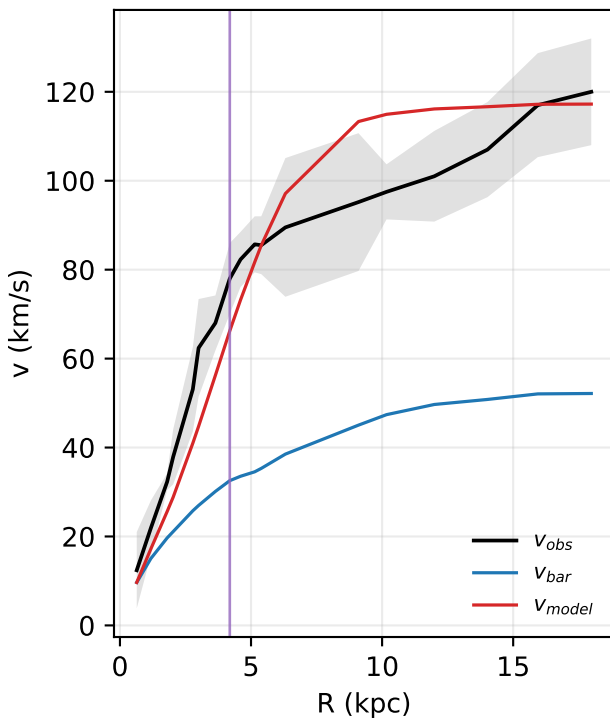

Dyed fabric (inferred effective potential)

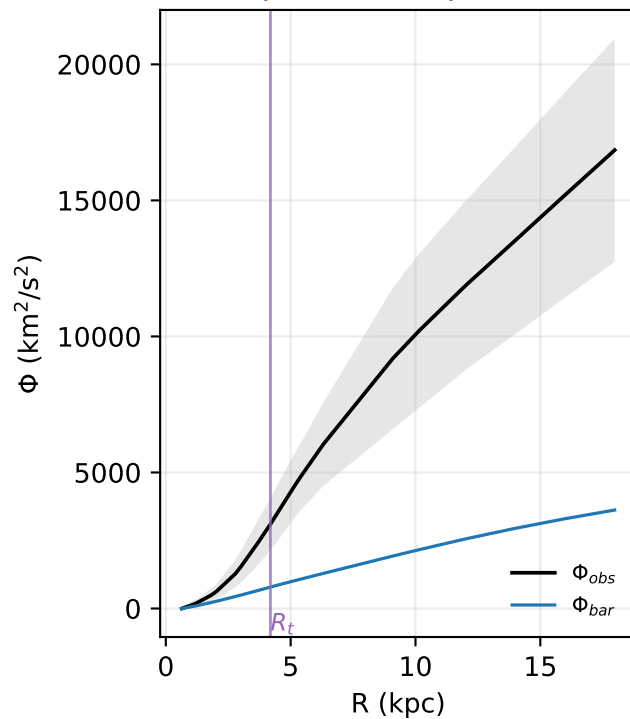

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

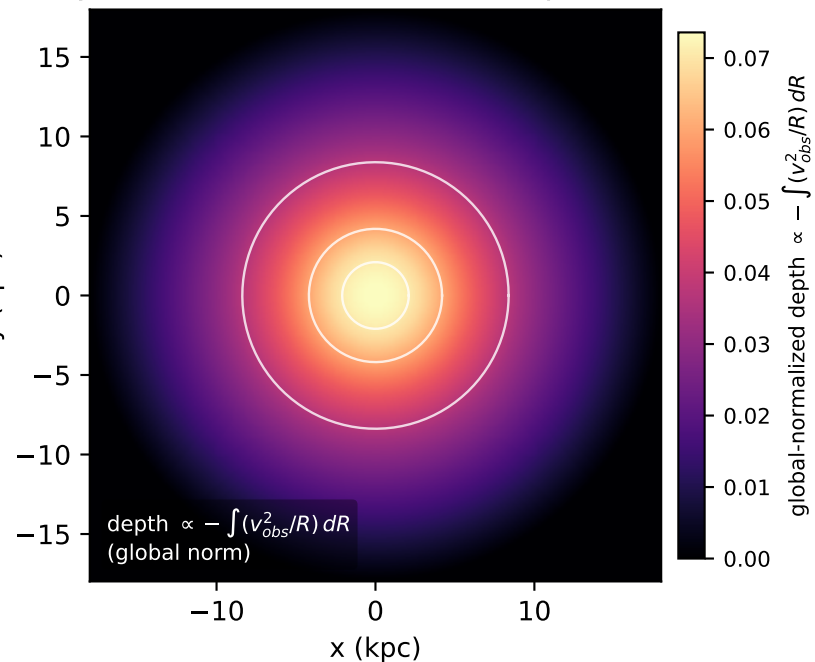

F568-3: rotation curve

Inferred potential (up to constant)

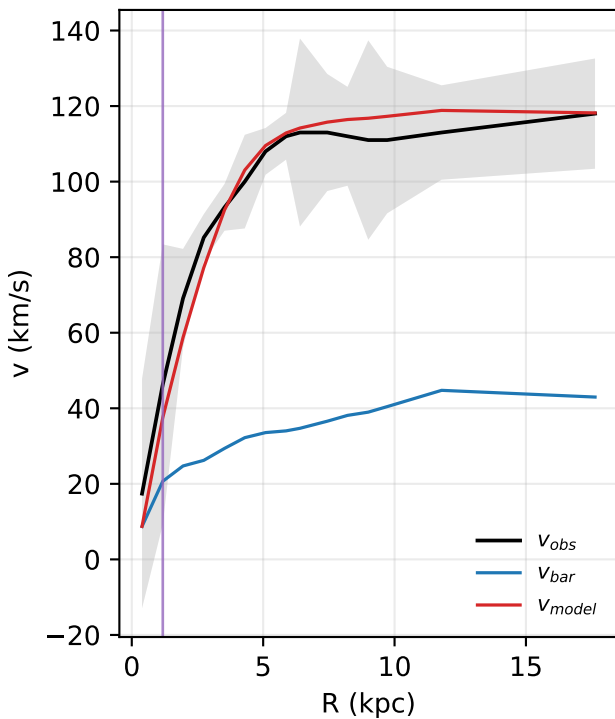

Dyed fabric (inferred effective potential)

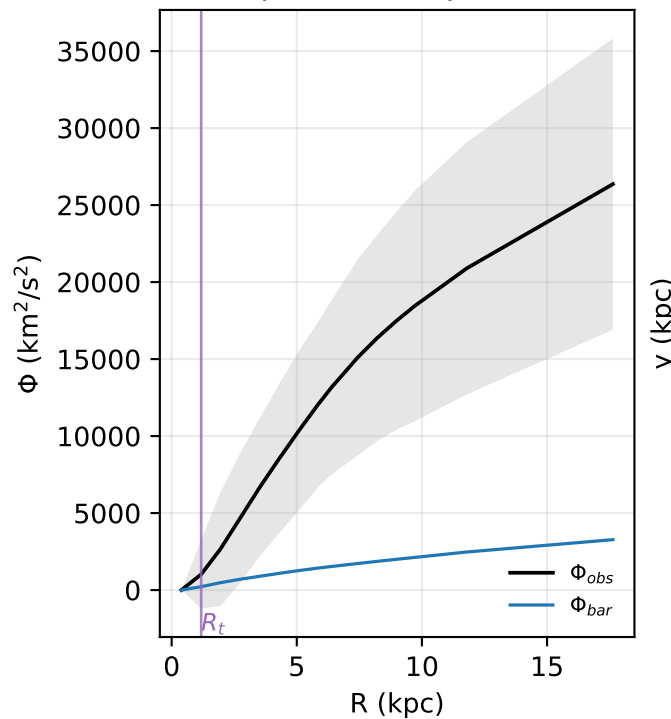

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

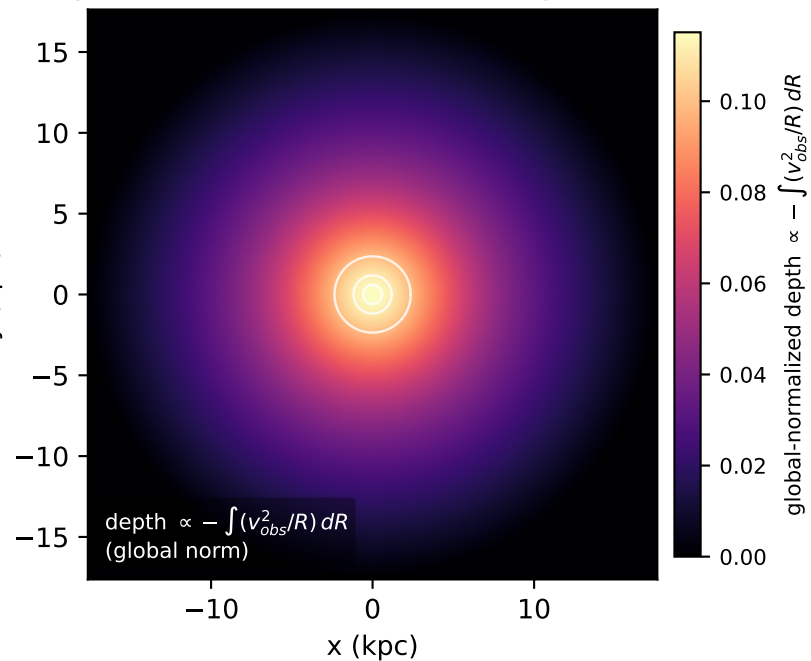

F568-V1: rotation curve

Inferred potential (up to constant)

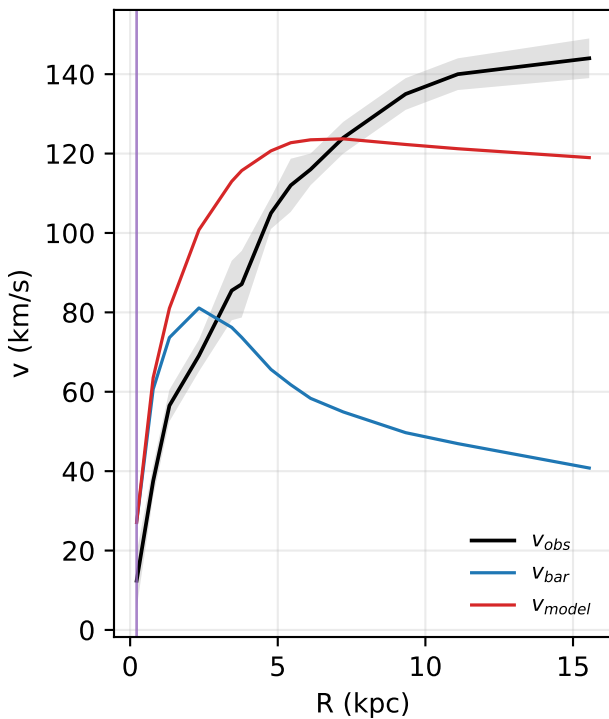

Dyed fabric (inferred effective potential)

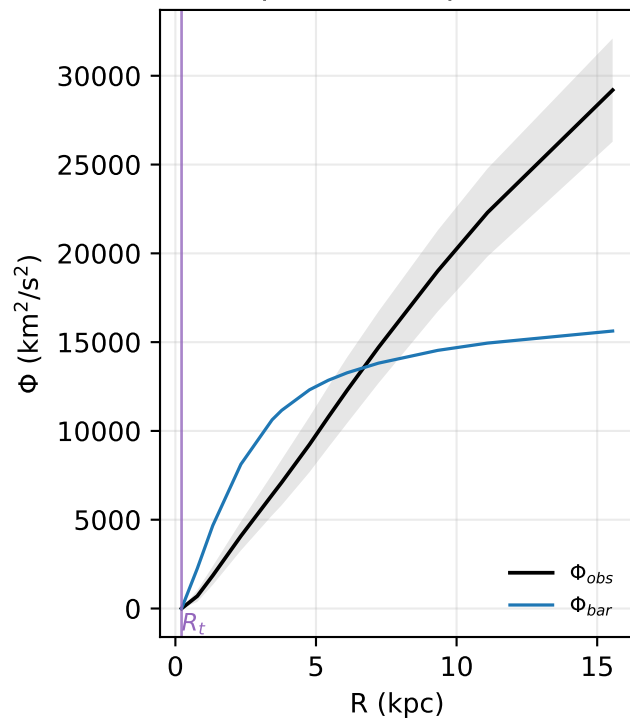

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

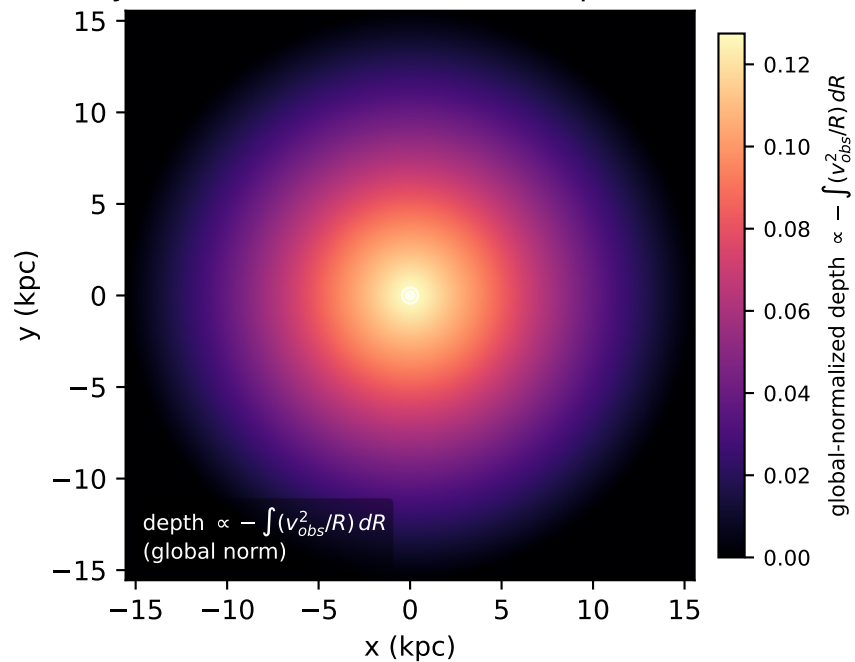

F571-8: rotation curve

Inferred potential (up to constant)

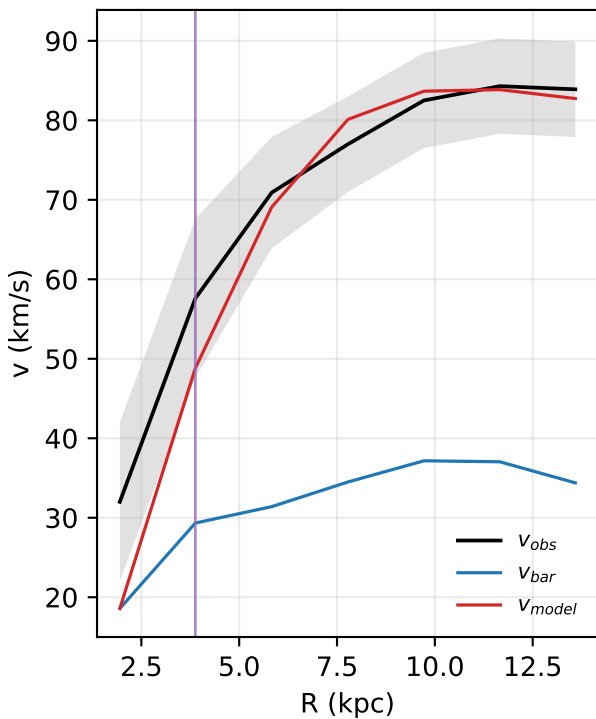

Dyed fabric (inferred effective potential)

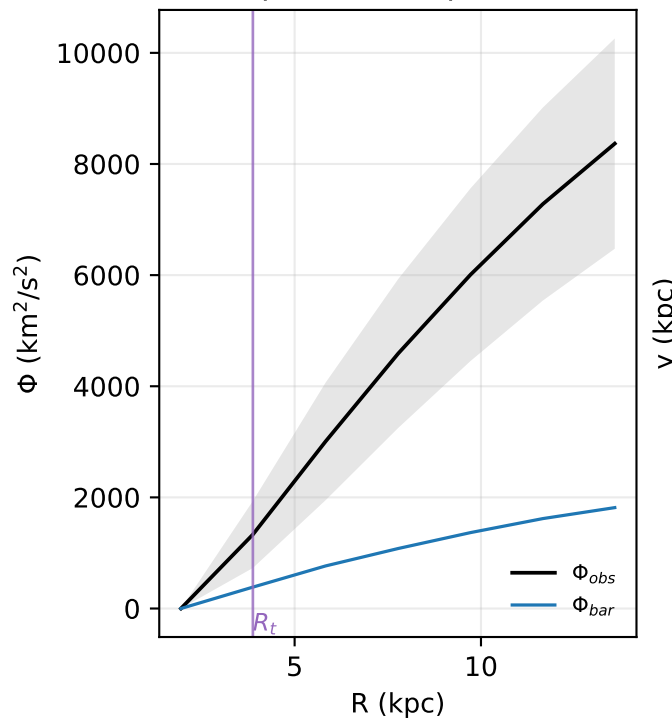

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

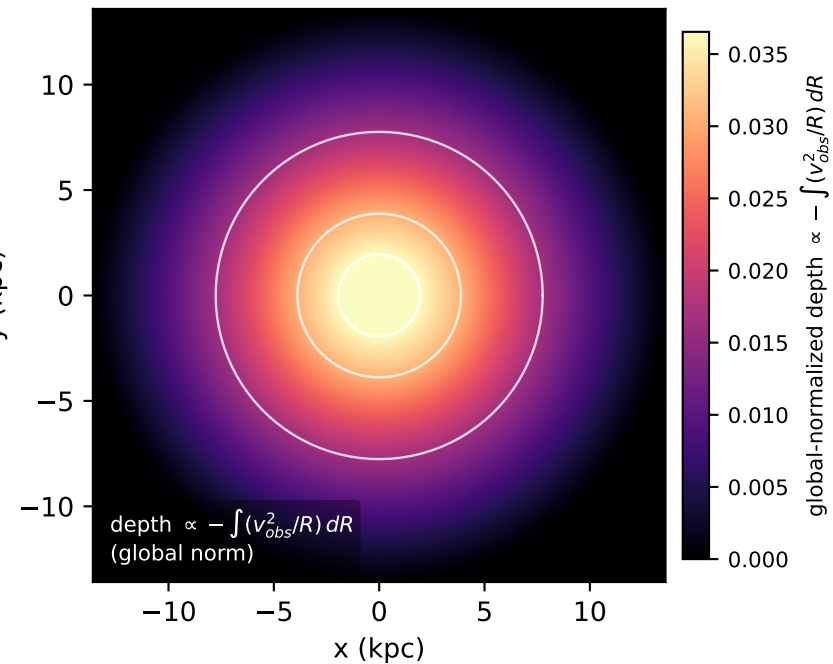

F571-V1: rotation curve

Inferred potential (up to constant)

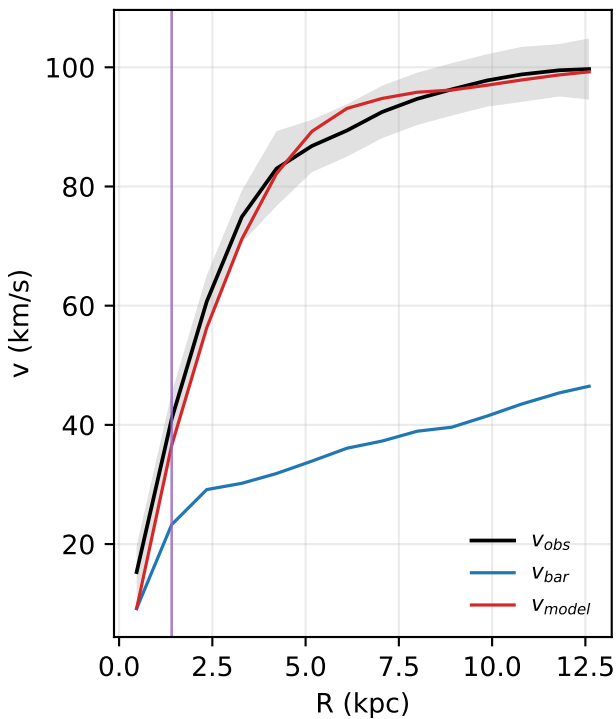

Dyed fabric (inferred effective potential)

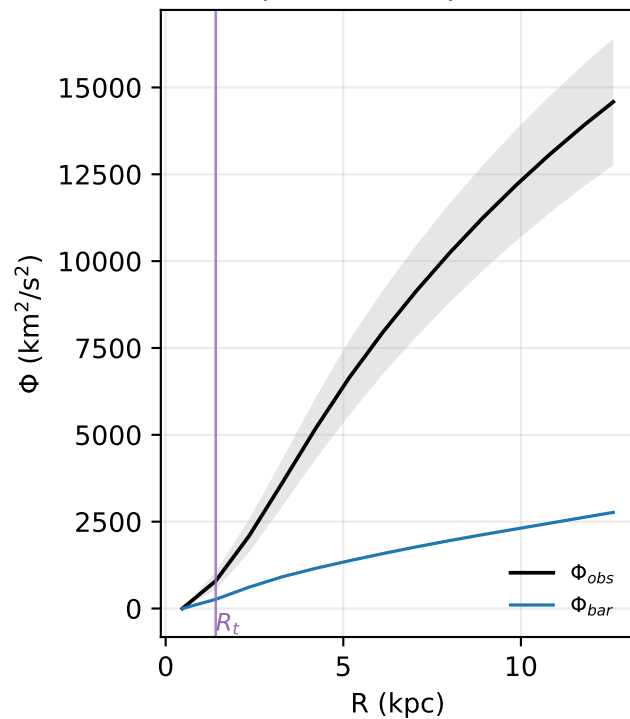

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

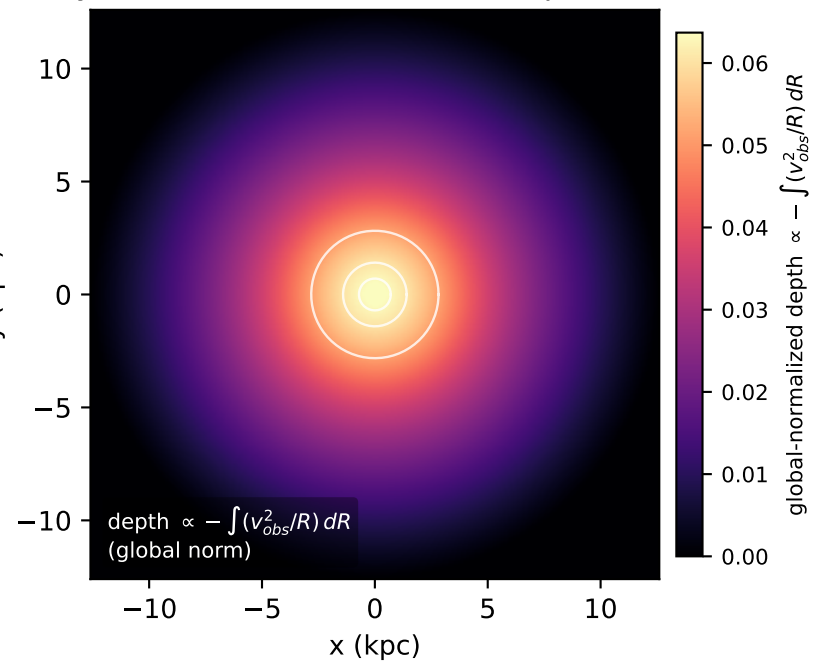

F574-1: rotation curve

Inferred potential (up to constant)

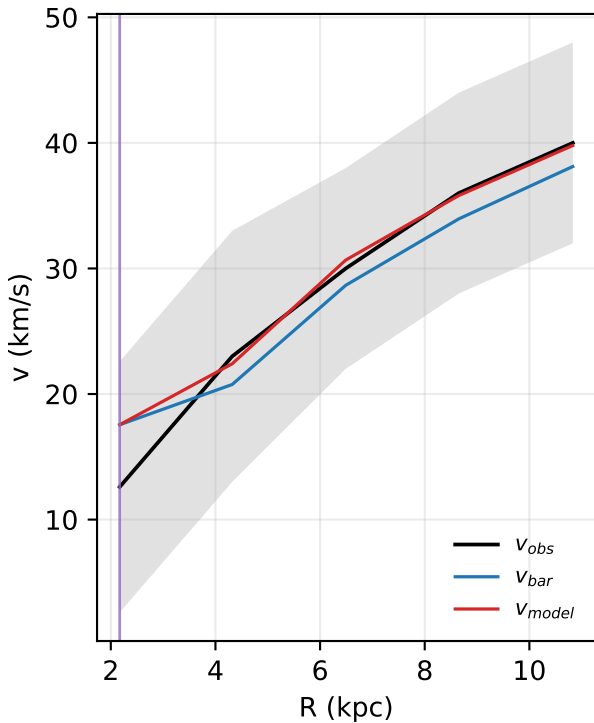

Dyed fabric (inferred effective potential)

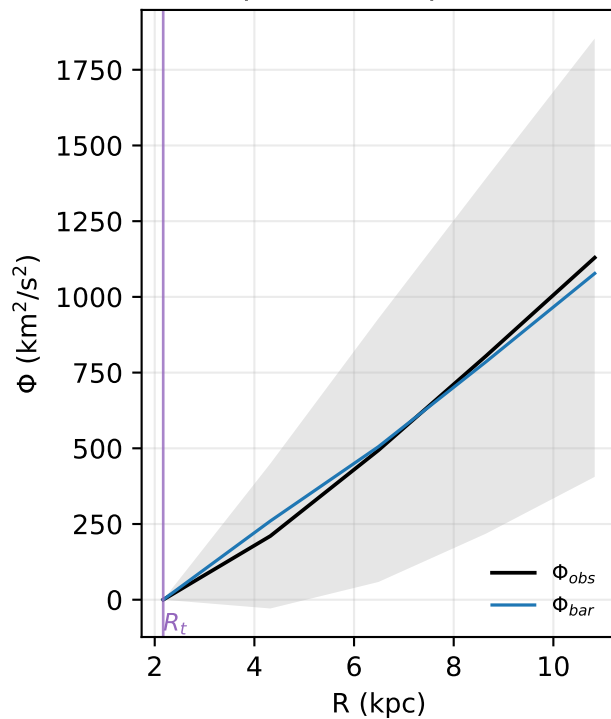

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

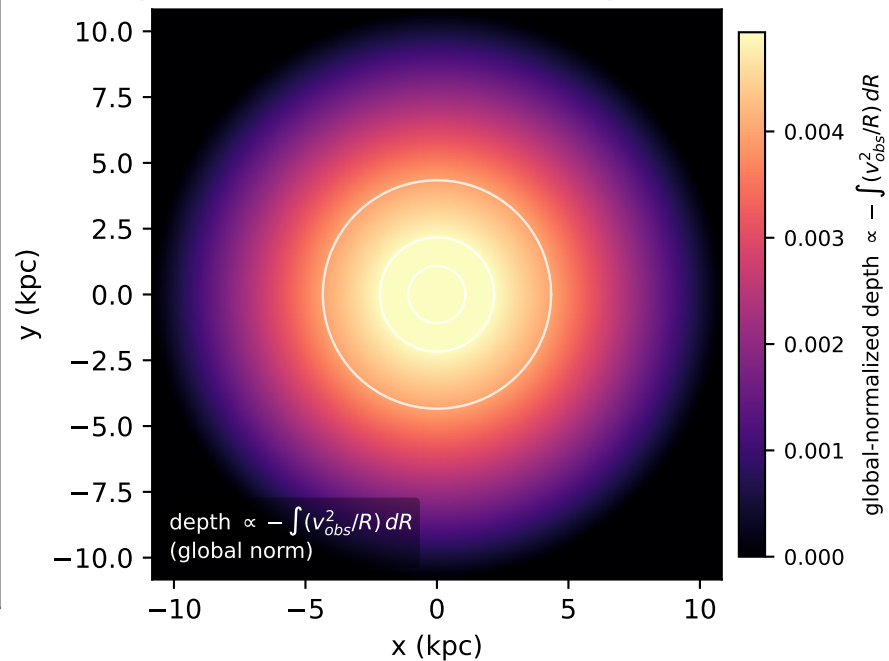

F574-2: rotation curve

Inferred potential (up to constant)

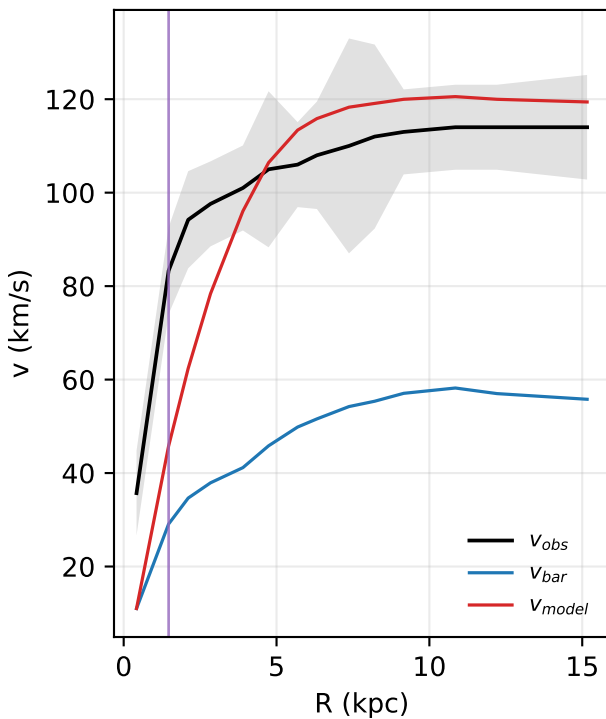

Dyed fabric (inferred effective potential)

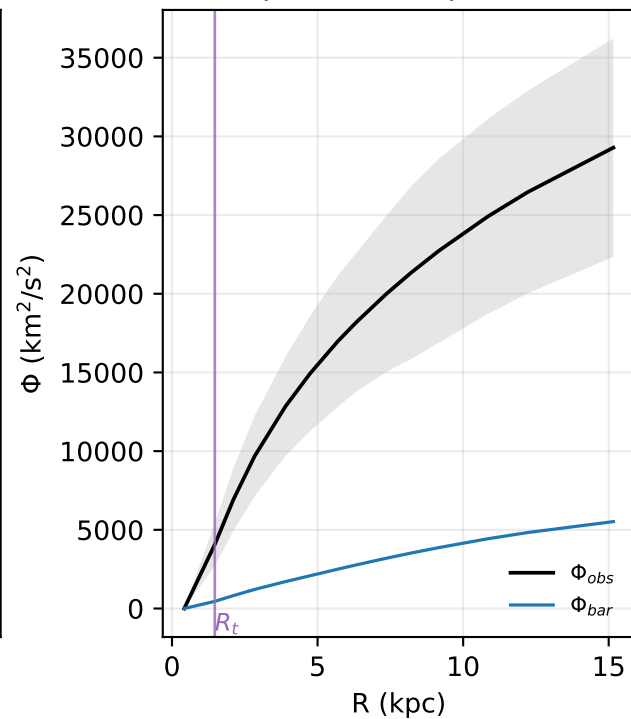

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

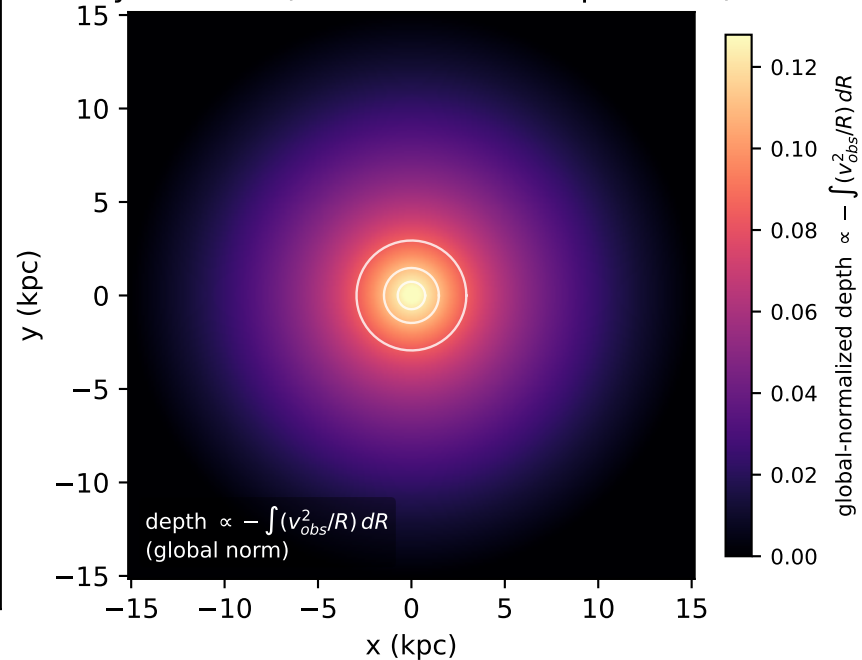

F579-V1: rotation curve

Inferred potential (up to constant)

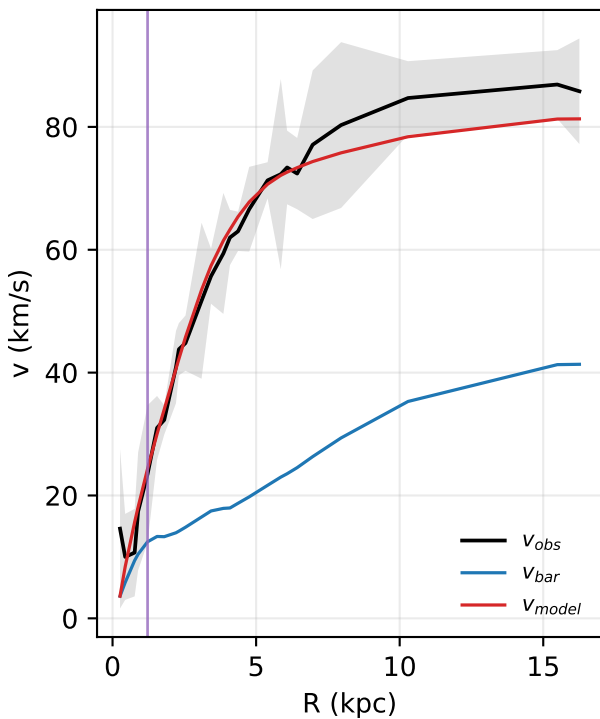

Dyed fabric (inferred effective potential)

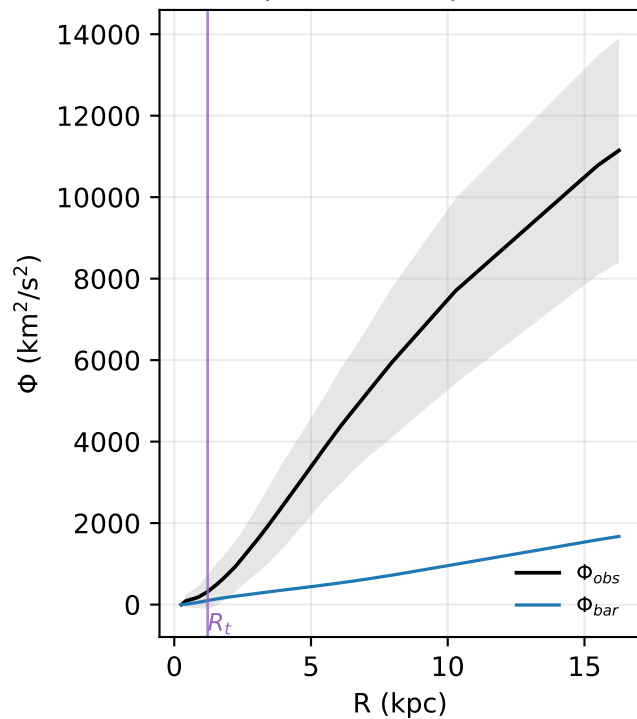

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

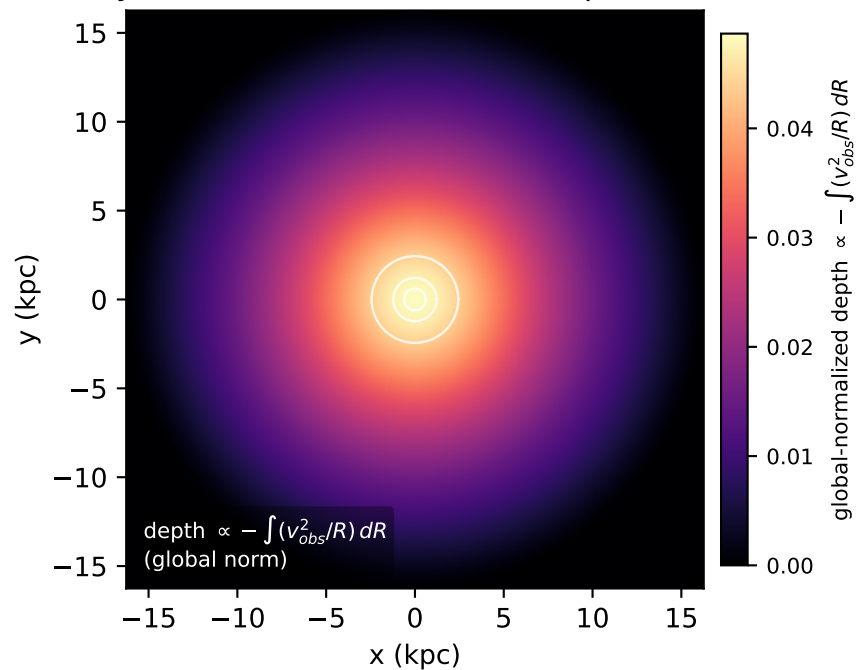

F583-1: rotation curve

Inferred potential (up to constant)

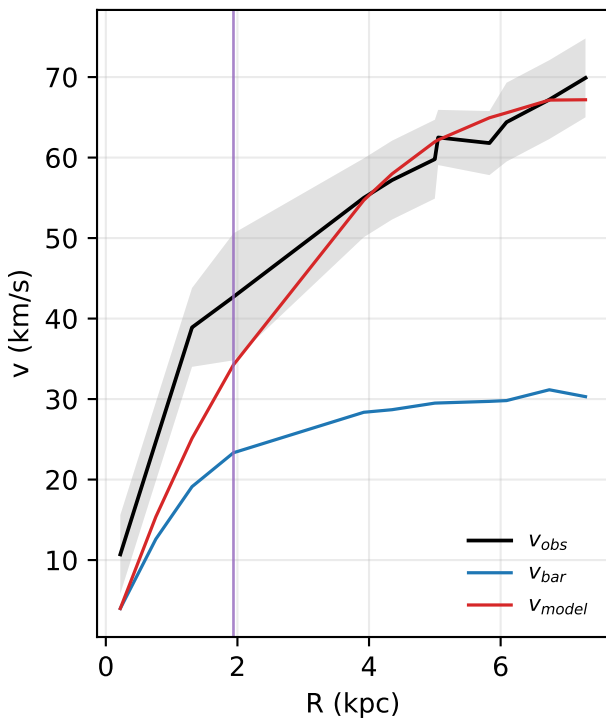

Dyed fabric (inferred effective potential)

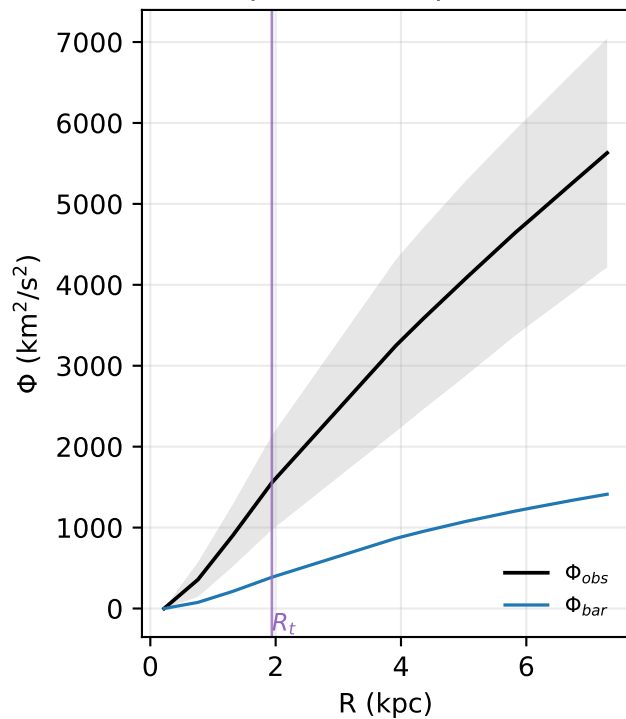

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

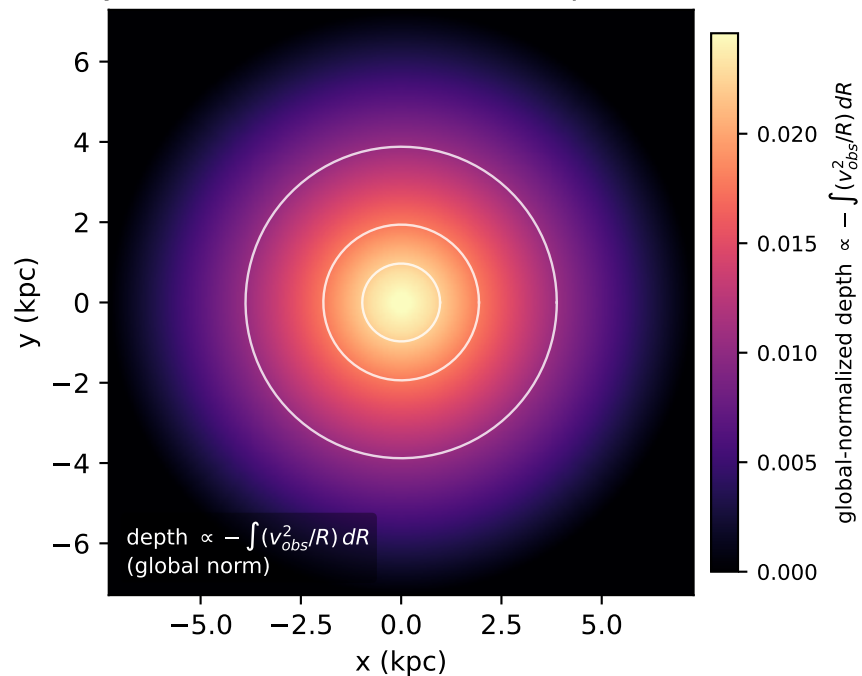

F583-4: rotation curve

Inferred potential (up to constant)

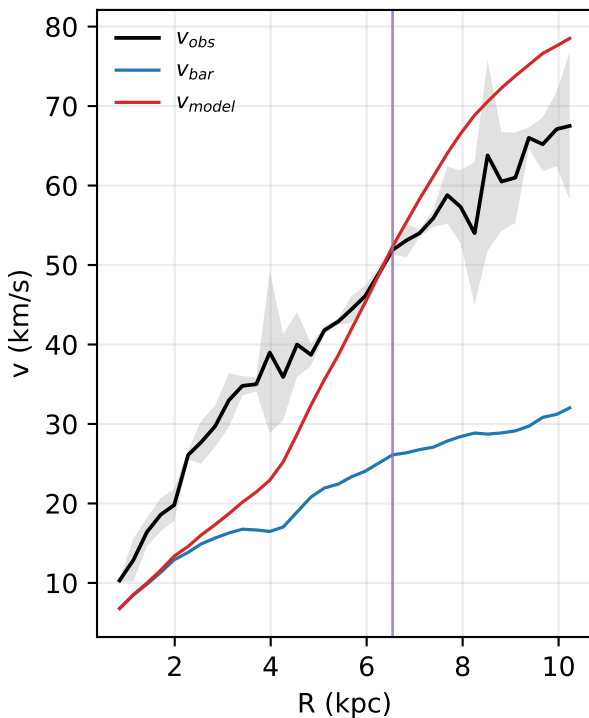

Dyed fabric (inferred effective potential)

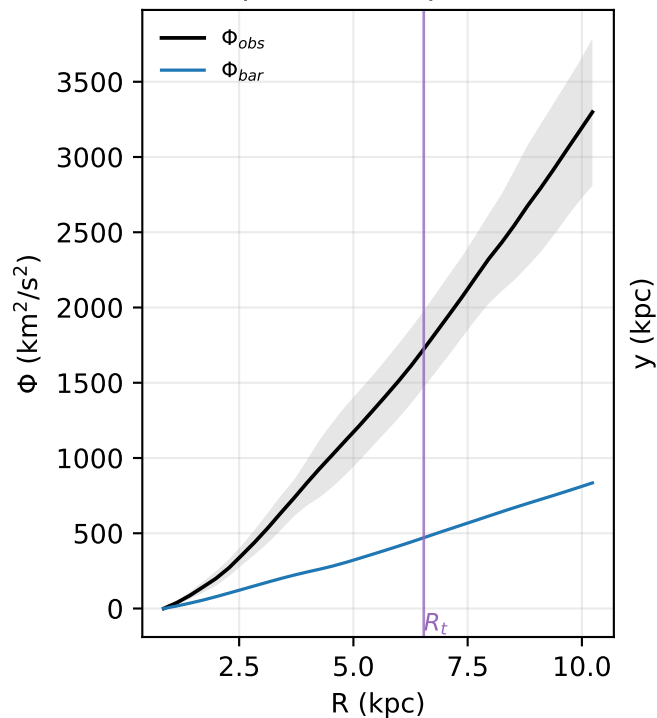

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

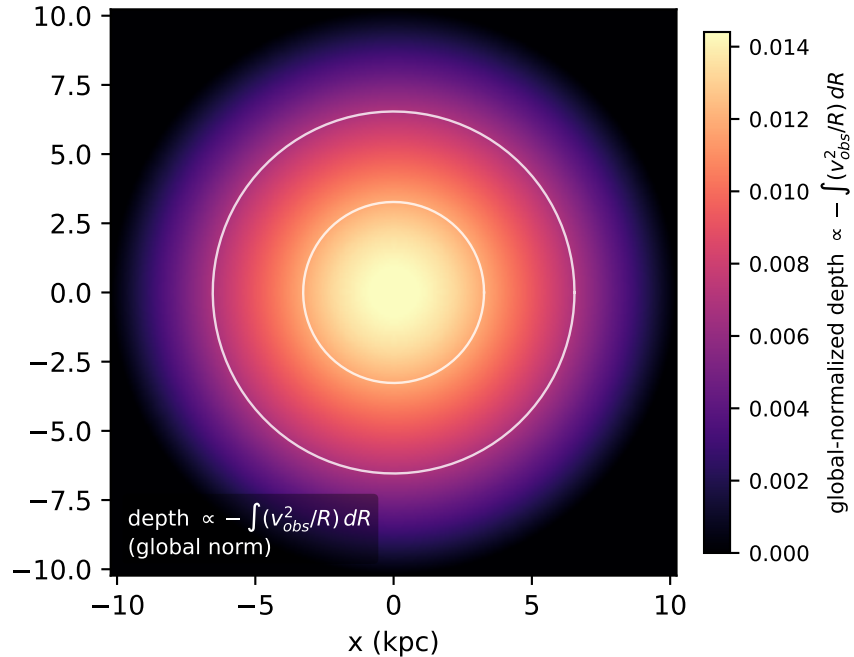

IC2574: rotation curve

Inferred potential (up to constant)

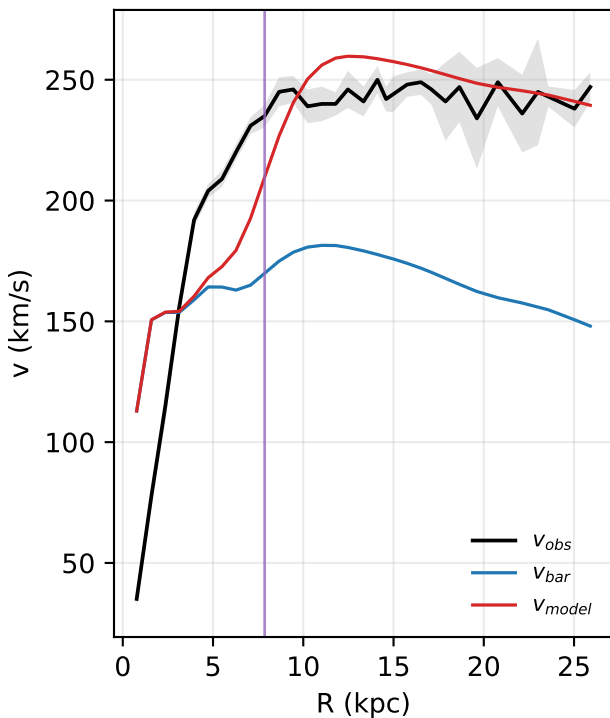

Dyed fabric (inferred effective potential)

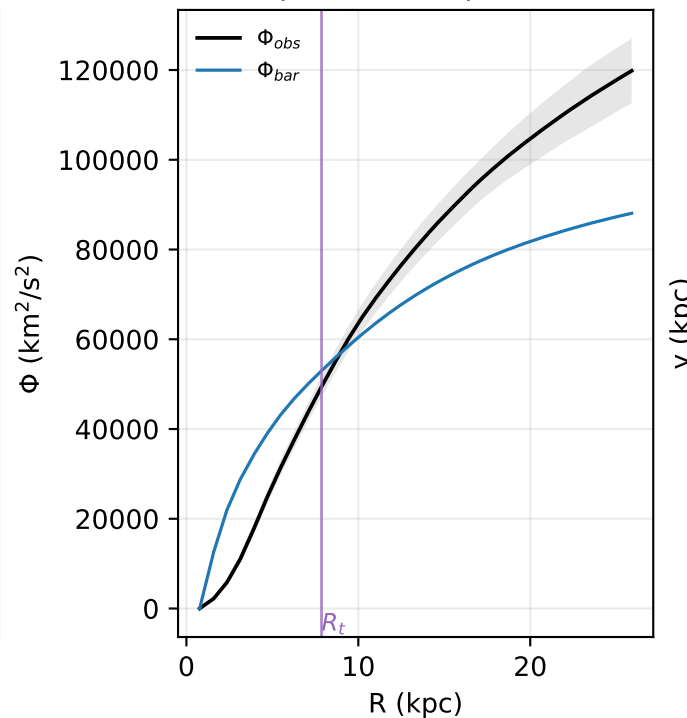

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

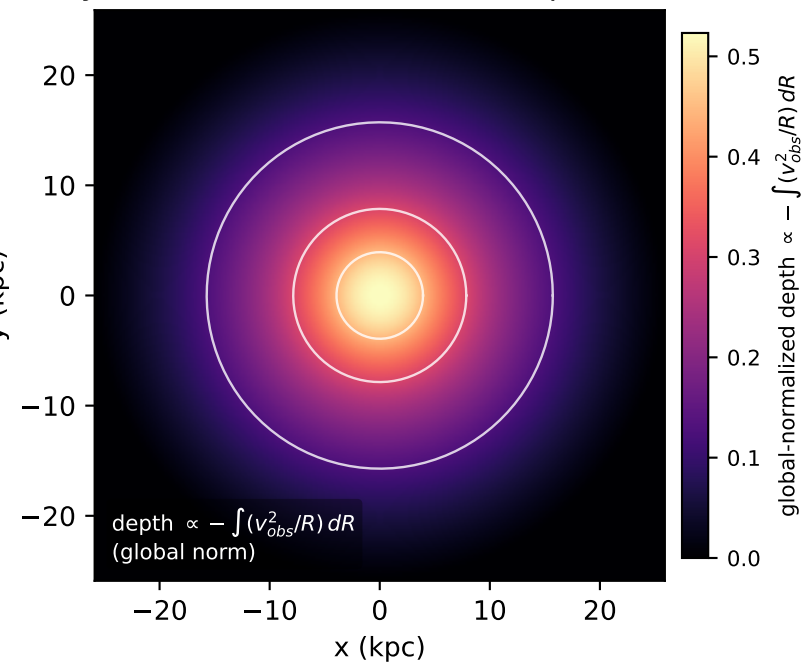

IC4202: rotation curve

Inferred potential (up to constant)

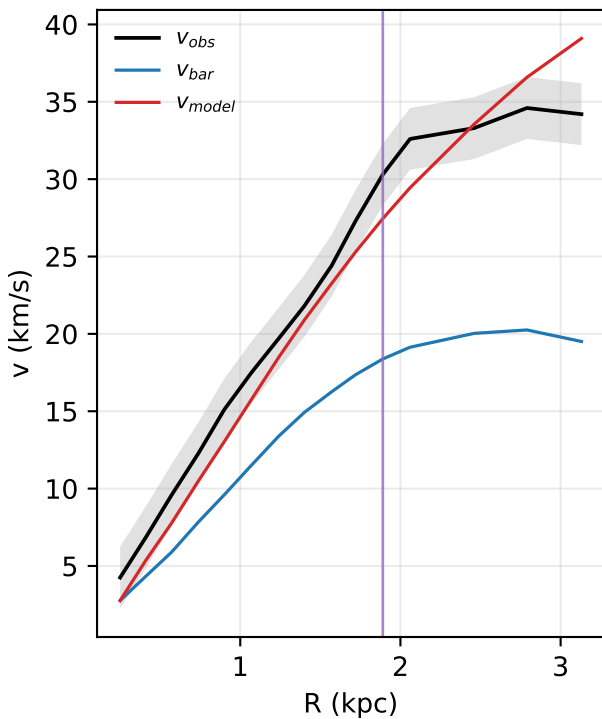

Dyed fabric (inferred effective potential)

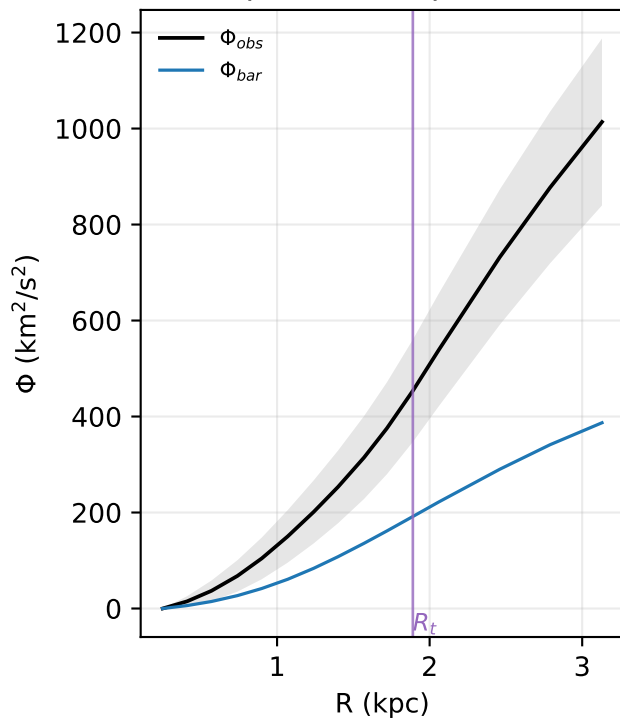

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

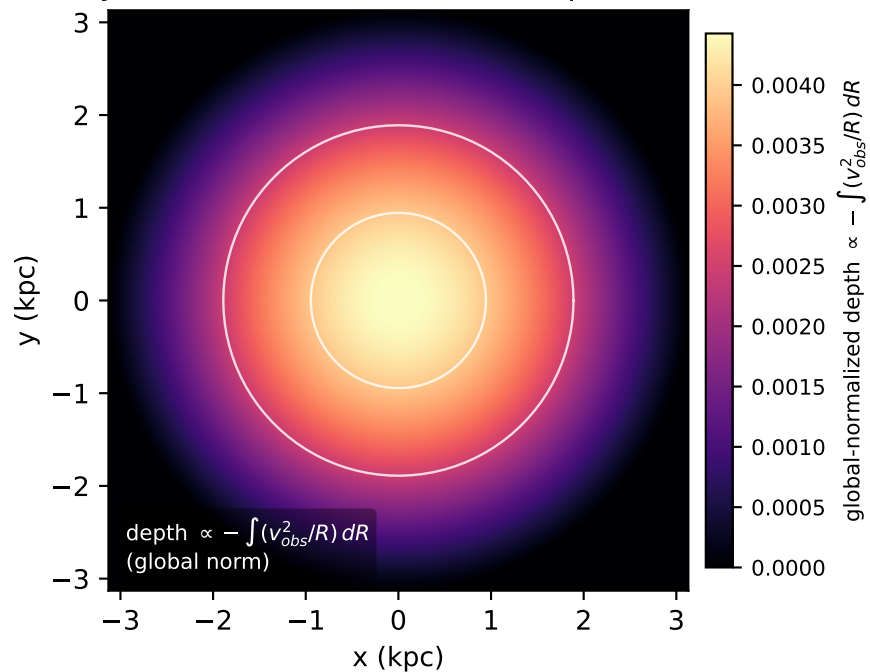

KK98-251: rotation curve

Inferred potential (up to constant)

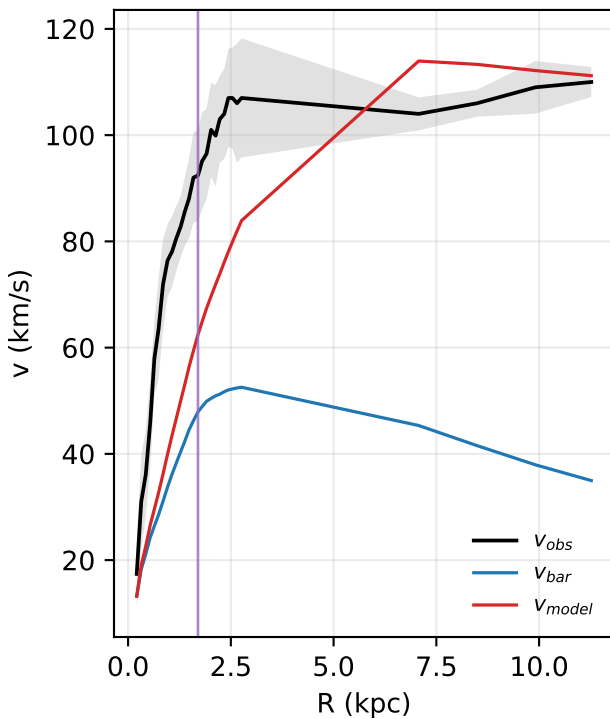

Dyed fabric (inferred effective potential)

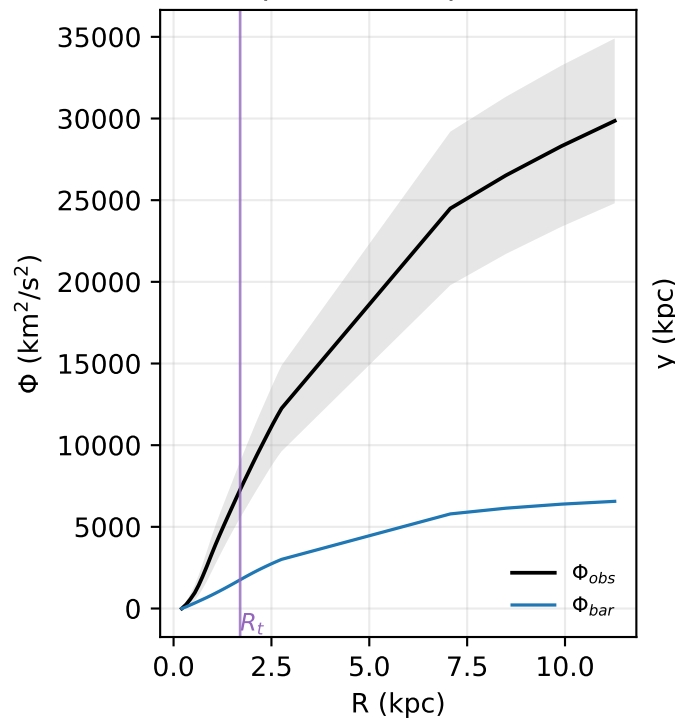

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

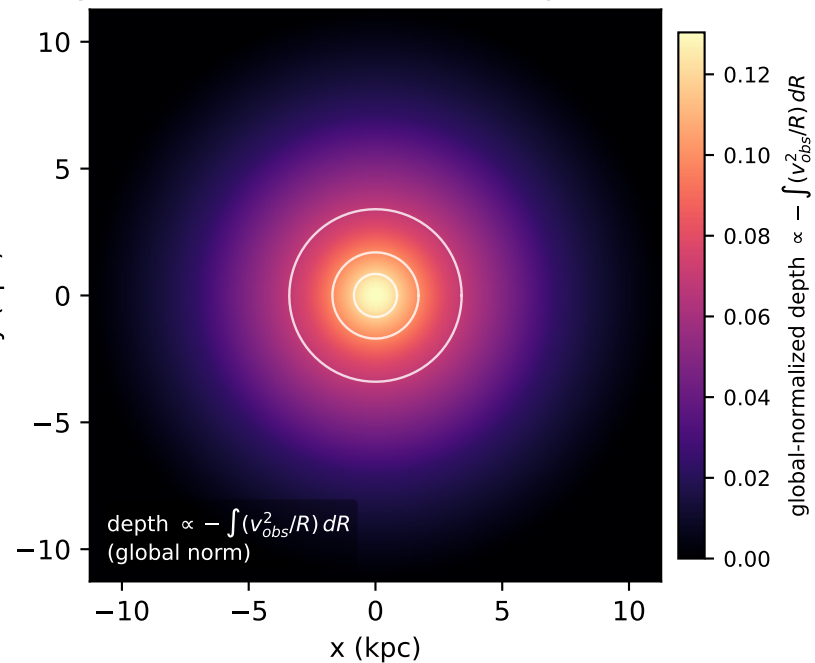

NGC0024: rotation curve

Inferred potential (up to constant)

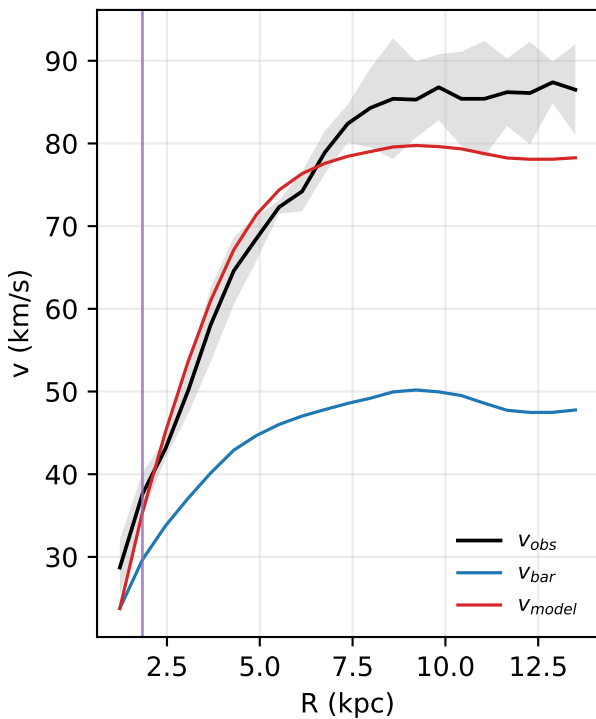

Dyed fabric (inferred effective potential)

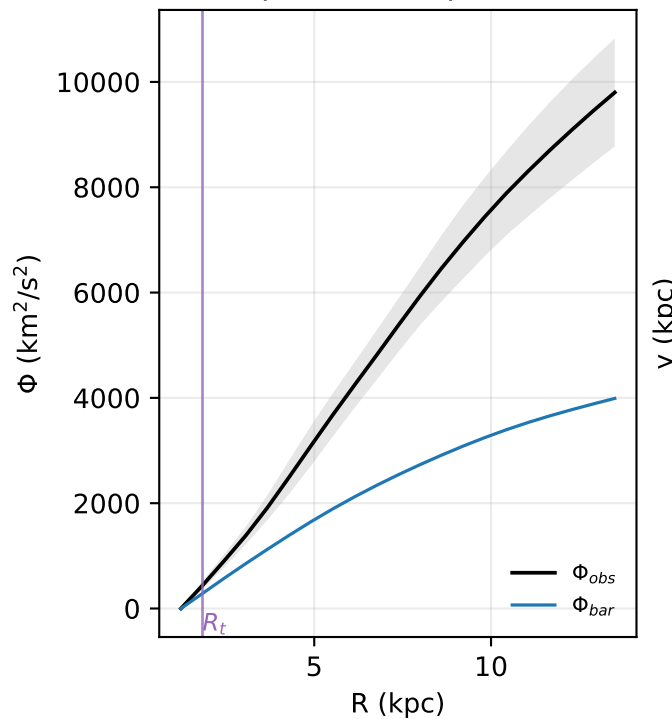

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

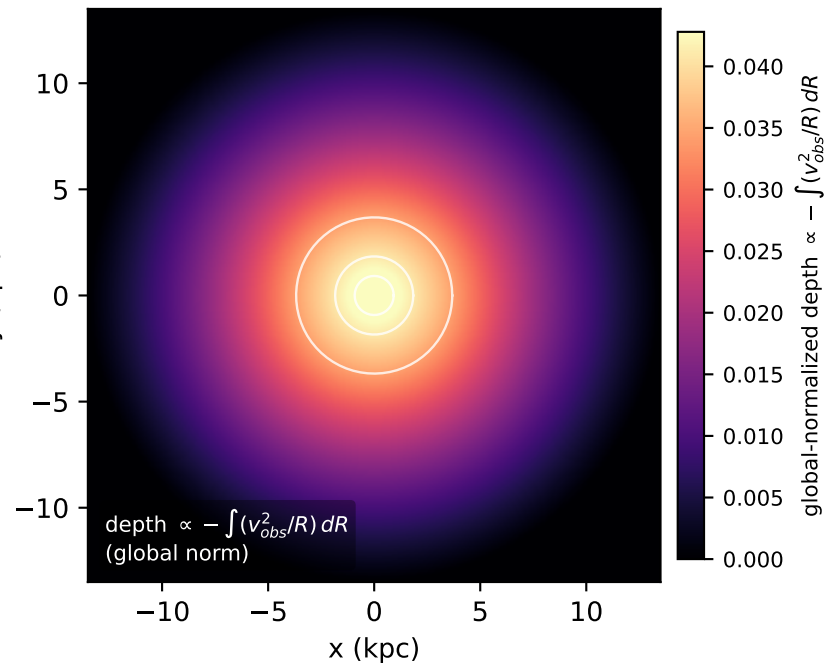

NGC0055: rotation curve

Inferred potential (up to constant)

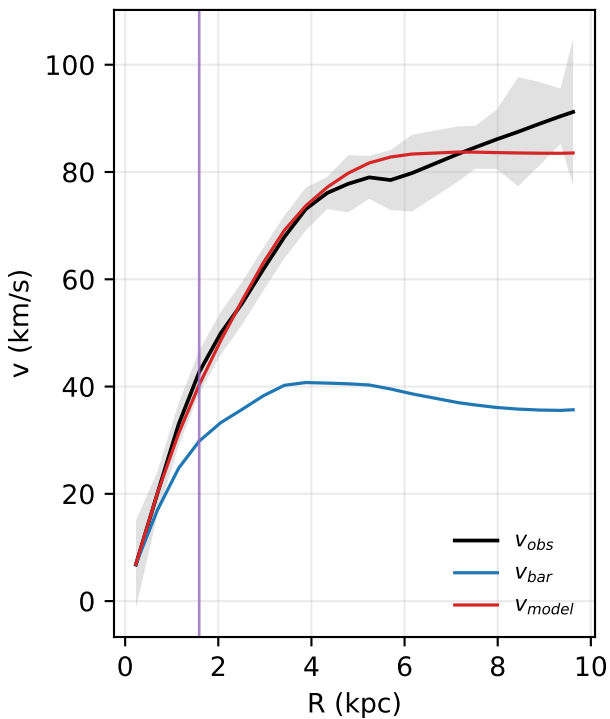

Dyed fabric (inferred effective potential)

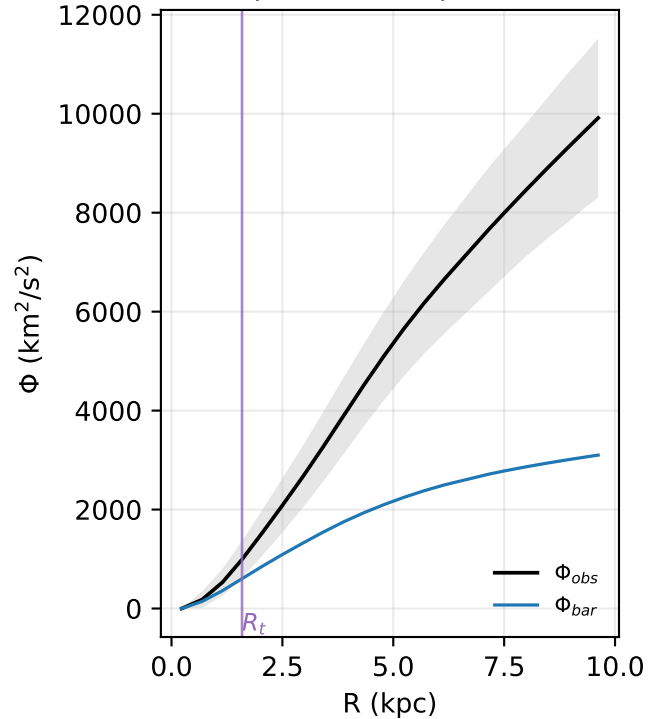

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

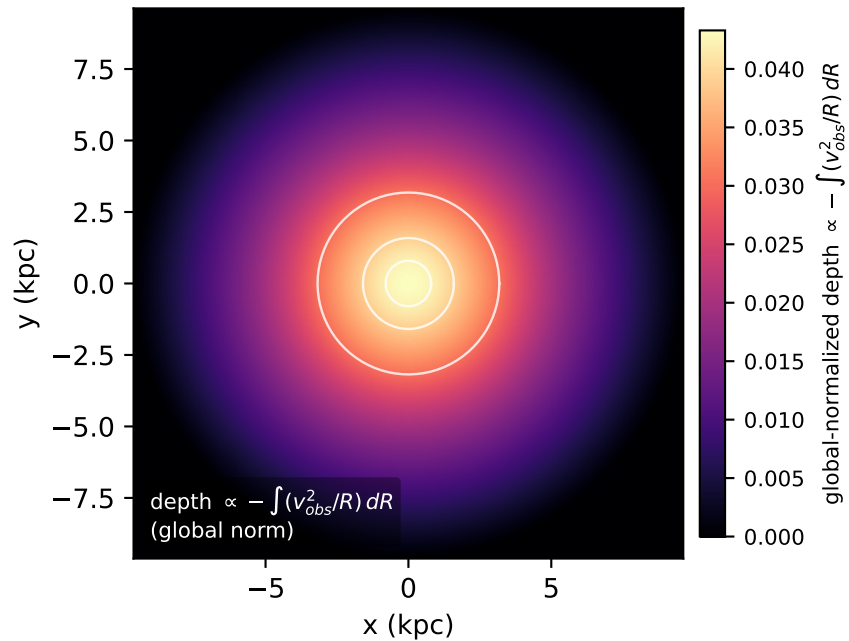

NGC0100: rotation curve

Inferred potential (up to constant)

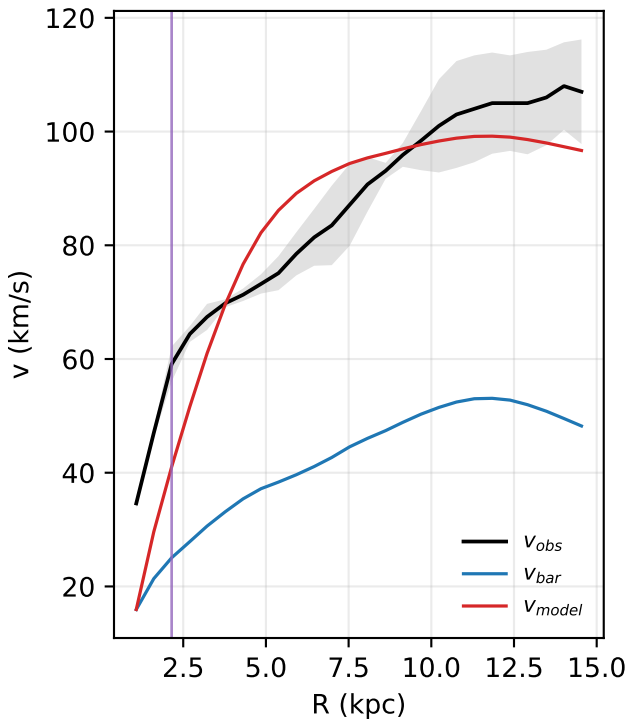

Dyed fabric (inferred effective potential)

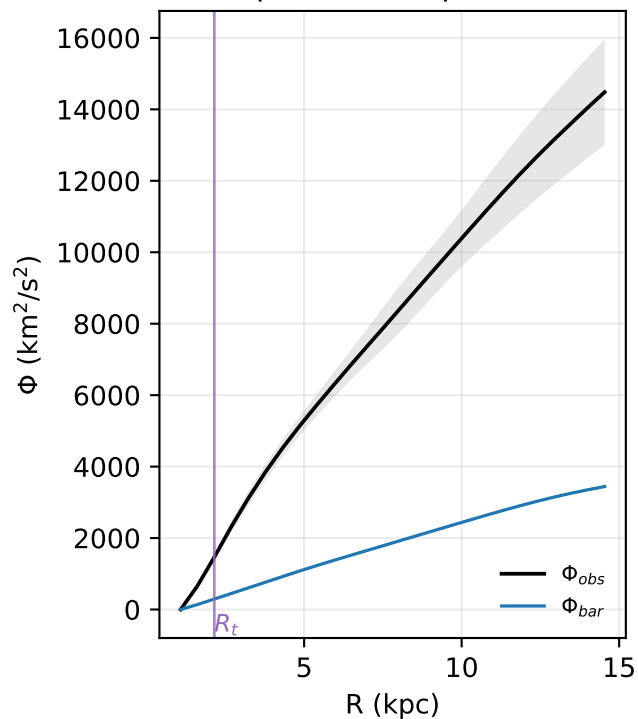

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

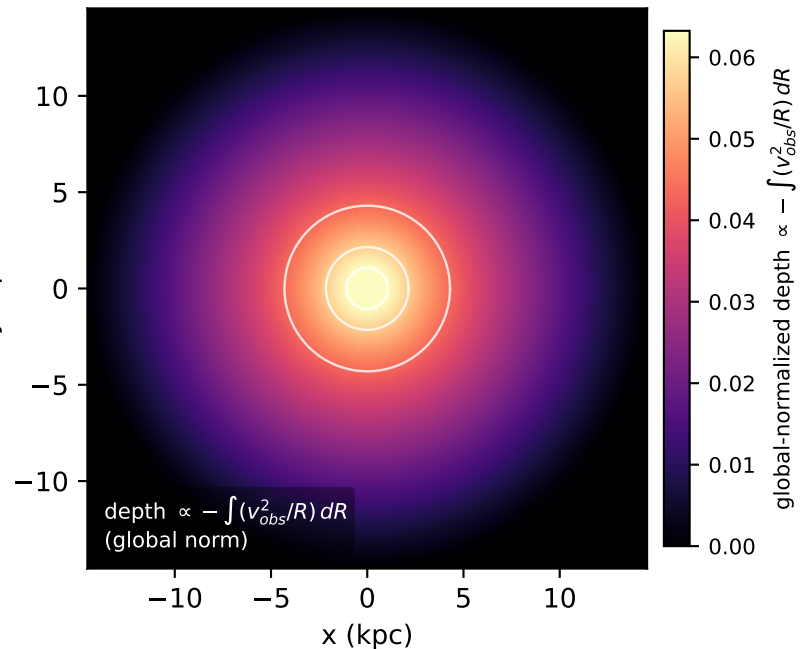

NGC0247: rotation curve

Inferred potential (up to constant)

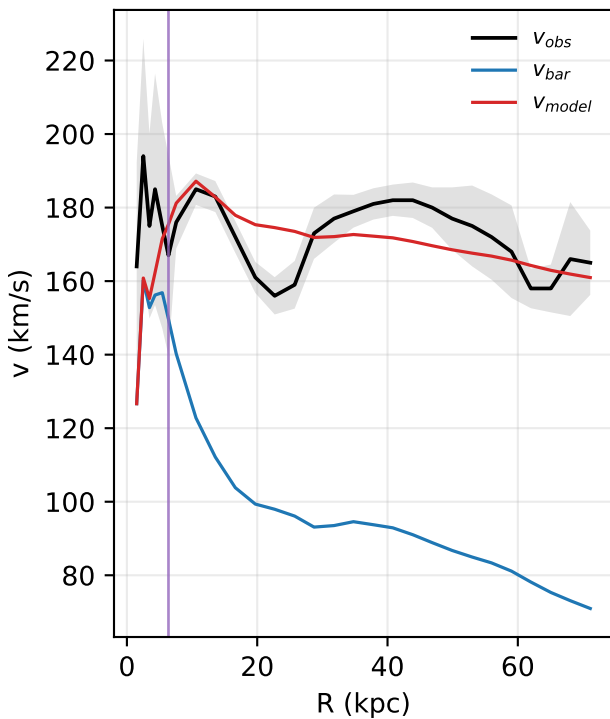

Dyed fabric (inferred effective potential)

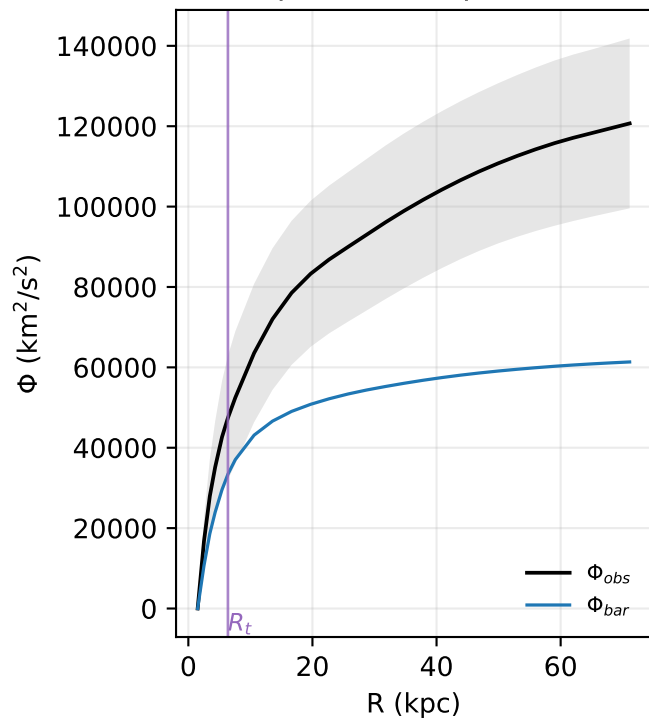

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

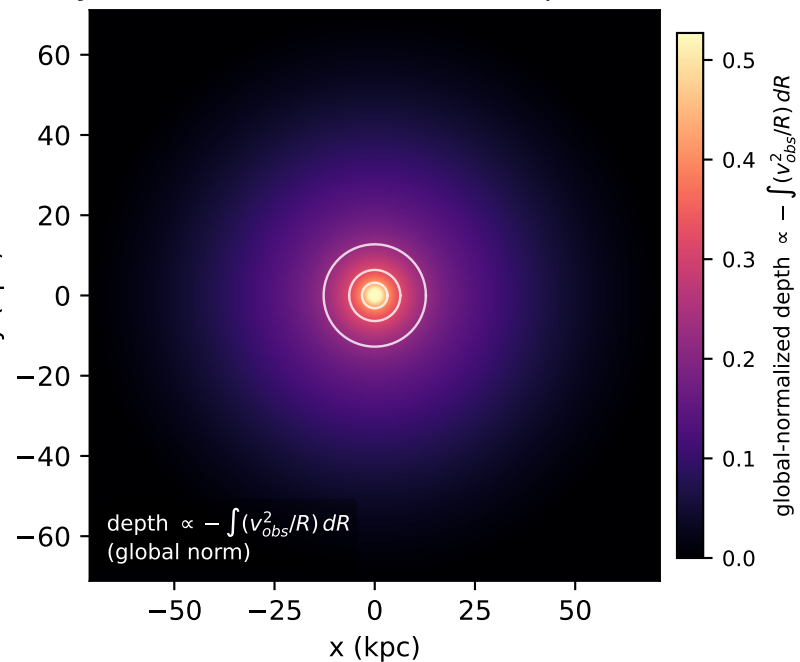

NGC0289: rotation curve

Inferred potential (up to constant)

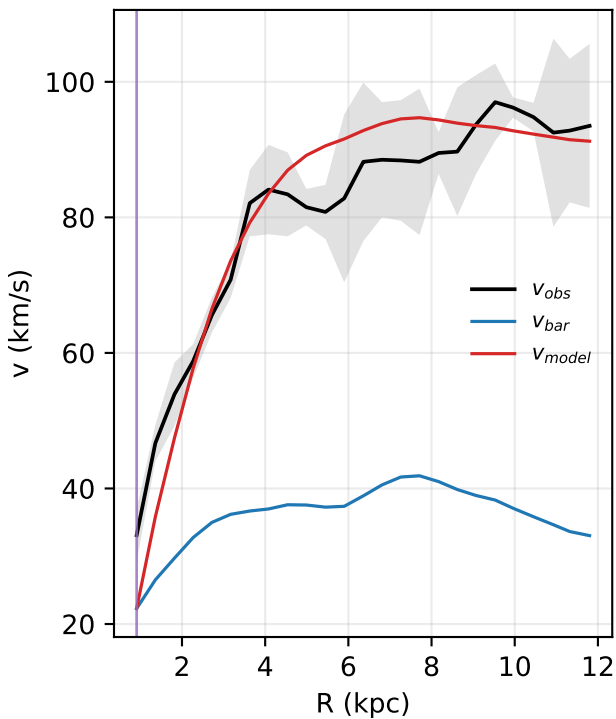

Dyed fabric (inferred effective potential)

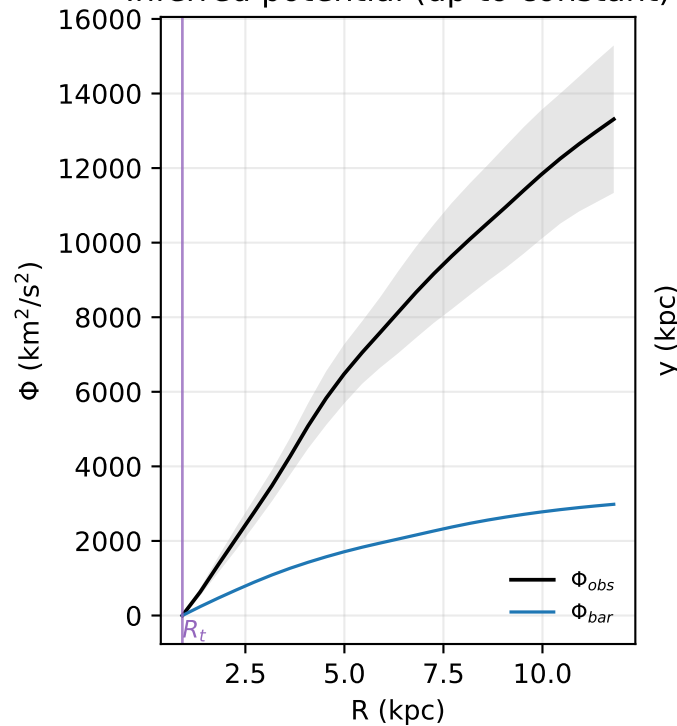

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

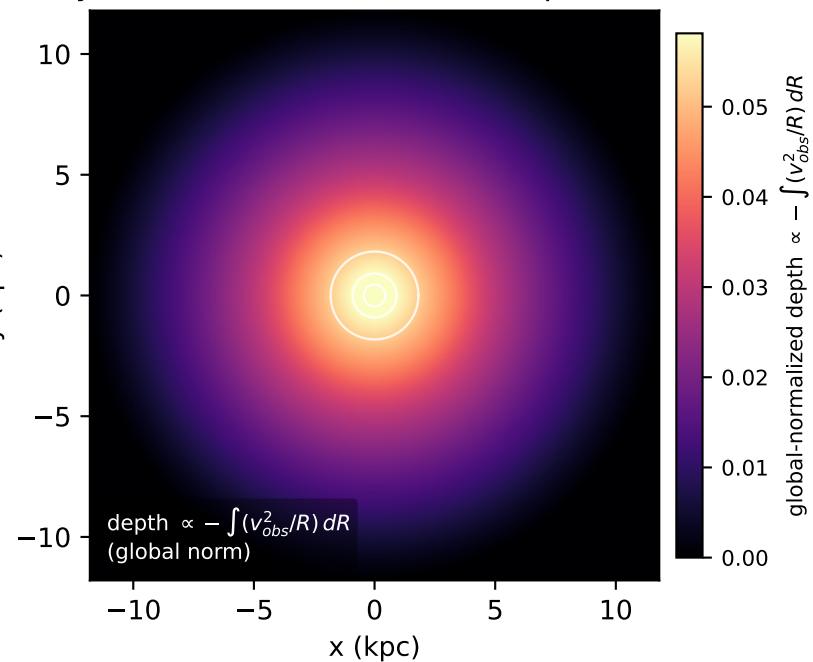

NGC0300: rotation curve

Inferred potential (up to constant)

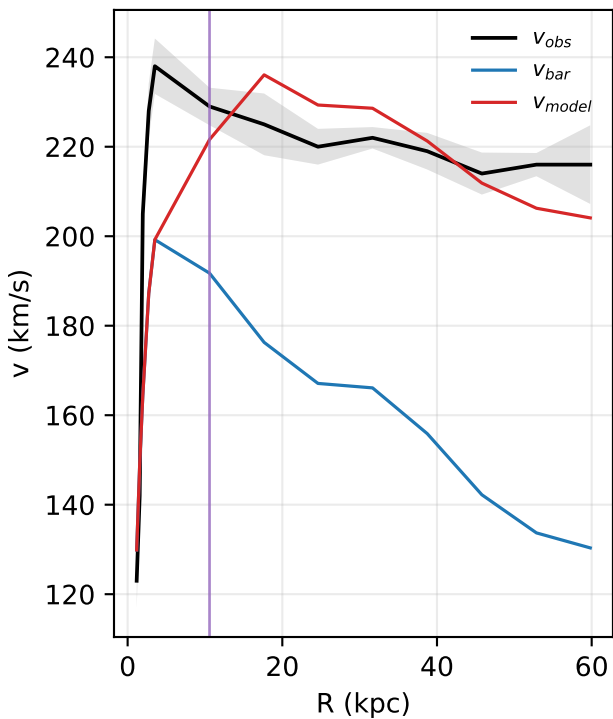

Dyed fabric (inferred effective potential)

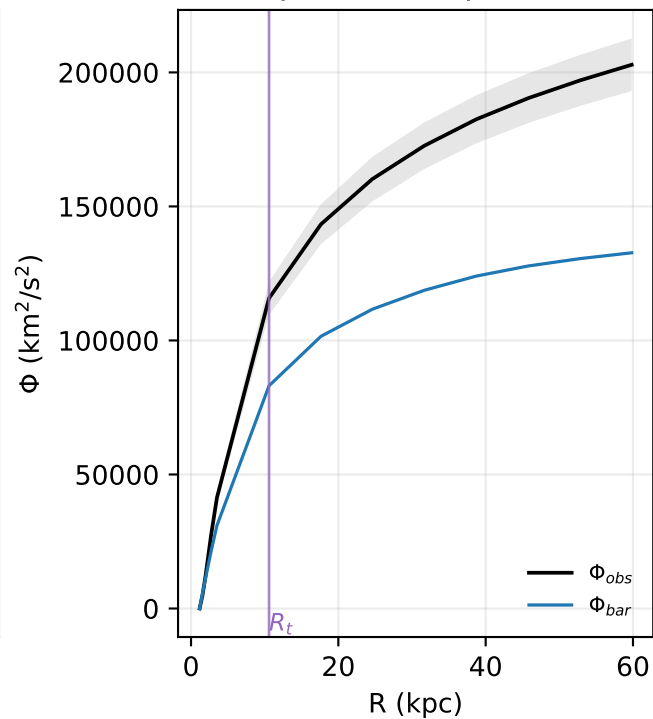

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

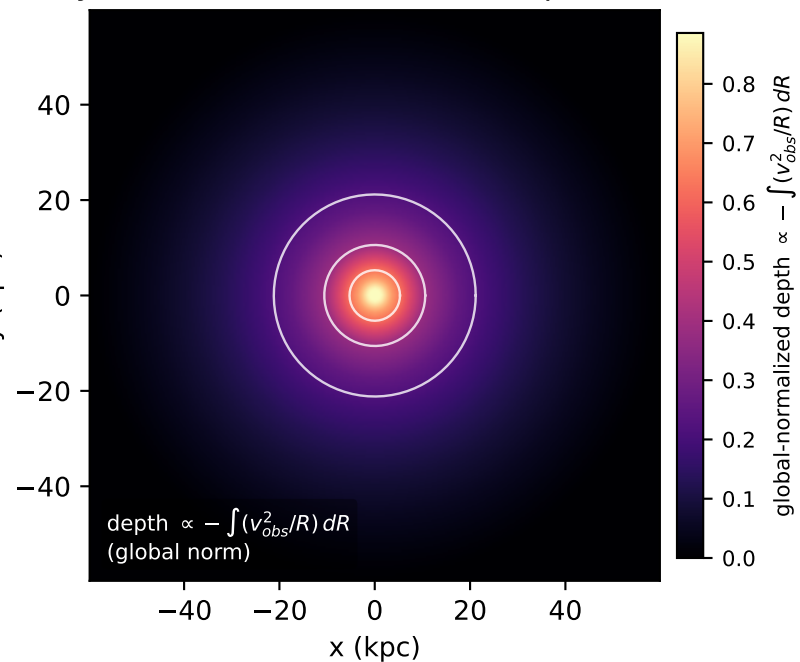

NGC0801: rotation curve

Inferred potential (up to constant)

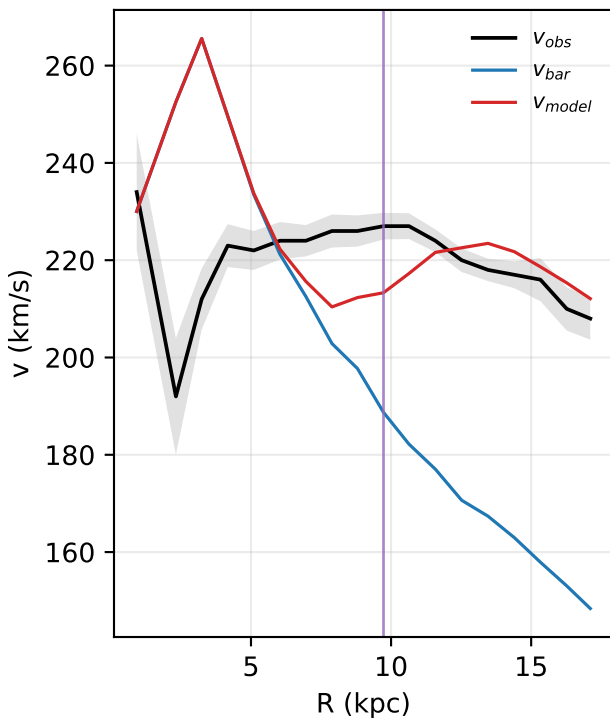

Dyed fabric (inferred effective potential)

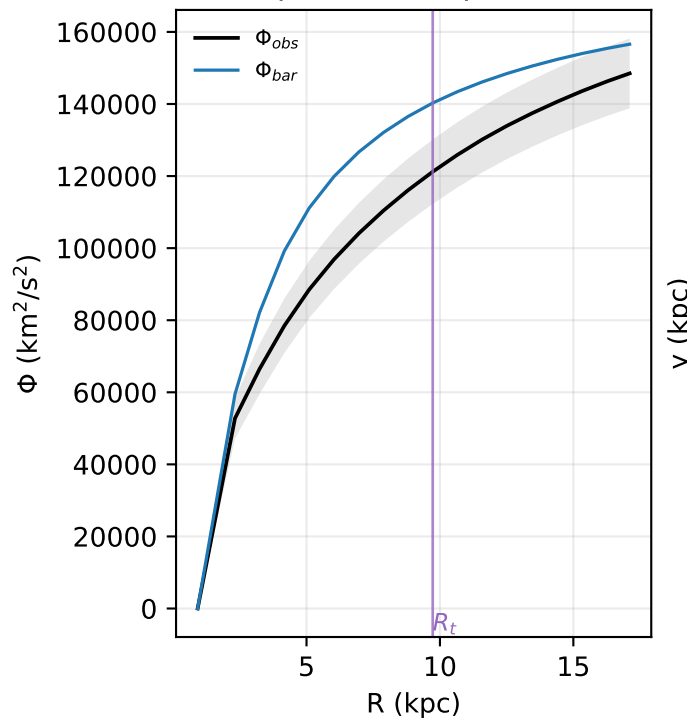

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

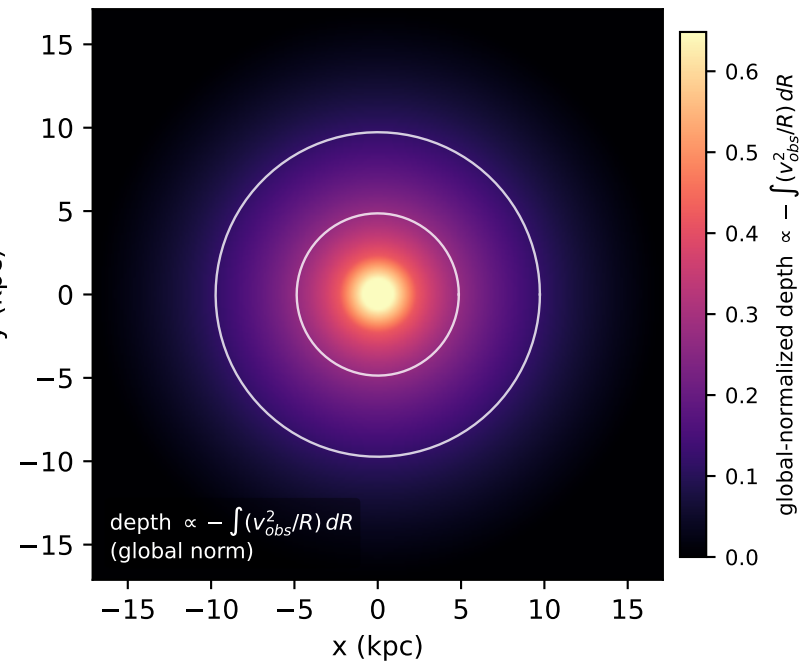

NGC0891: rotation curve

Inferred potential (up to constant)

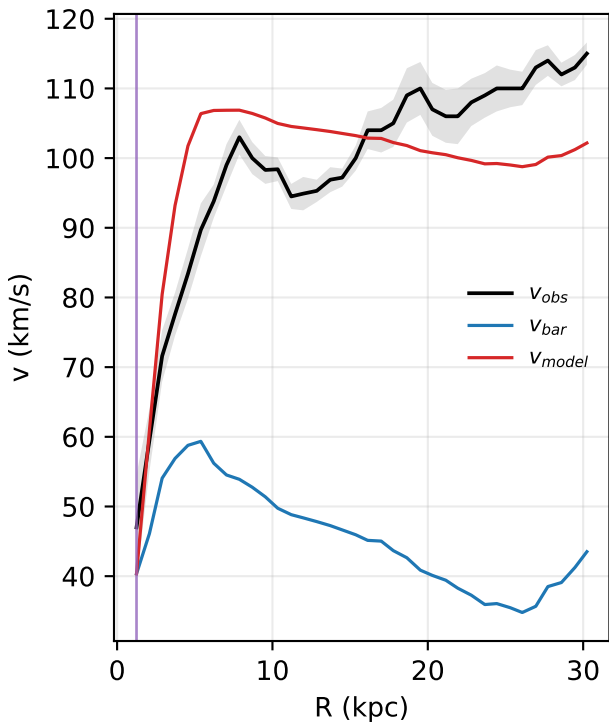

Dyed fabric (inferred effective potential)

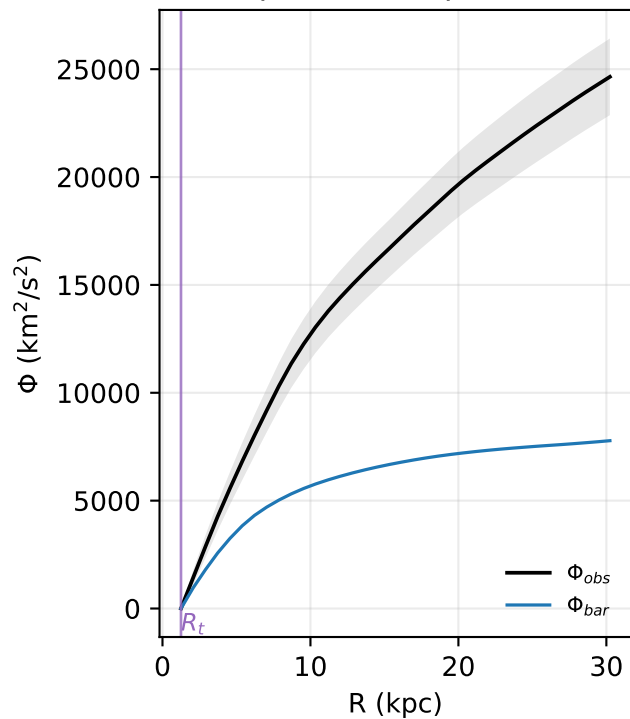

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

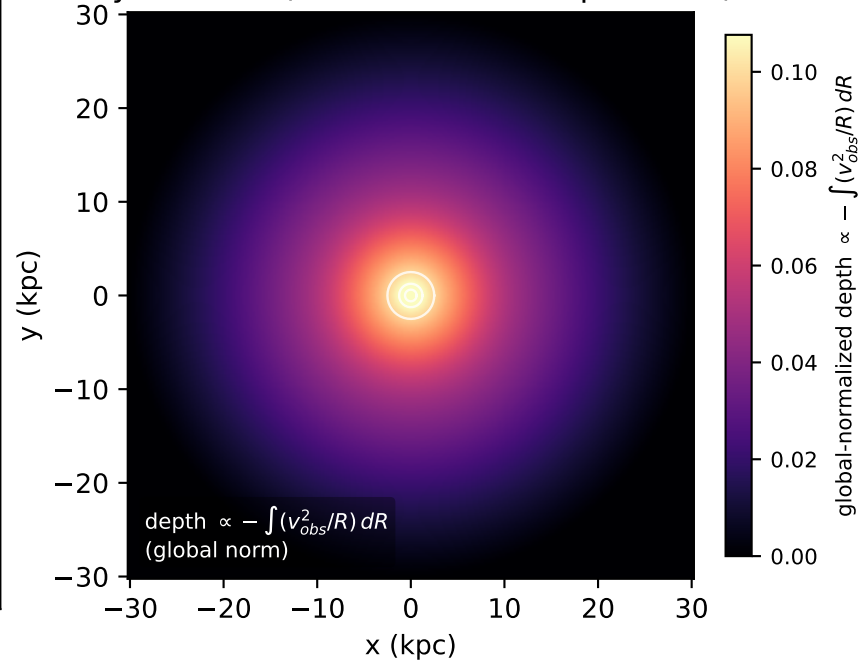

NGC1003: rotation curve

Inferred potential (up to constant)

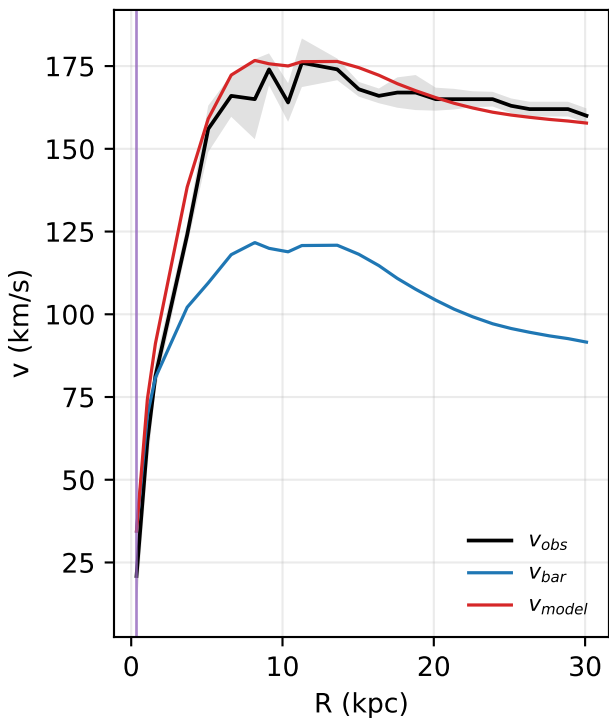

Dyed fabric (inferred effective potential)

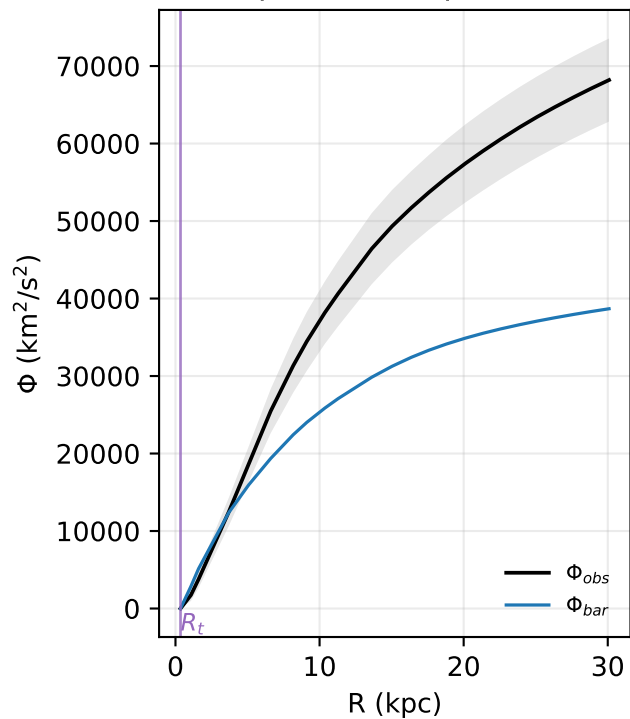

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

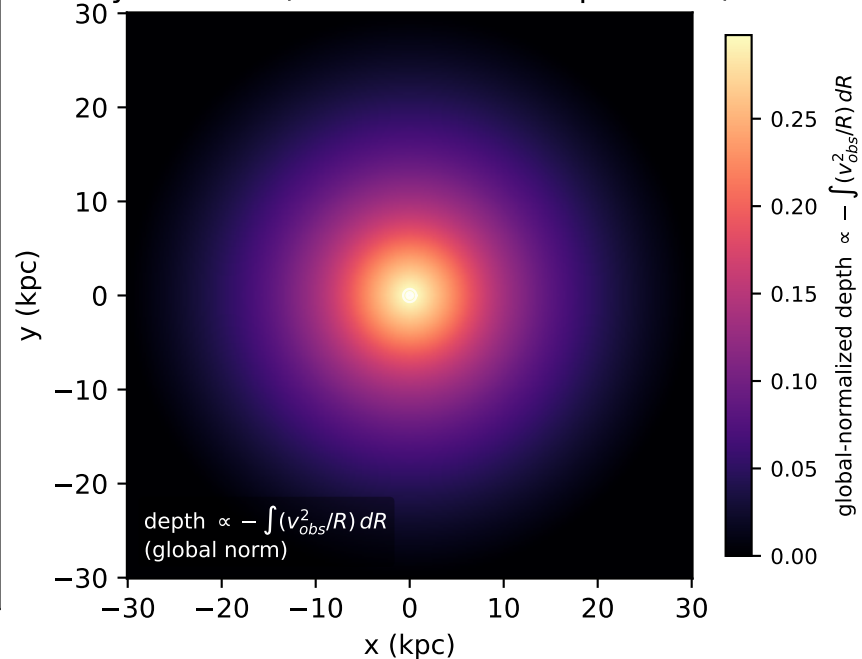

NGC1090: rotation curve

Inferred potential (up to constant)

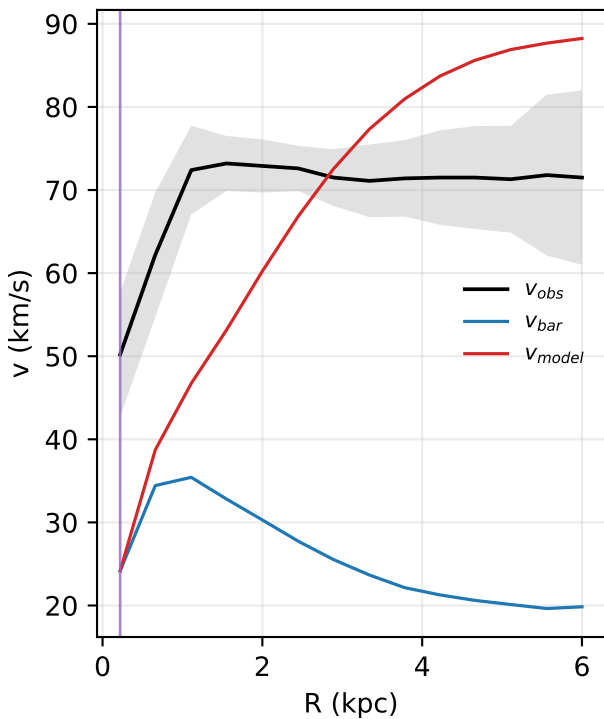

Dyed fabric (inferred effective potential)

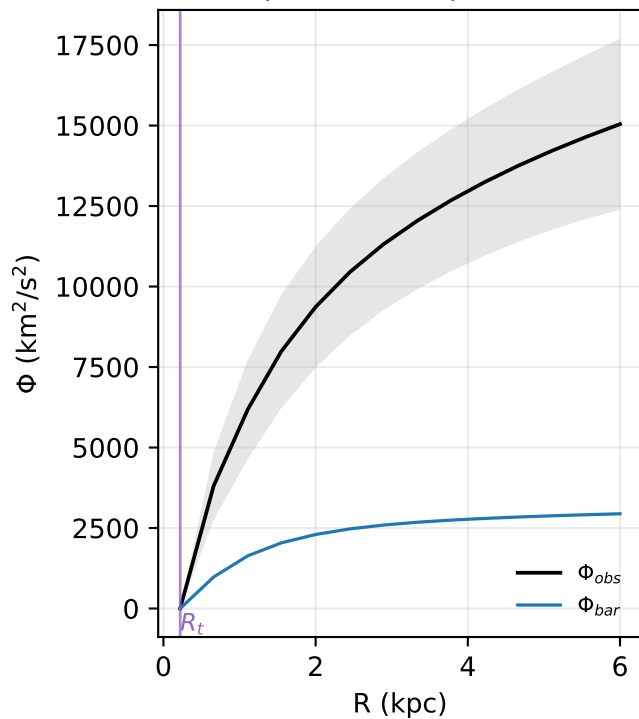

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

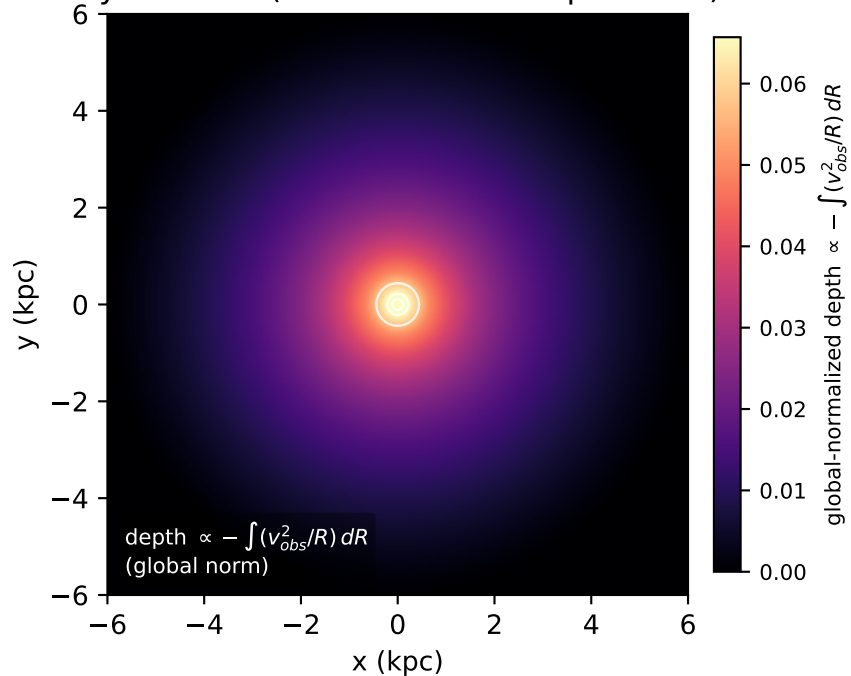

NGC1705: rotation curve

Inferred potential (up to constant)

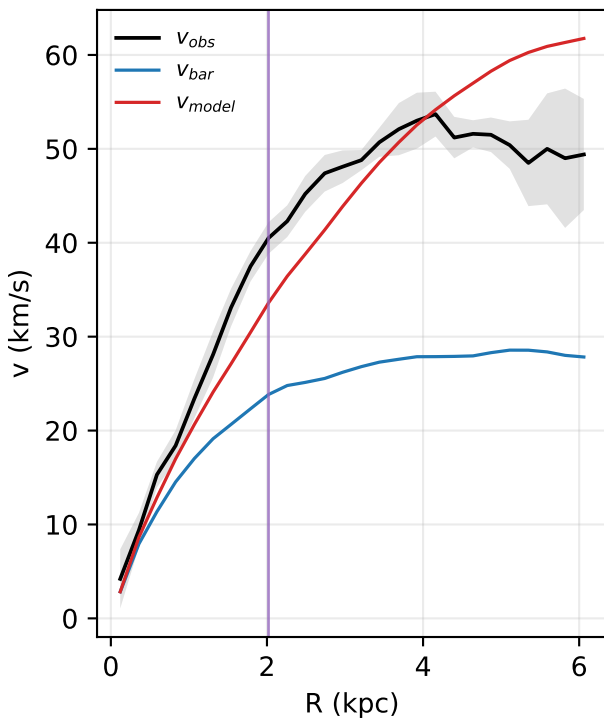

Dyed fabric (inferred effective potential)

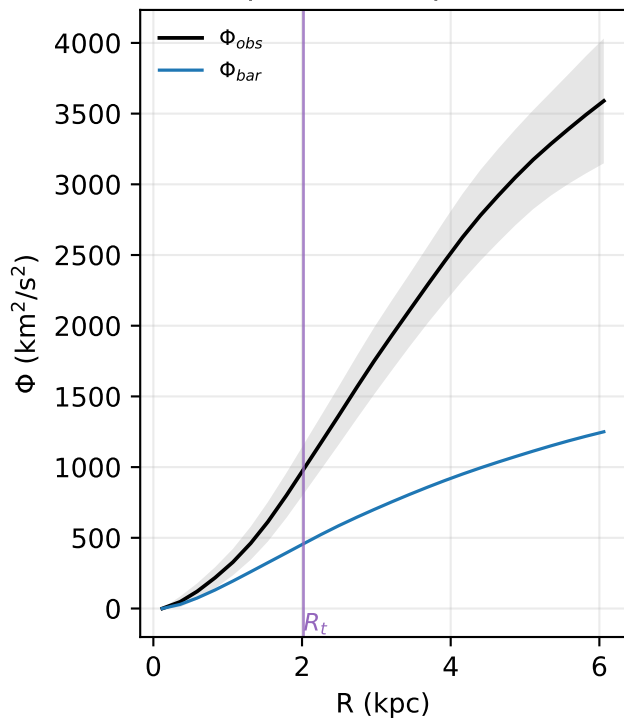

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

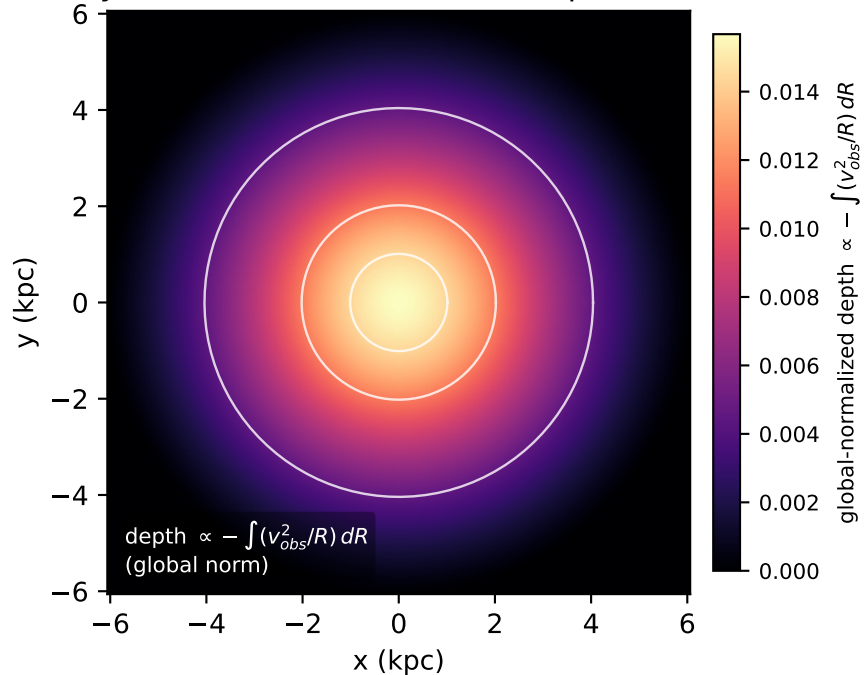

NGC2366: rotation curve

Inferred potential (up to constant)

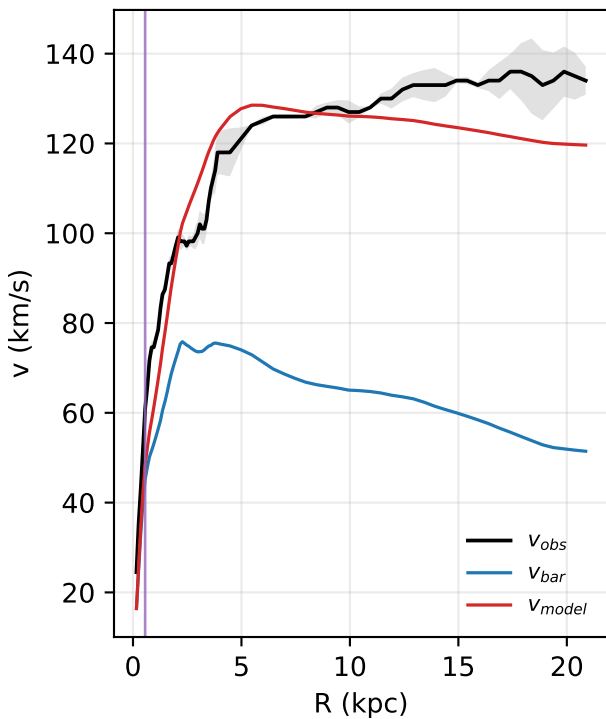

Dyed fabric (inferred effective potential)

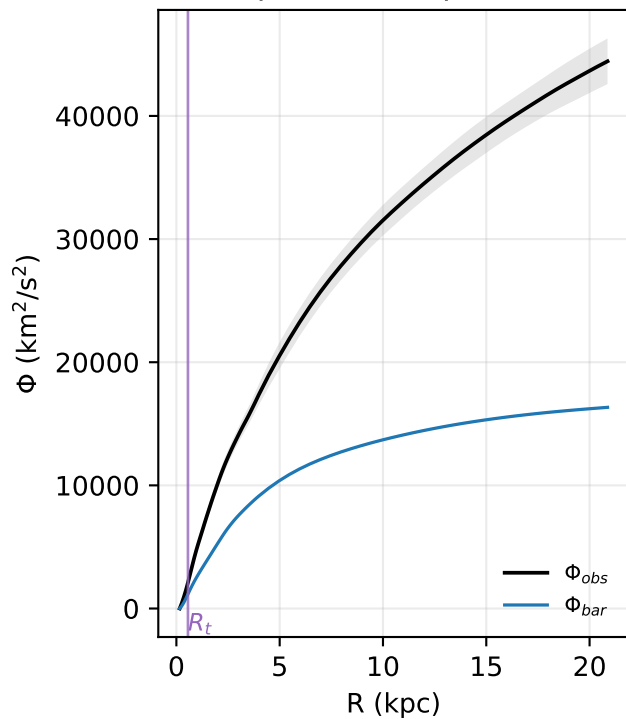

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

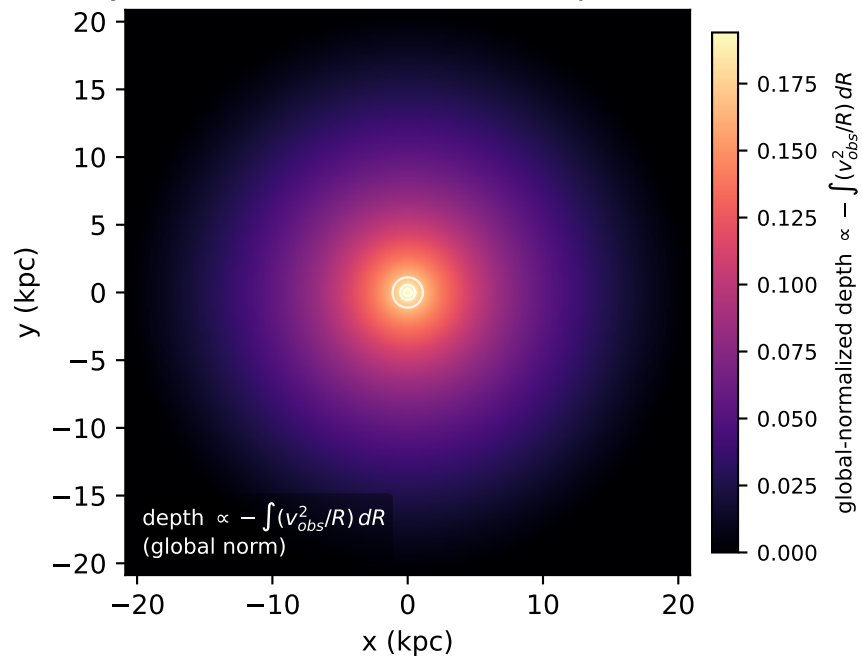

NGC2403: rotation curve

Inferred potential (up to constant)

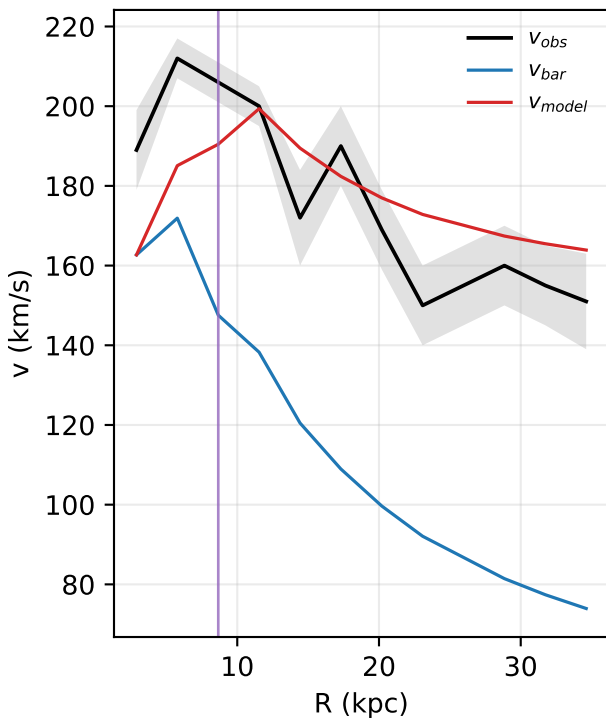

Dyed fabric (inferred effective potential)

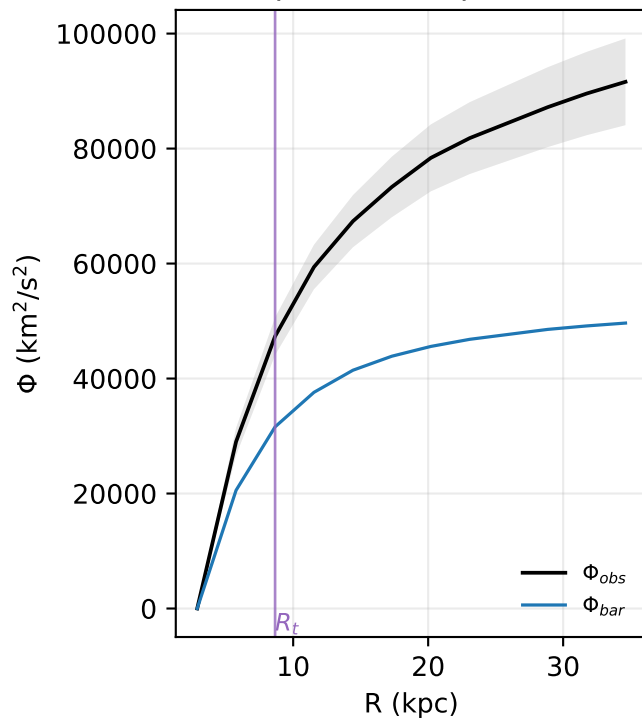

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

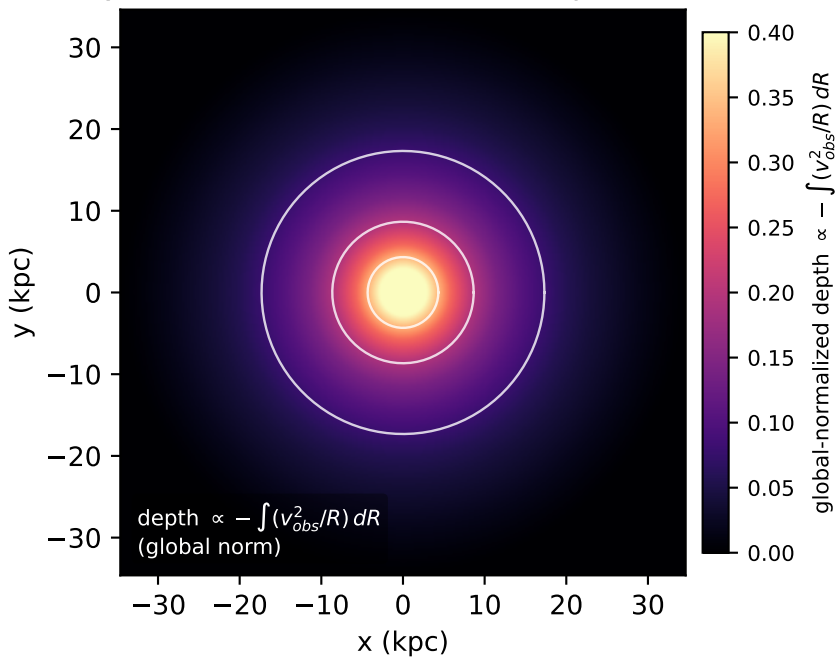

NGC2683: rotation curve

Inferred potential (up to constant)

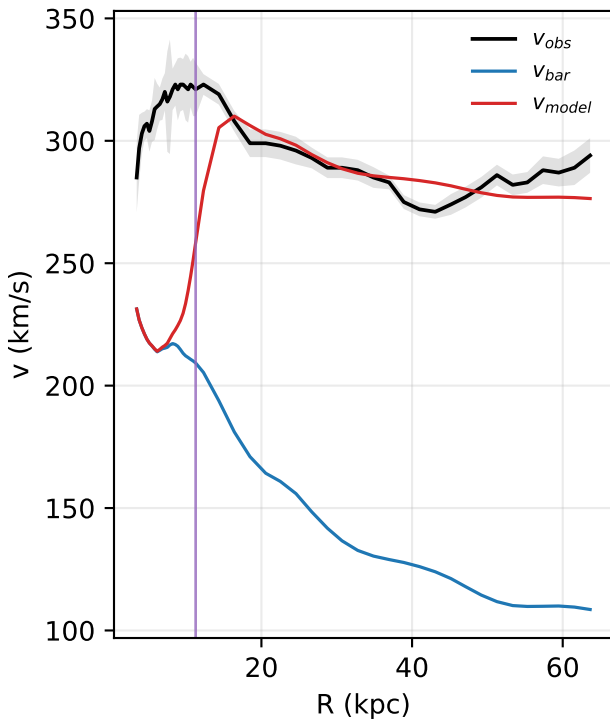

Dyed fabric (inferred effective potential)

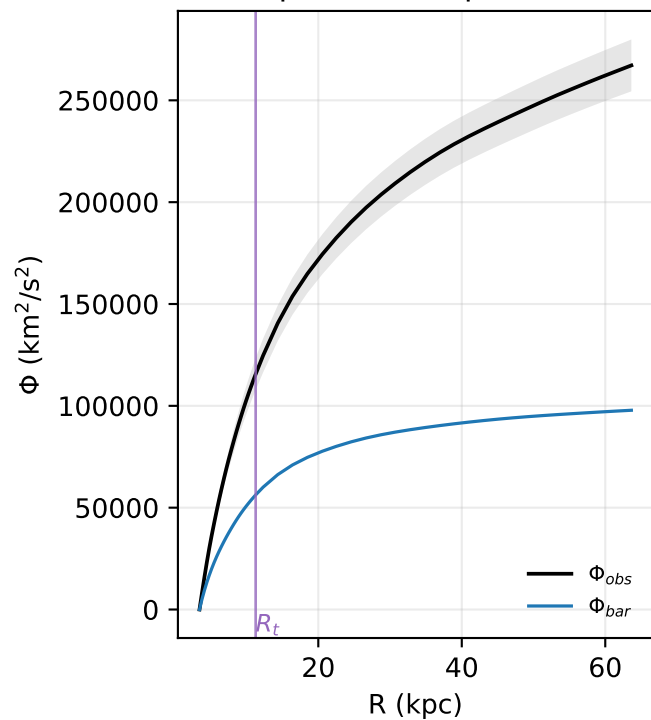

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

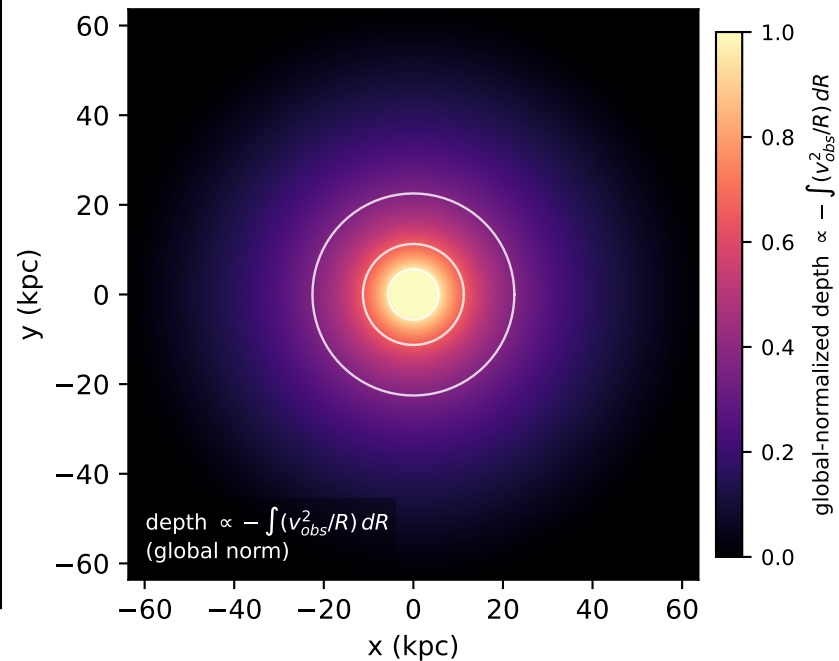

NGC2841: rotation curve

Inferred potential (up to constant)

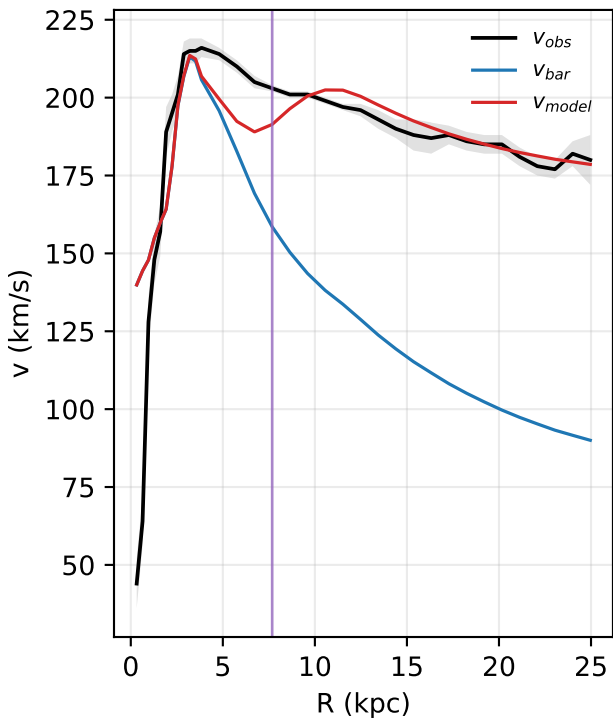

Dyed fabric (inferred effective potential)

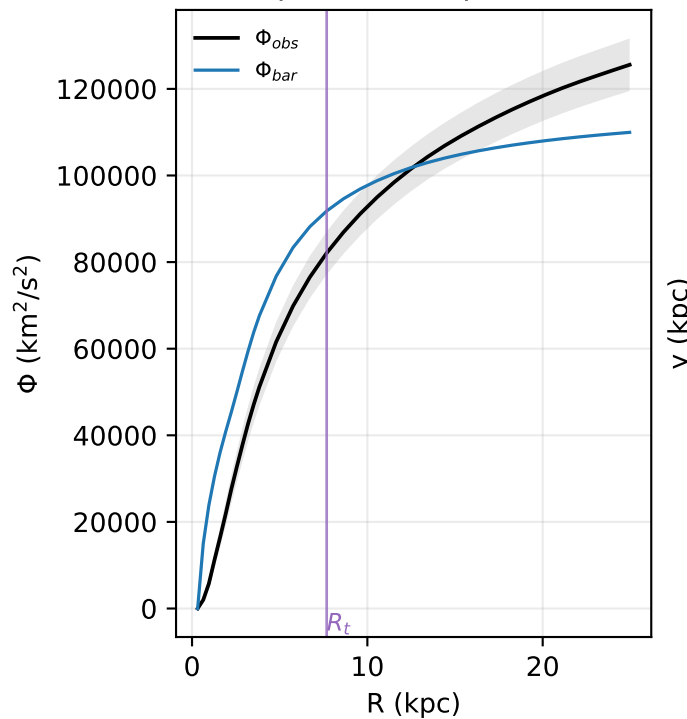

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

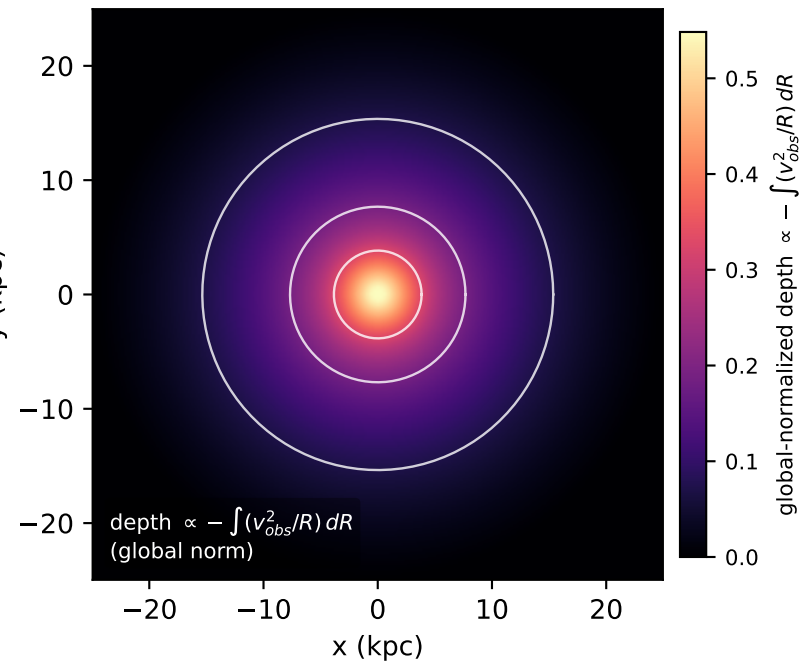

NGC2903: rotation curve

Inferred potential (up to constant)

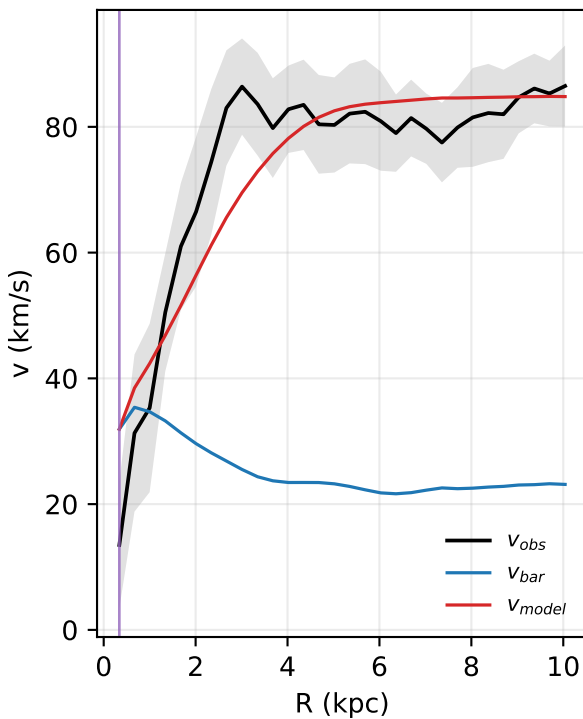

Dyed fabric (inferred effective potential)

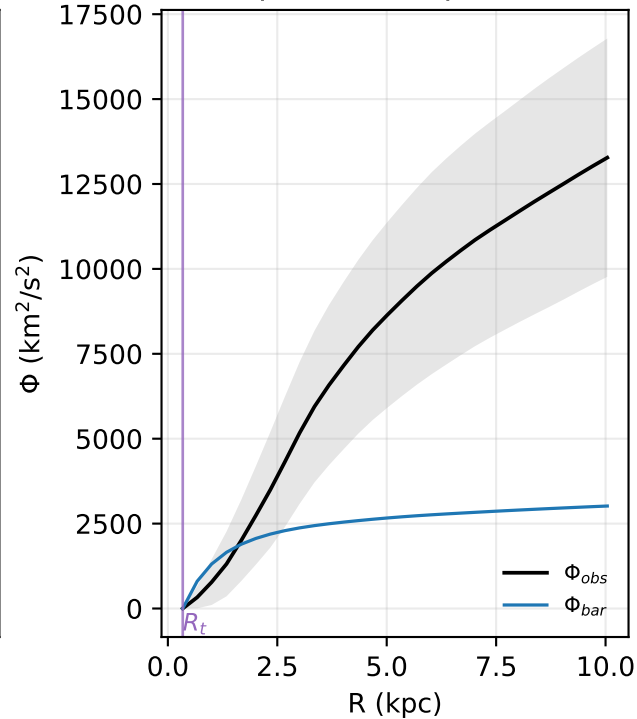

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

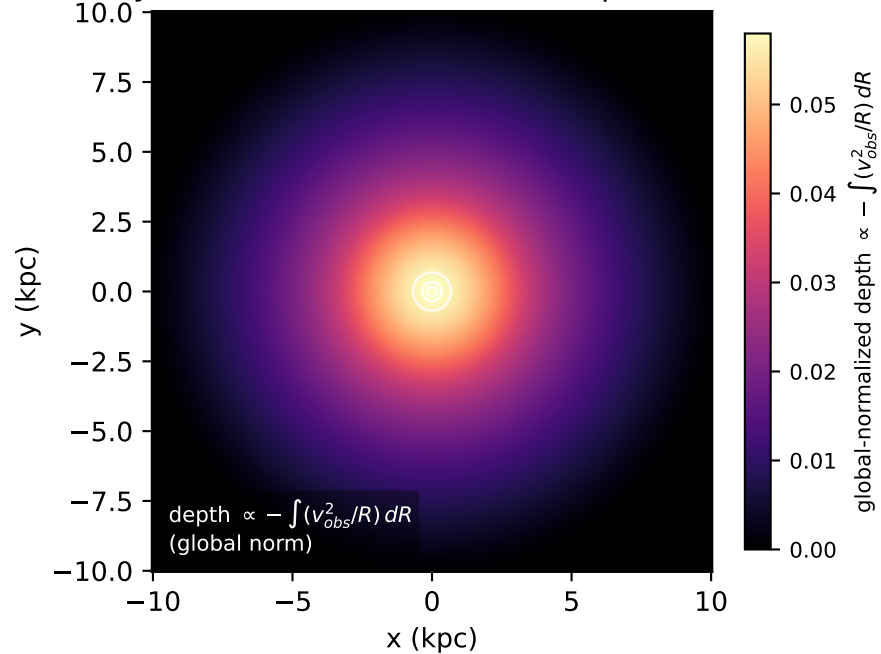

NGC2915: rotation curve

Inferred potential (up to constant)

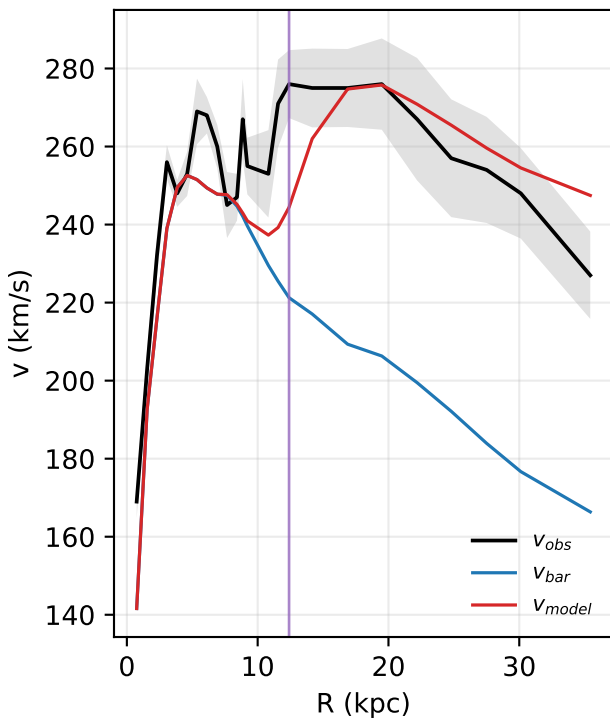

Dyed fabric (inferred effective potential)

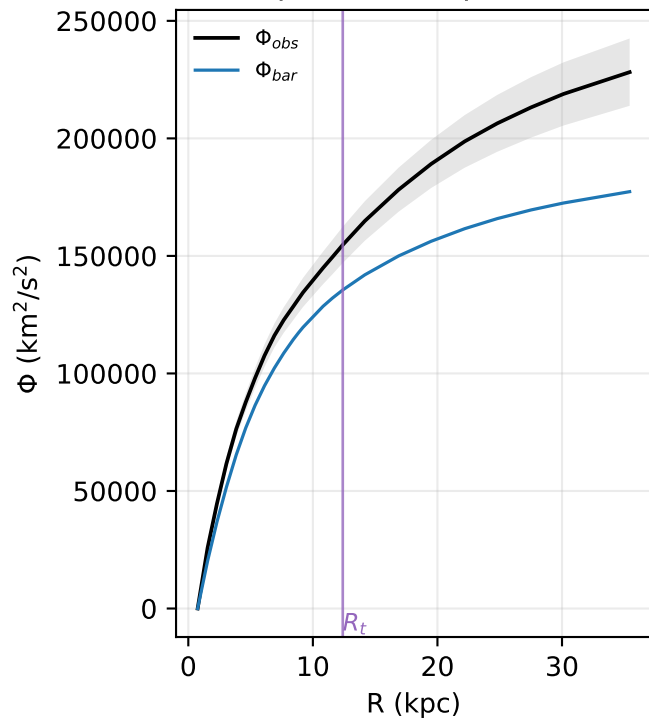

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

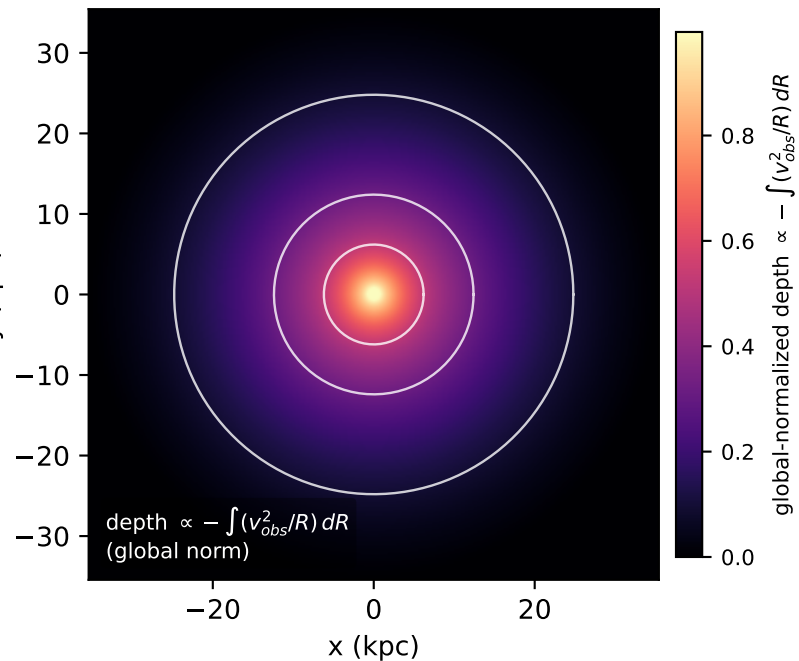

NGC2955: rotation curve

Inferred potential (up to constant)

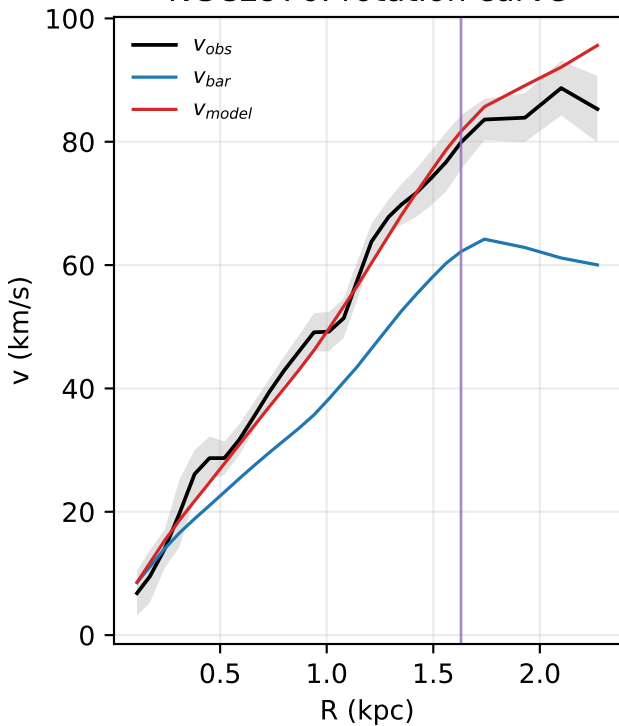

Dyed fabric (inferred effective potential)

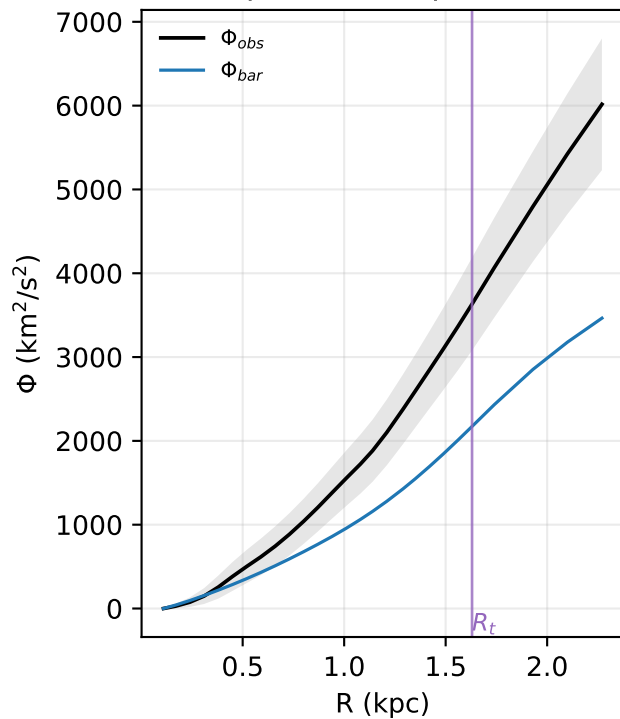

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

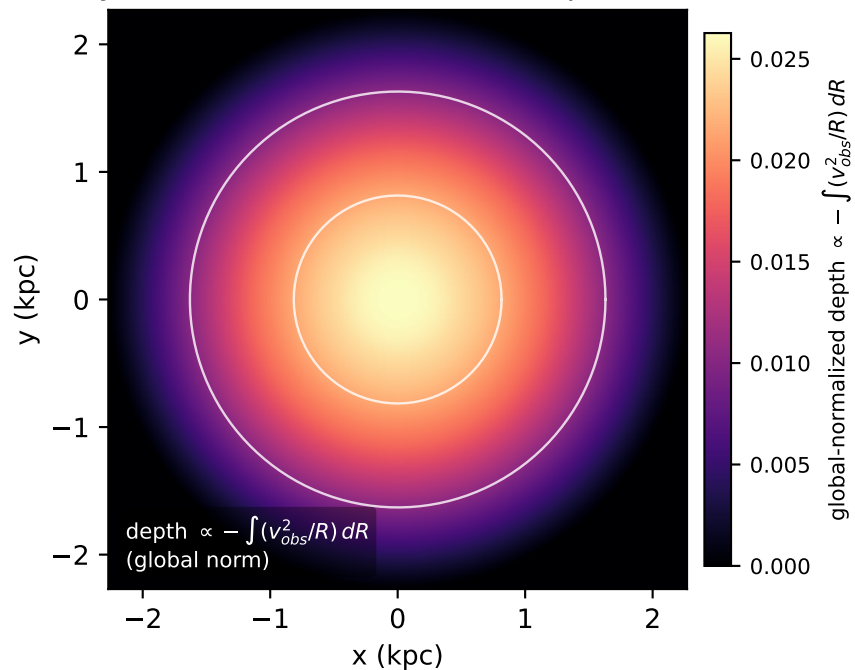

NGC2976: rotation curve

Inferred potential (up to constant)

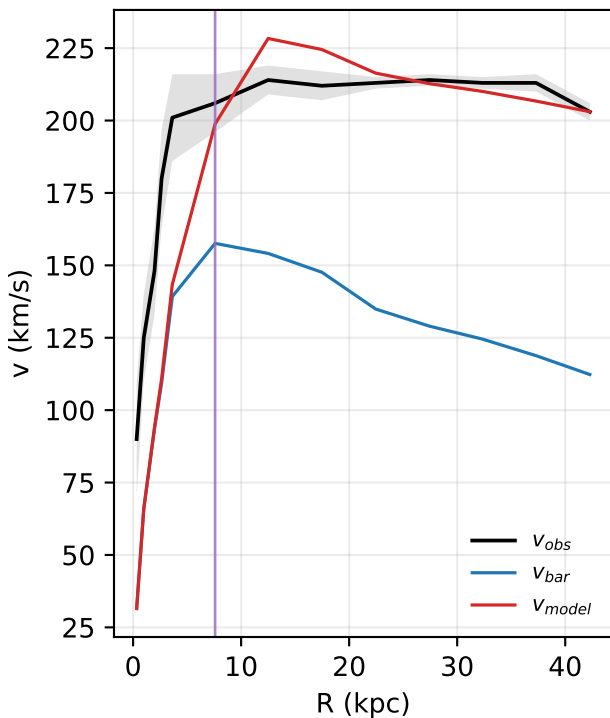

Dyed fabric (inferred effective potential)

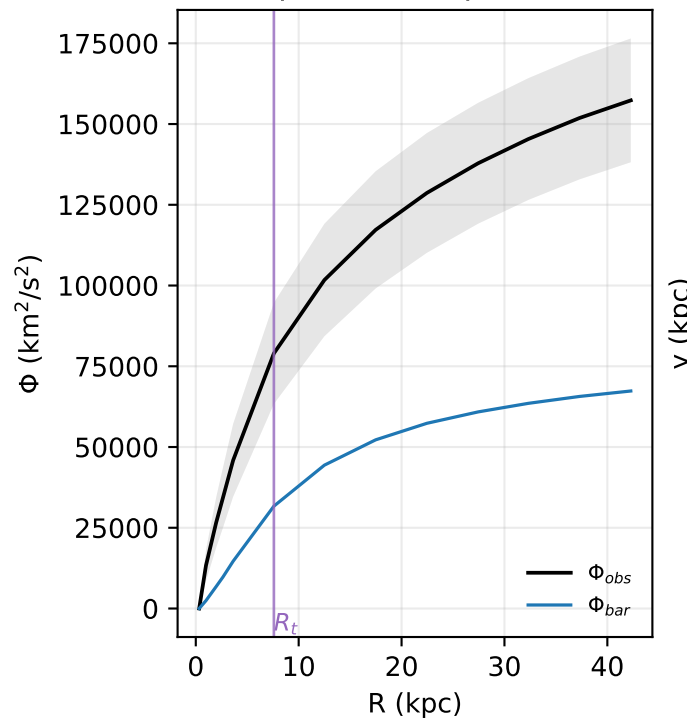

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

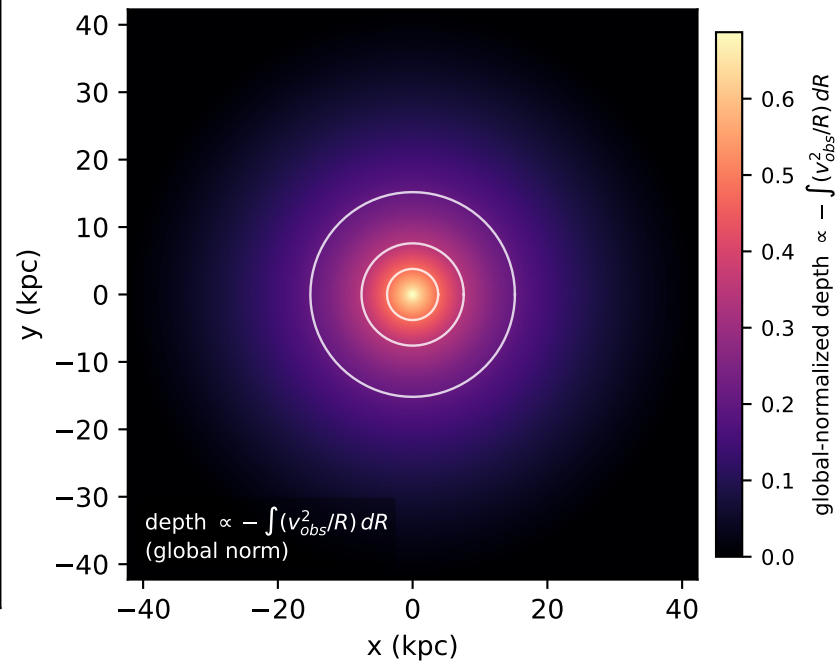

NGC2998: rotation curve

Inferred potential (up to constant)

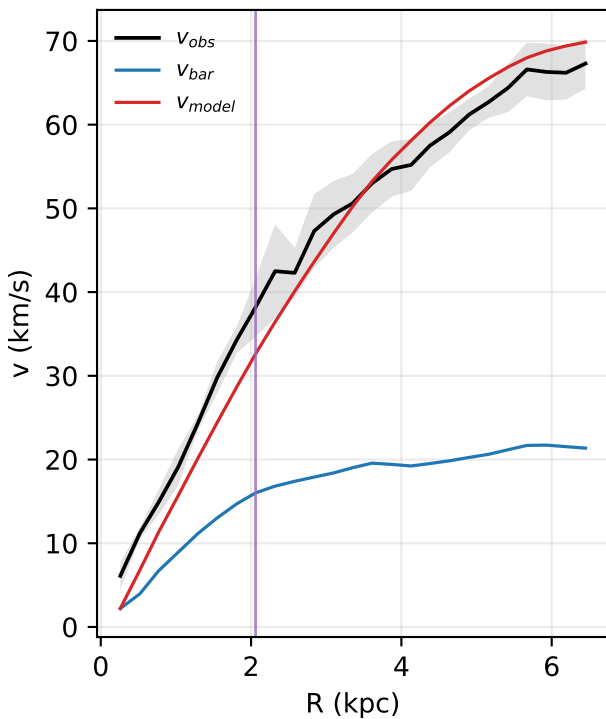

Dyed fabric (inferred effective potential)

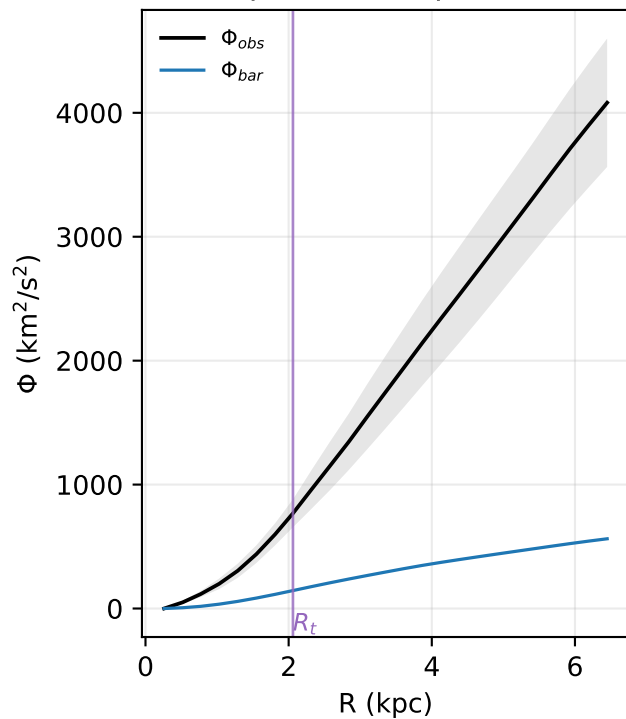

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

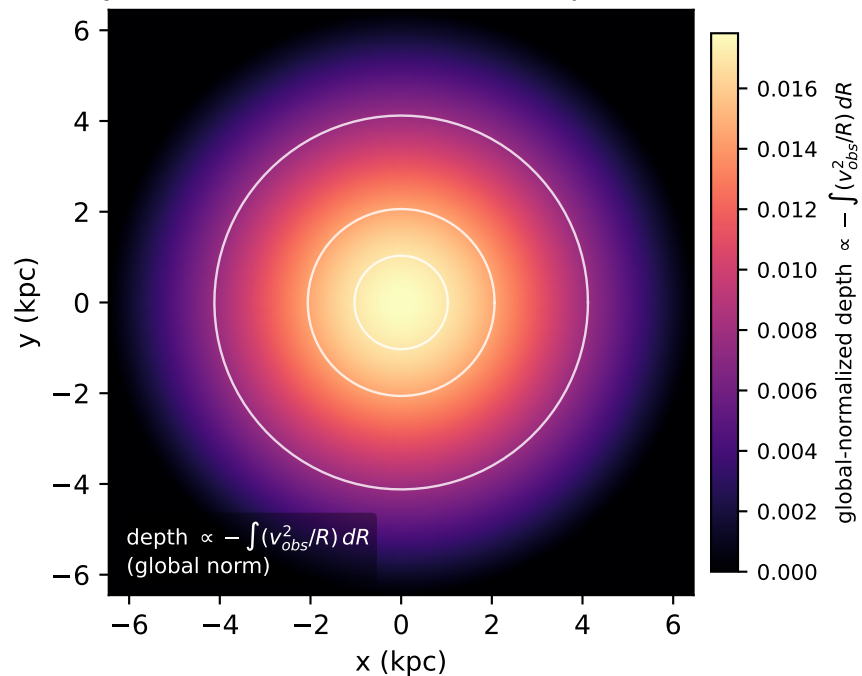

NGC3109: rotation curve

Inferred potential (up to constant)

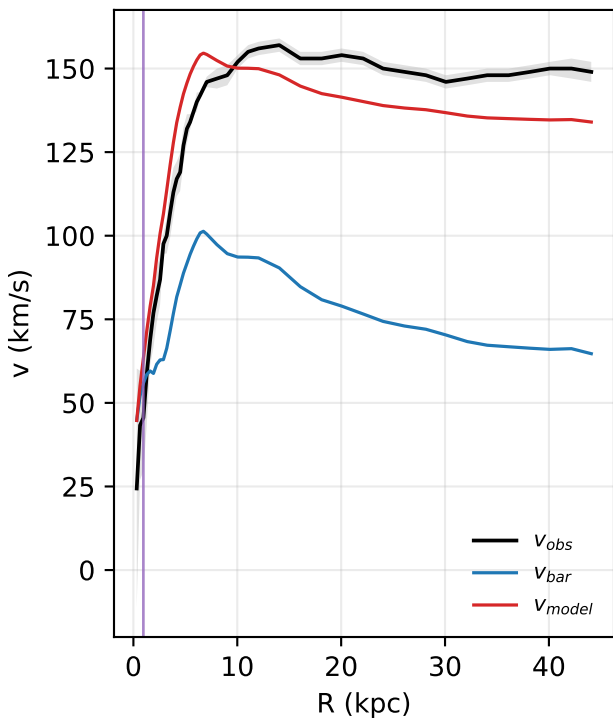

Dyed fabric (inferred effective potential)

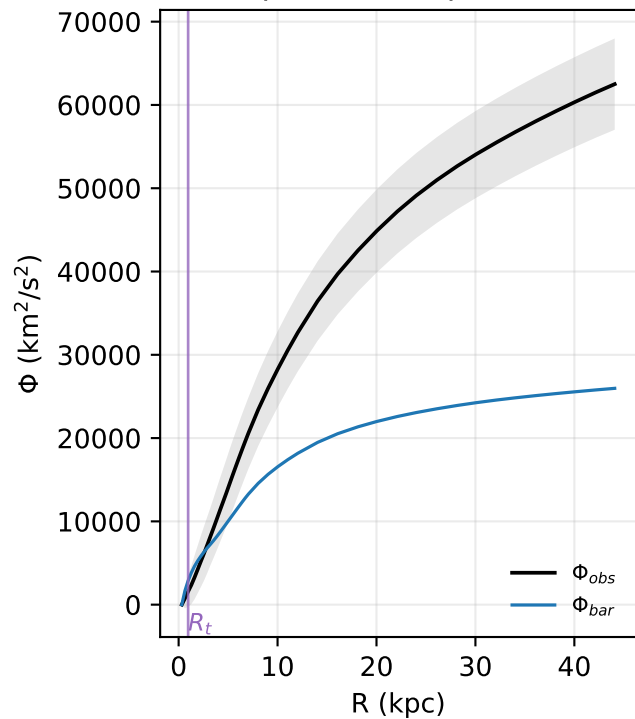

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

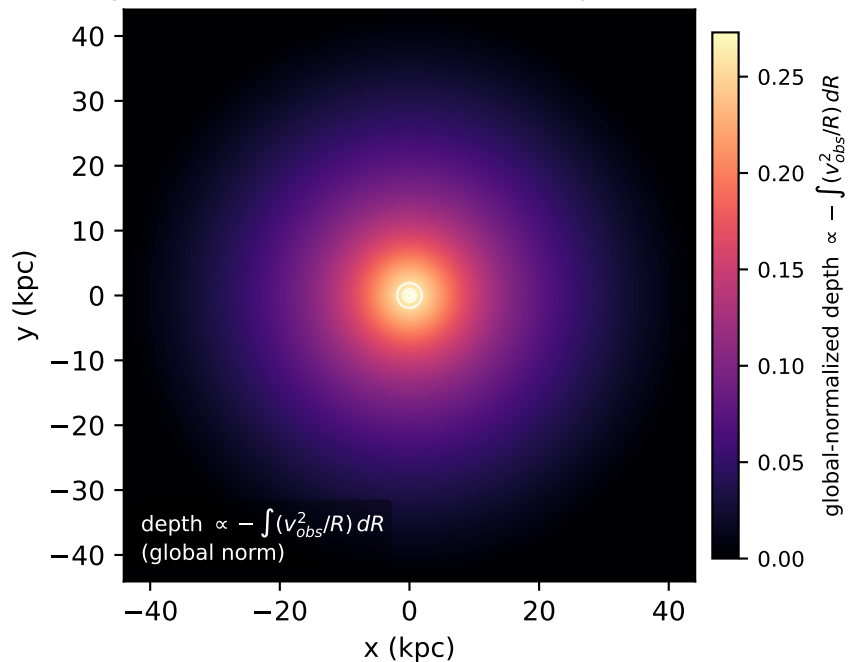

NGC3198: rotation curve

Inferred potential (up to constant)

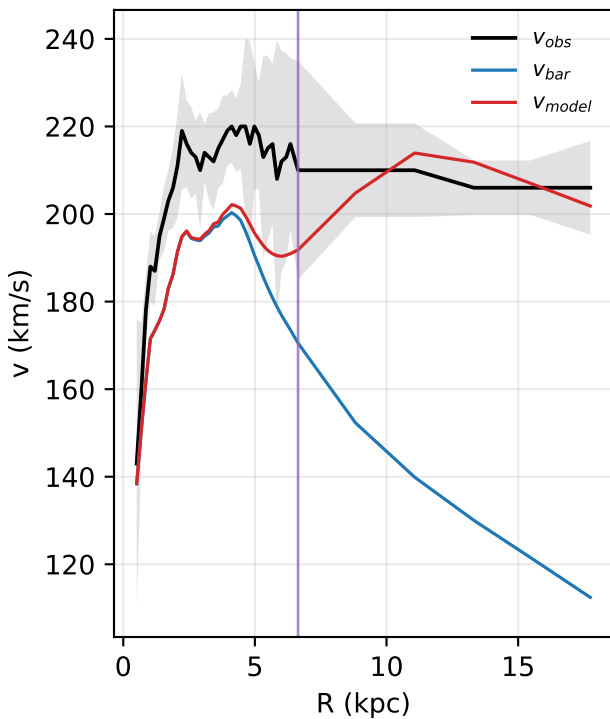

Dyed fabric (inferred effective potential)

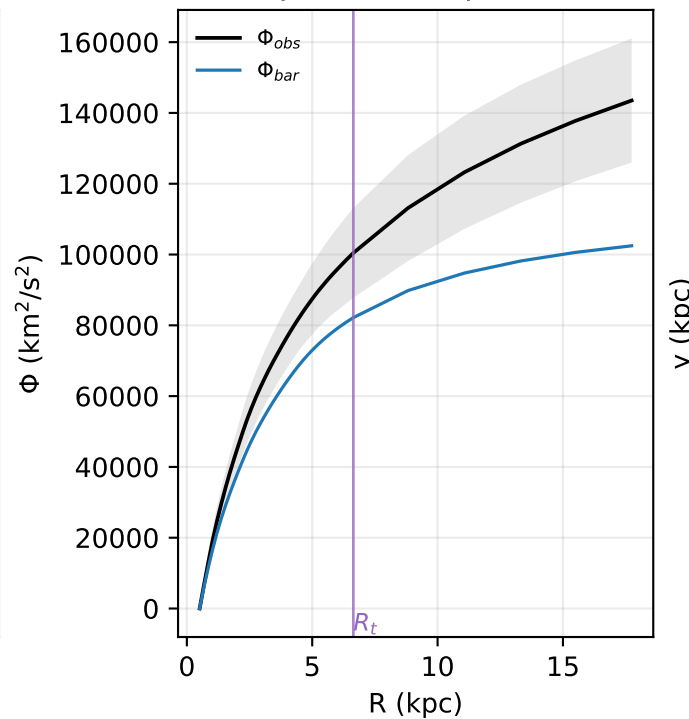

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

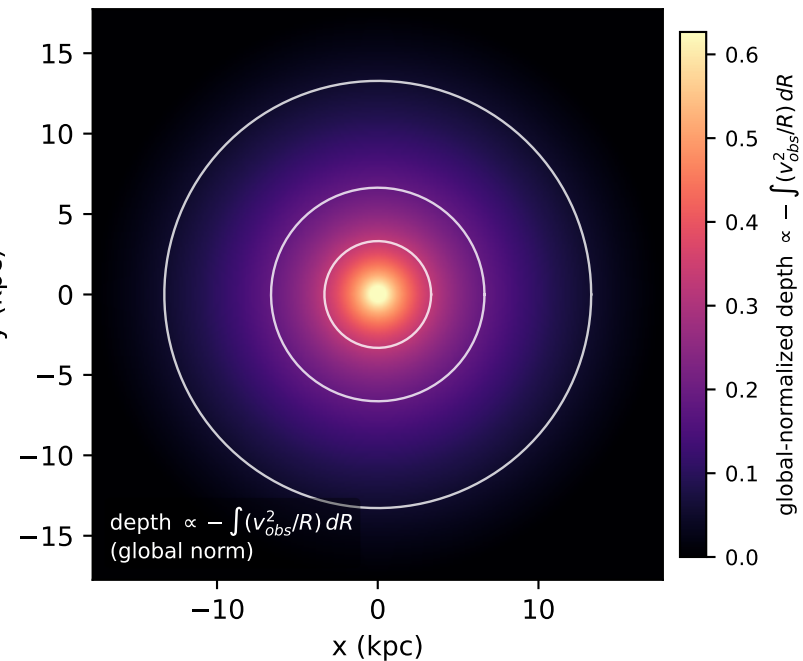

NGC3521: rotation curve

Inferred potential (up to constant)

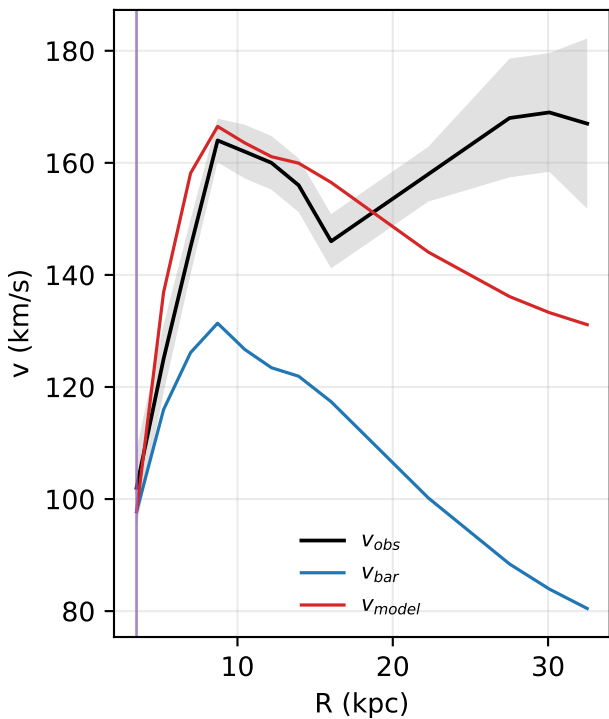

Dyed fabric (inferred effective potential)

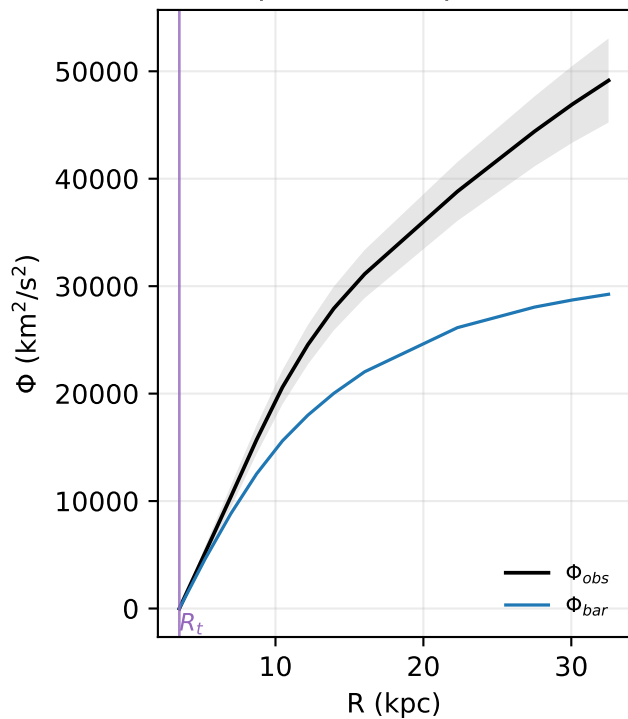

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

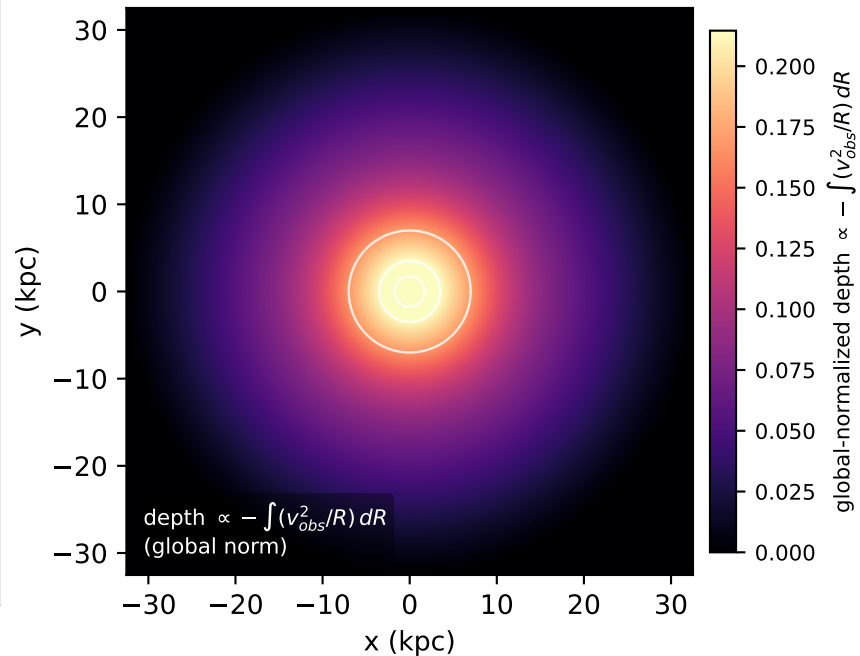

NGC3726: rotation curve

Inferred potential (up to constant)

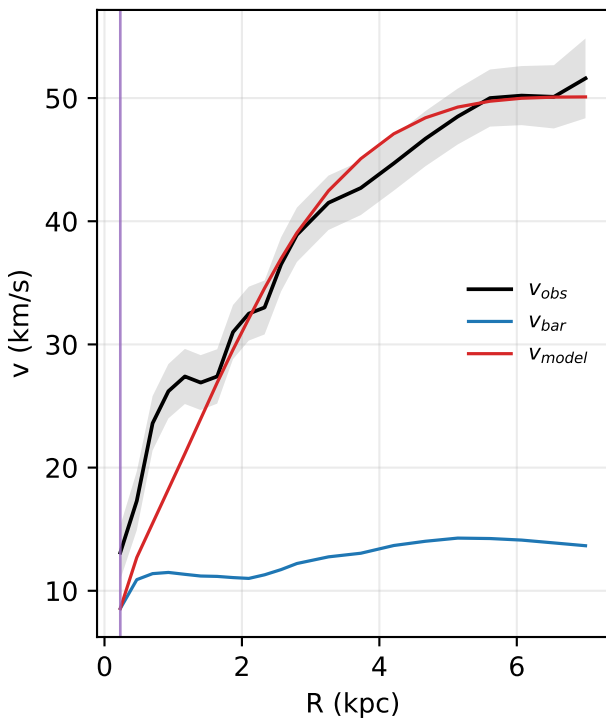

Dyed fabric (inferred effective potential)

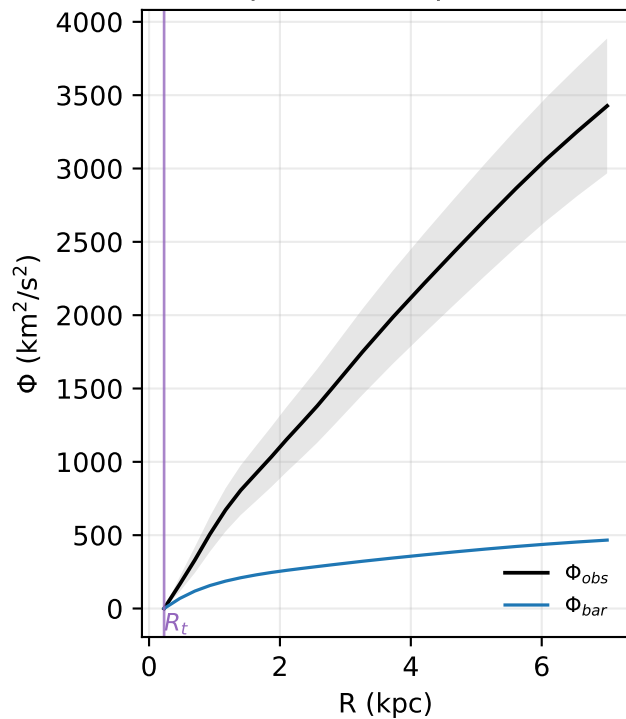

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

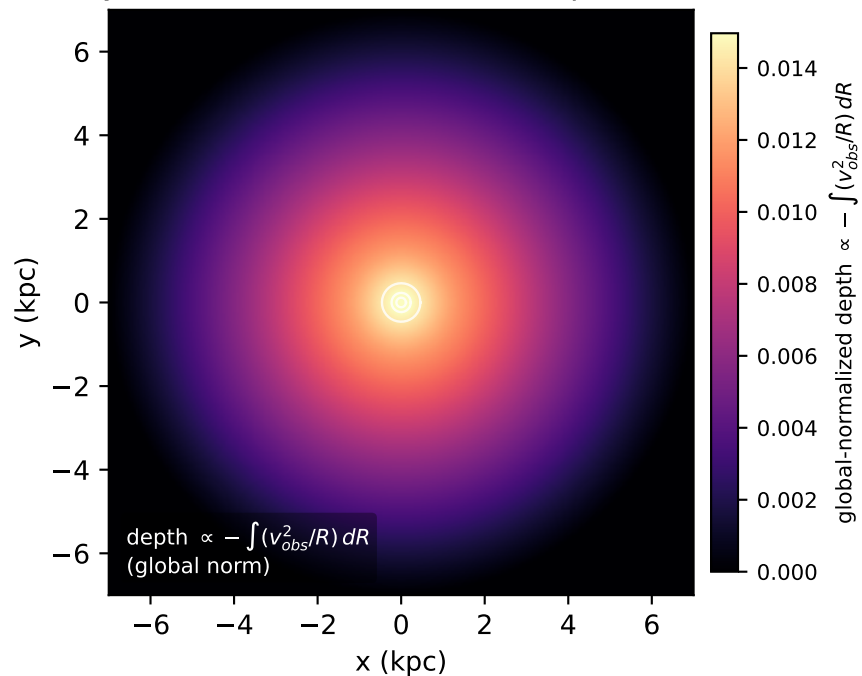

NGC3741: rotation curve

Inferred potential (up to constant)

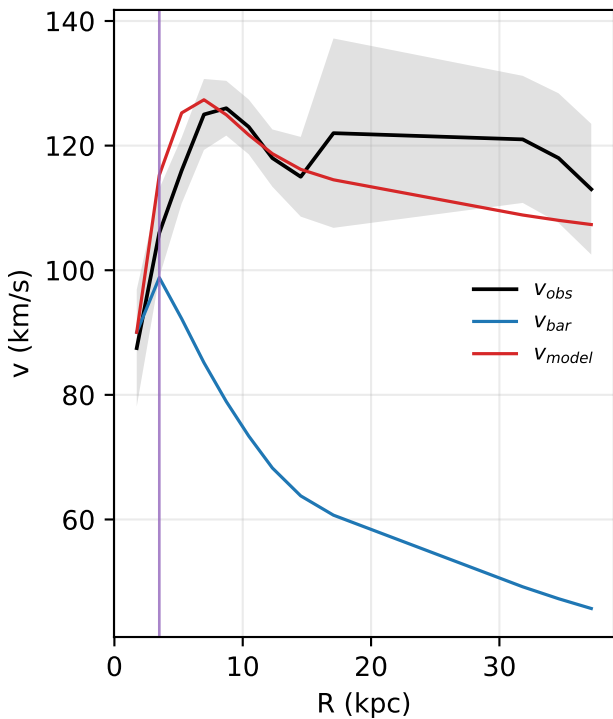

Dyed fabric (inferred effective potential)

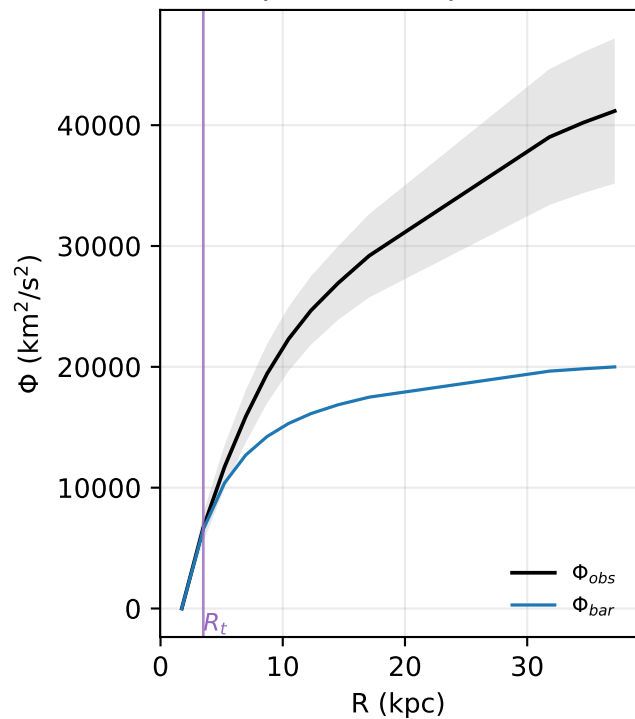

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

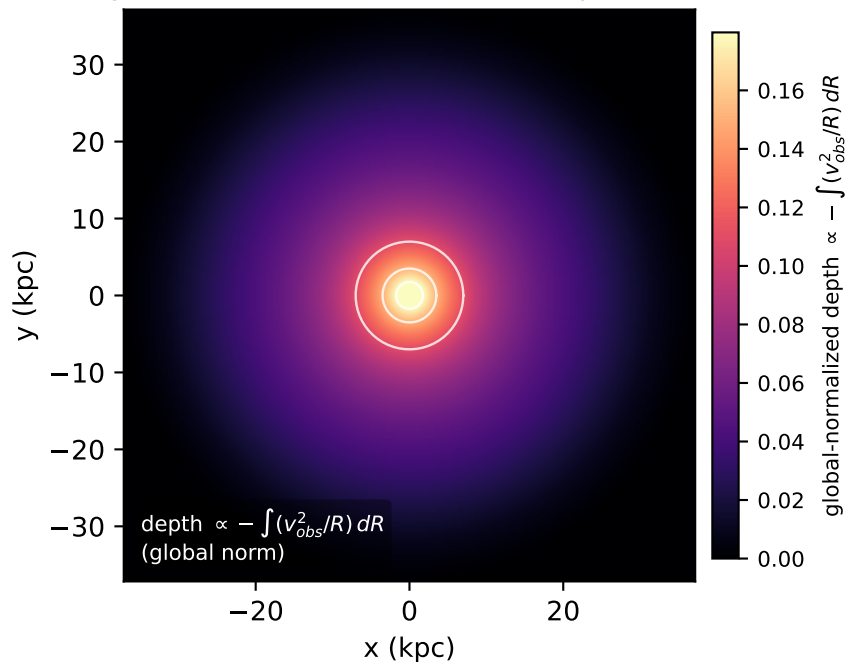

NGC3769: rotation curve

Inferred potential (up to constant)

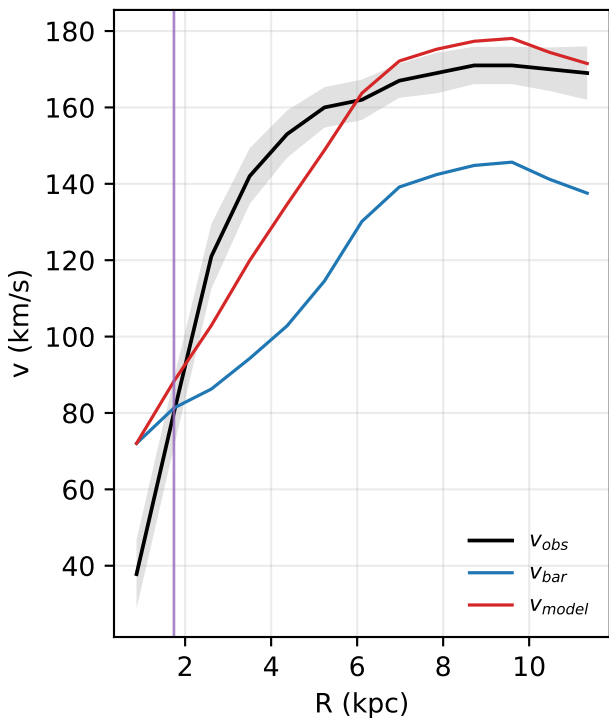

Dyed fabric (inferred effective potential)

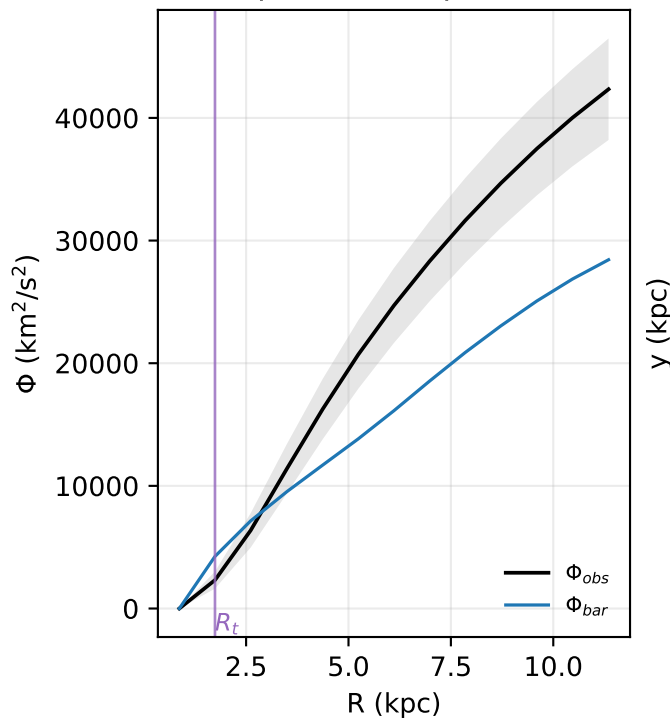

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

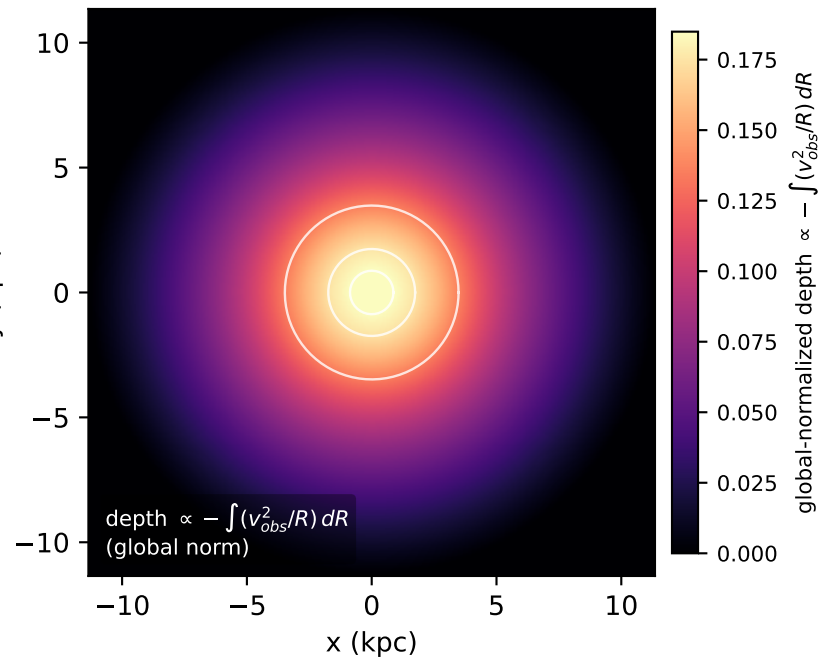

NGC3877: rotation curve

Inferred potential (up to constant)

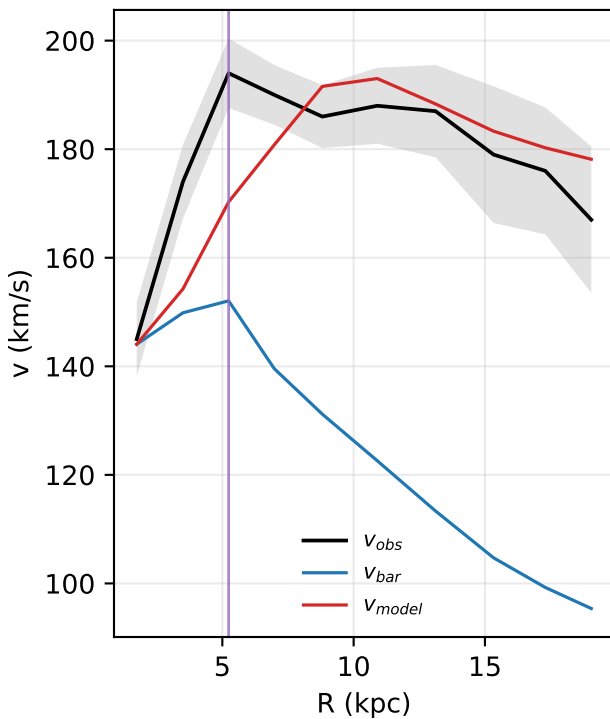

Dyed fabric (inferred effective potential)

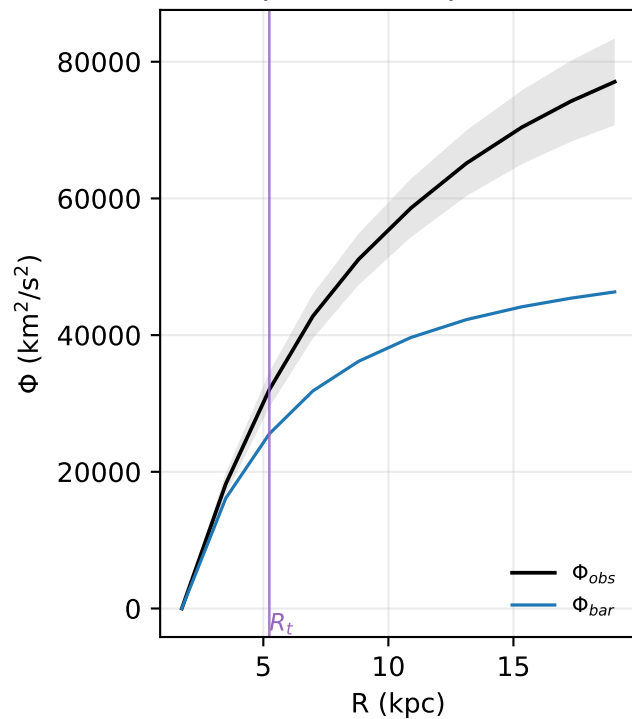

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

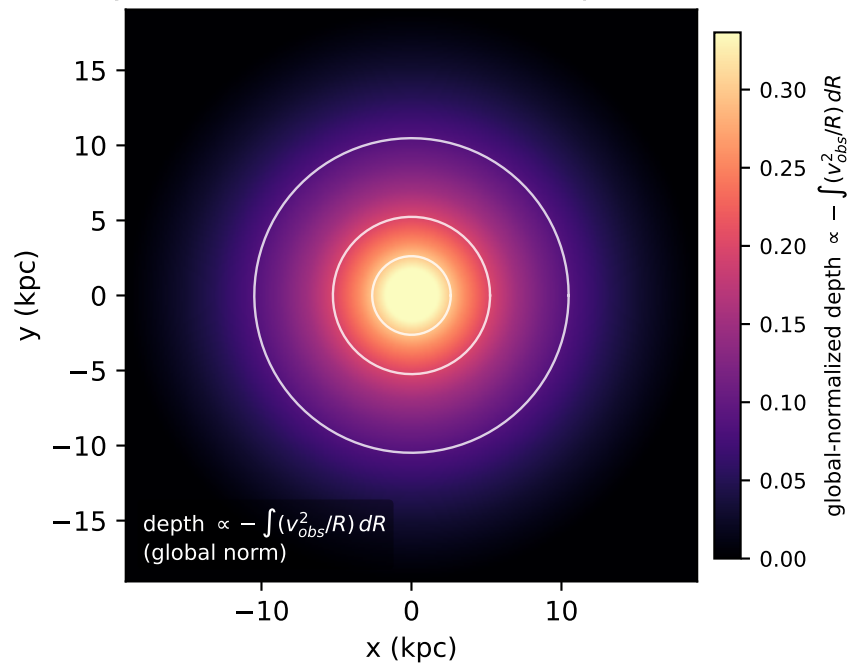

NGC3893: rotation curve

Inferred potential (up to constant)

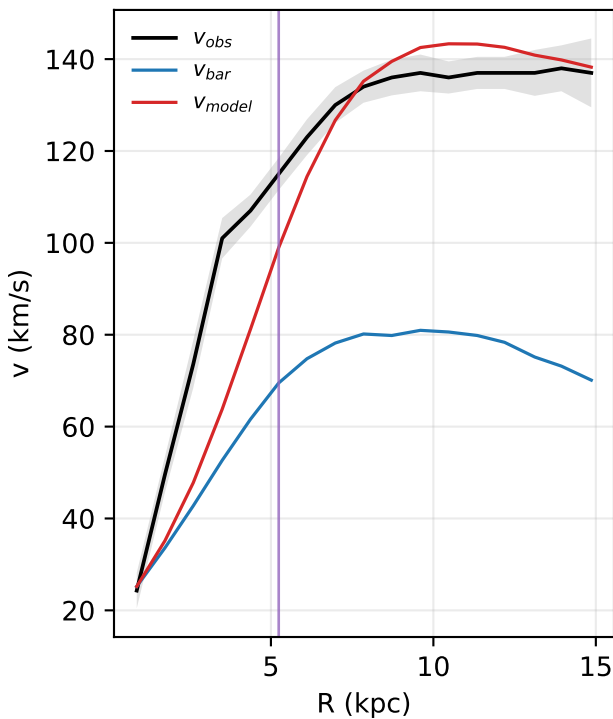

Dyed fabric (inferred effective potential)

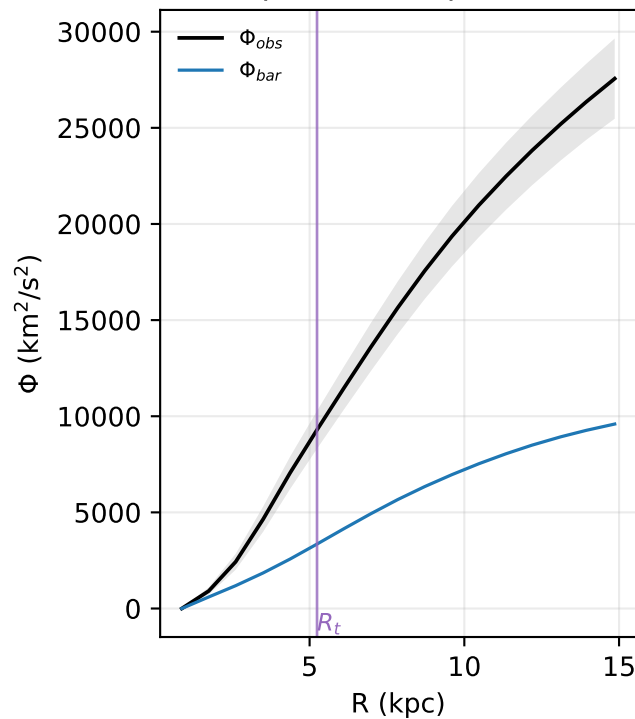

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

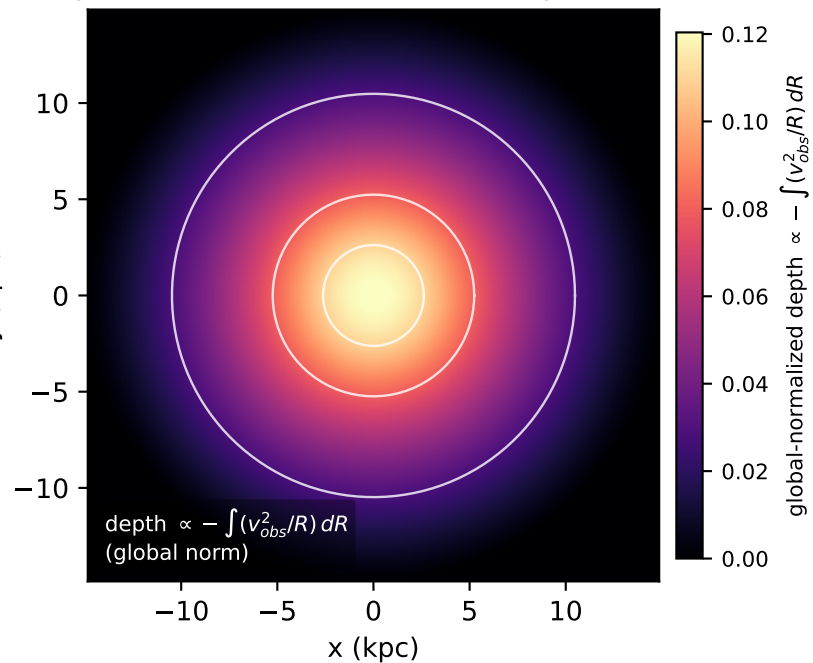

NGC3917: rotation curve

Inferred potential (up to constant)

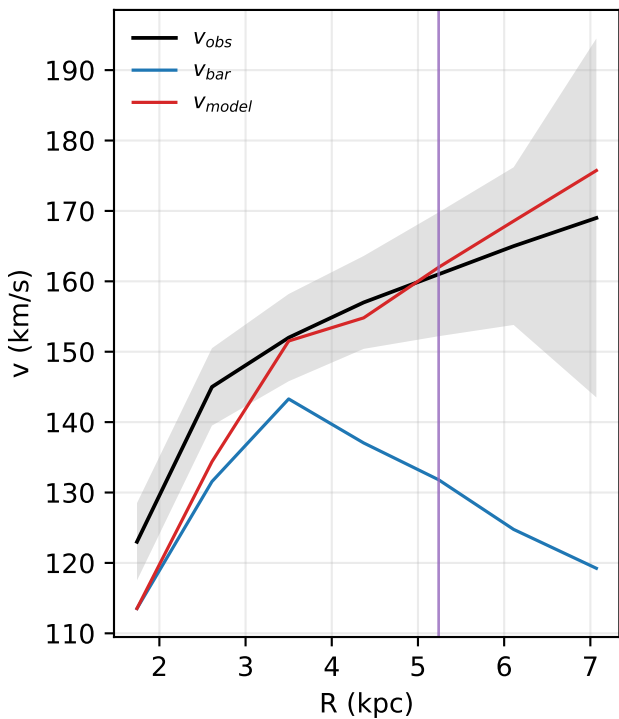

Dyed fabric (inferred effective potential)

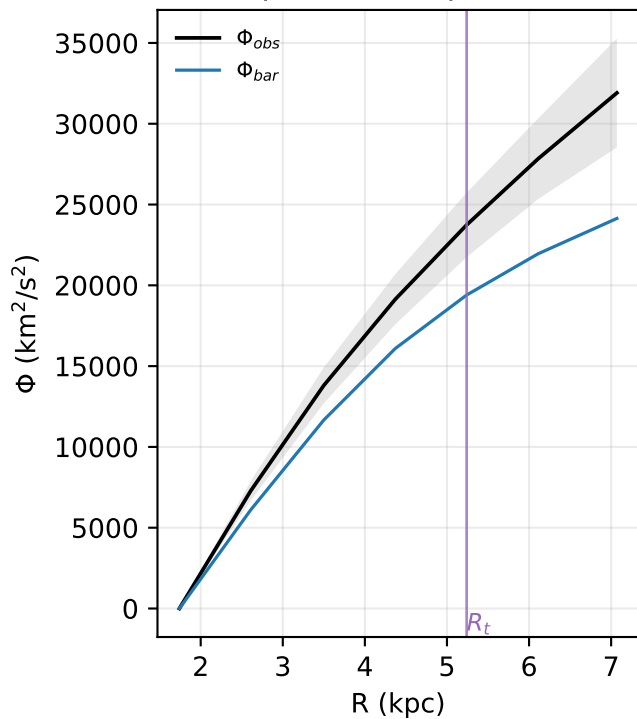

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

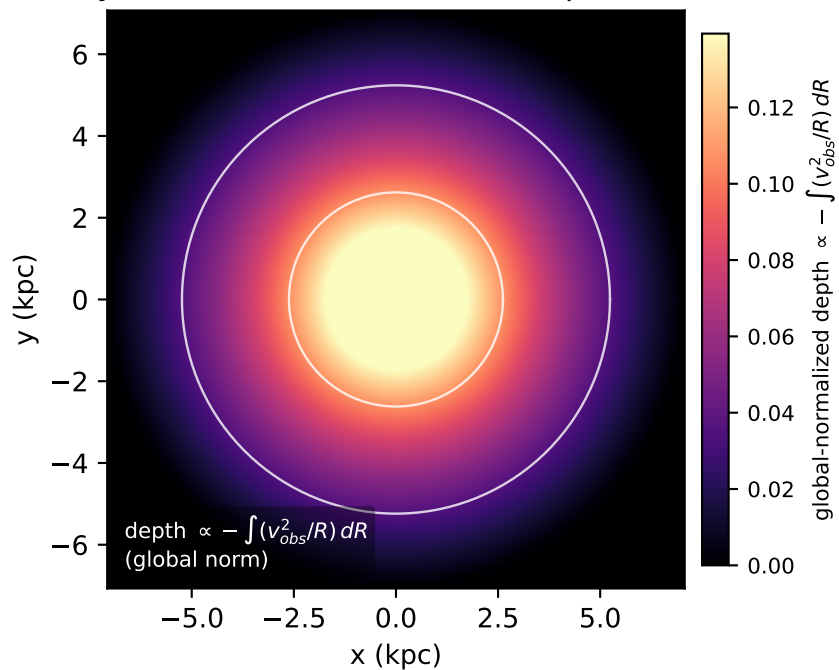

NGC3949: rotation curve

Inferred potential (up to constant)

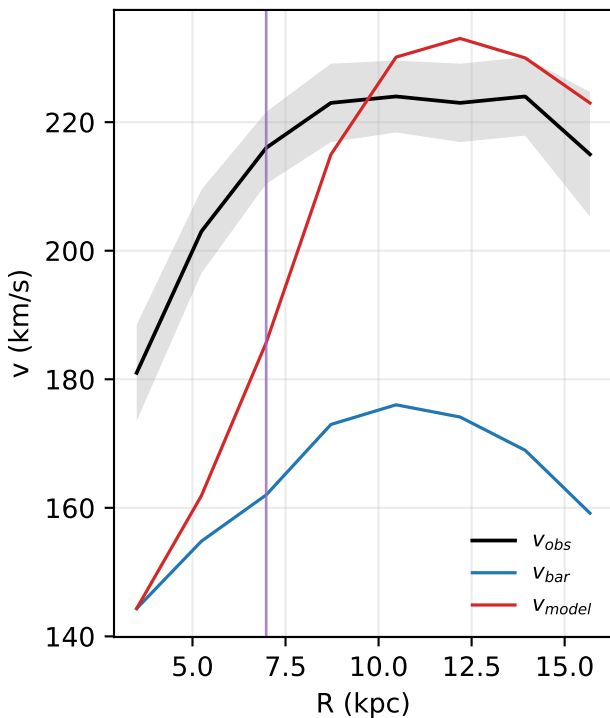

Dyed fabric (inferred effective potential)

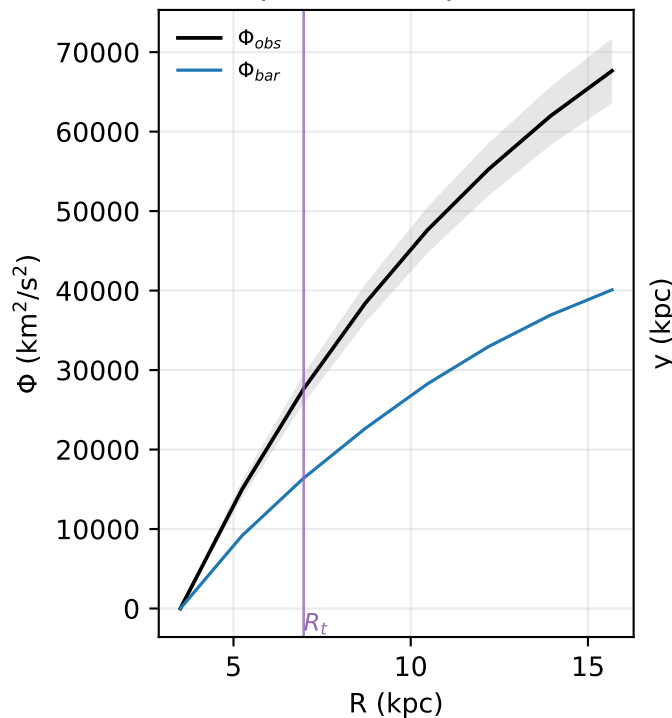

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

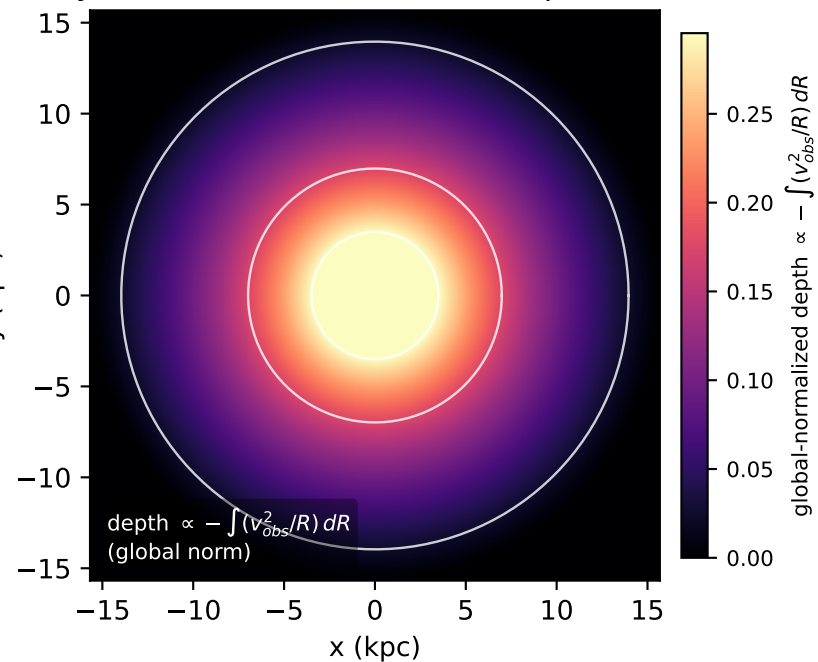

NGC3953: rotation curve

Inferred potential (up to constant)

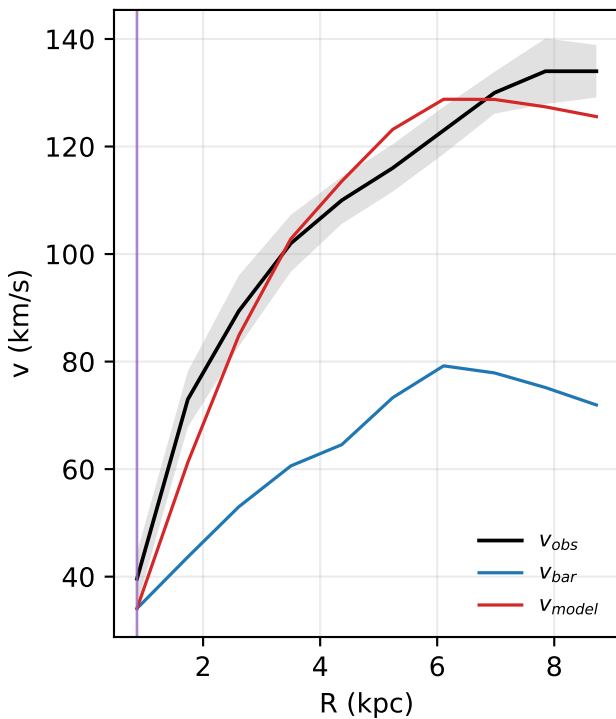

Dyed fabric (inferred effective potential)

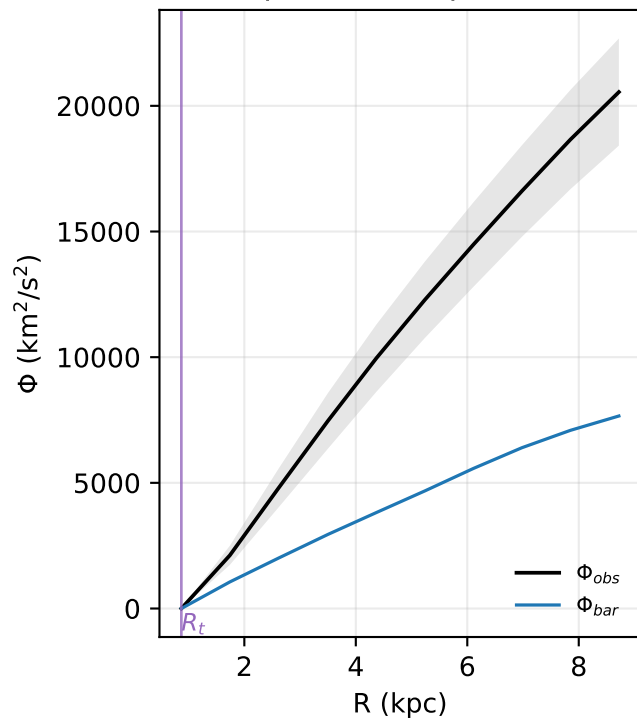

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

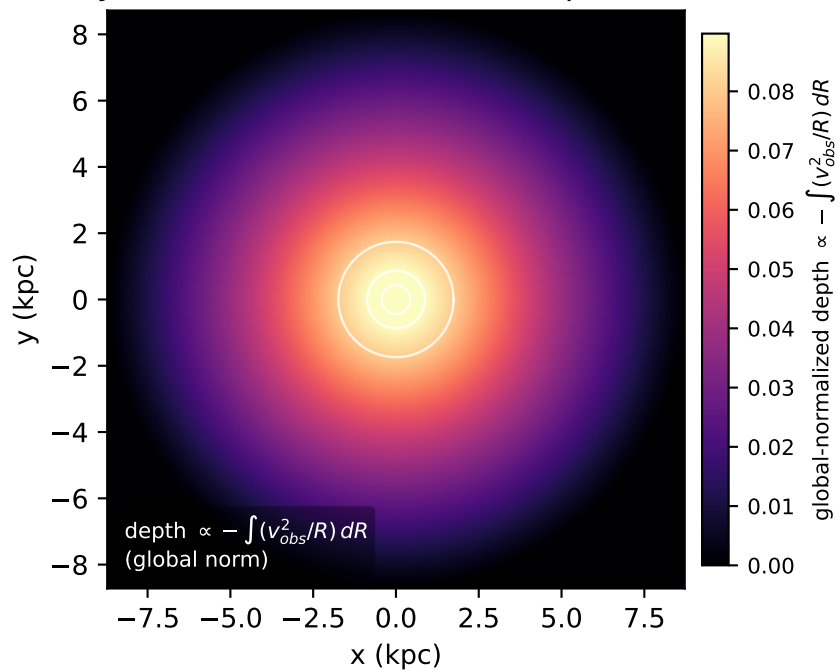

NGC3972: rotation curve

Inferred potential (up to constant)

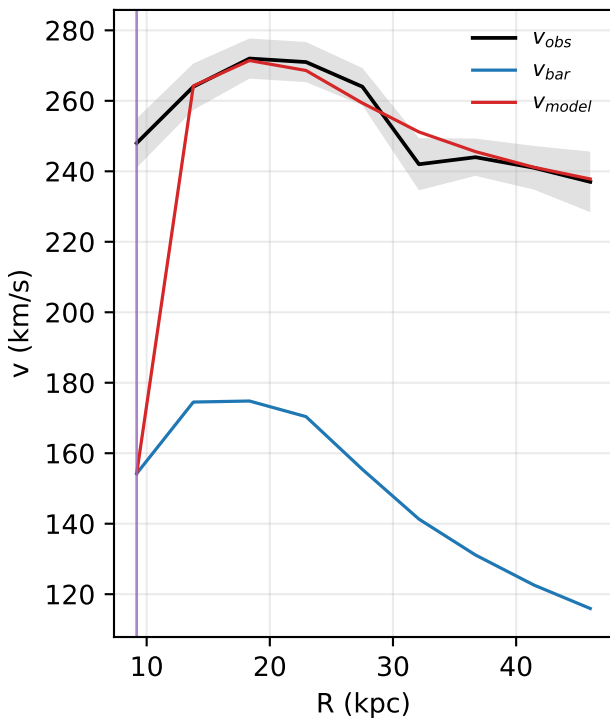

Dyed fabric (inferred effective potential)

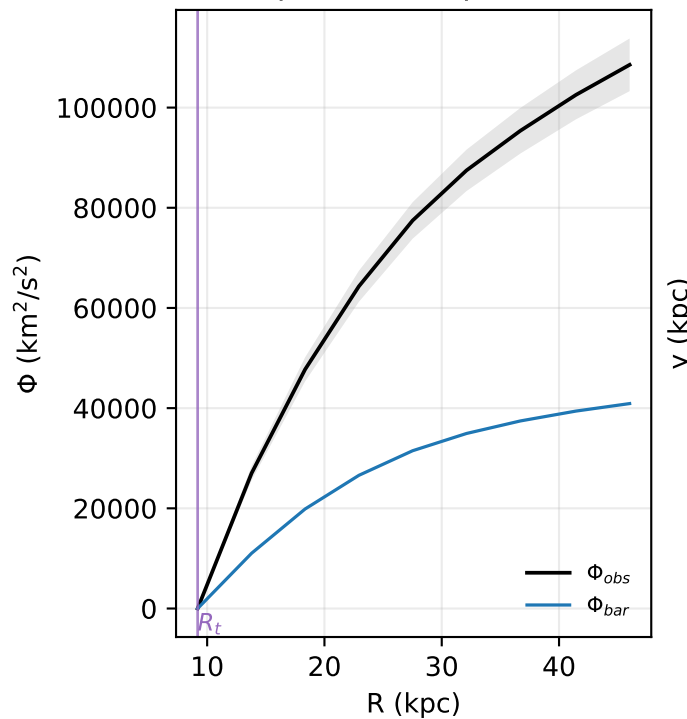

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

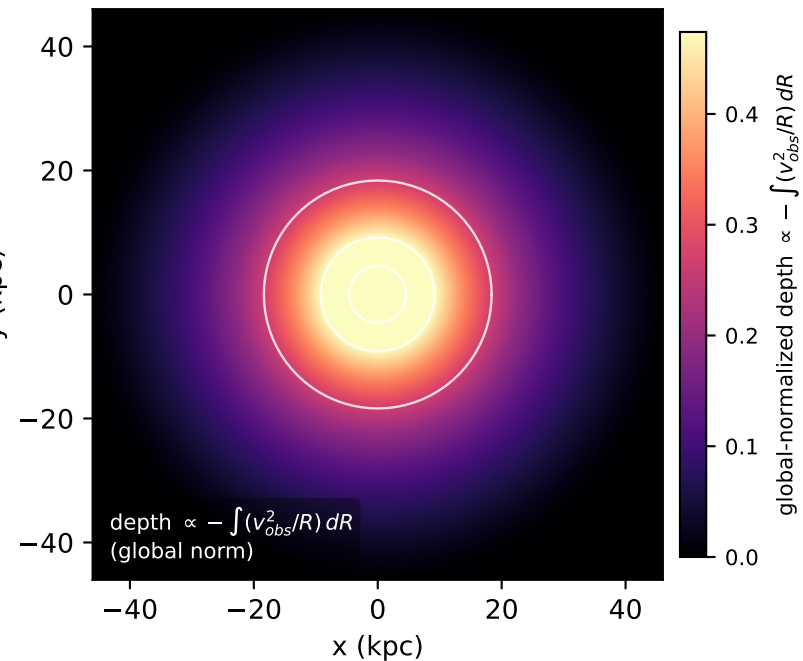

NGC3992: rotation curve

Inferred potential (up to constant)

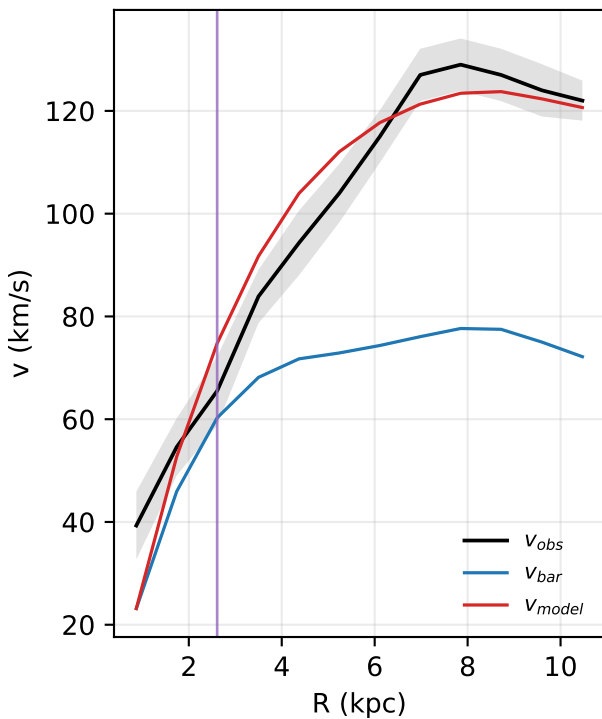

Dyed fabric (inferred effective potential)

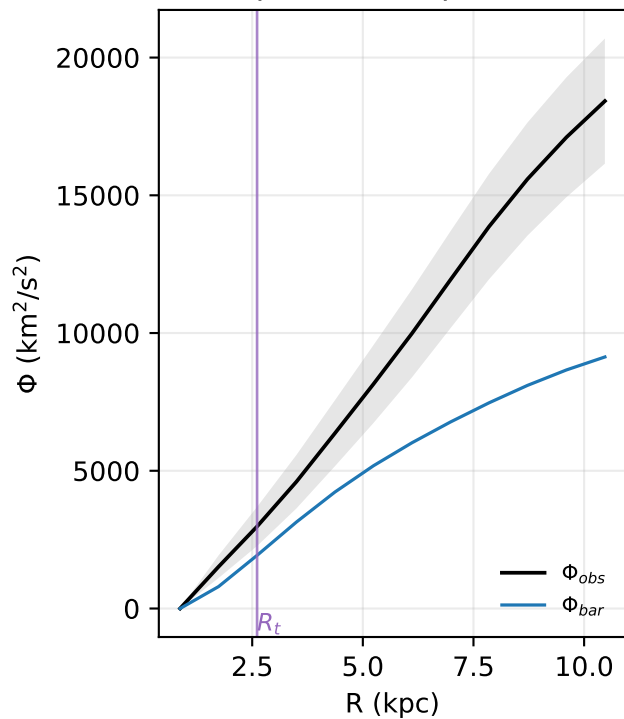

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

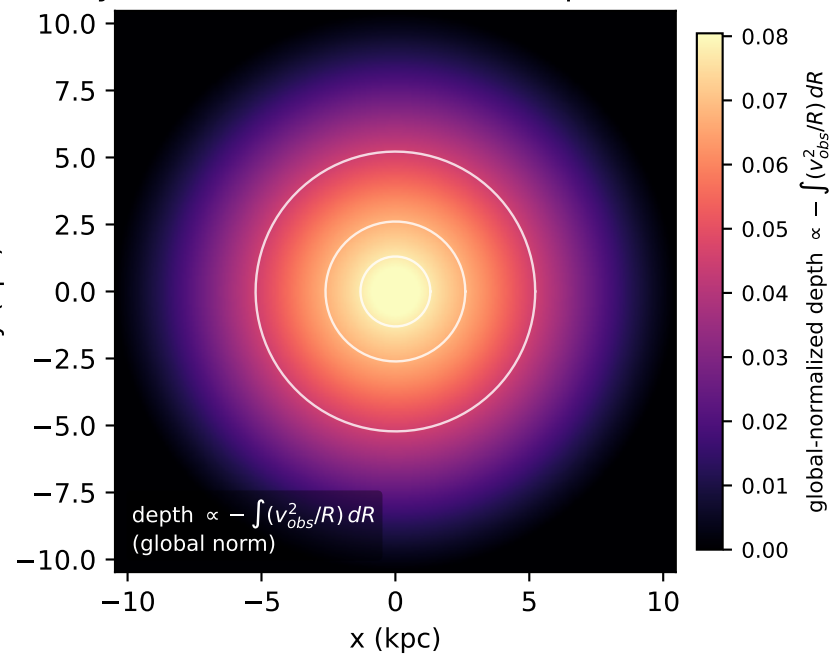

NGC4010: rotation curve

Inferred potential (up to constant)

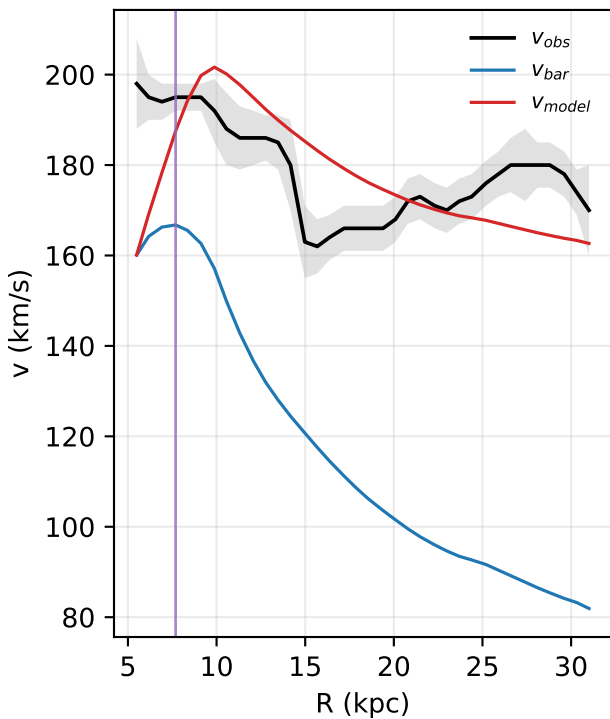

Dyed fabric (inferred effective potential)

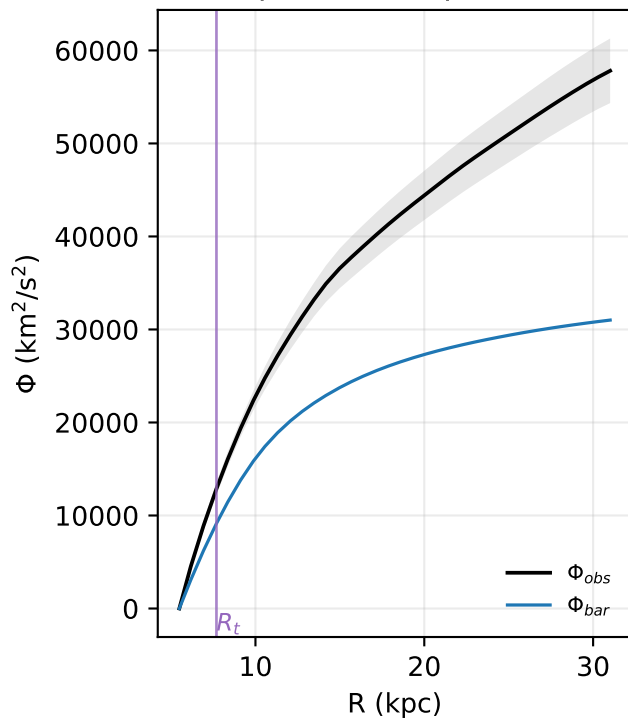

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

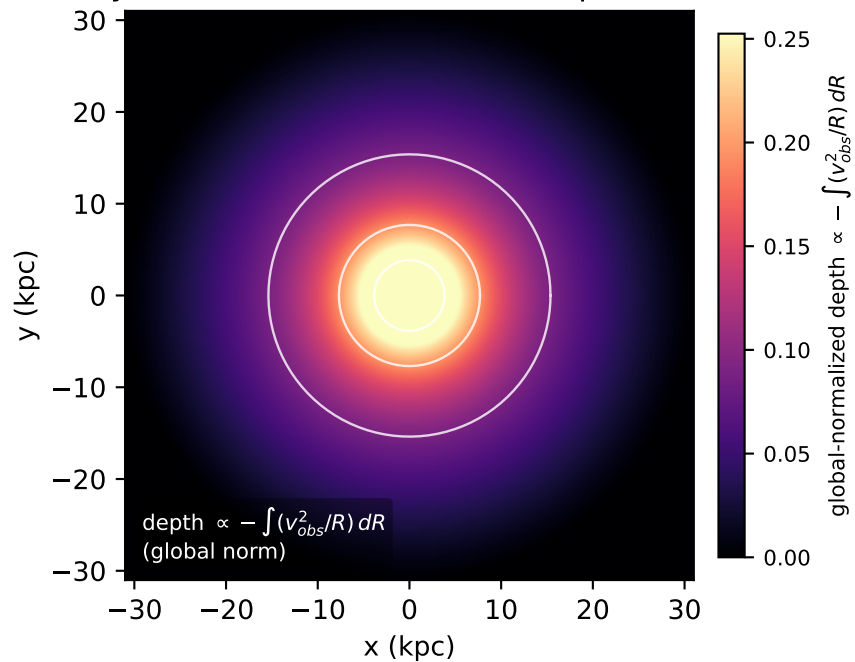

NGC4013: rotation curve

Inferred potential (up to constant)

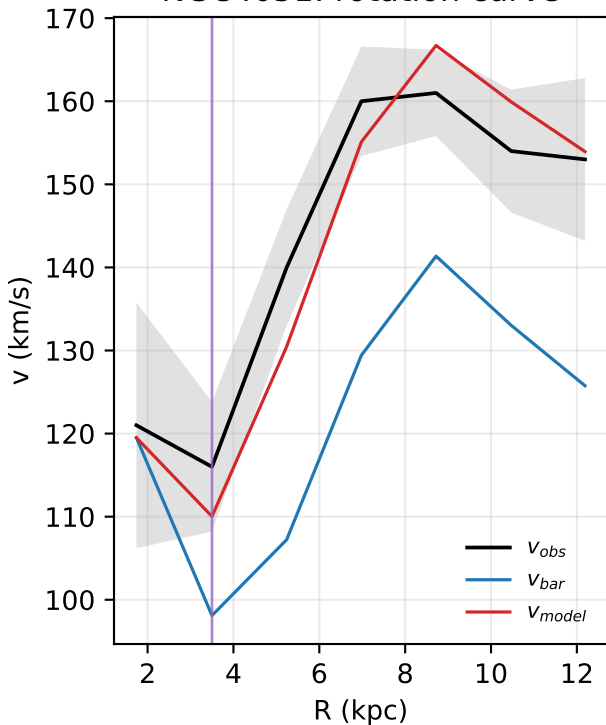

Dyed fabric (inferred effective potential)

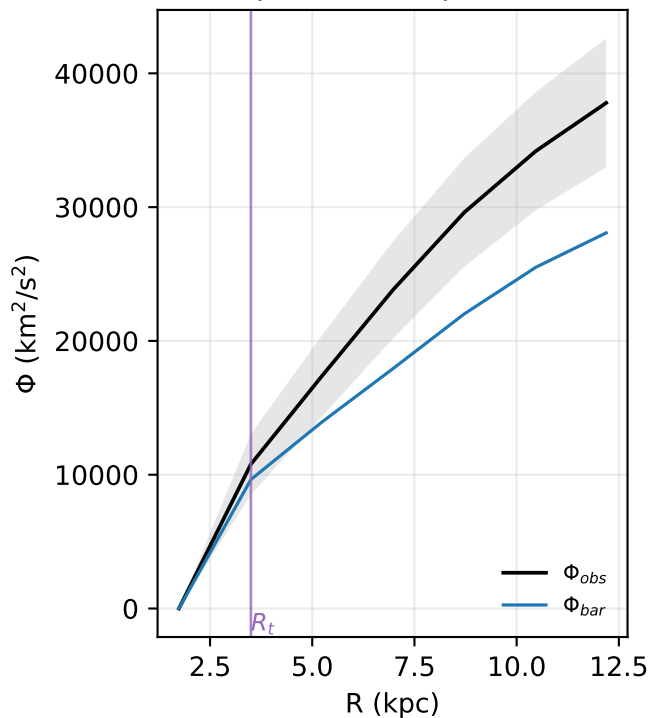

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

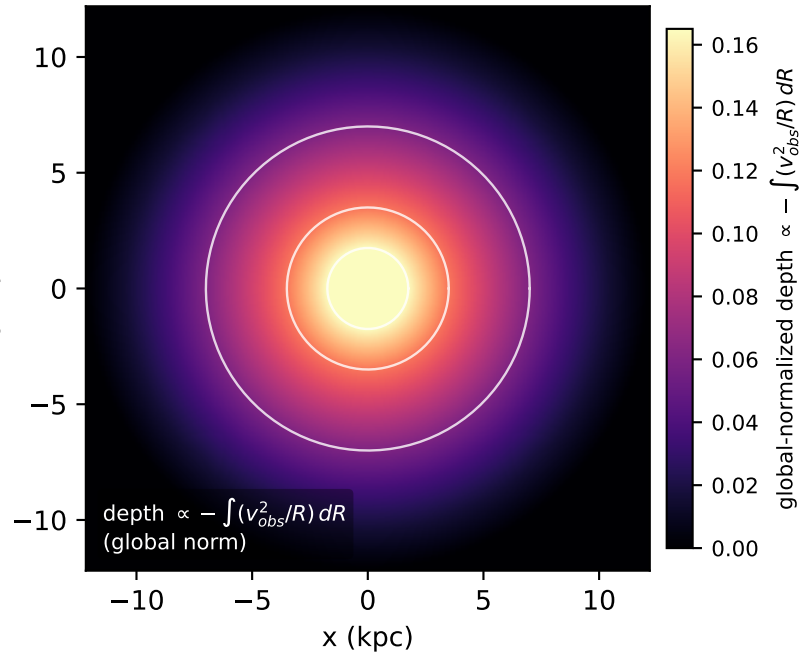

NGC4051: rotation curve

Inferred potential (up to constant)

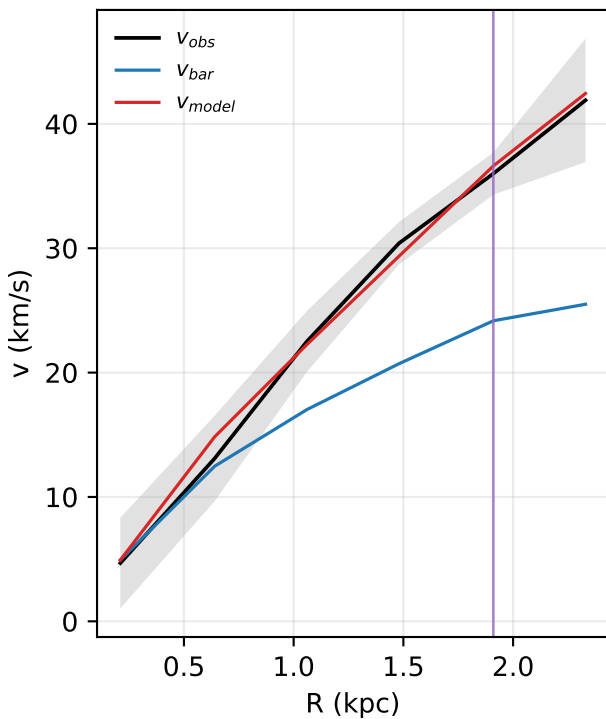

Dyed fabric (inferred effective potential)

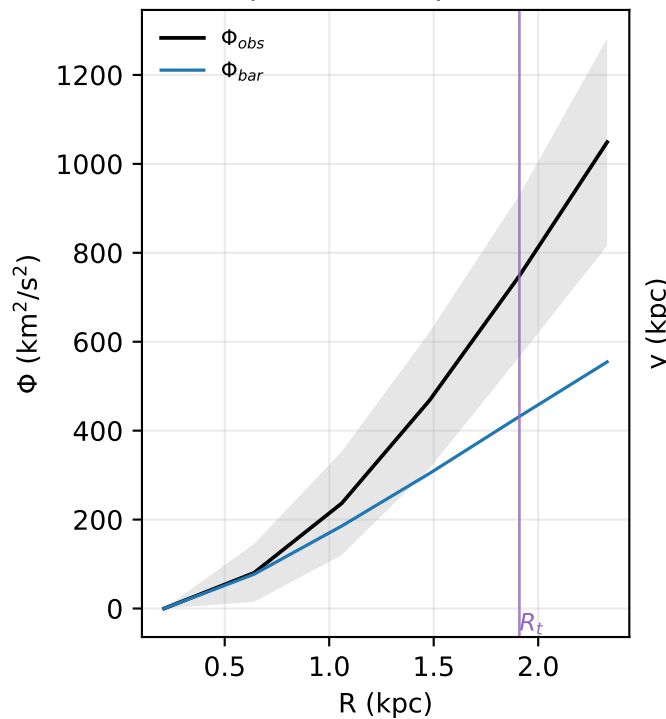

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

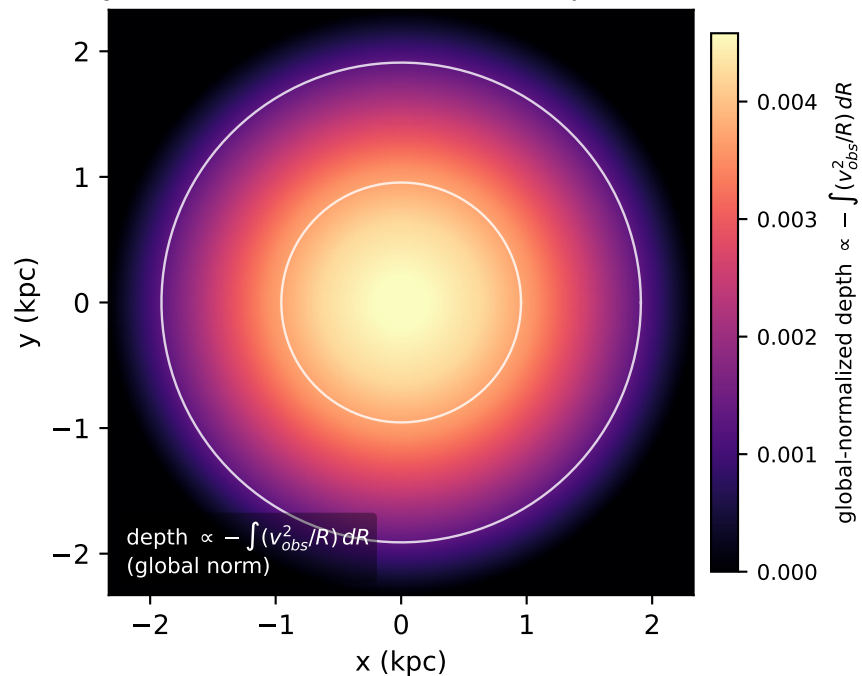

NGC4068: rotation curve

Inferred potential (up to constant)

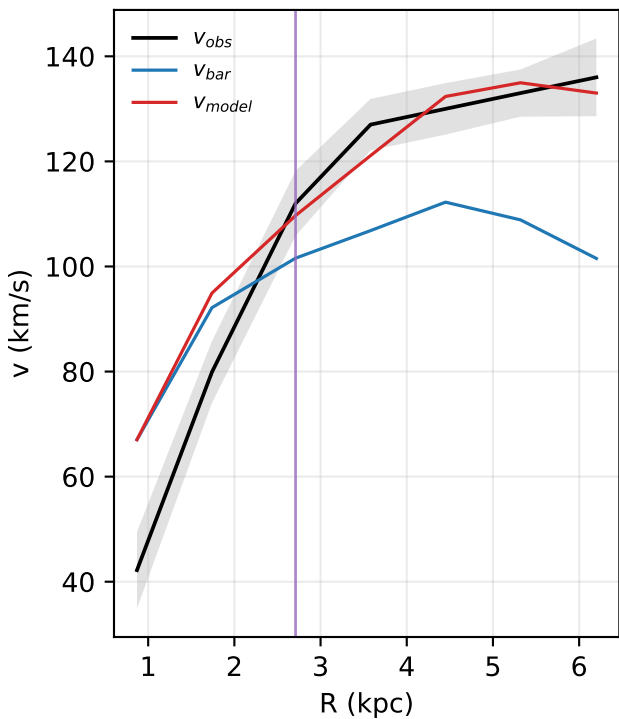

Dyed fabric (inferred effective potential)

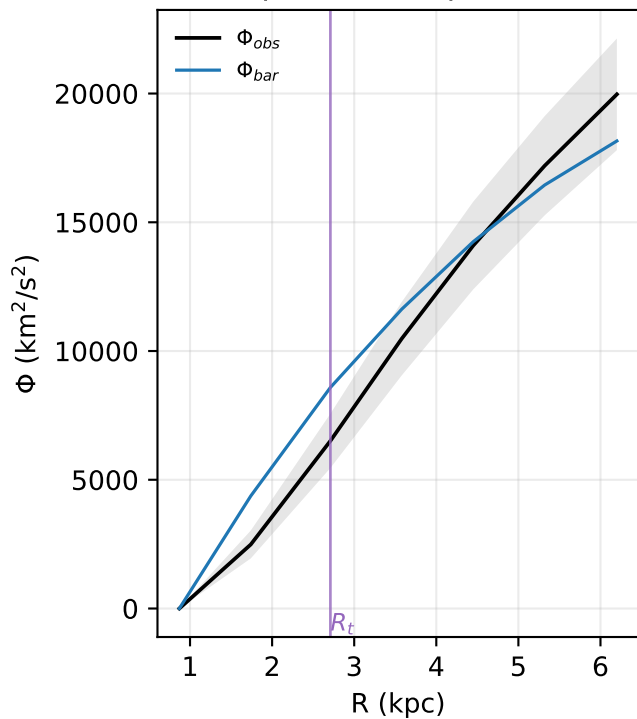

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

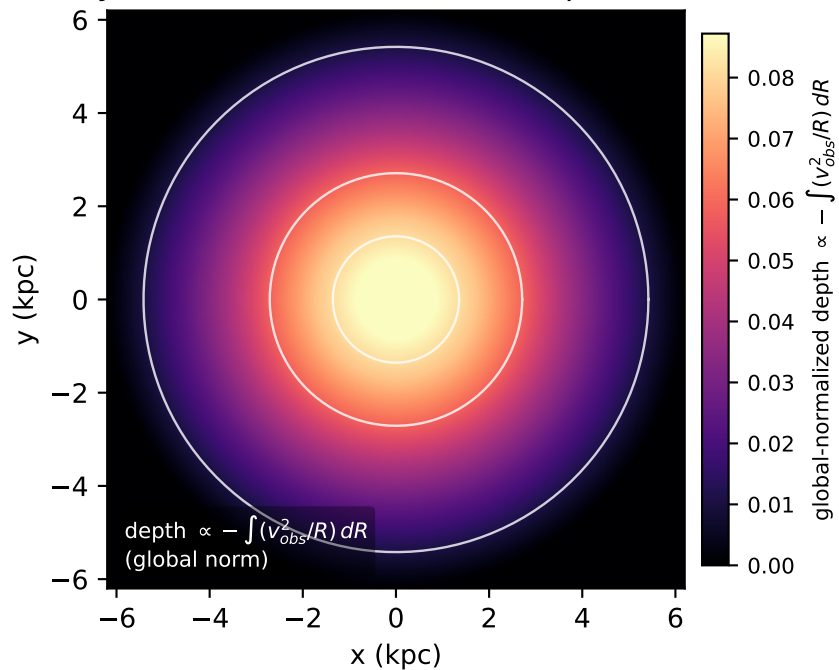

NGC4085: rotation curve

Inferred potential (up to constant)

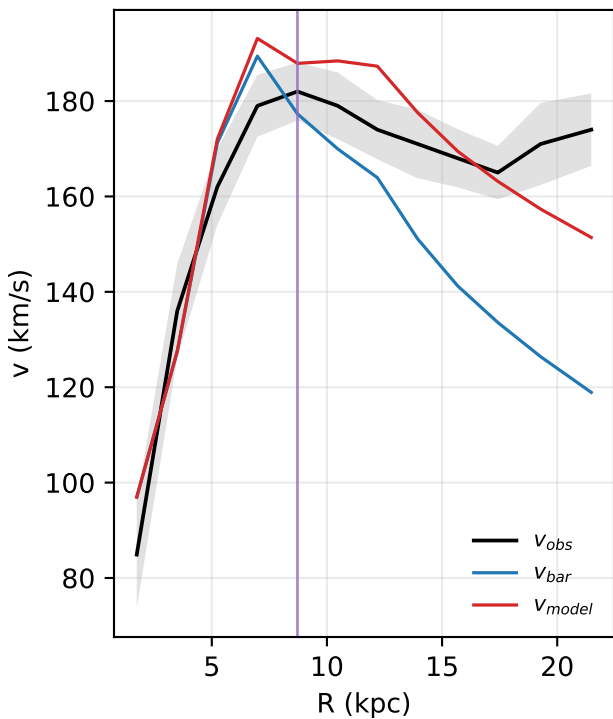

Dyed fabric (inferred effective potential)

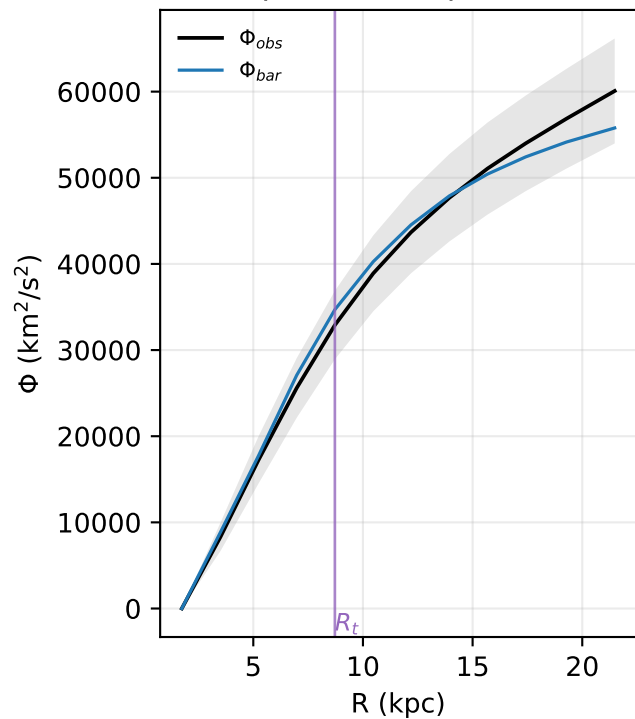

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

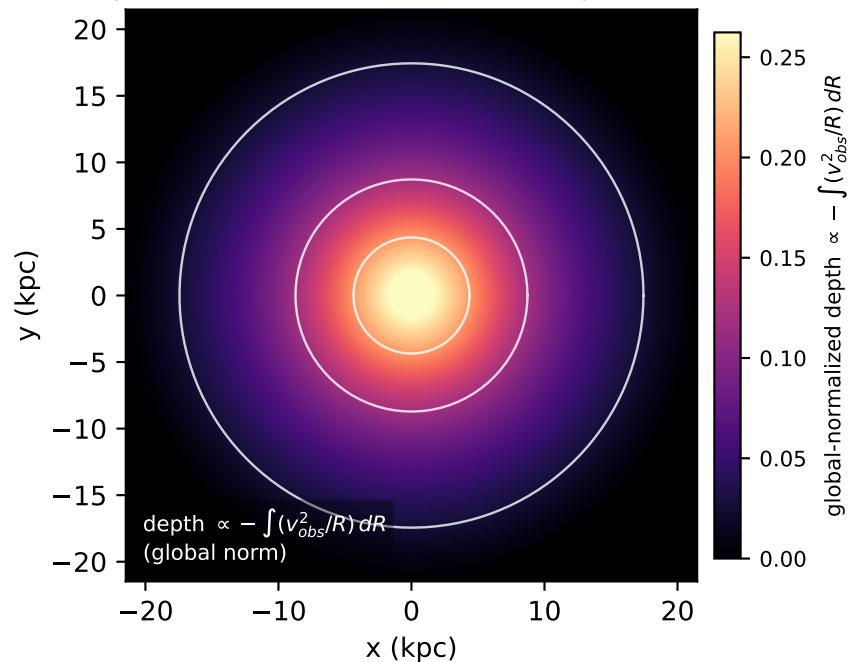

NGC4088: rotation curve

Inferred potential (up to constant)

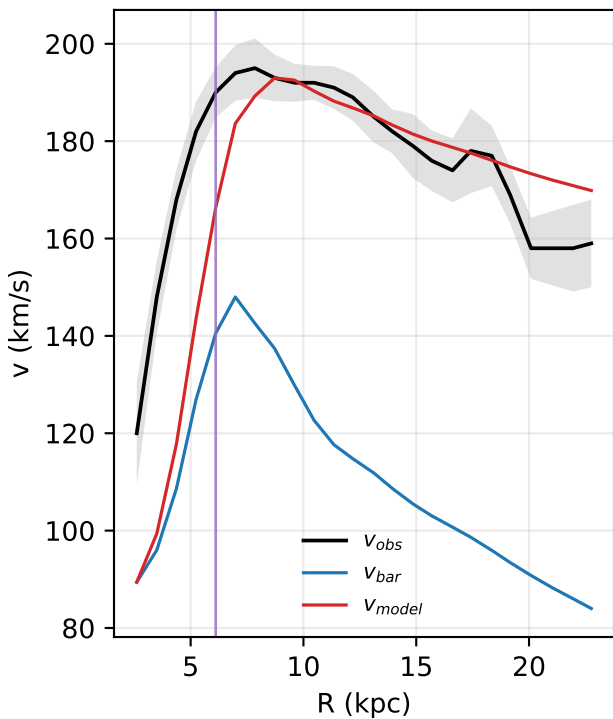

Dyed fabric (inferred effective potential)

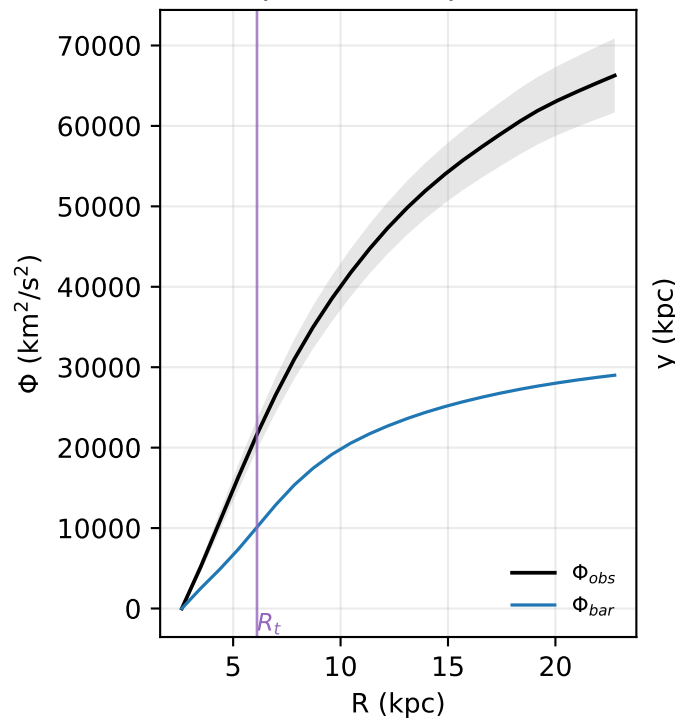

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

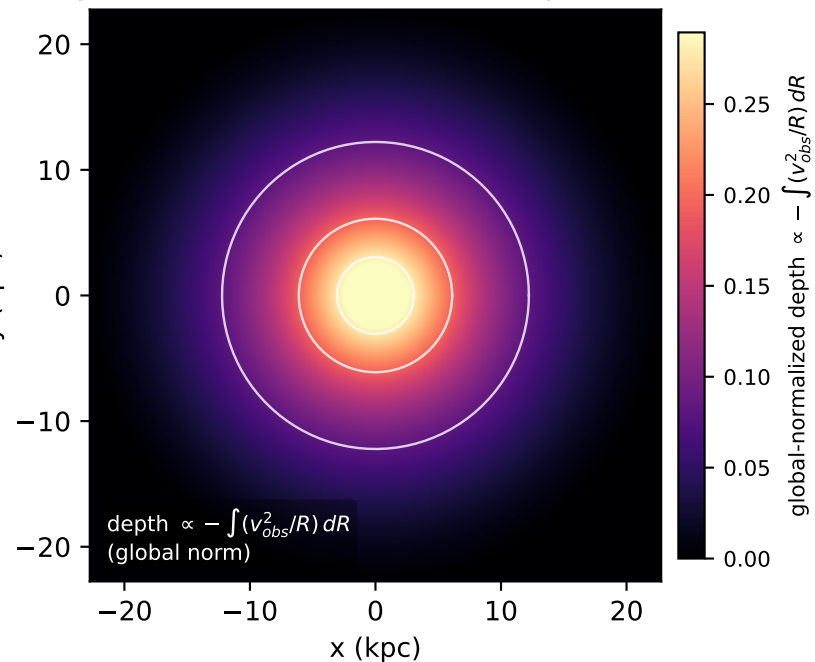

NGC4100: rotation curve

Inferred potential (up to constant)

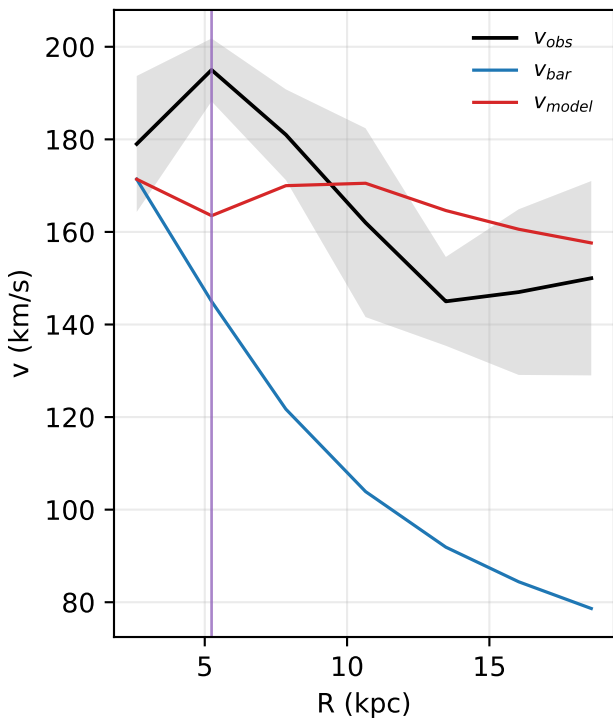

Dyed fabric (inferred effective potential)

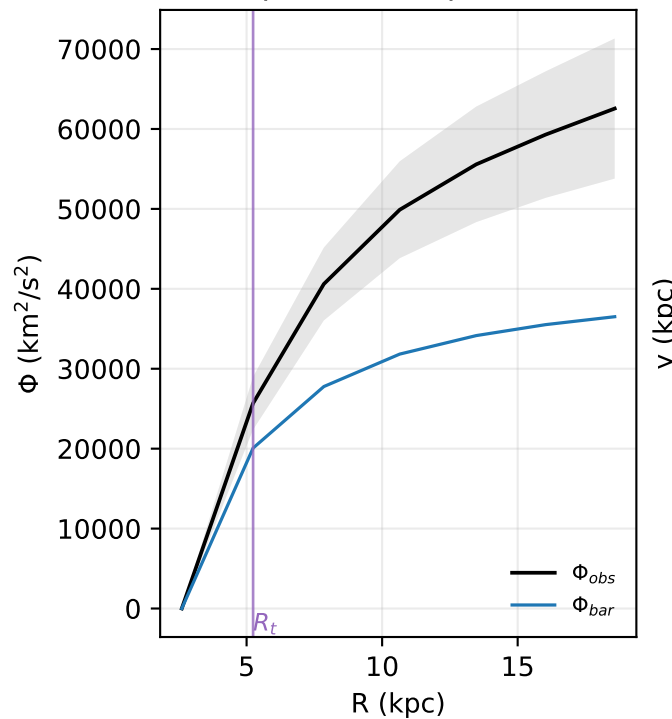

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

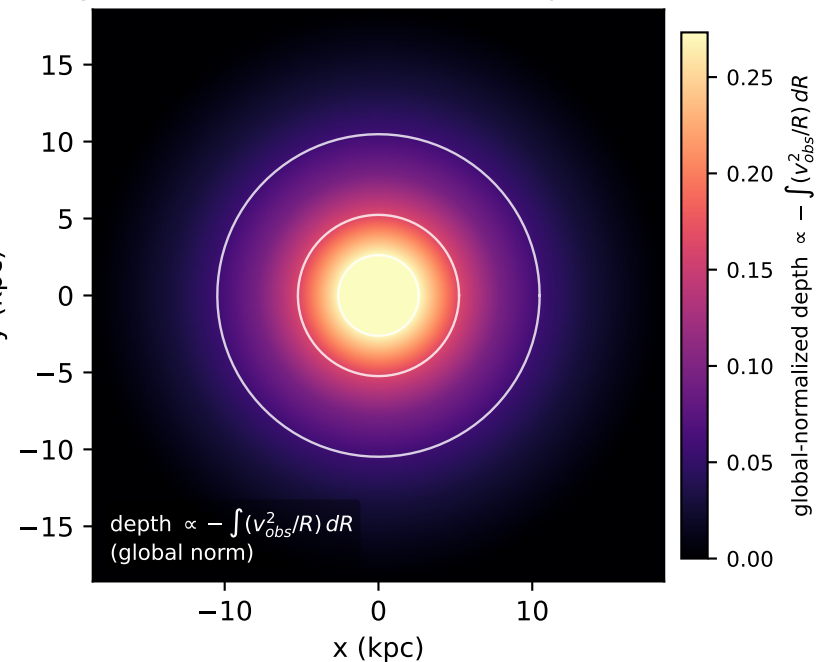

NGC4138: rotation curve

Inferred potential (up to constant)

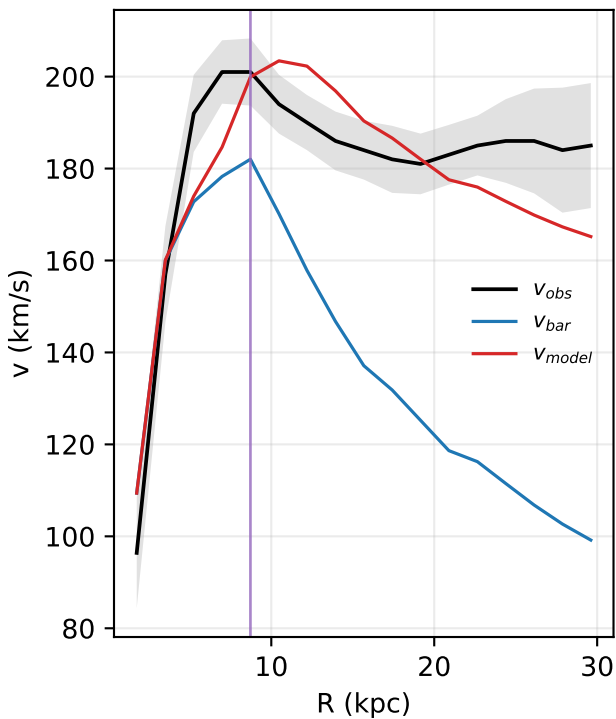

Dyed fabric (inferred effective potential)

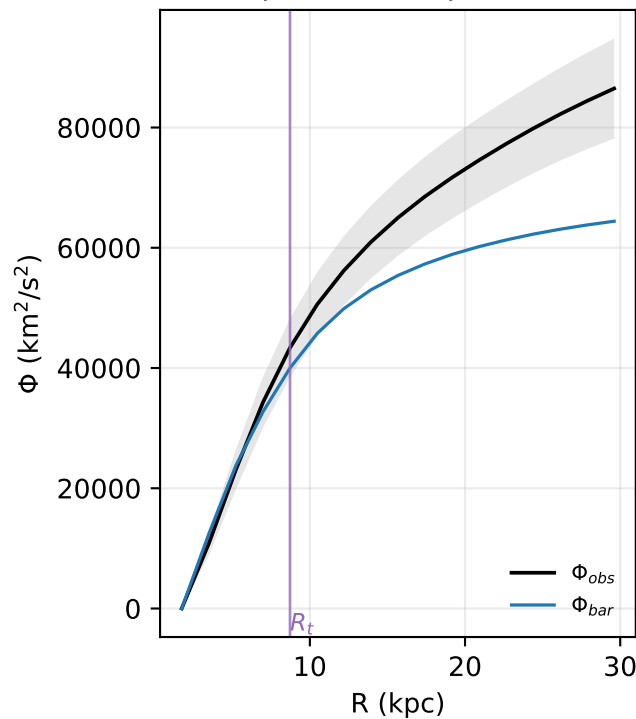

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

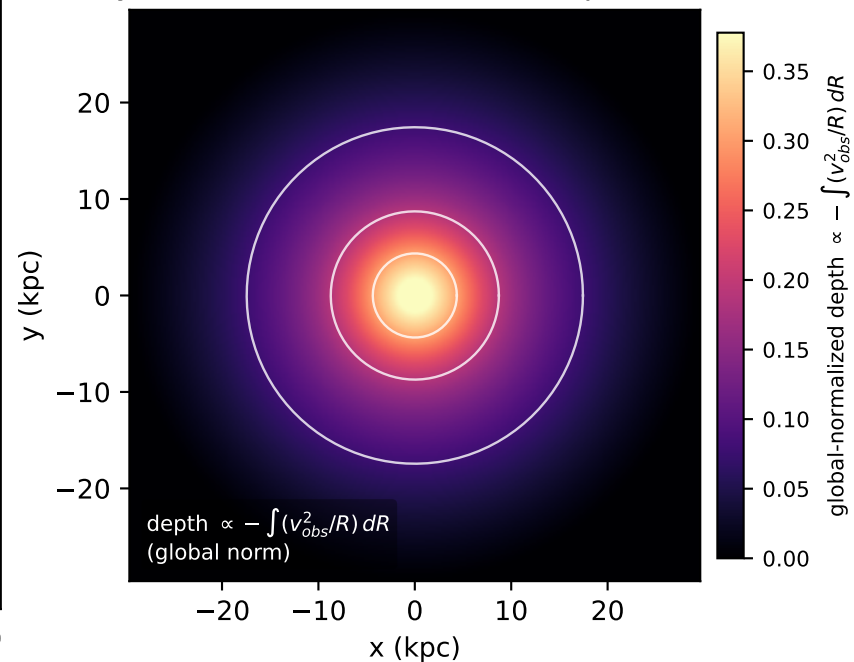

NGC4157: rotation curve

Inferred potential (up to constant)

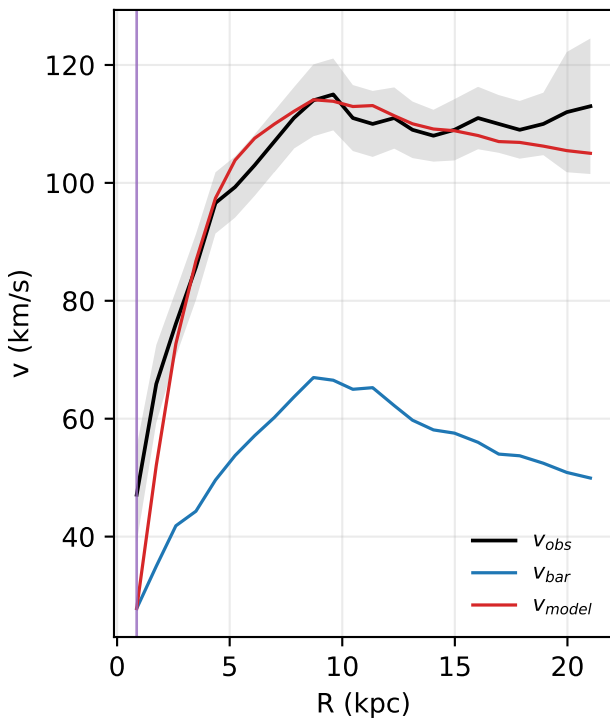

Dyed fabric (inferred effective potential)

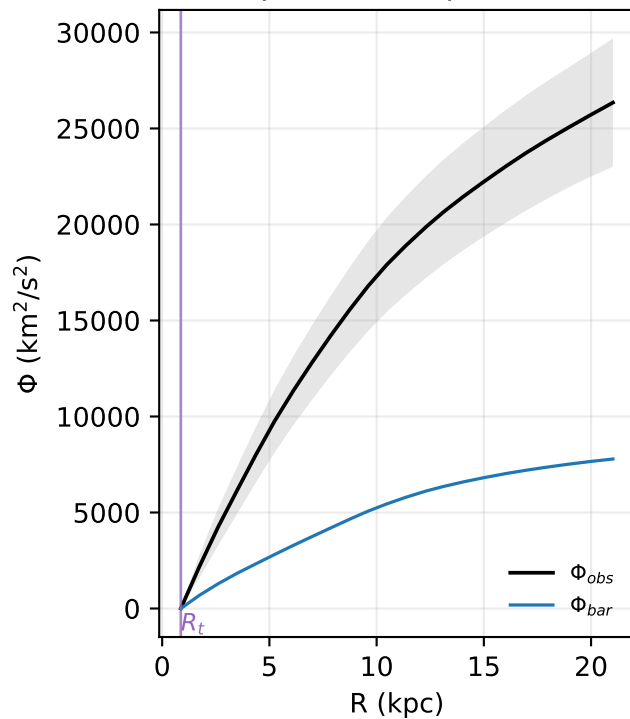

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

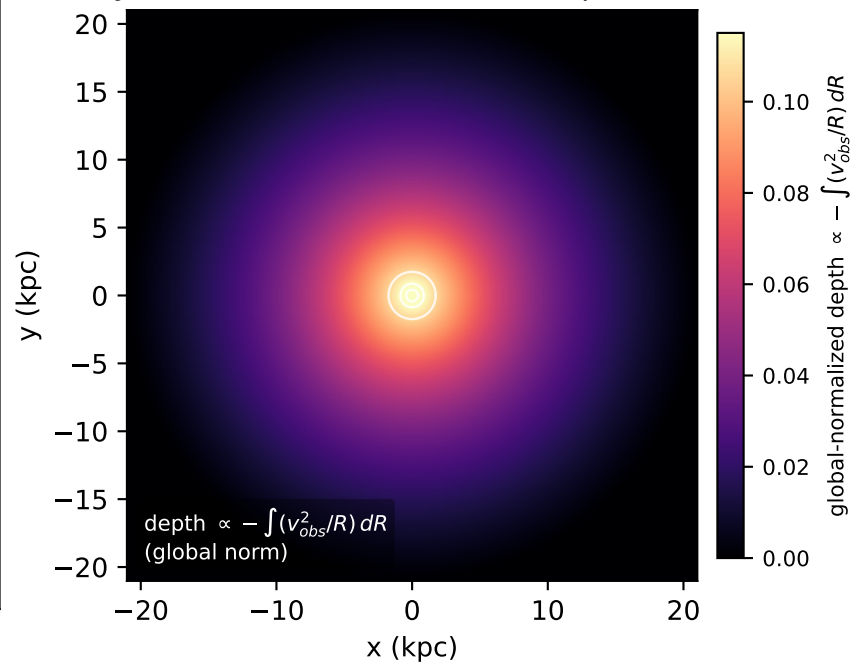

NGC4183: rotation curve

Inferred potential (up to constant)

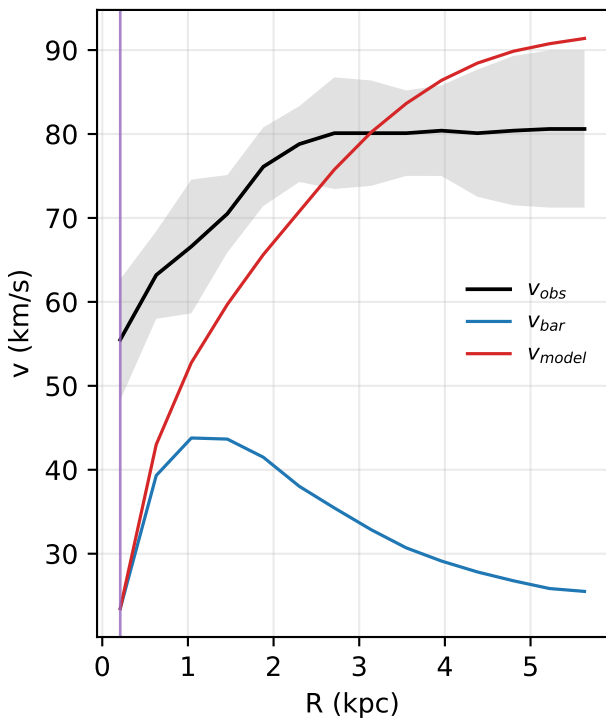

Dyed fabric (inferred effective potential)

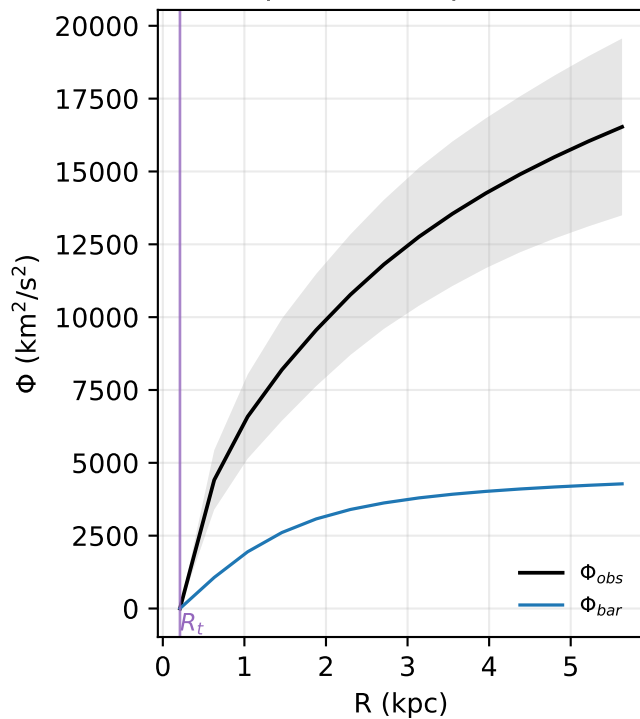

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

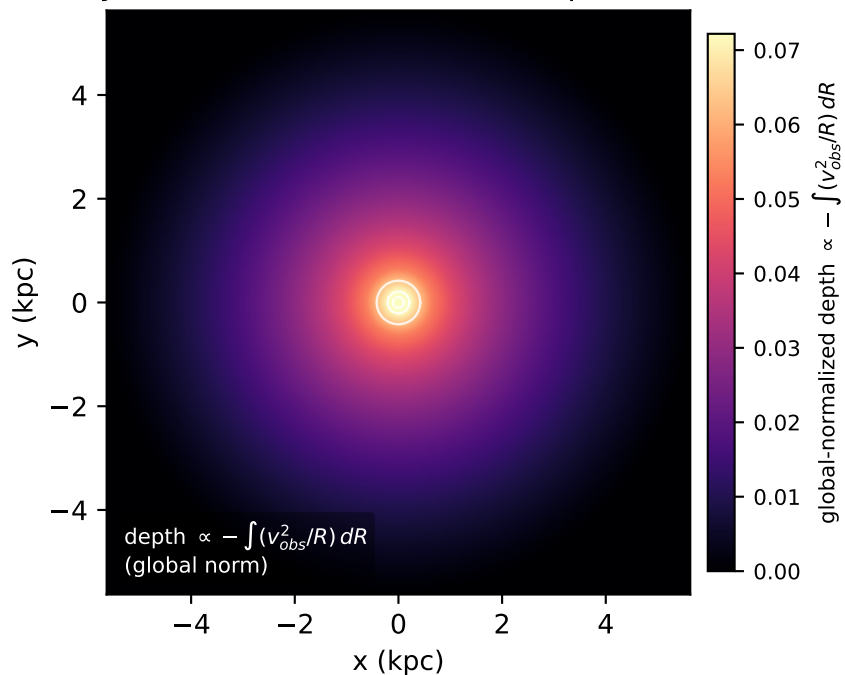

NGC4214: rotation curve

Inferred potential (up to constant)

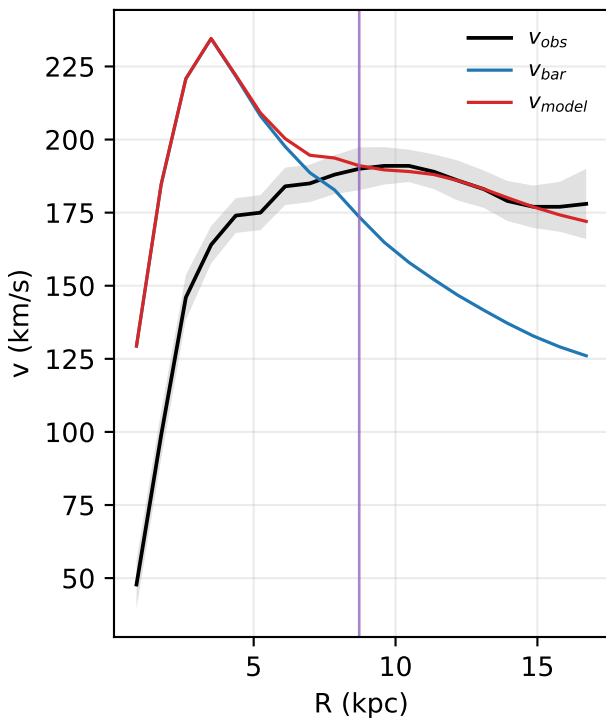

Dyed fabric (inferred effective potential)

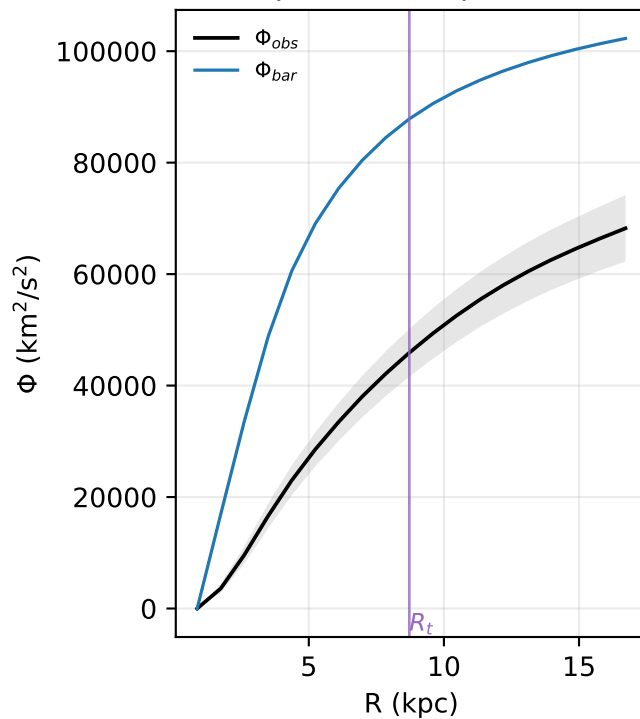

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

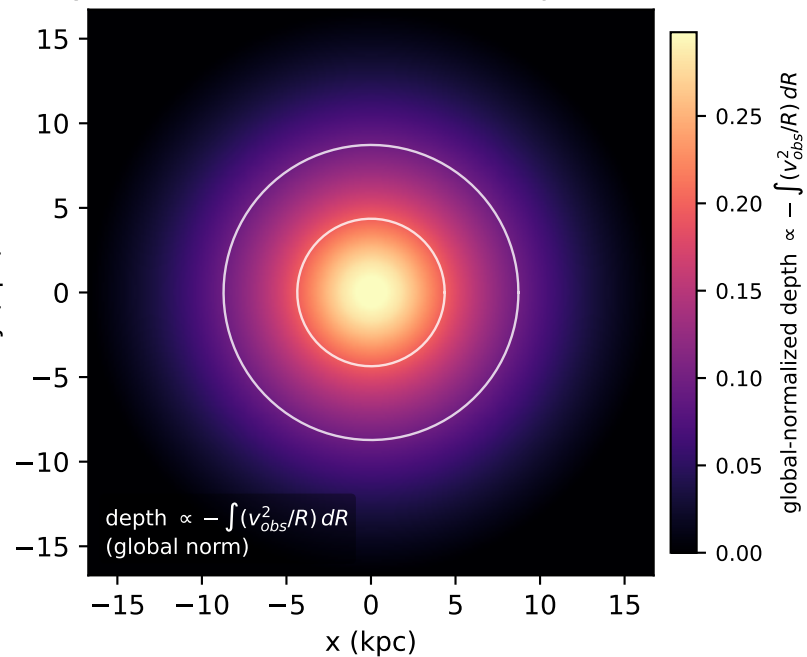

NGC4217: rotation curve

Inferred potential (up to constant)

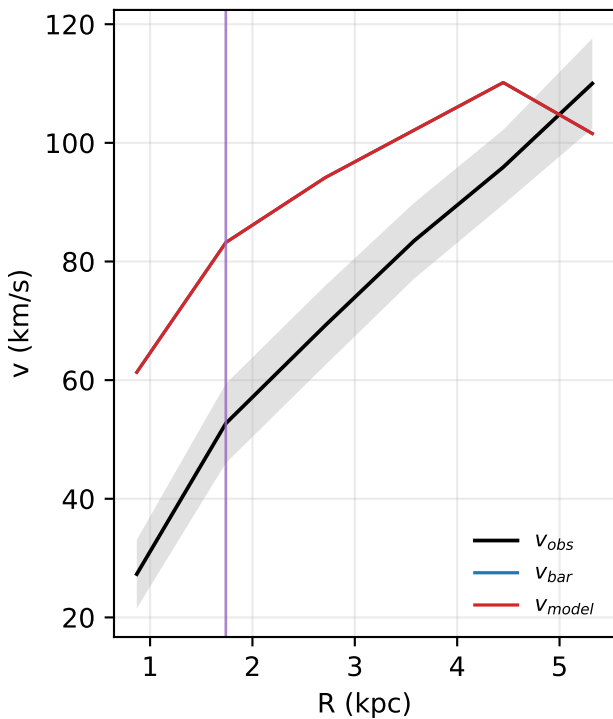

Dyed fabric (inferred effective potential)

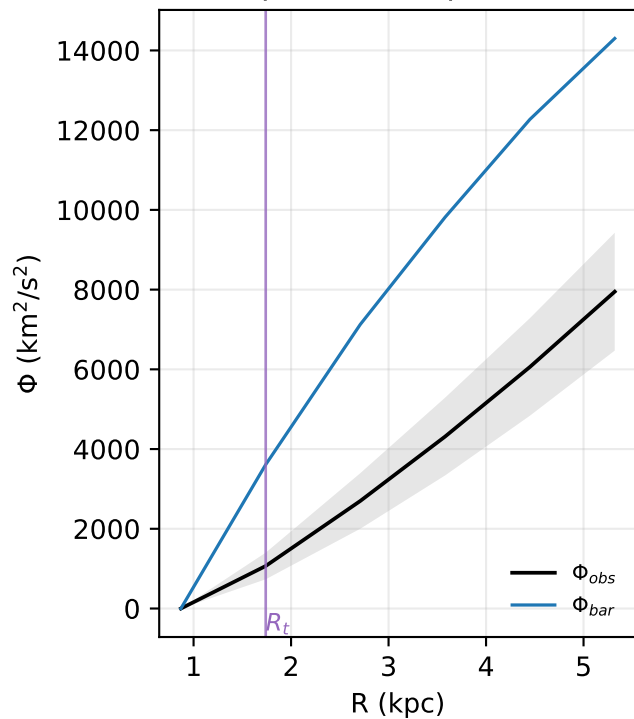

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

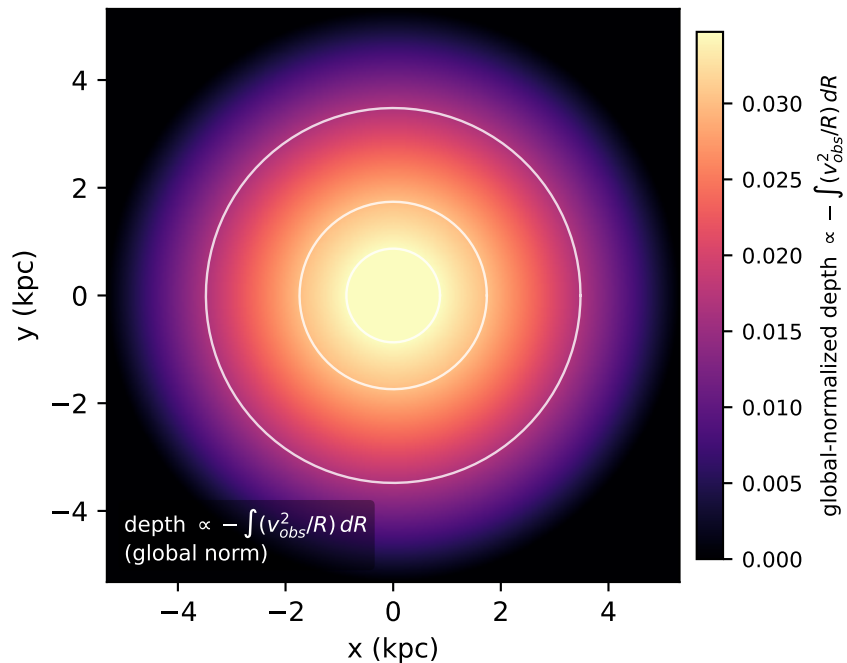

NGC4389: rotation curve

Inferred potential (up to constant)

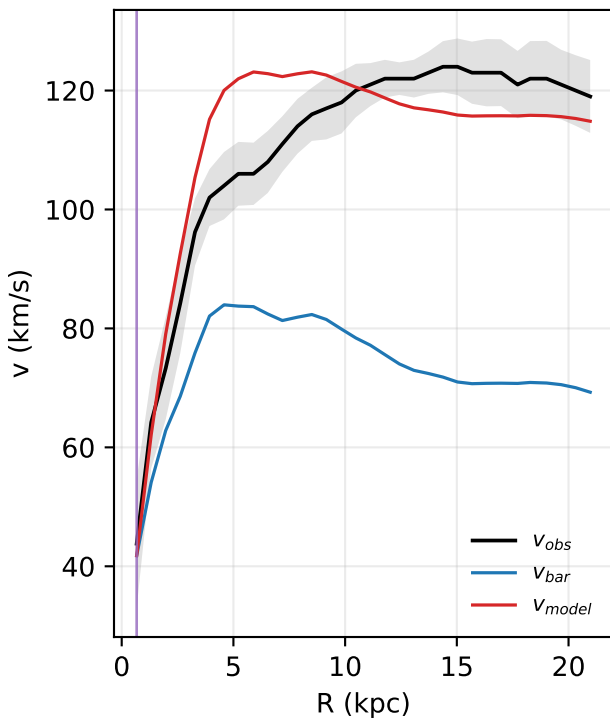

Dyed fabric (inferred effective potential)

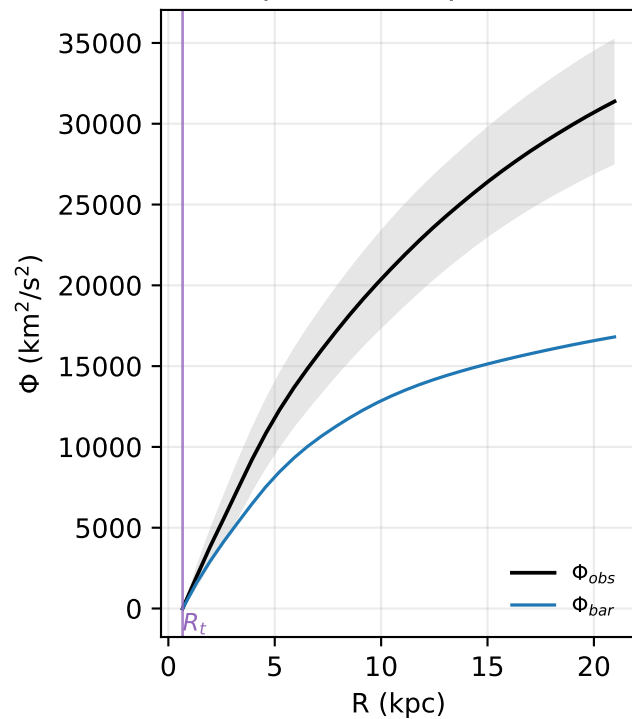

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

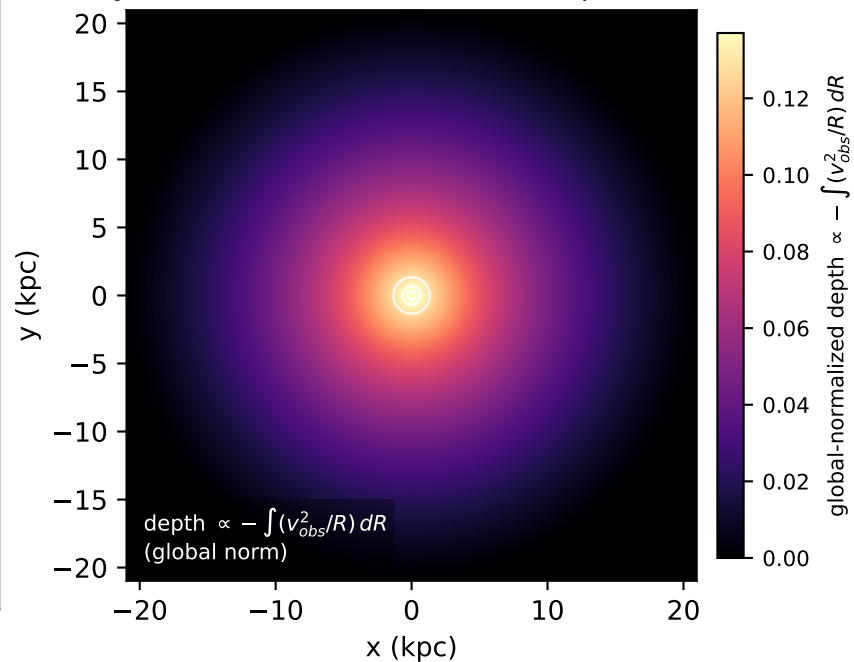

NGC4559: rotation curve

Inferred potential (up to constant)

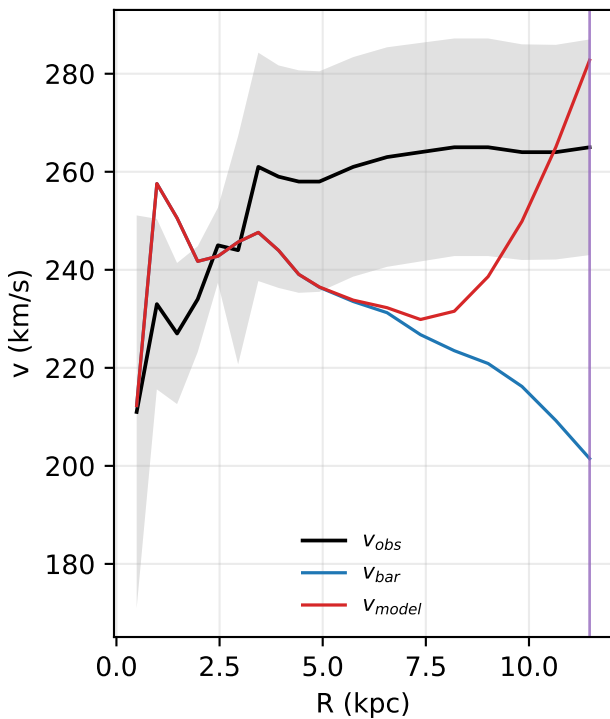

Dyed fabric (inferred effective potential)

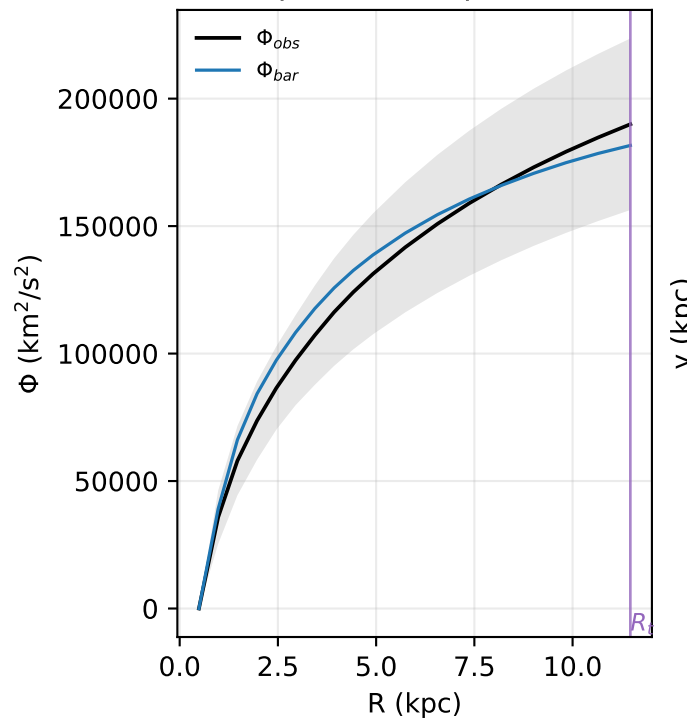

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

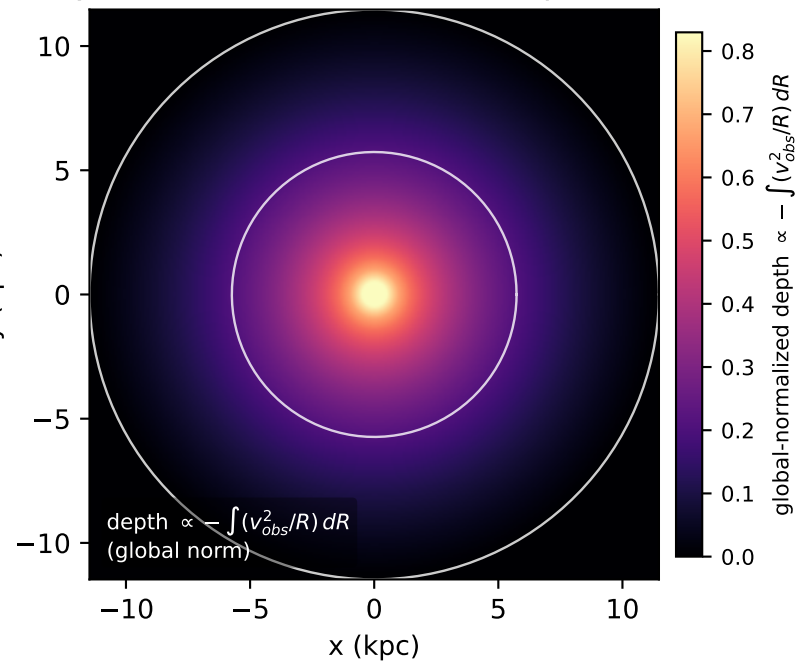

NGC5005: rotation curve

Inferred potential (up to constant)

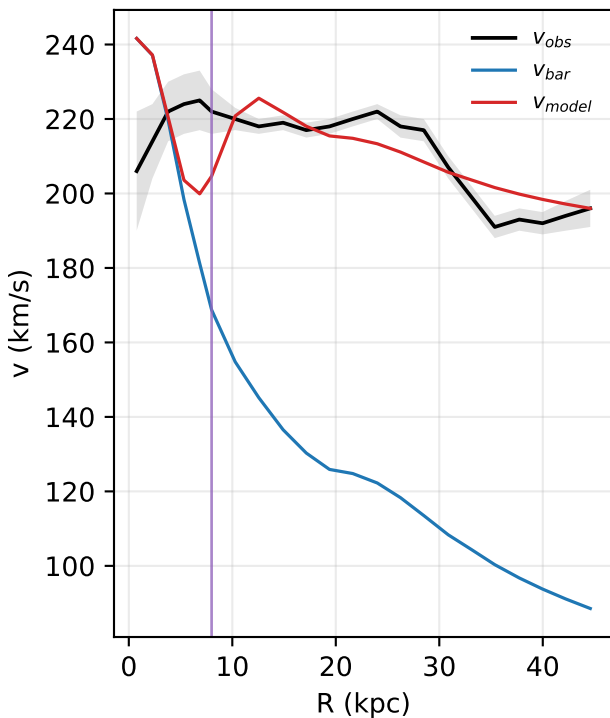

Dyed fabric (inferred effective potential)

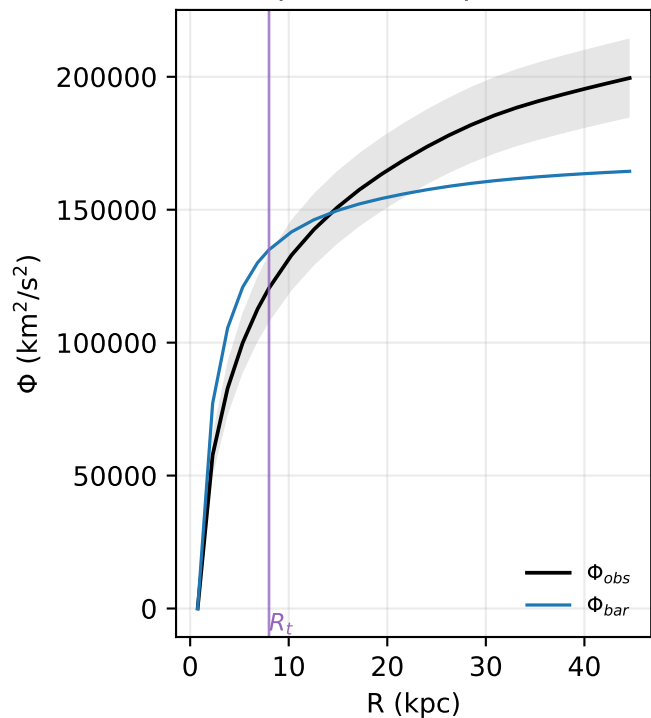

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

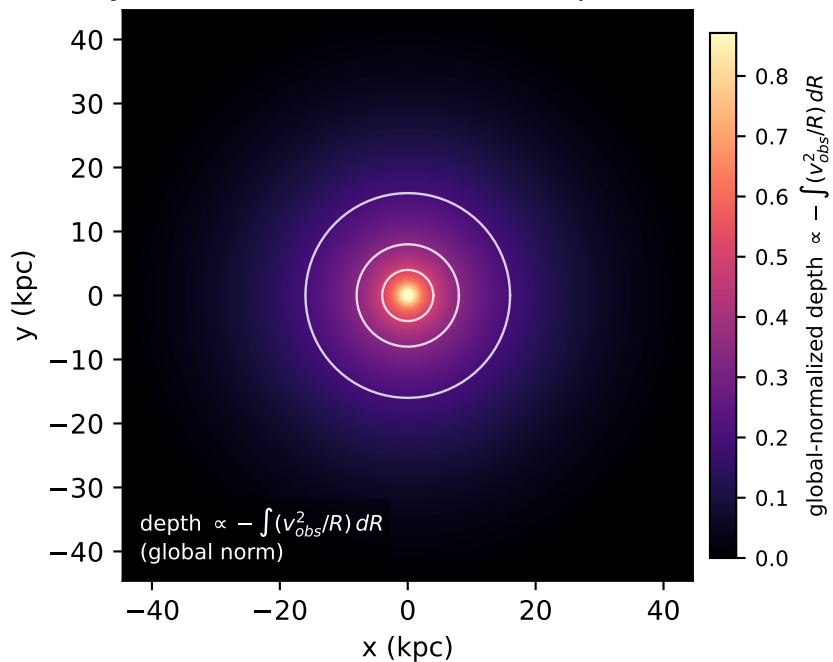

NGC5033: rotation curve

Inferred potential (up to constant)

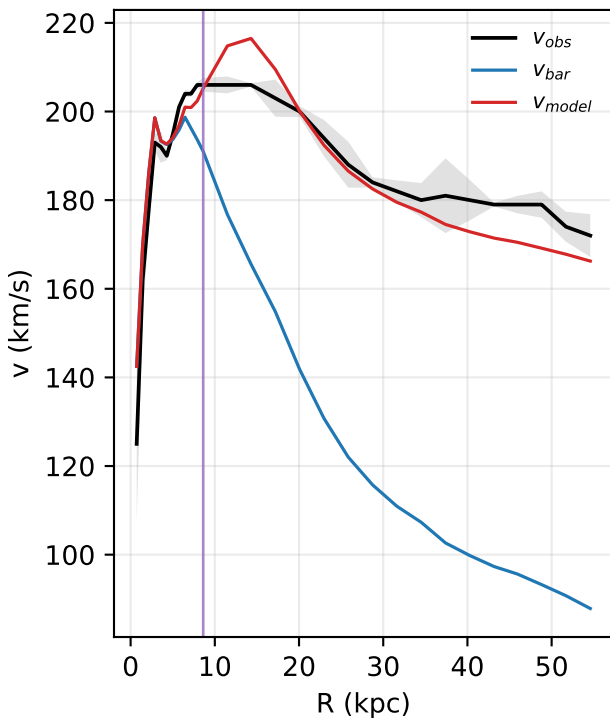

Dyed fabric (inferred effective potential)

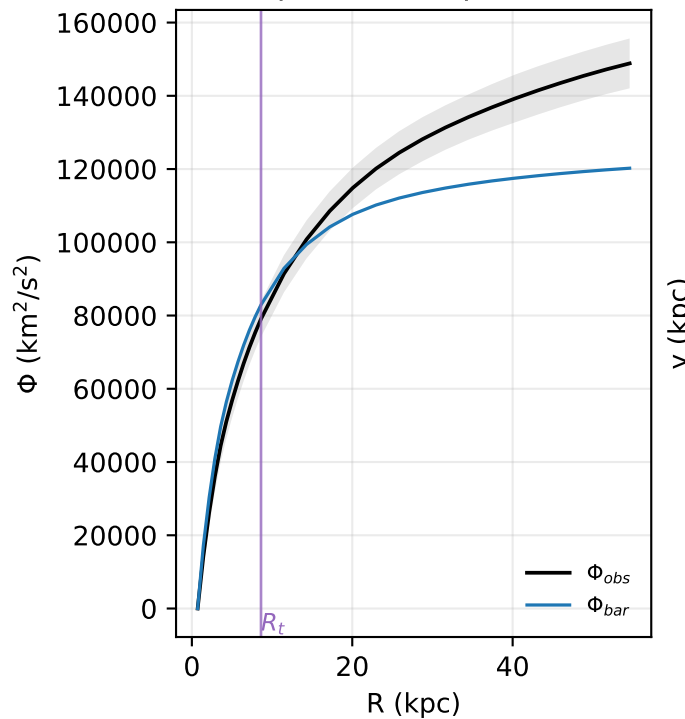

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

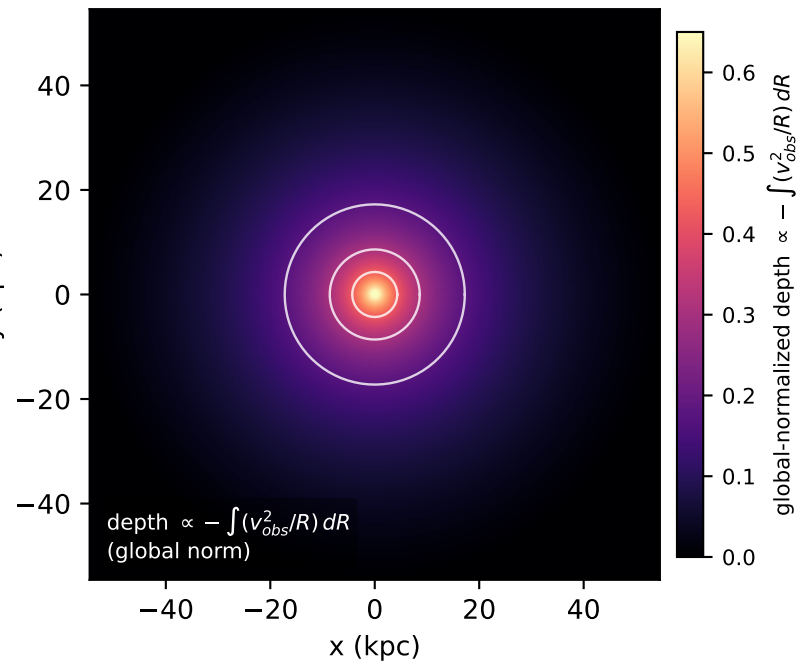

NGC5055: rotation curve

Inferred potential (up to constant)

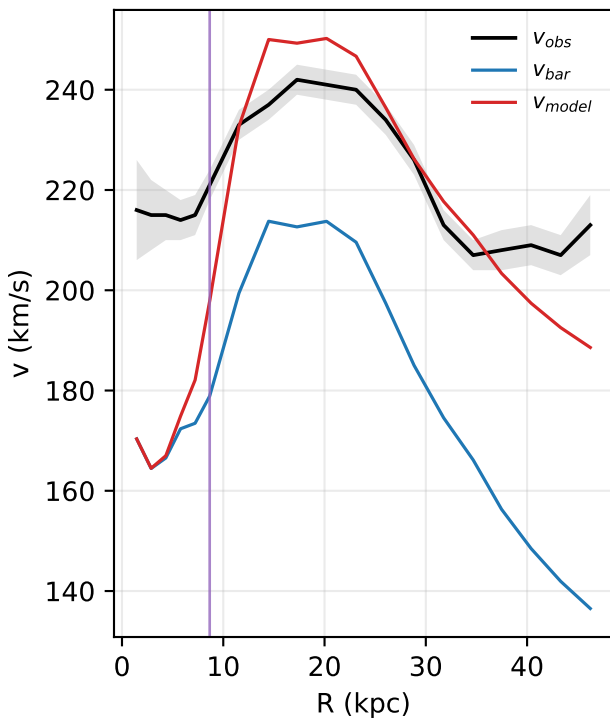

Dyed fabric (inferred effective potential)

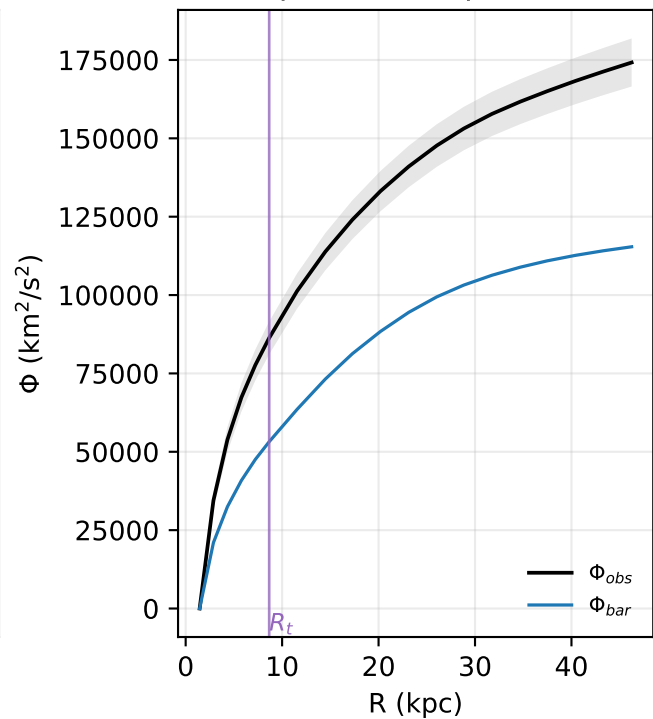

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

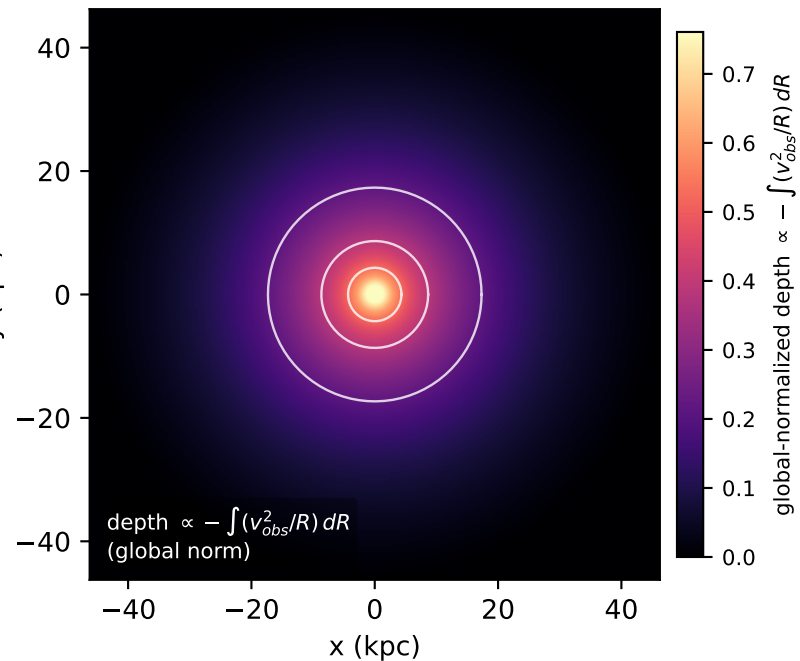

NGC5371: rotation curve

Inferred potential (up to constant)

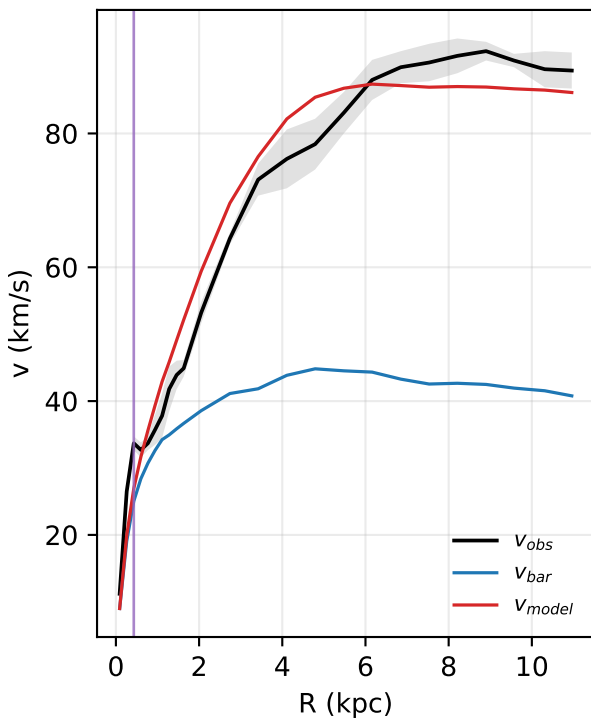

Dyed fabric (inferred effective potential)

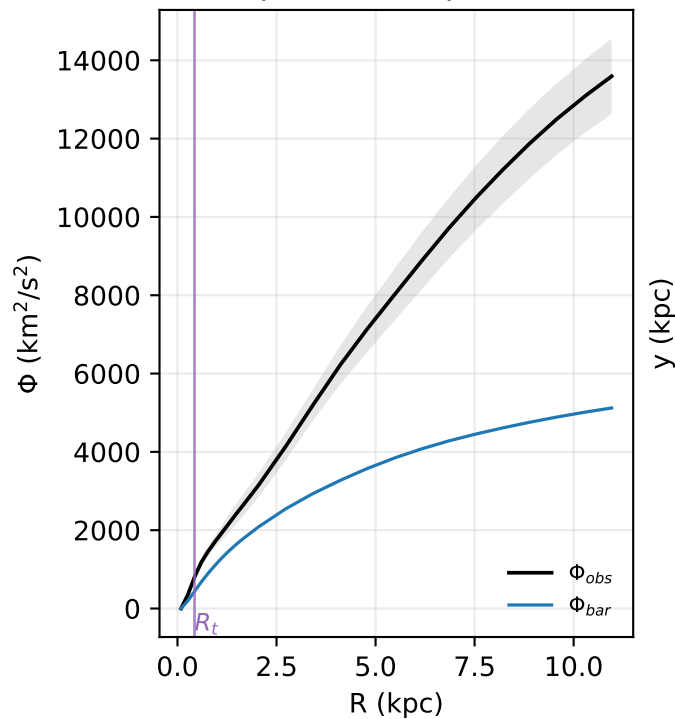

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

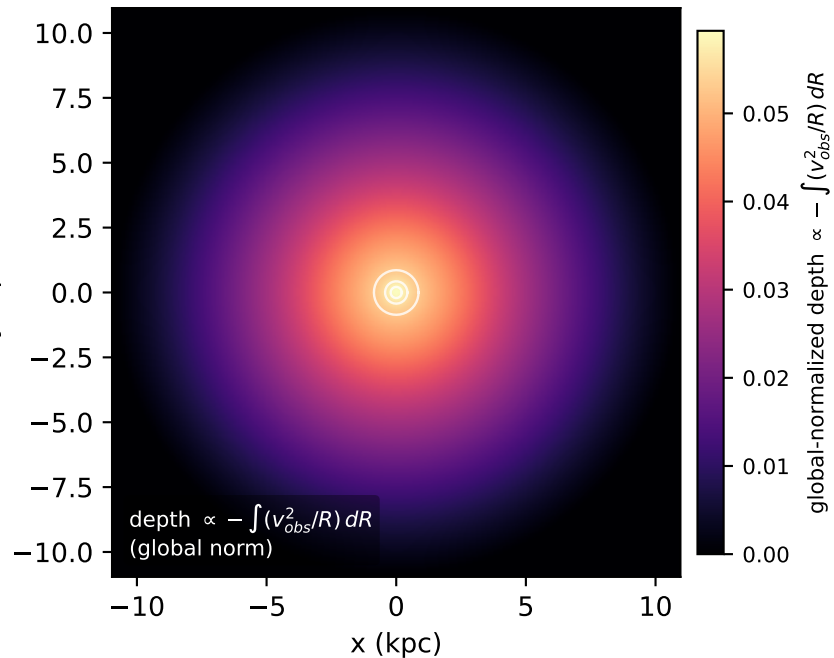

NGC5585: rotation curve

Inferred potential (up to constant)

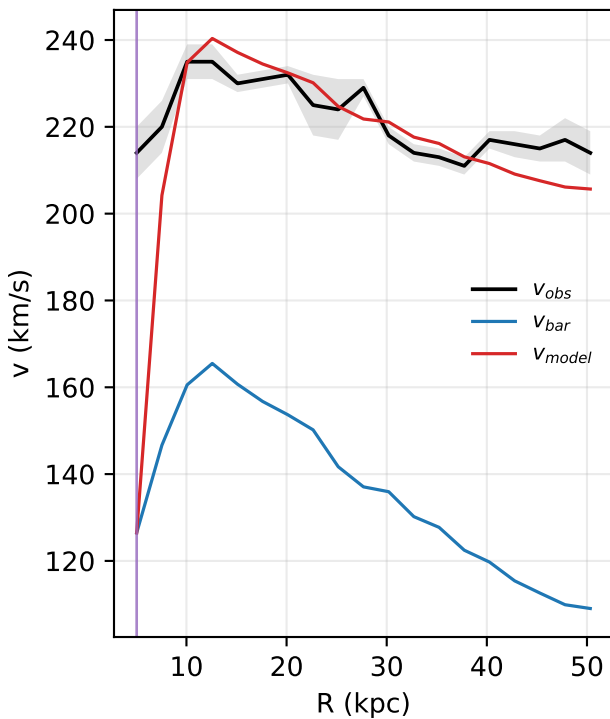

Dyed fabric (inferred effective potential)

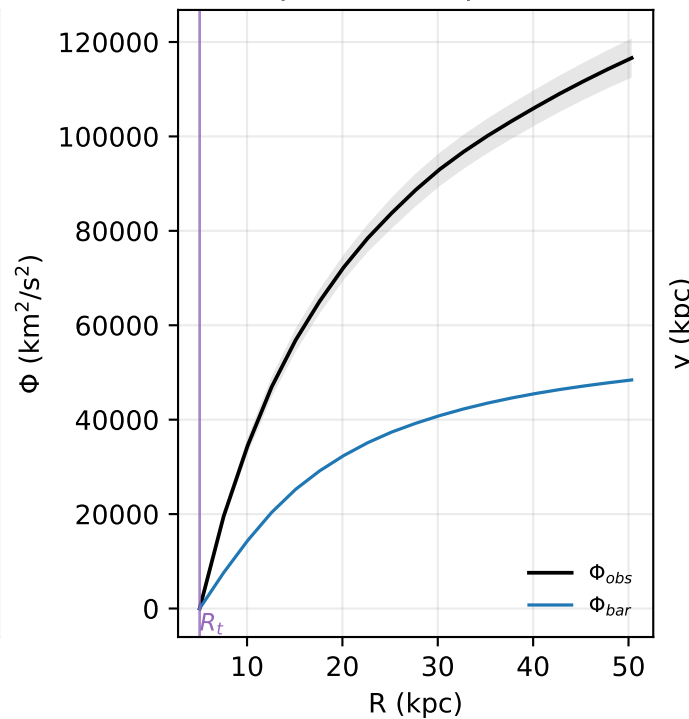

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

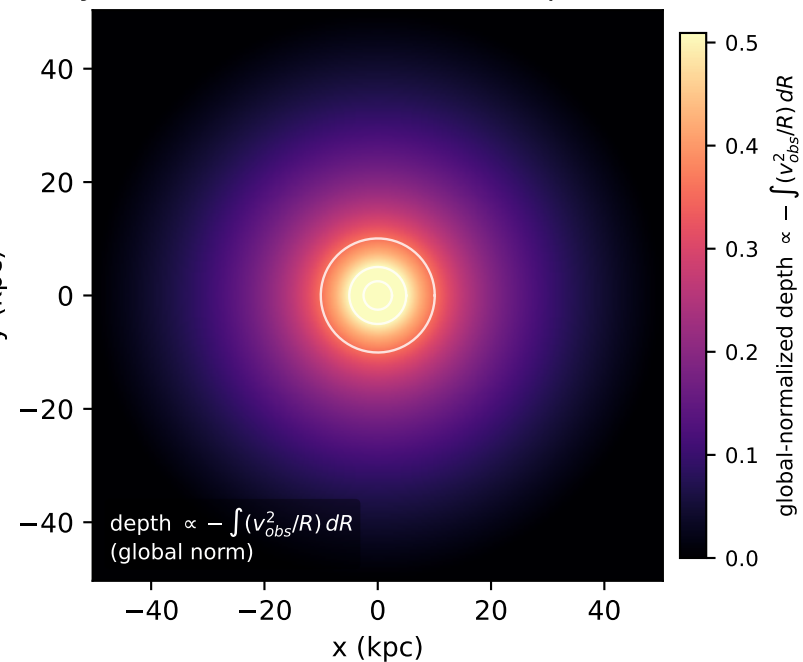

NGC5907: rotation curve

Inferred potential (up to constant)

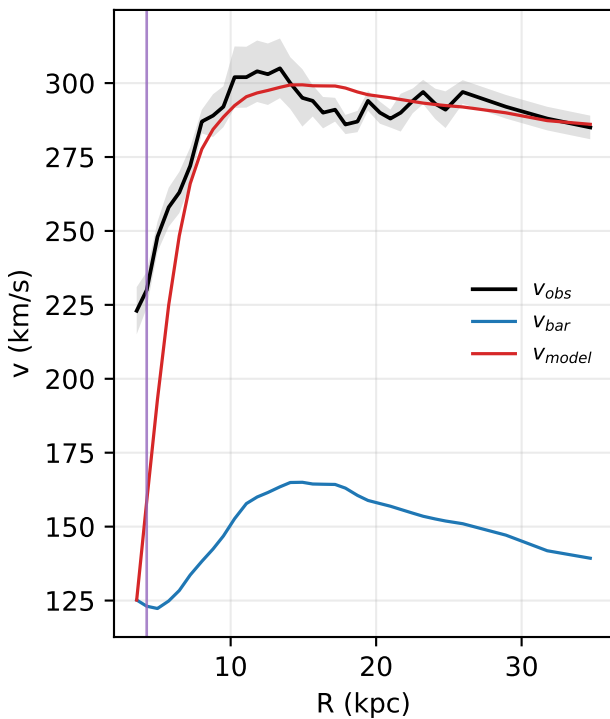

Dyed fabric (inferred effective potential)

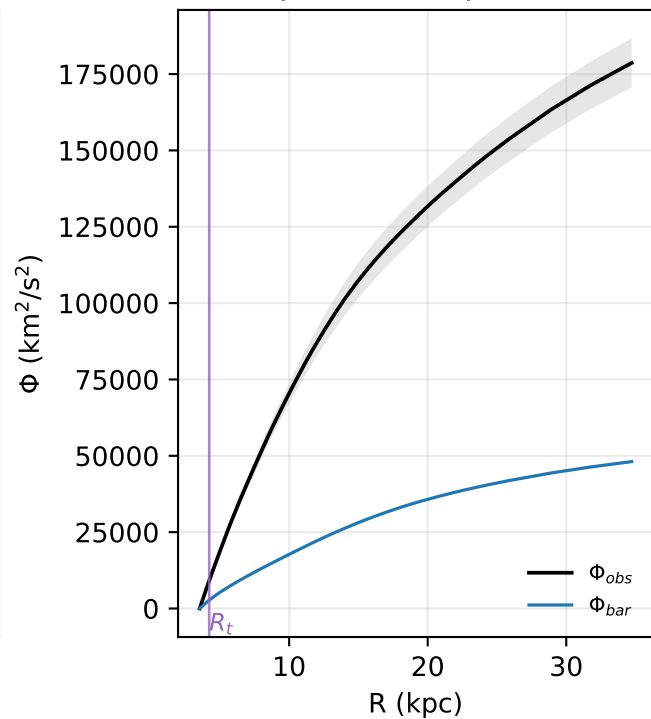

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

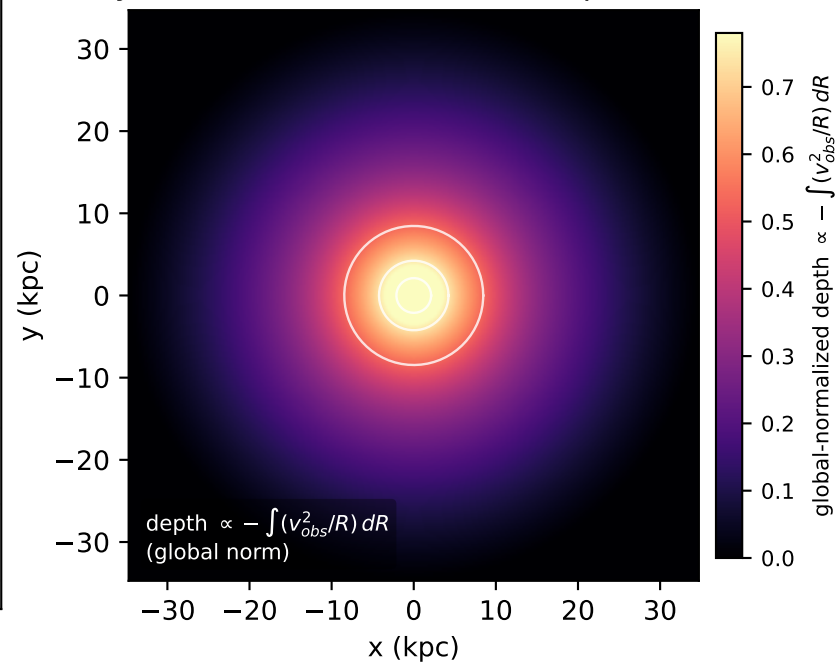

NGC5985: rotation curve

Inferred potential (up to constant)

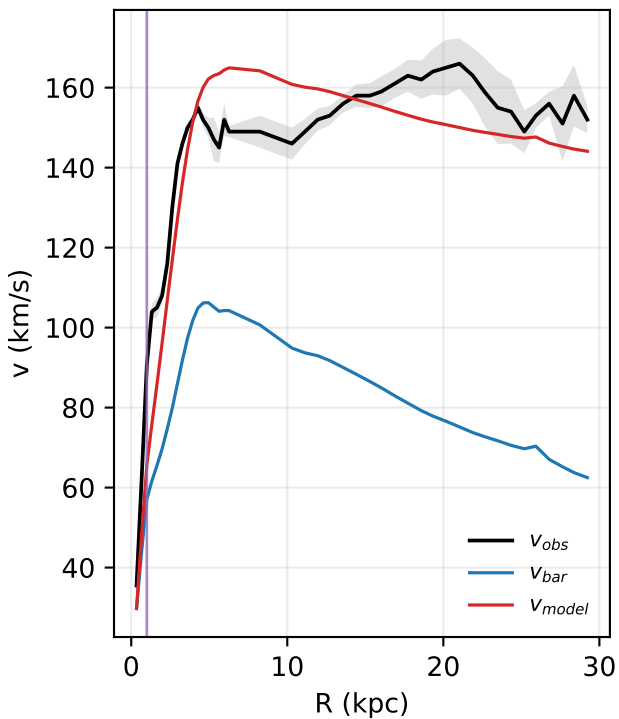

Dyed fabric (inferred effective potential)

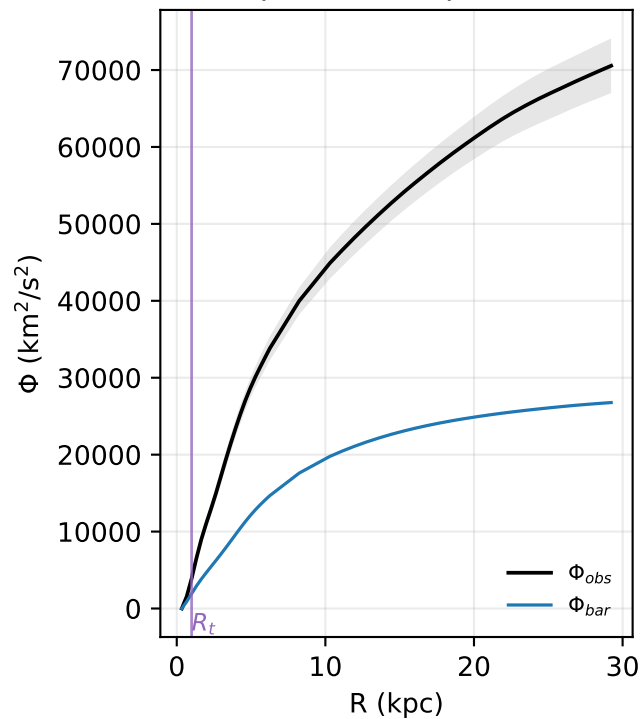

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

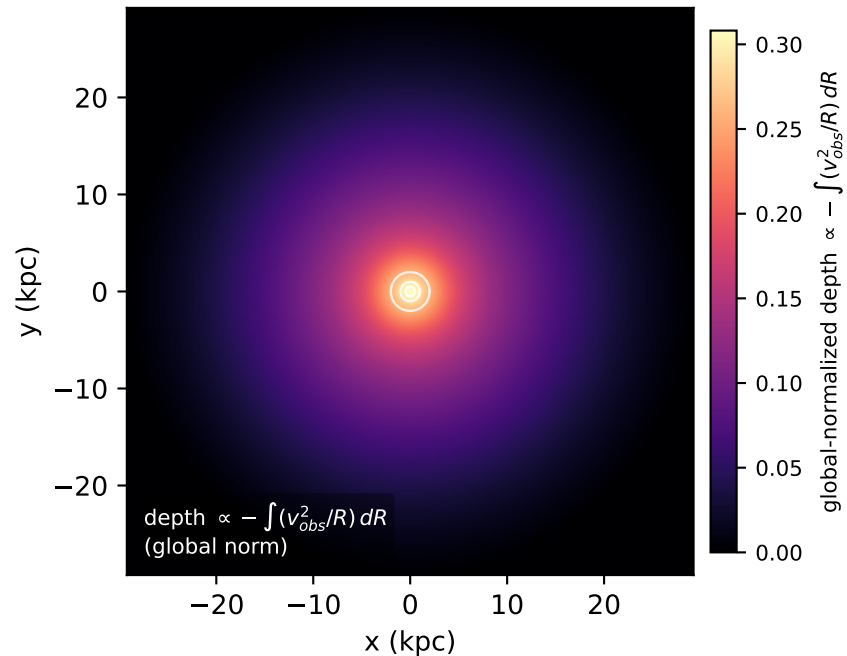

NGC6015: rotation curve

Inferred potential (up to constant)

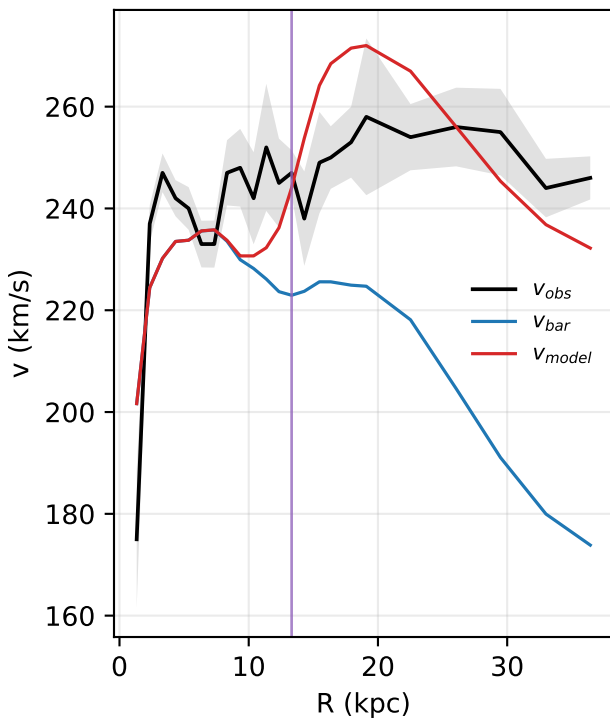

Dyed fabric (inferred effective potential)

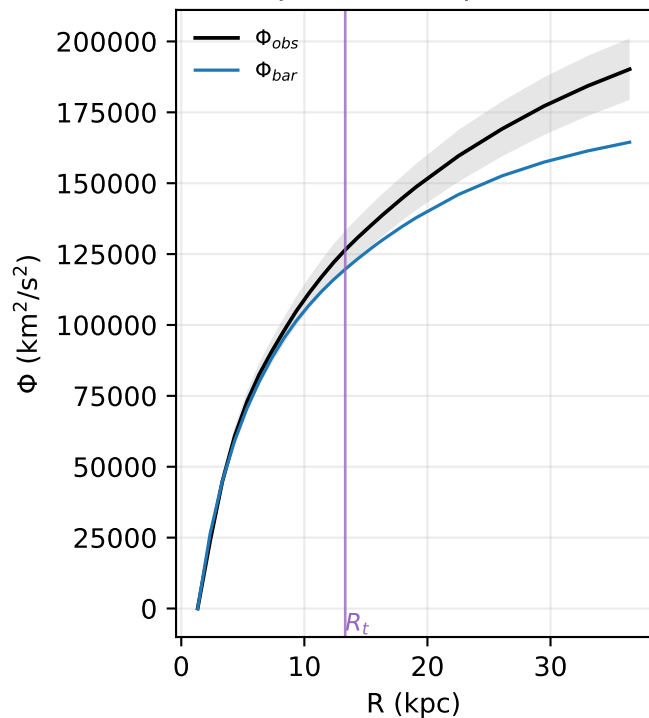

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

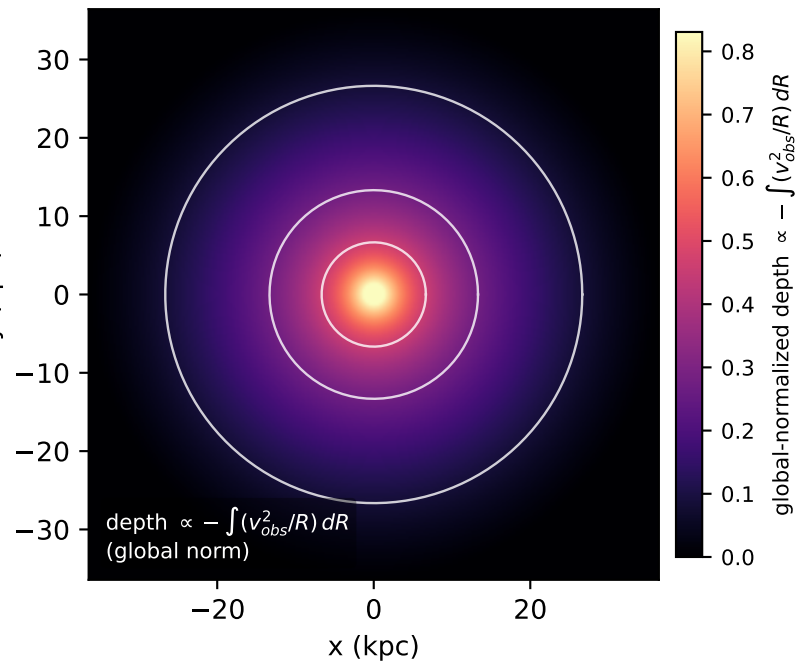

NGC6195: rotation curve

Inferred potential (up to constant)

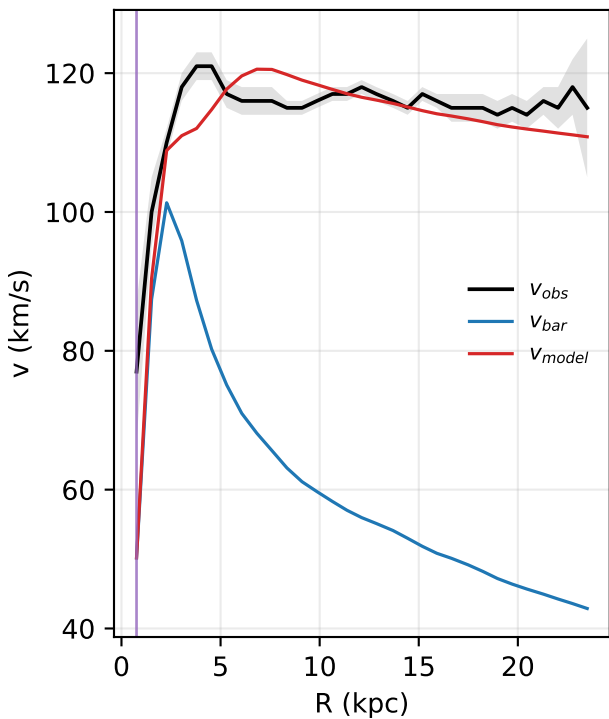

Dyed fabric (inferred effective potential)

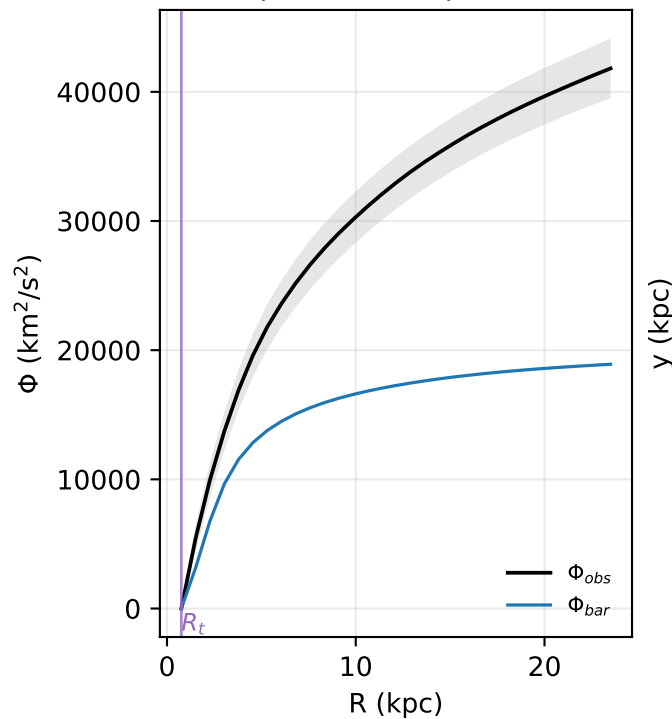

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

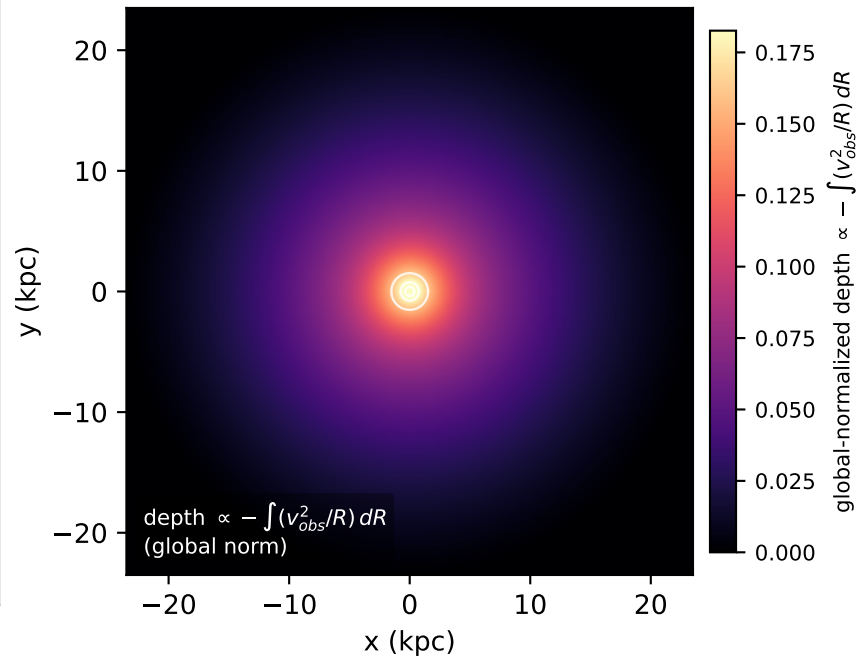

NGC6503: rotation curve

Inferred potential (up to constant)

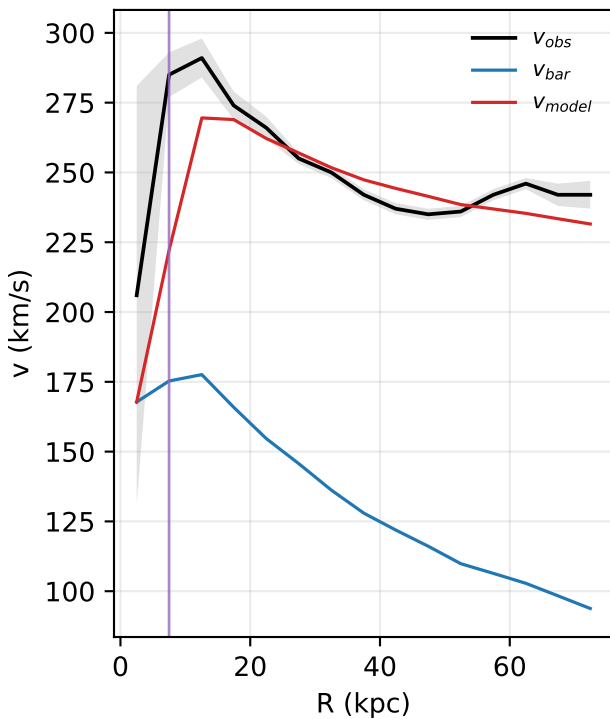

Dyed fabric (inferred effective potential)

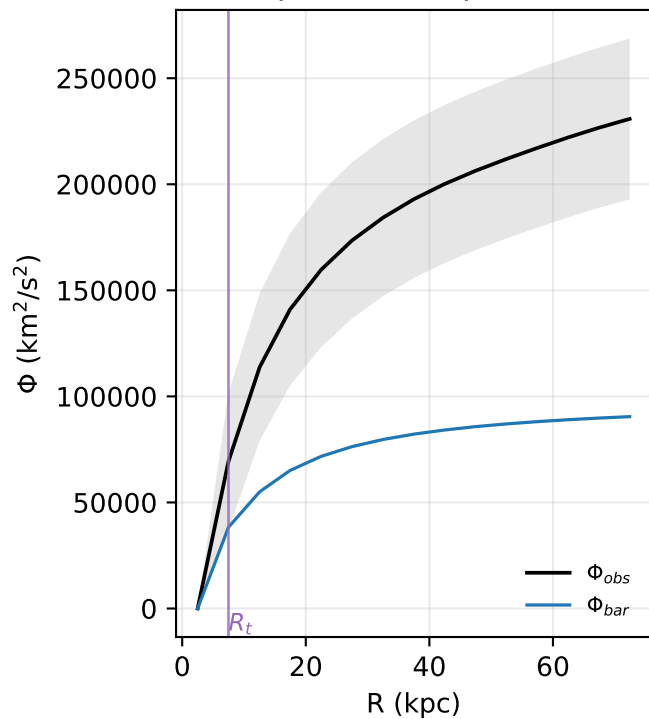

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

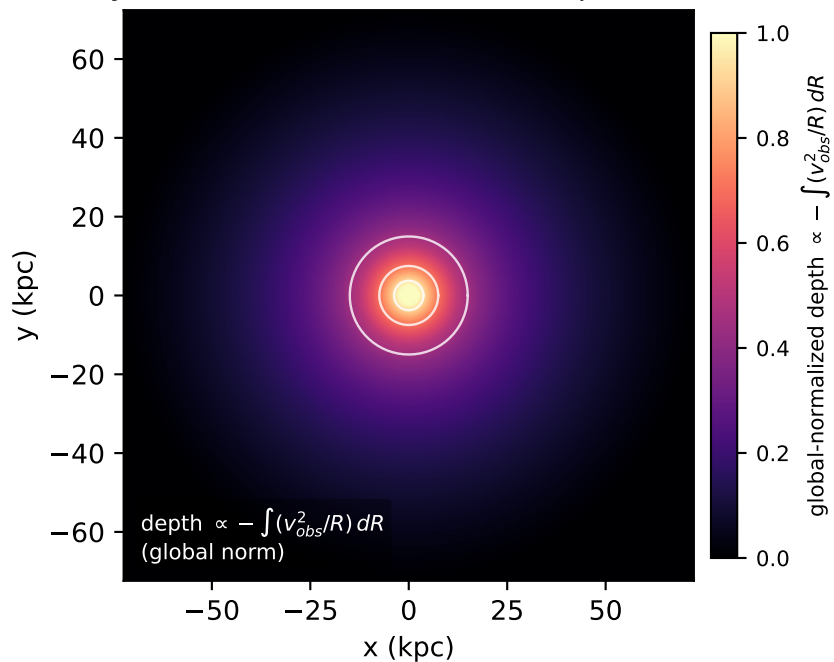

NGC6674: rotation curve

Inferred potential (up to constant)

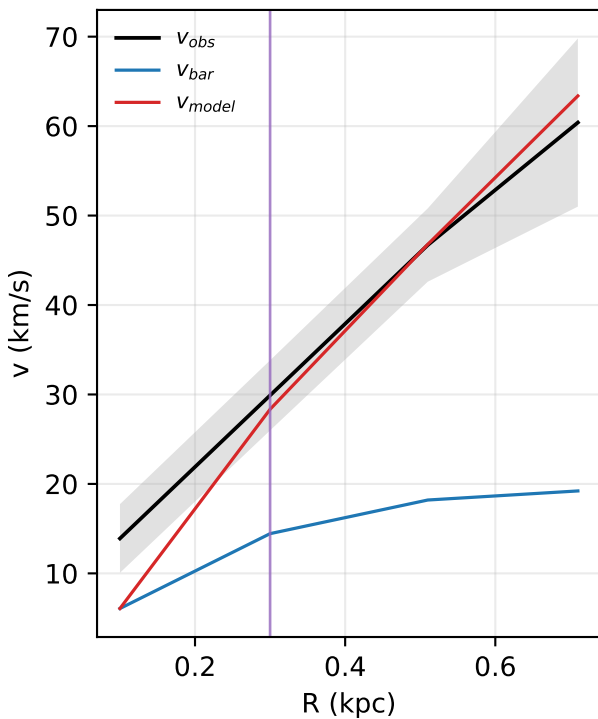

Dyed fabric (inferred effective potential)

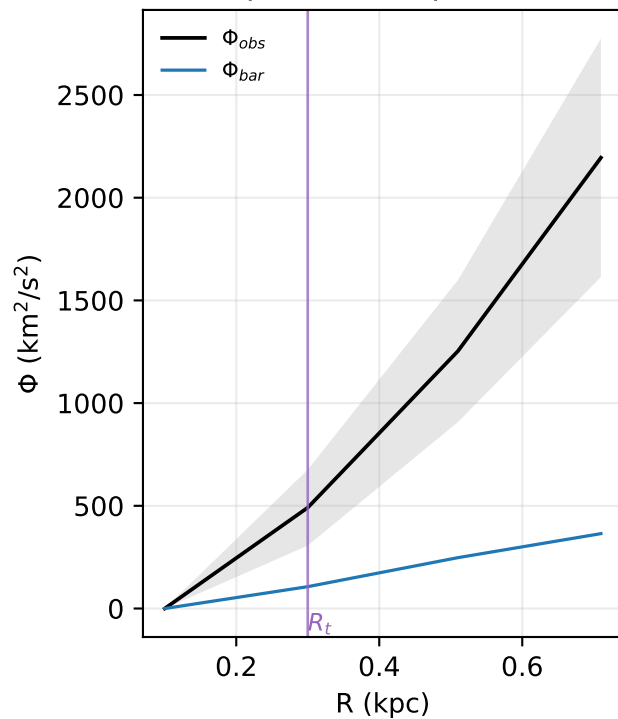

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

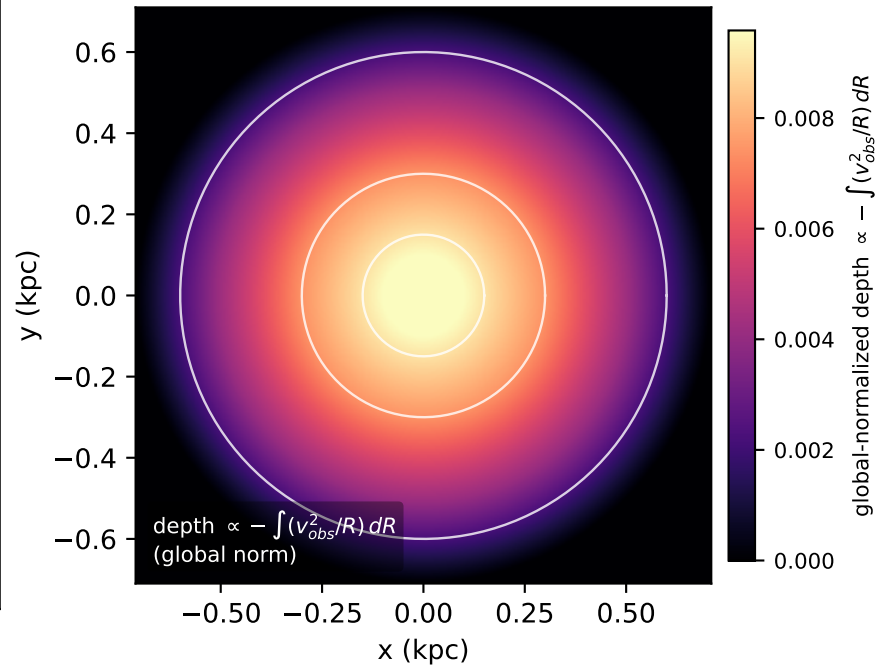

NGC6789: rotation curve

Inferred potential (up to constant)

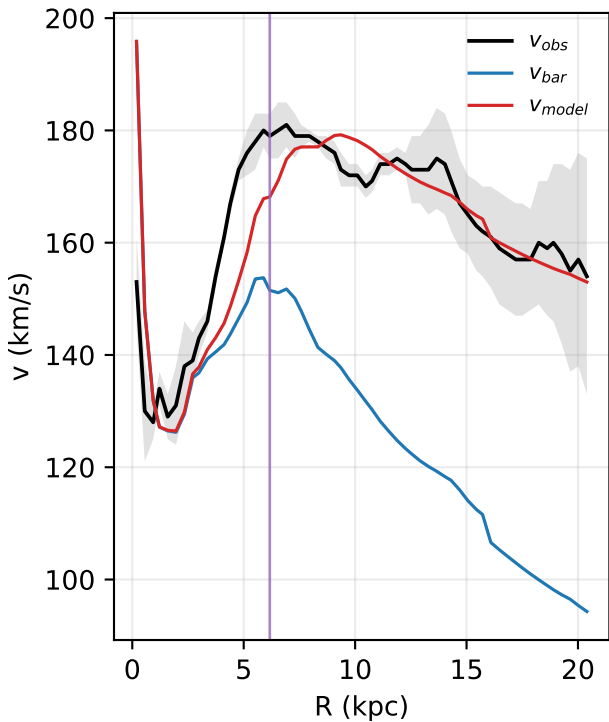

Dyed fabric (inferred effective potential)

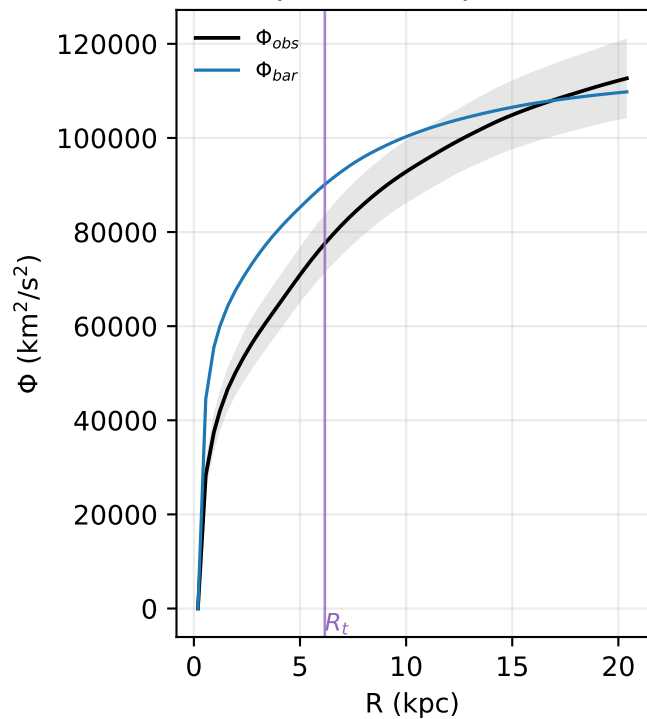

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

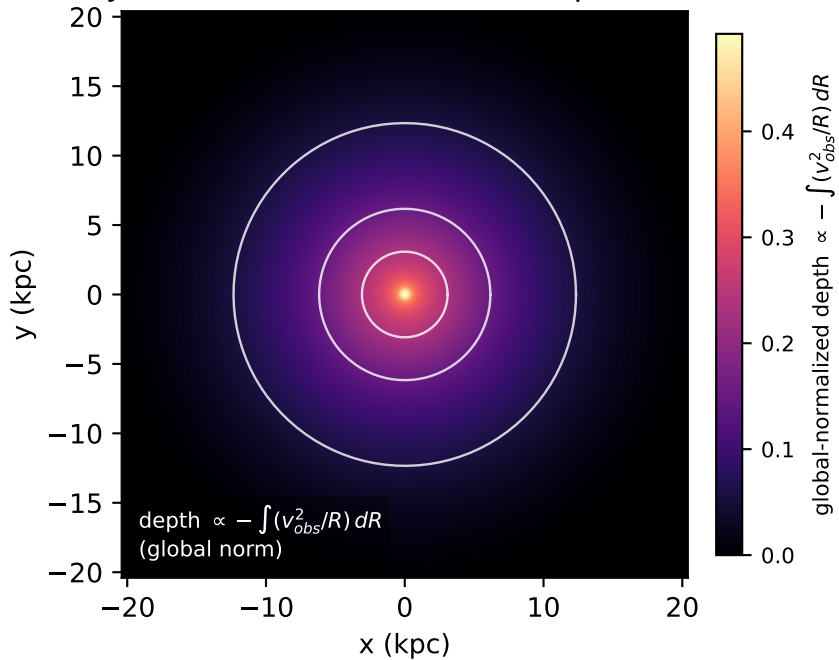

NGC6946: rotation curve

Inferred potential (up to constant)

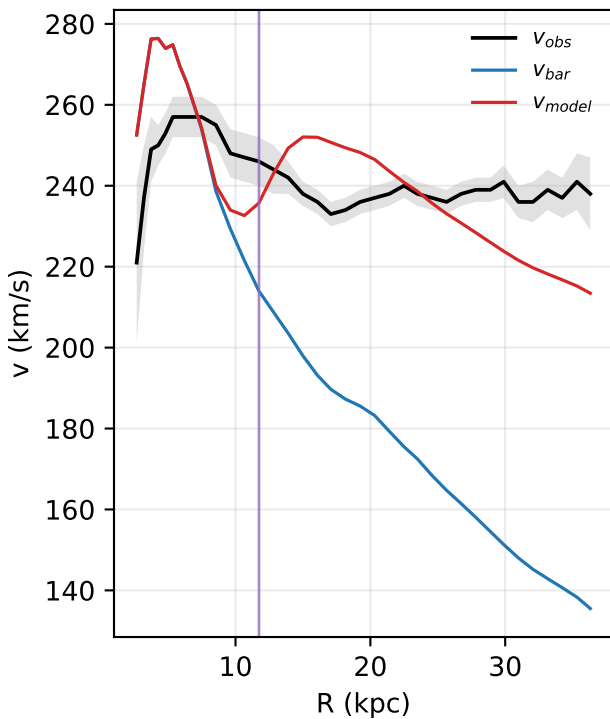

Dyed fabric (inferred effective potential)

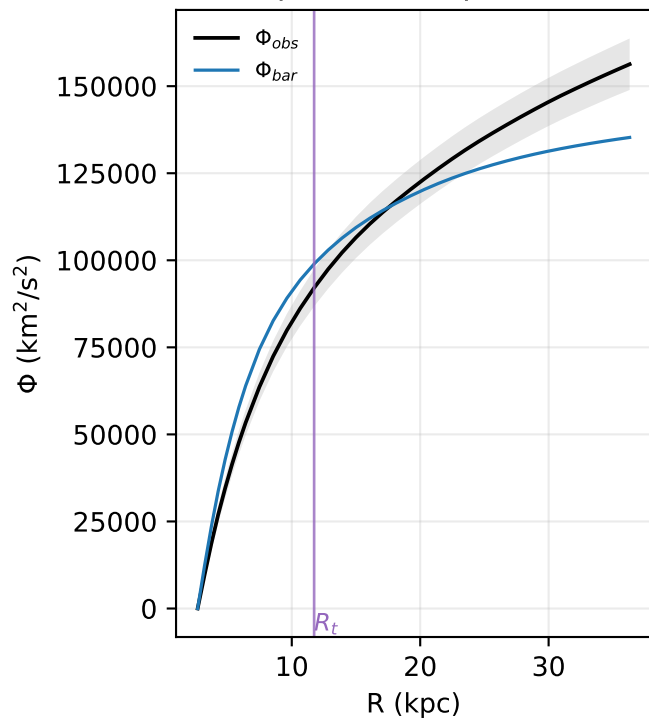

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

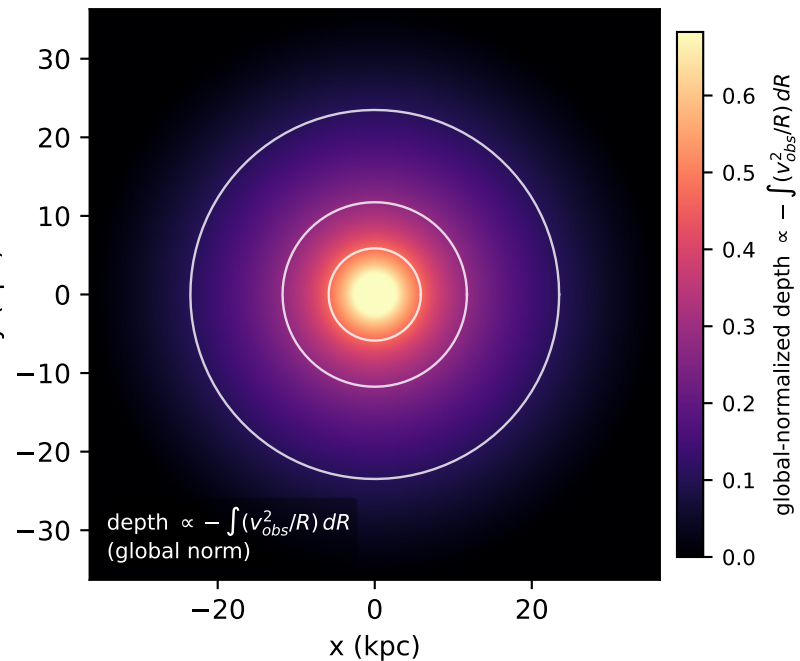

NGC7331: rotation curve

Inferred potential (up to constant)

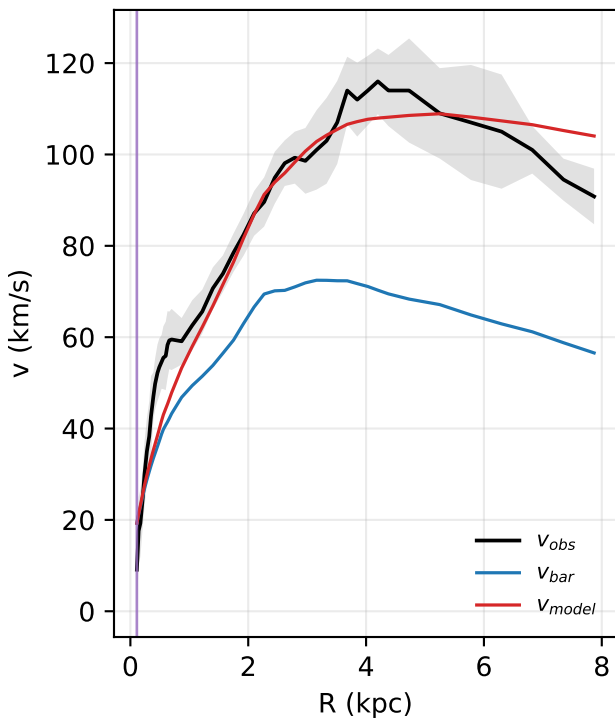

Dyed fabric (inferred effective potential)

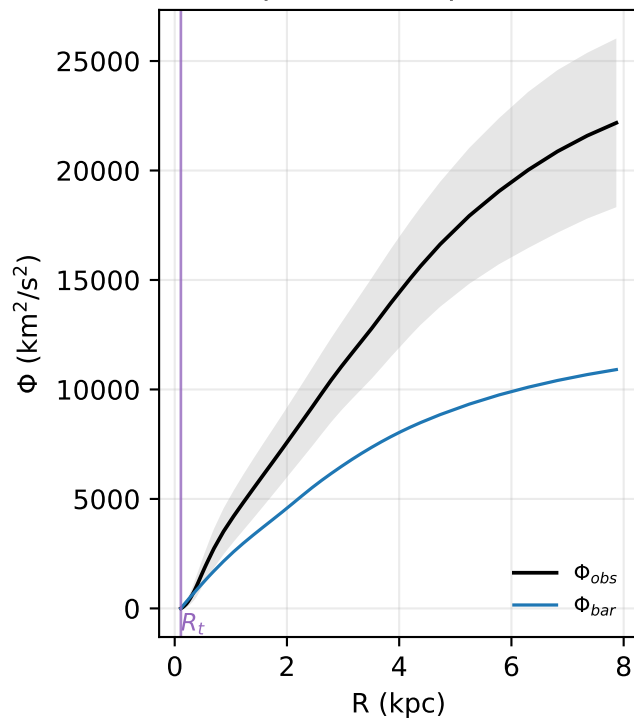

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

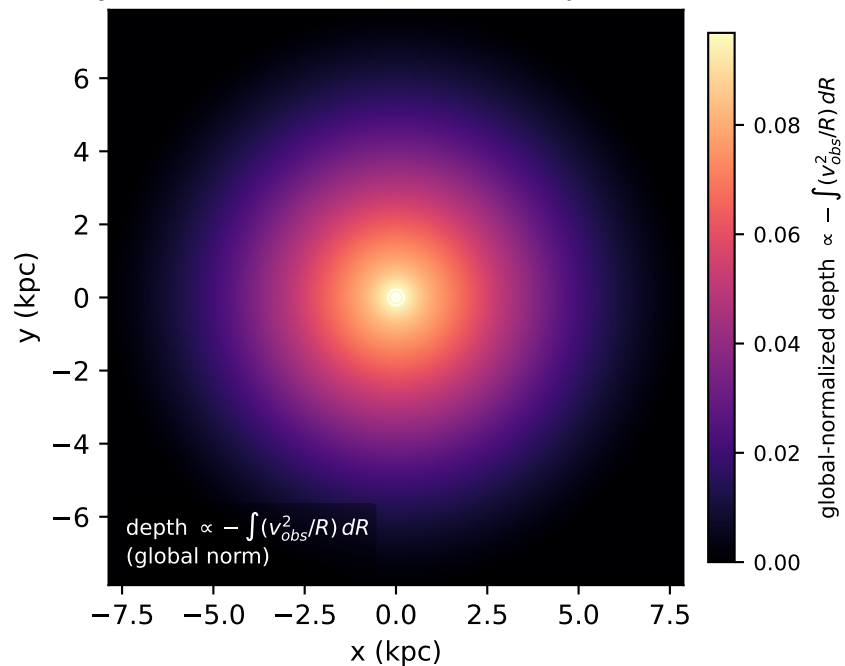

NGC7793: rotation curve

Inferred potential (up to constant)

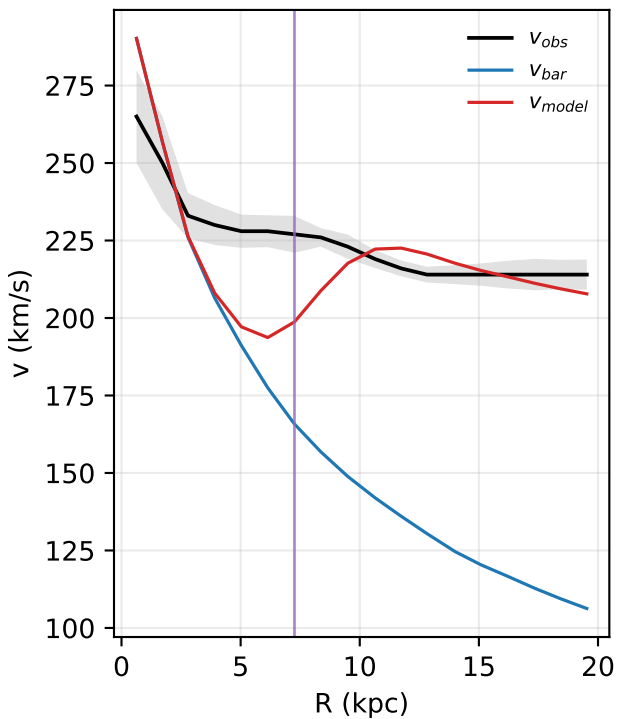

Dyed fabric (inferred effective potential)

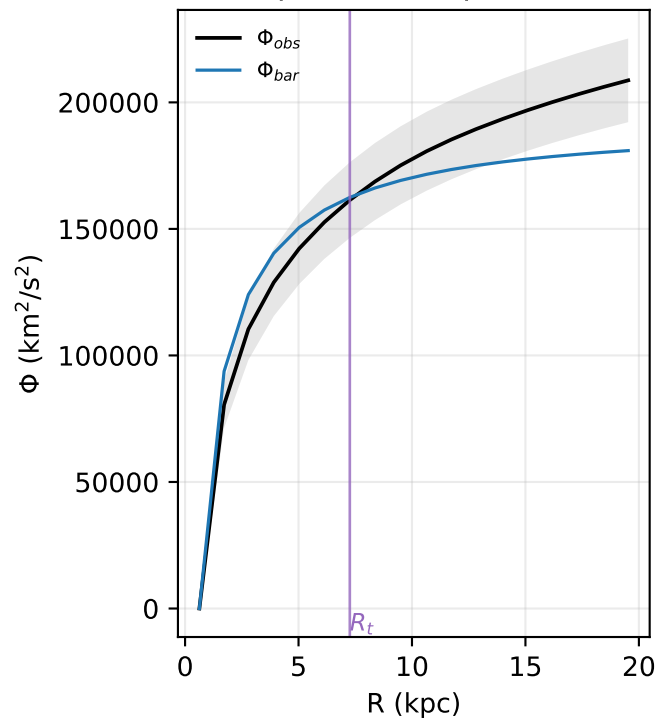

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

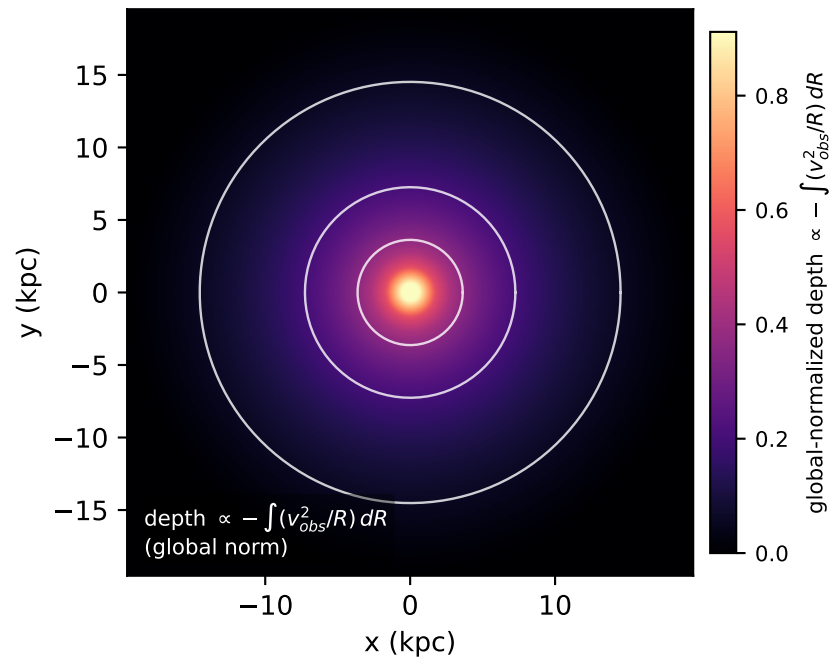

NGC7814: rotation curve

Inferred potential (up to constant)

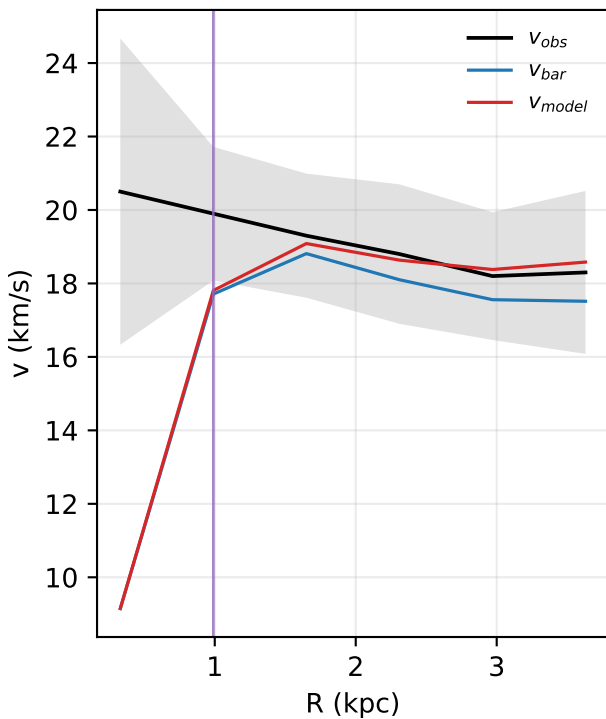

Dyed fabric (inferred effective potential)

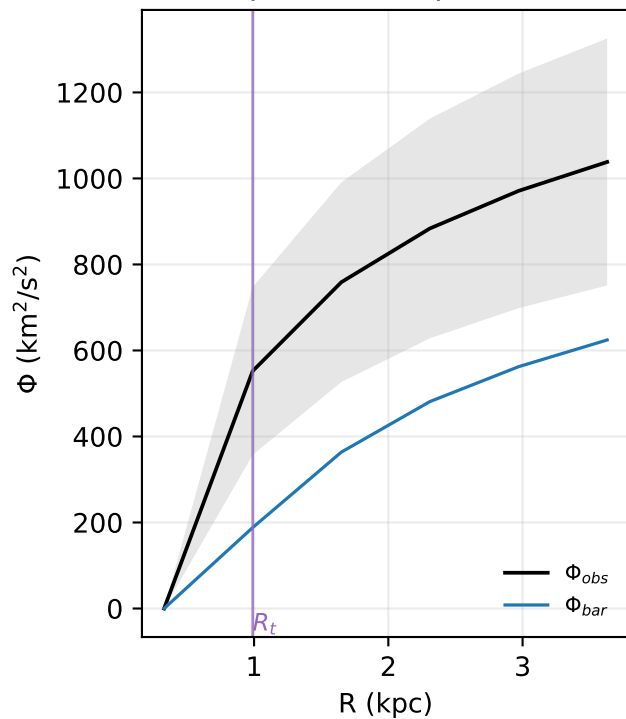

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

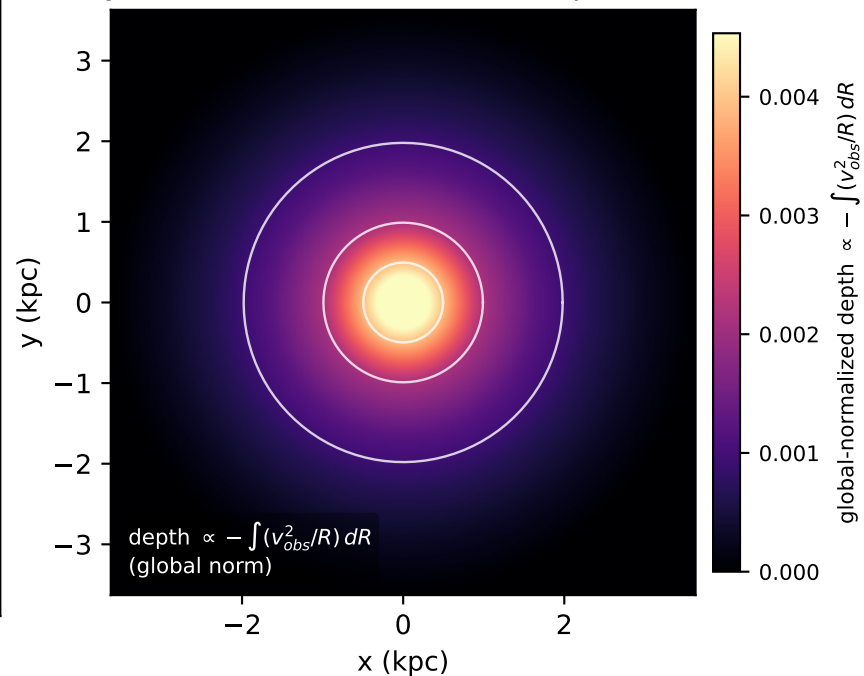

PGC51017: rotation curve

Inferred potential (up to constant)

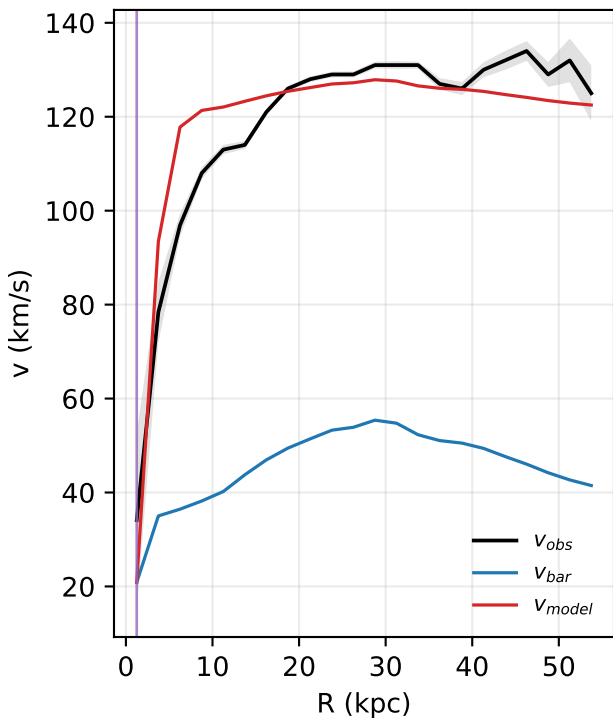

Dyed fabric (inferred effective potential)

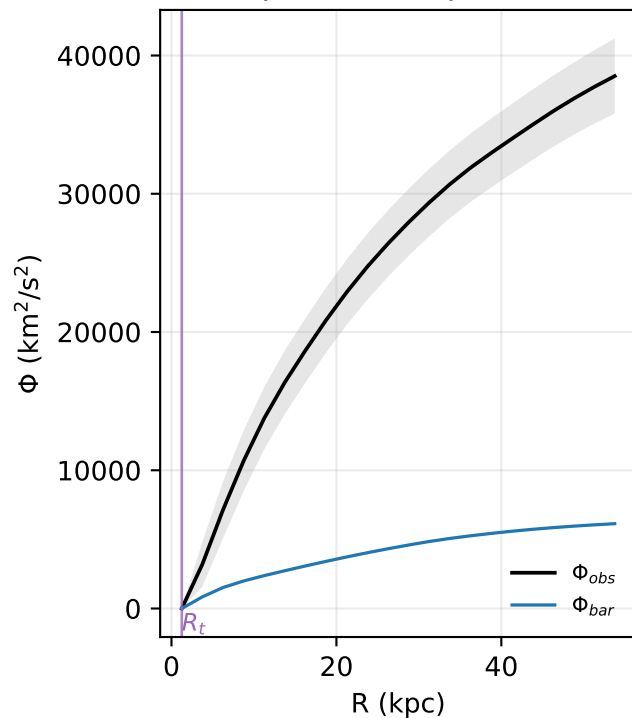

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

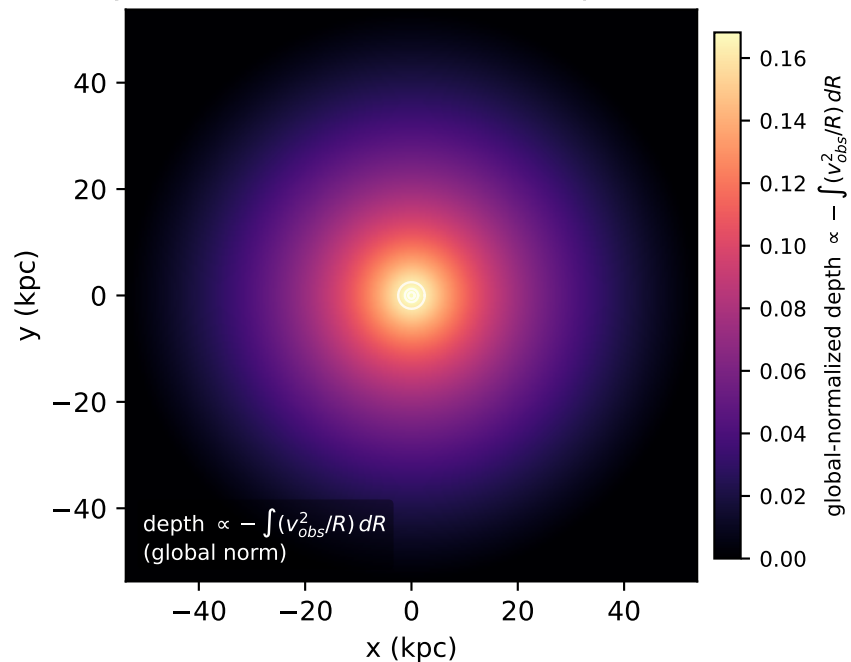

UGC00128: rotation curve

Inferred potential (up to constant)

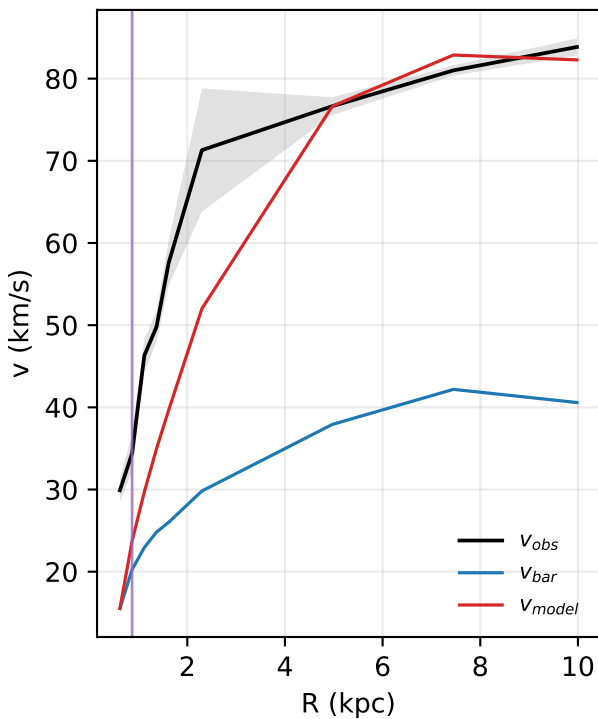

Dyed fabric (inferred effective potential)

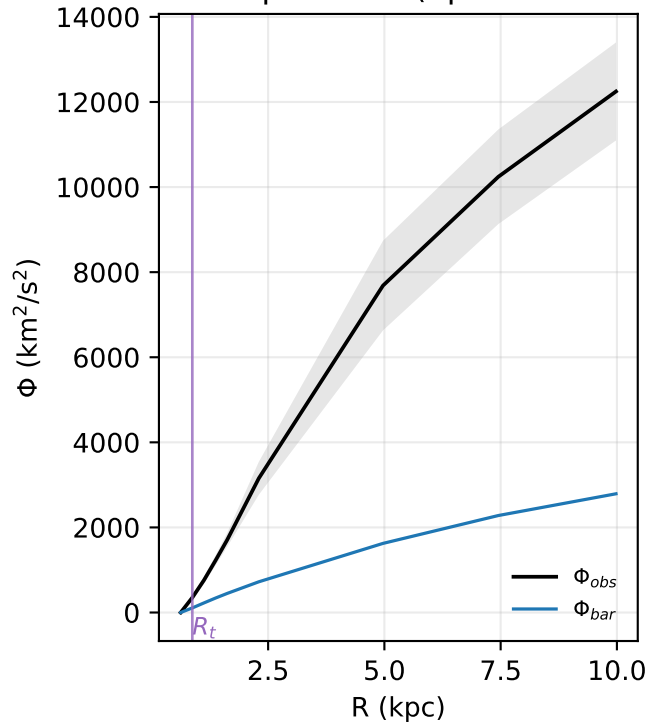

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

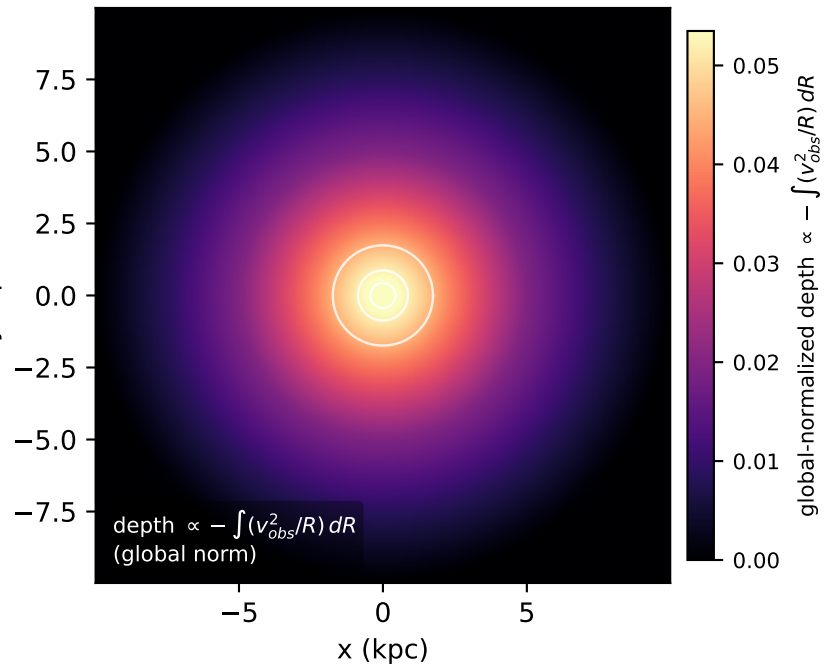

UGC00191: rotation curve

Inferred potential (up to constant)

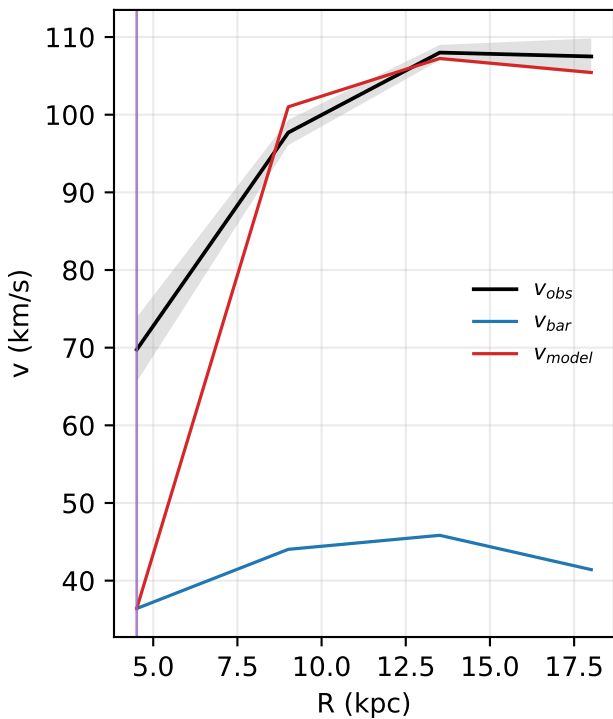

Dyed fabric (inferred effective potential)

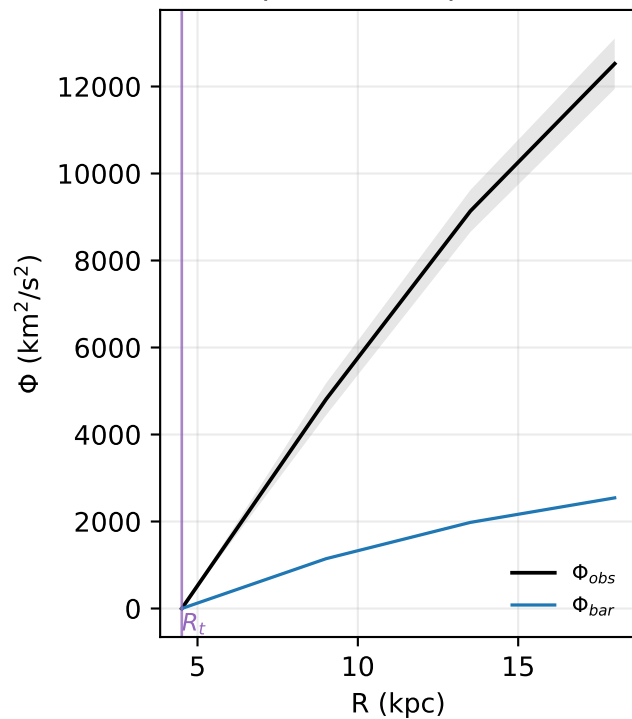

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

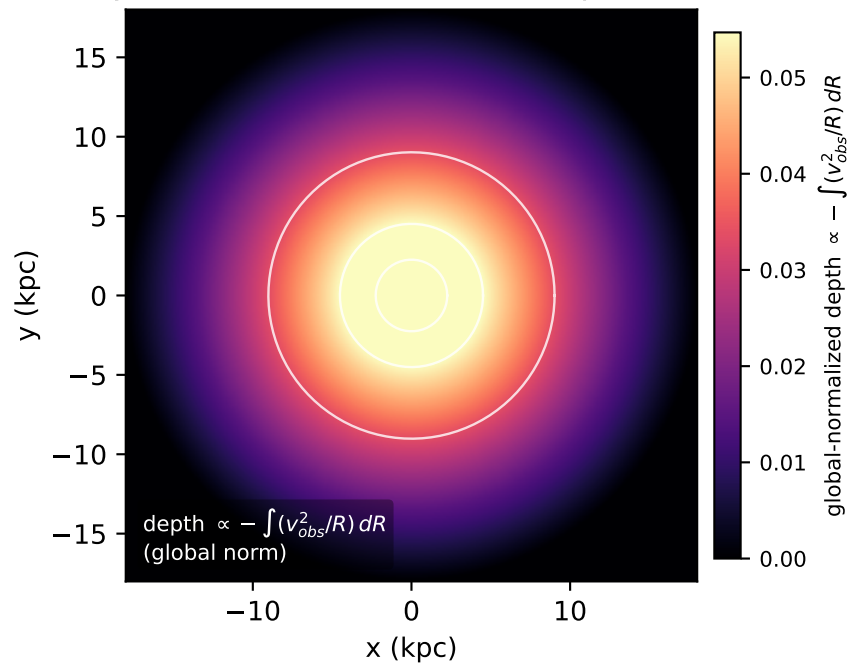

UGC00634: rotation curve

Inferred potential (up to constant)

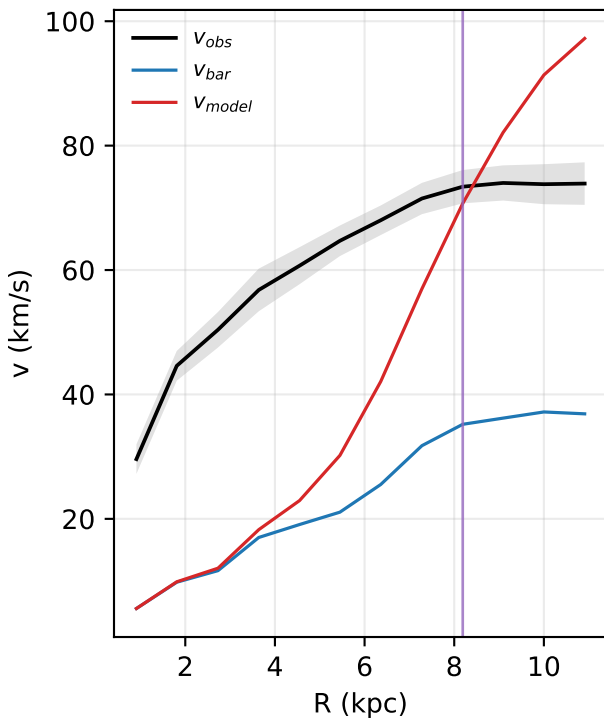

Dyed fabric (inferred effective potential)

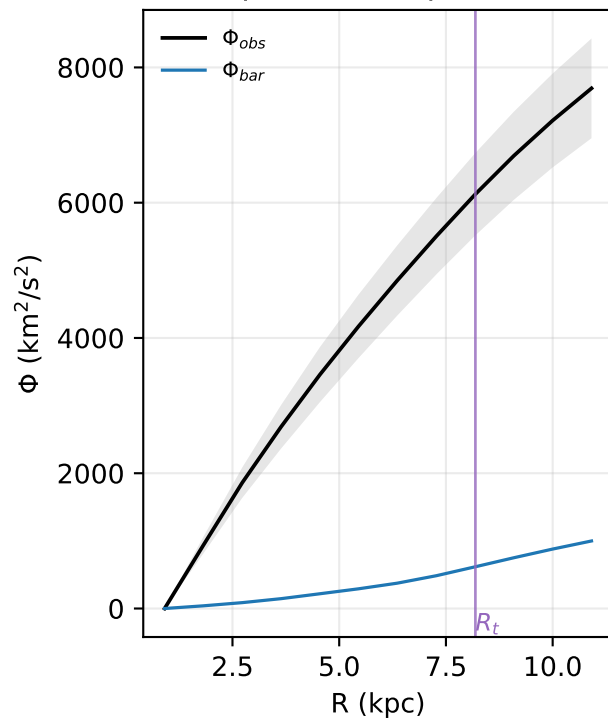

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

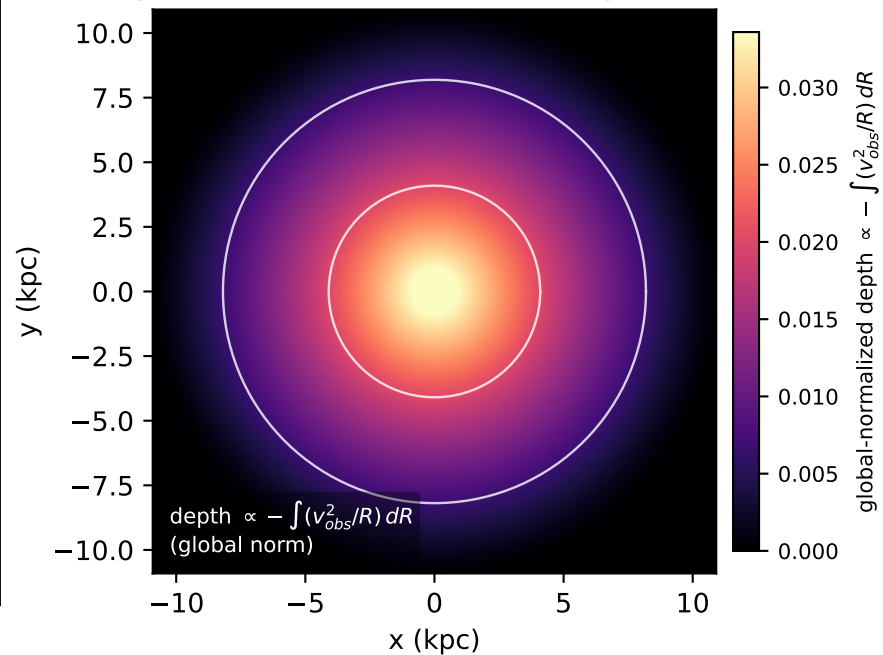

UGC00731: rotation curve

Inferred potential (up to constant)

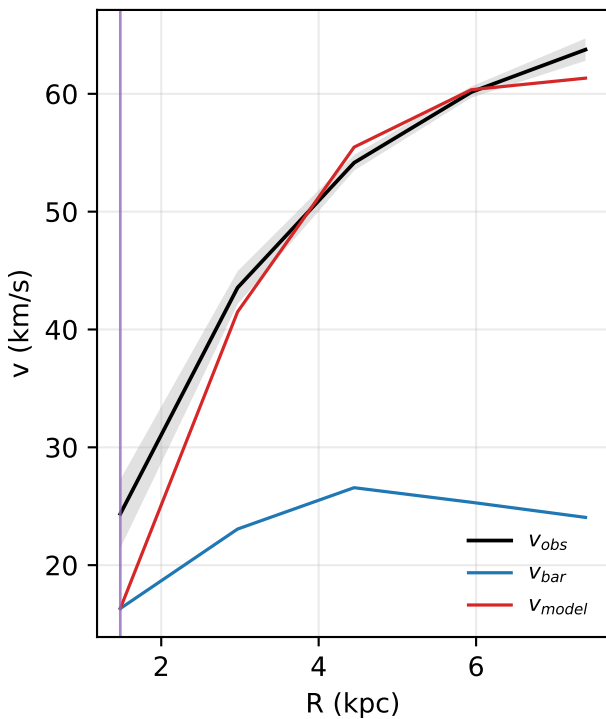

Dyed fabric (inferred effective potential)

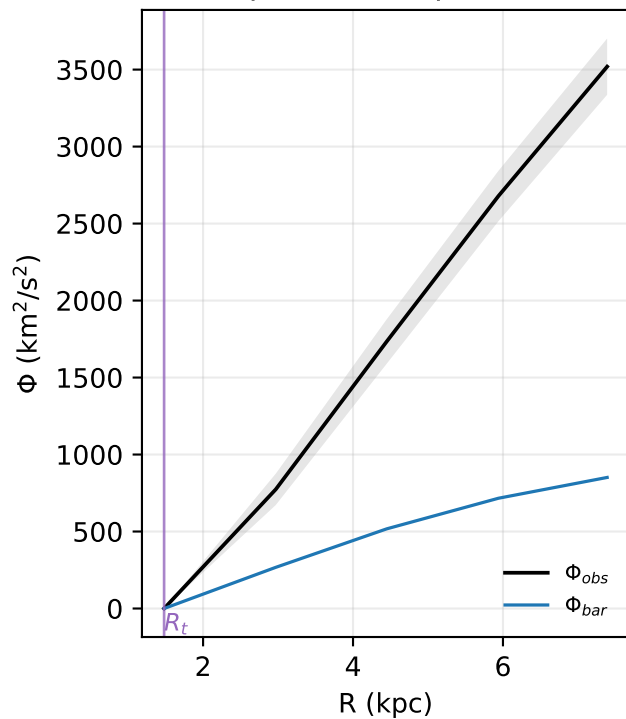

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

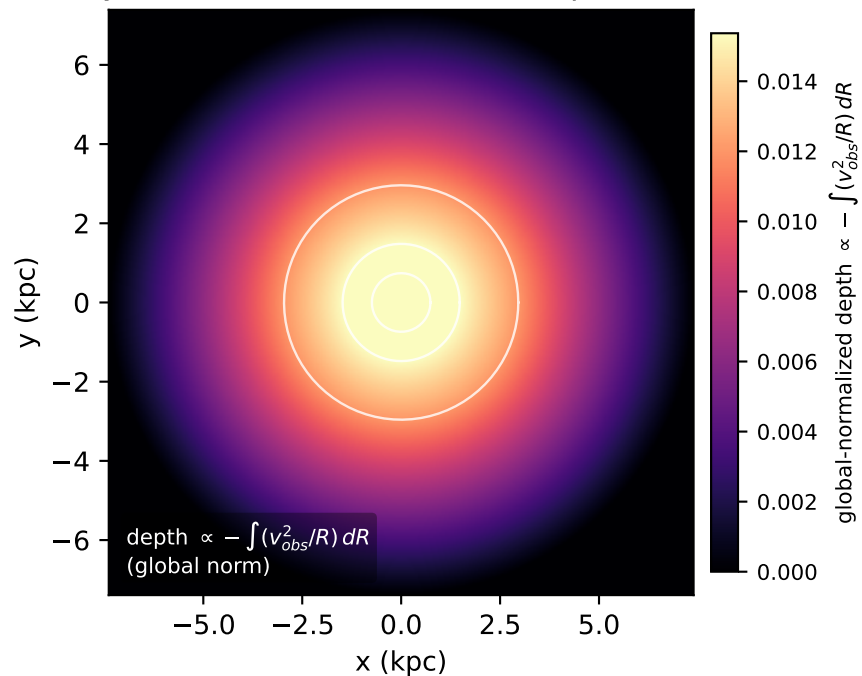

UGC00891: rotation curve

Inferred potential (up to constant)

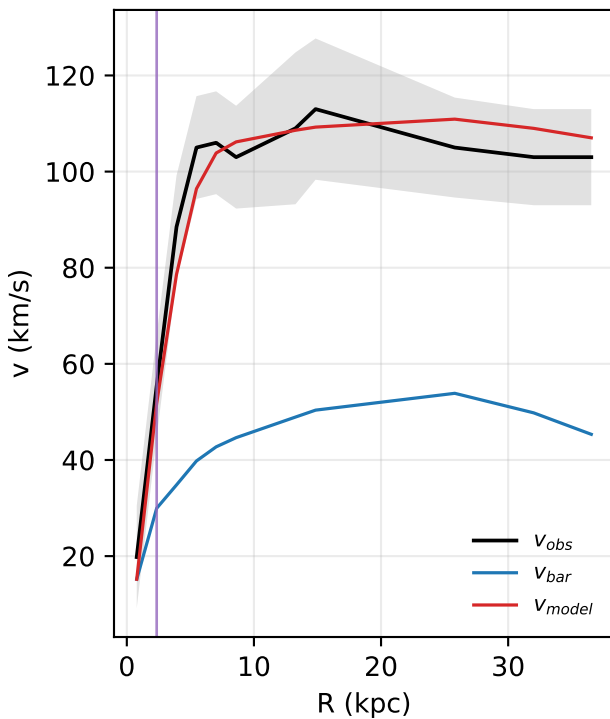

Dyed fabric (inferred effective potential)

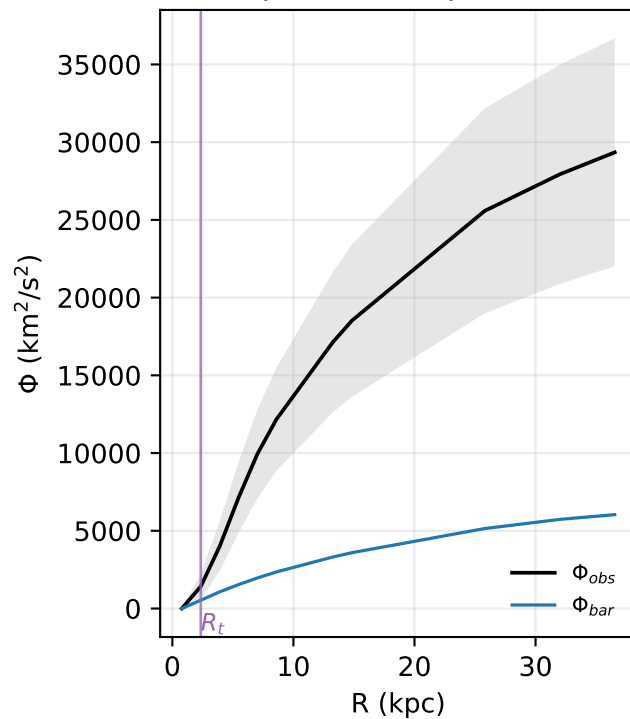

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

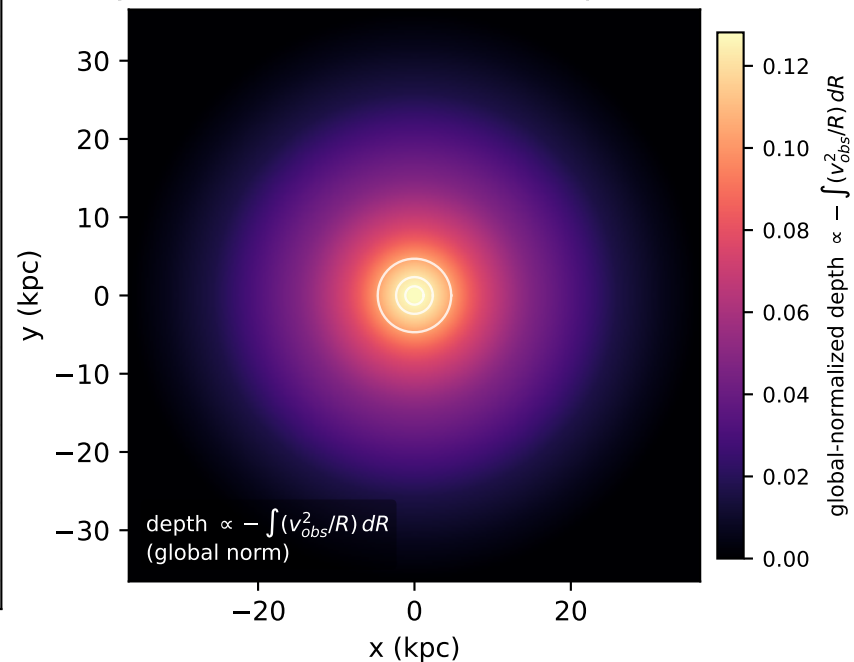

UGC01230: rotation curve

Inferred potential (up to constant)

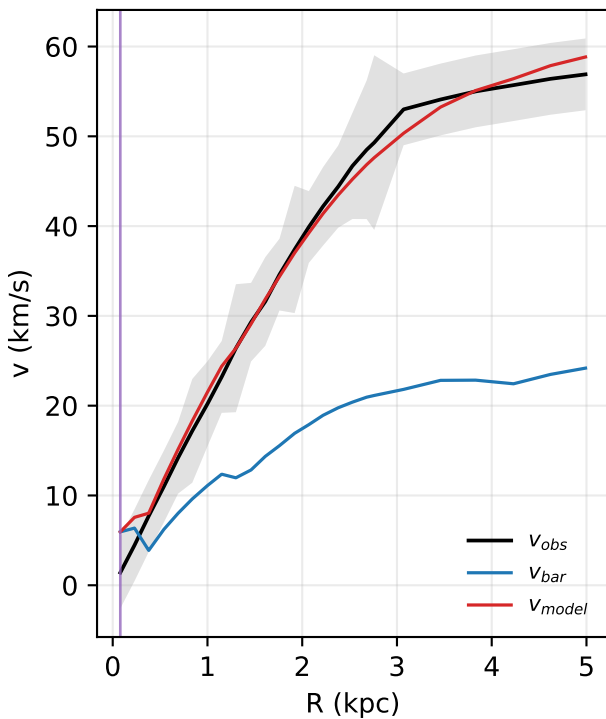

Dyed fabric (inferred effective potential)

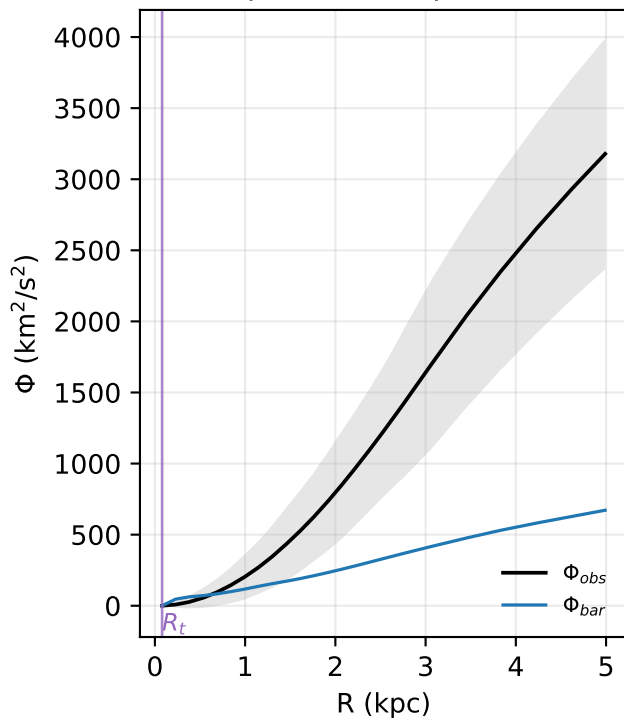

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

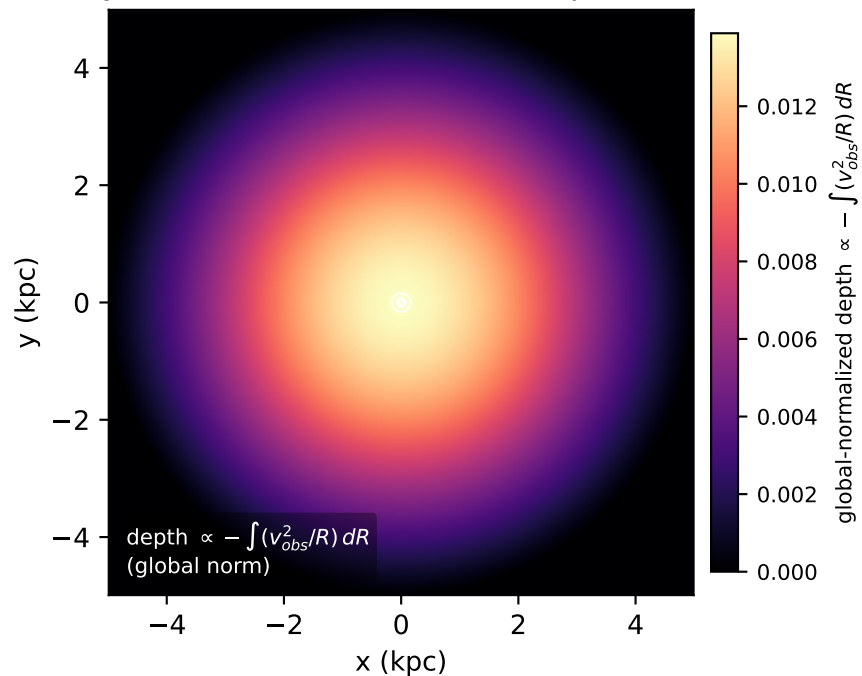

UGC01281: rotation curve

Inferred potential (up to constant)

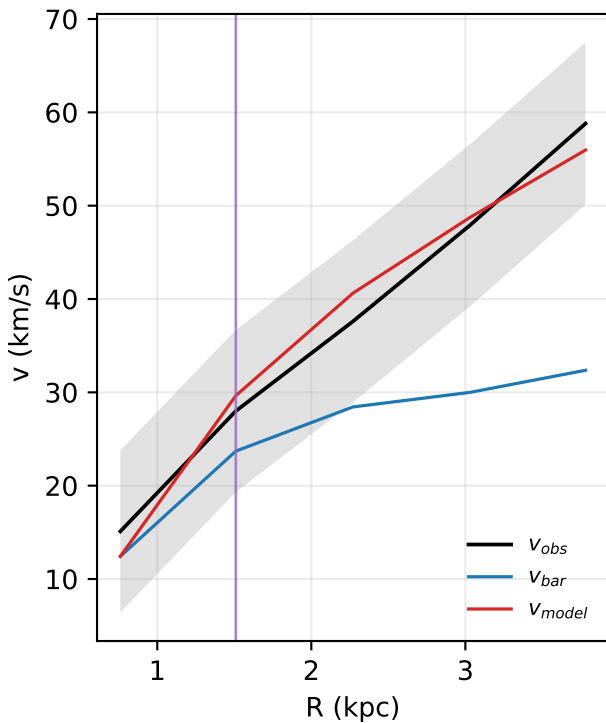

Dyed fabric (inferred effective potential)

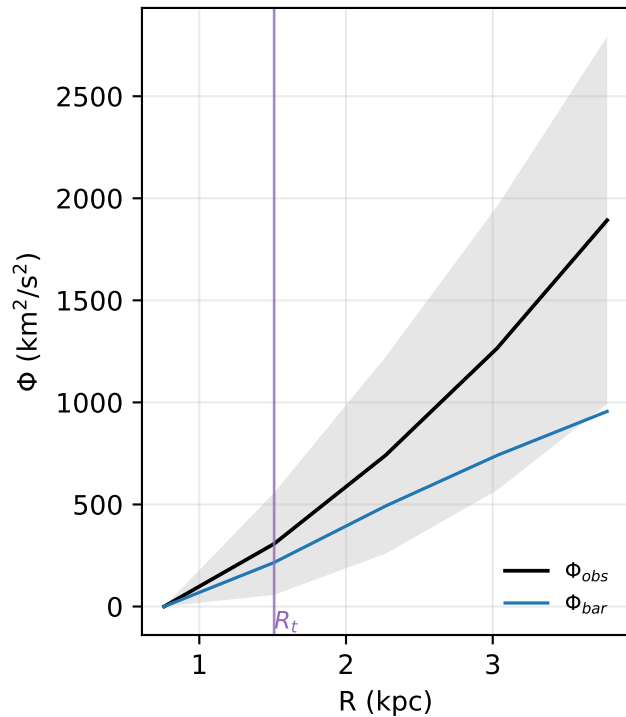

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

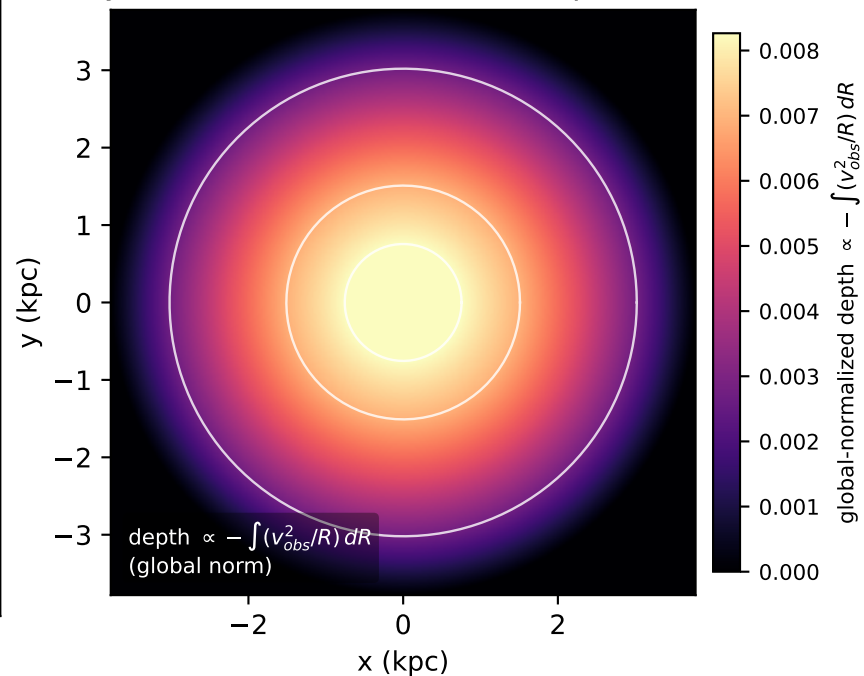

UGC02023: rotation curve

Inferred potential (up to constant)

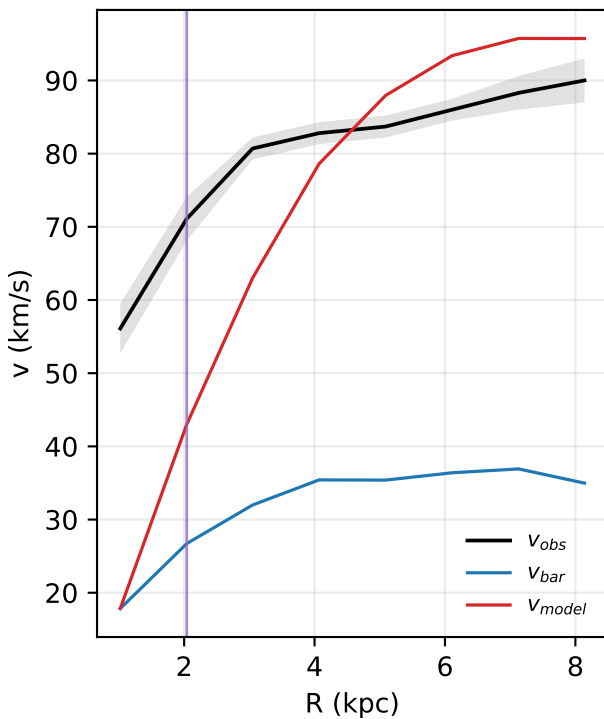

Dyed fabric (inferred effective potential)

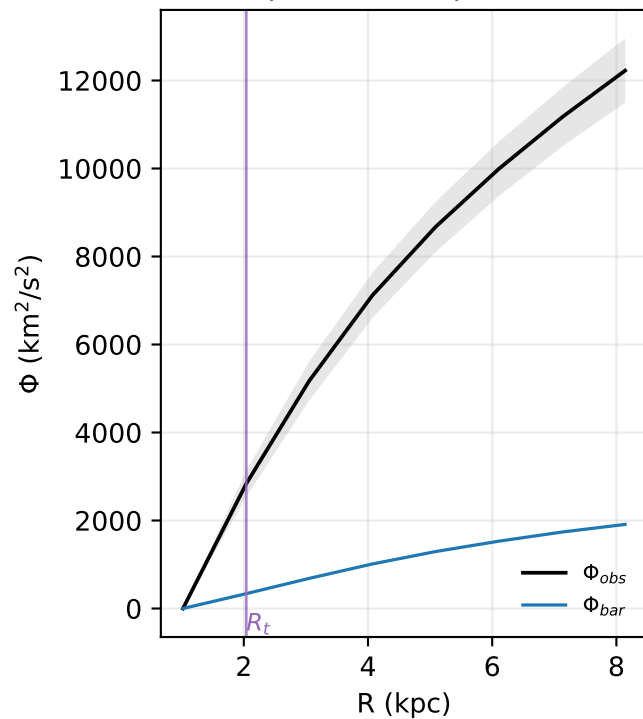

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

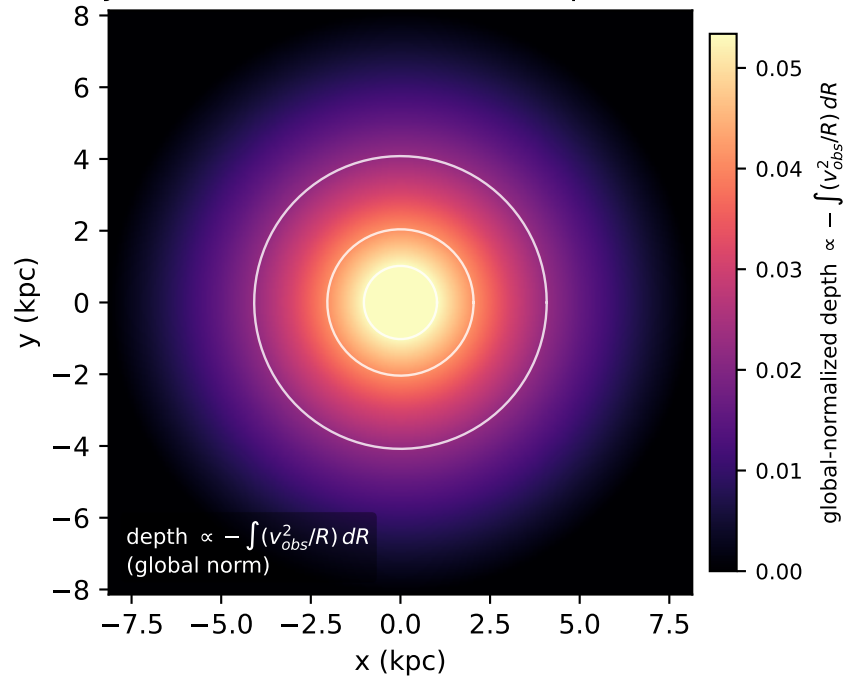

UGC02259: rotation curve

Inferred potential (up to constant)

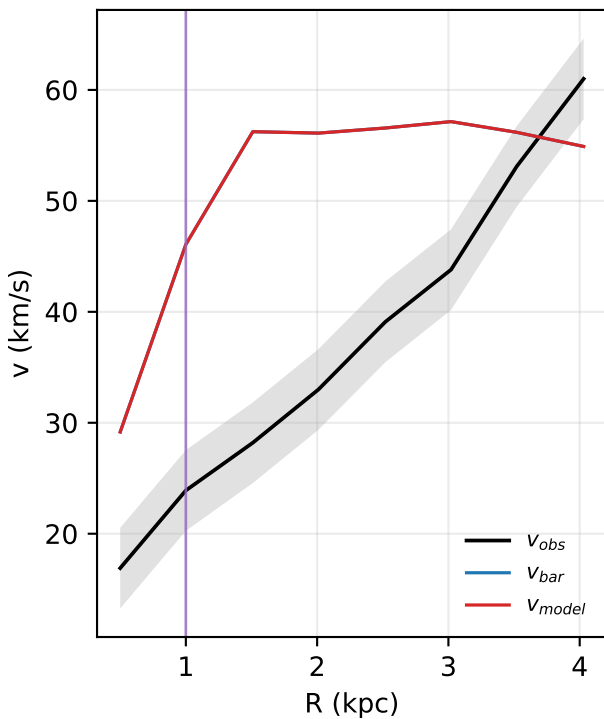

Dyed fabric (inferred effective potential)

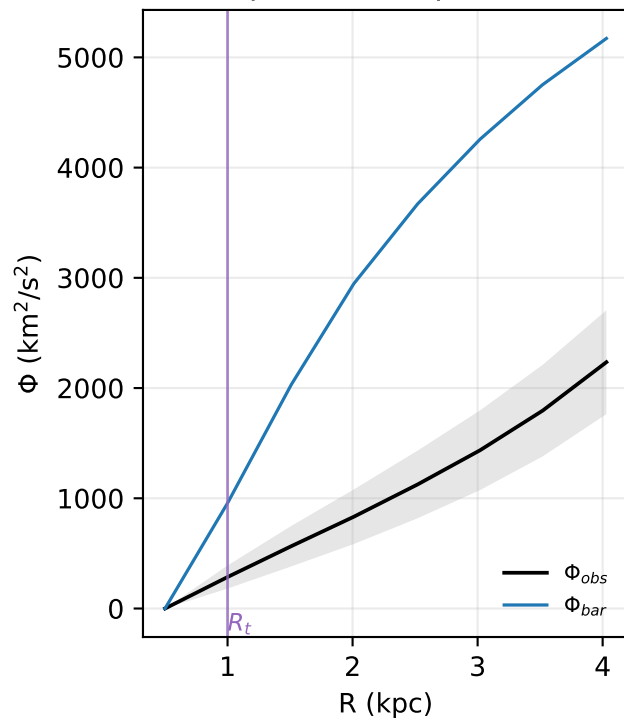

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

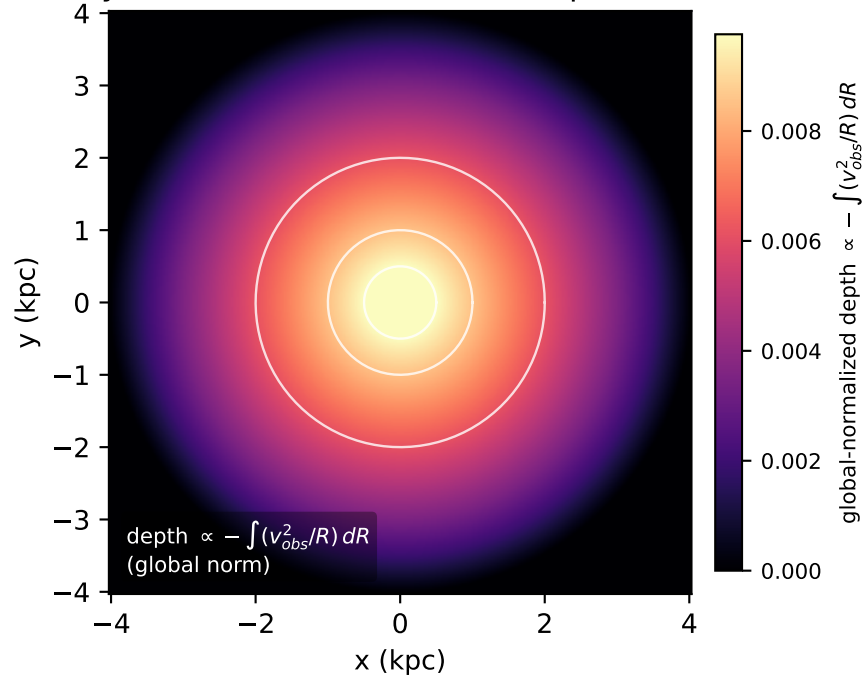

UGC02455: rotation curve

Inferred potential (up to constant)

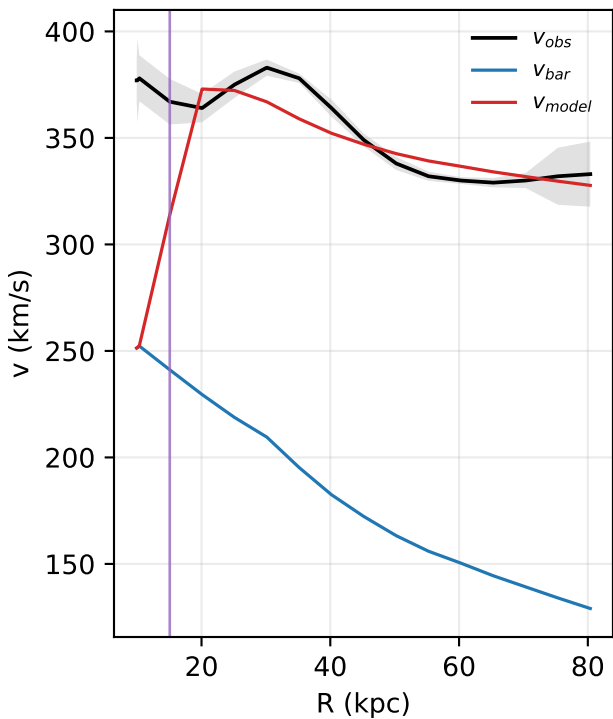

Dyed fabric (inferred effective potential)

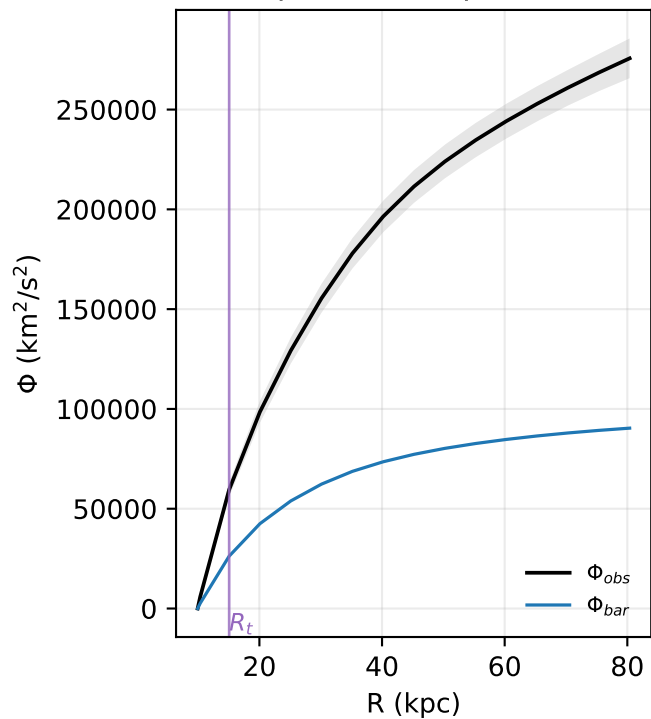

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

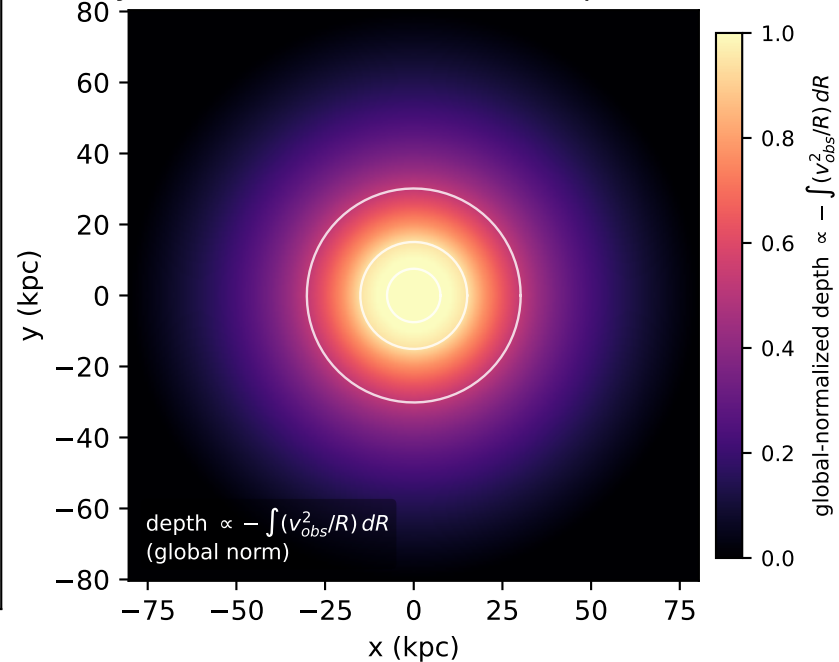

UGC02487: rotation curve

Inferred potential (up to constant)

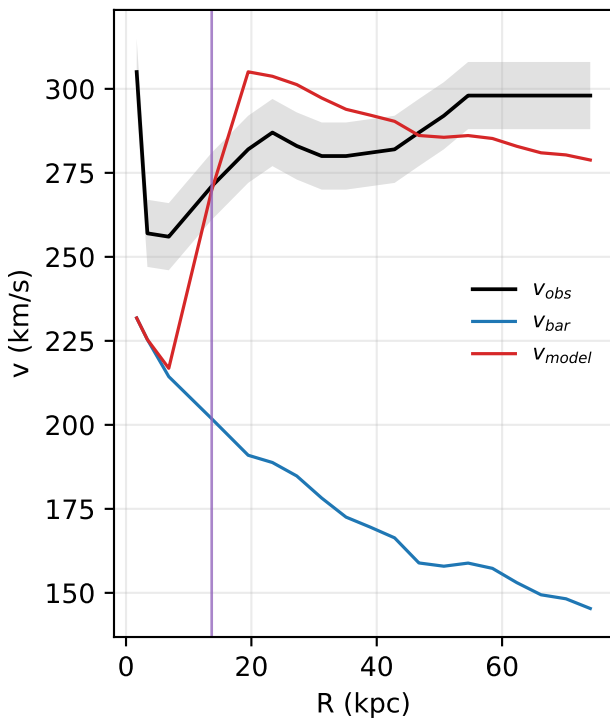

Dyed fabric (inferred effective potential)

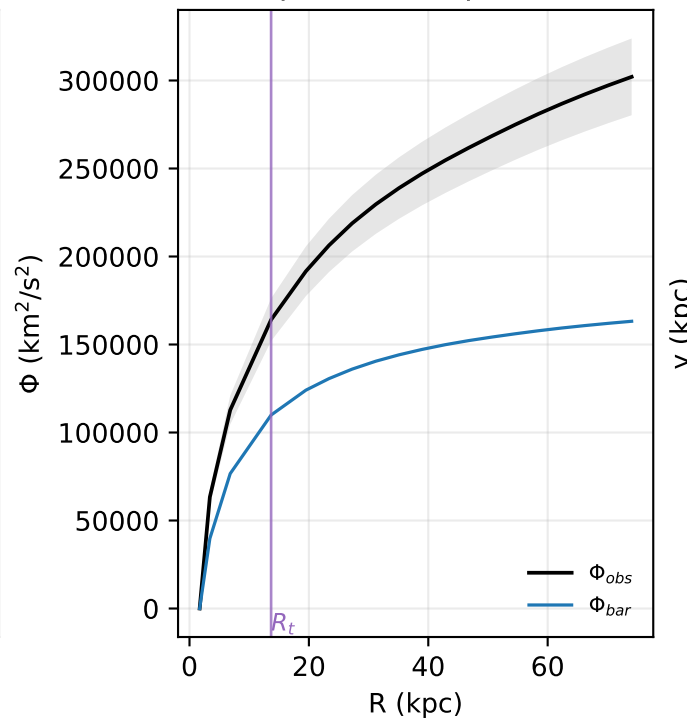

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

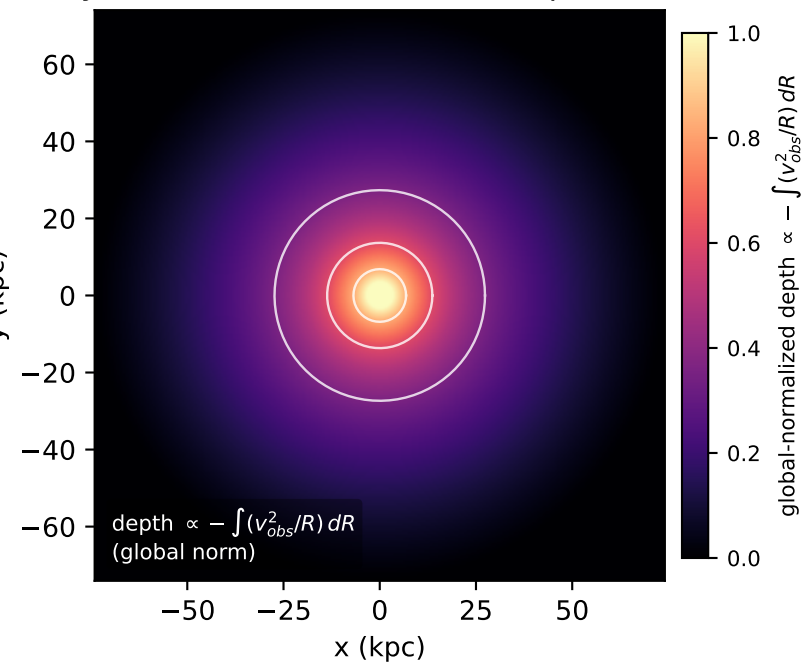

UGC02885: rotation curve

Inferred potential (up to constant)

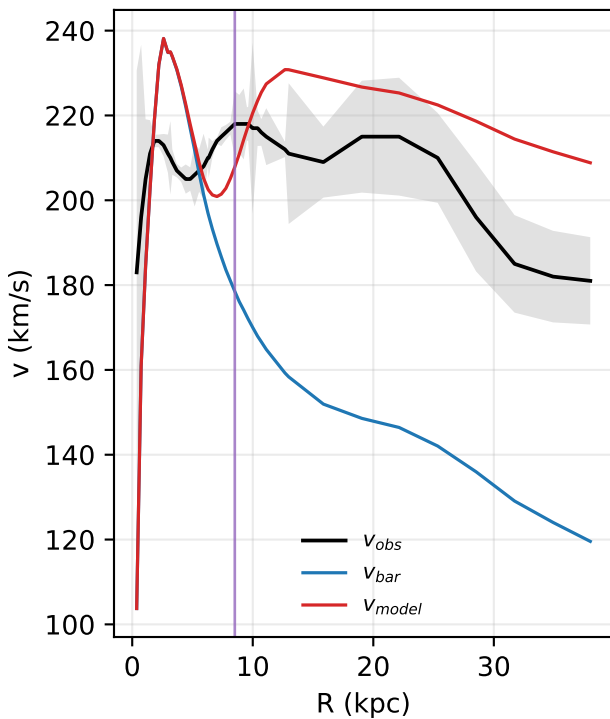

Dyed fabric (inferred effective potential)

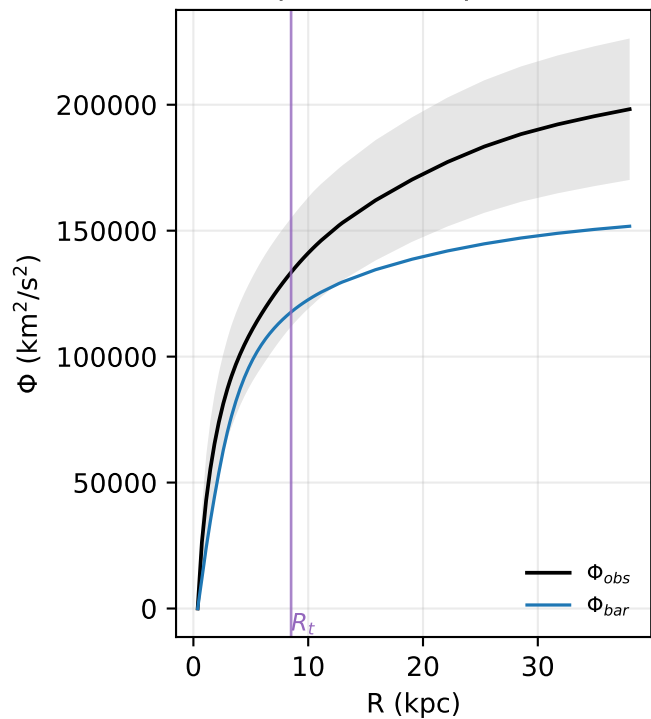

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

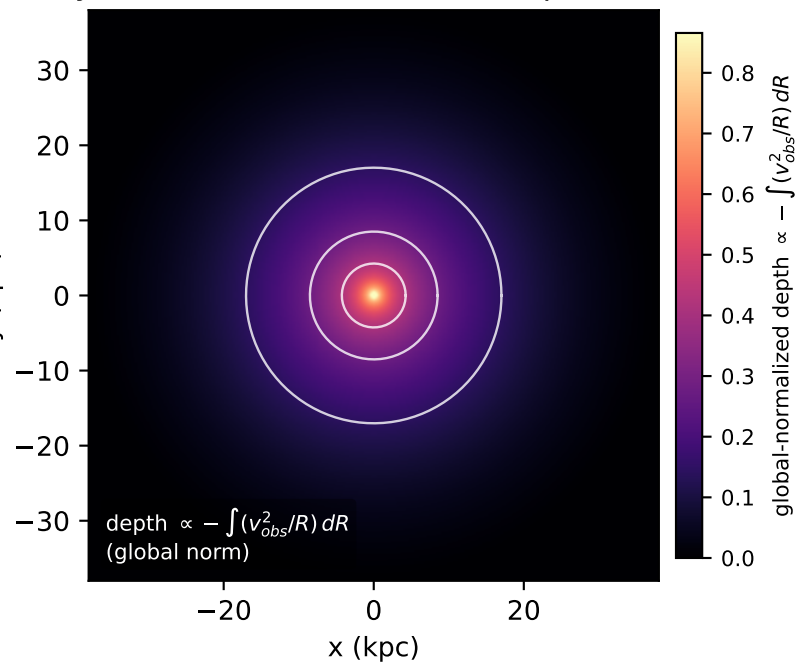

UGC02916: rotation curve

Inferred potential (up to constant)

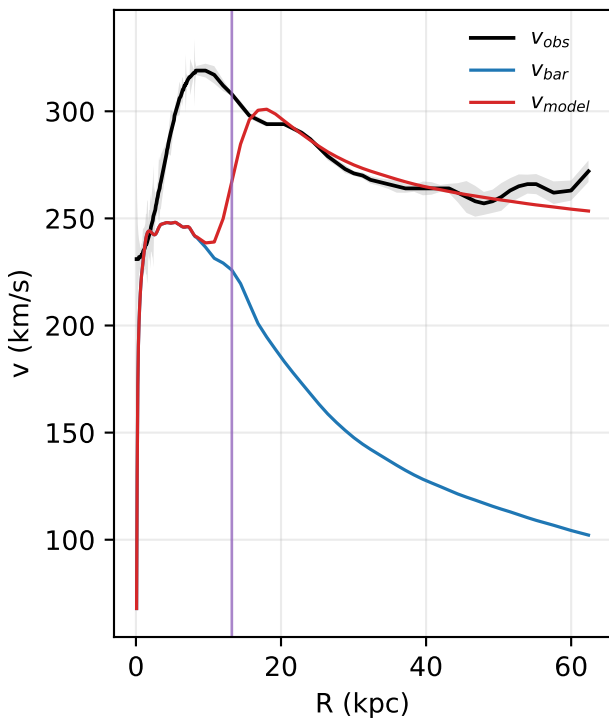

Dyed fabric (inferred effective potential)

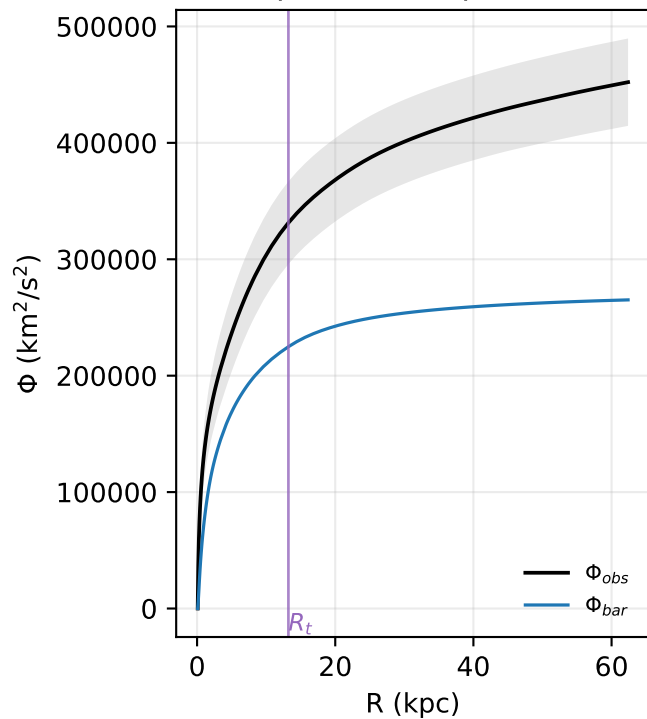

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

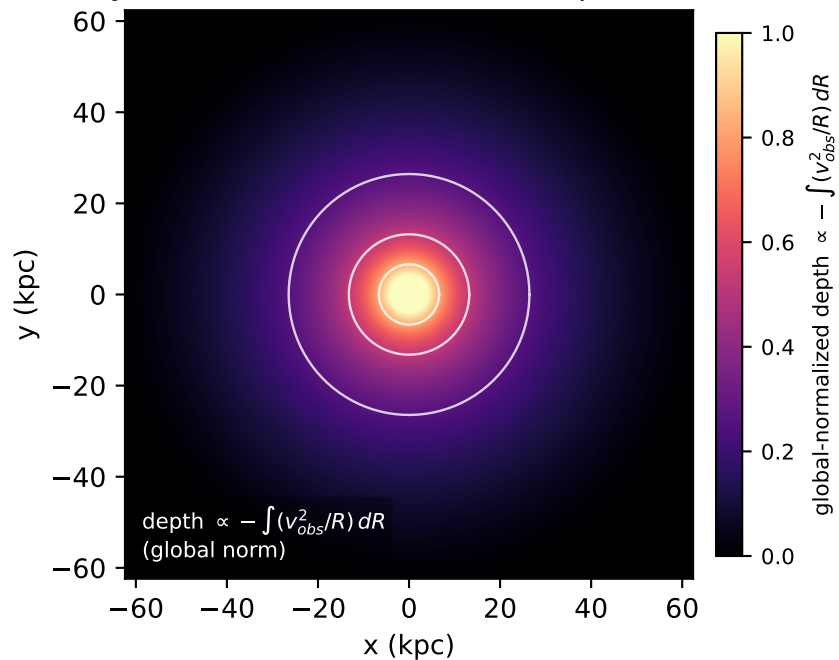

UGC02953: rotation curve

Inferred potential (up to constant)

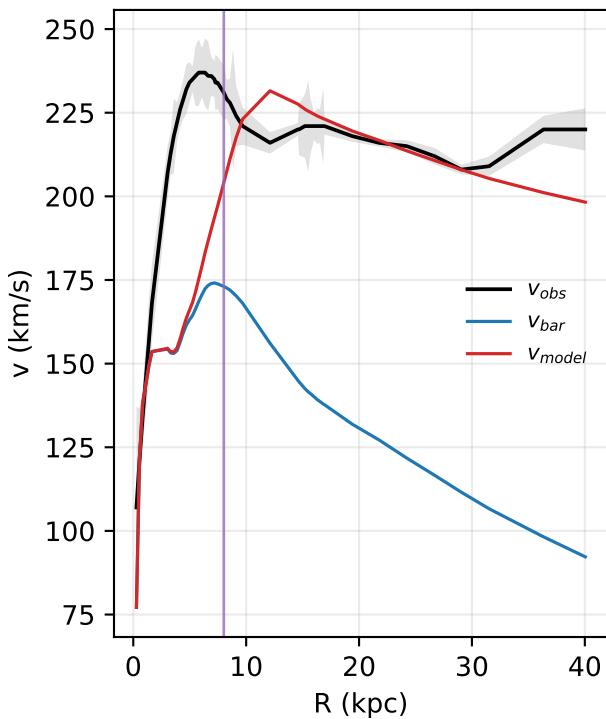

Dyed fabric (inferred effective potential)

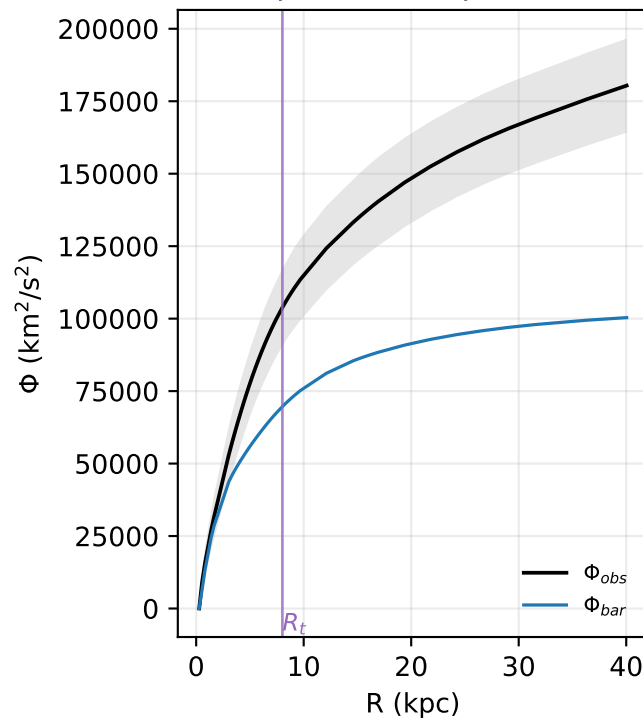

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

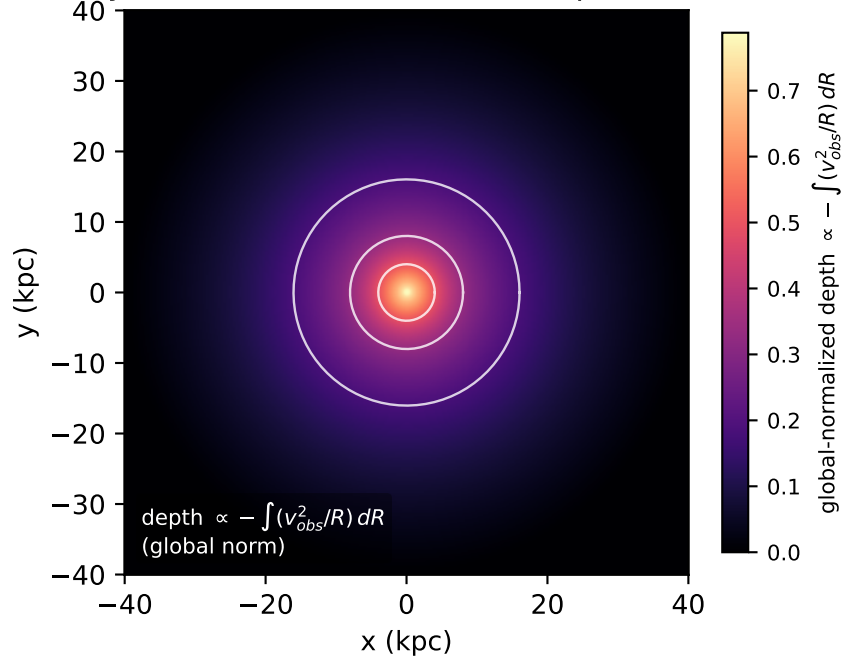

UGC03205: rotation curve

Inferred potential (up to constant)

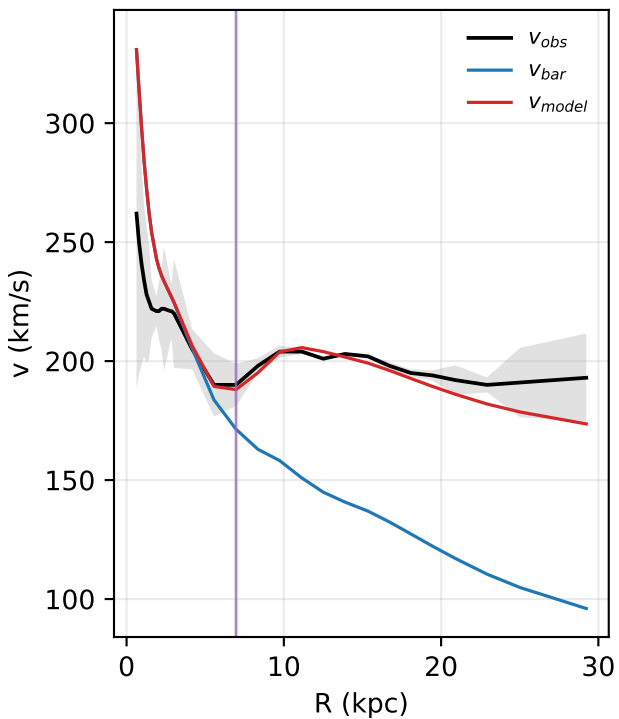

Dyed fabric (inferred effective potential)

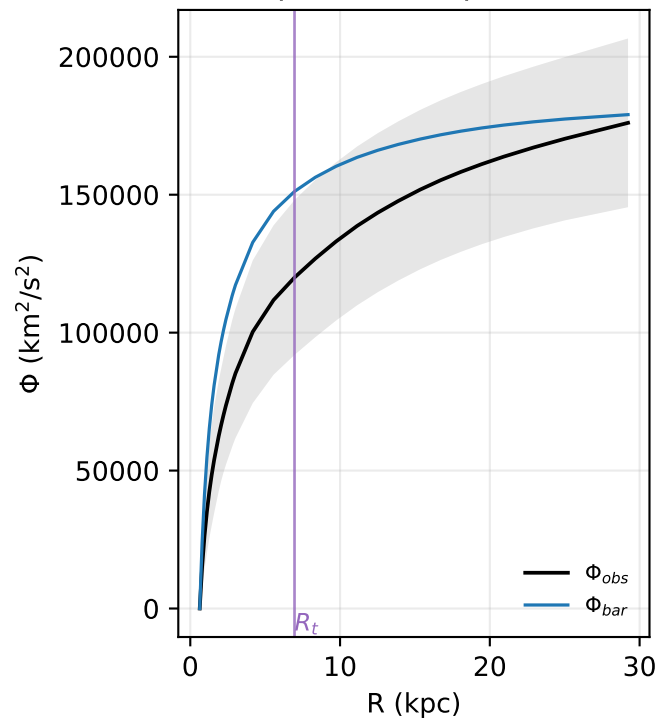

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

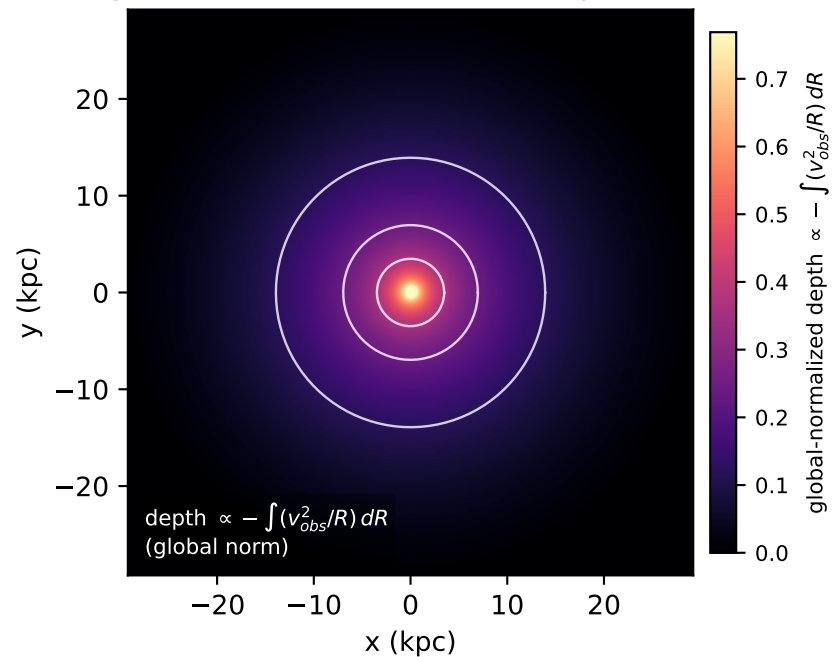

UGC03546: rotation curve

Inferred potential (up to constant)

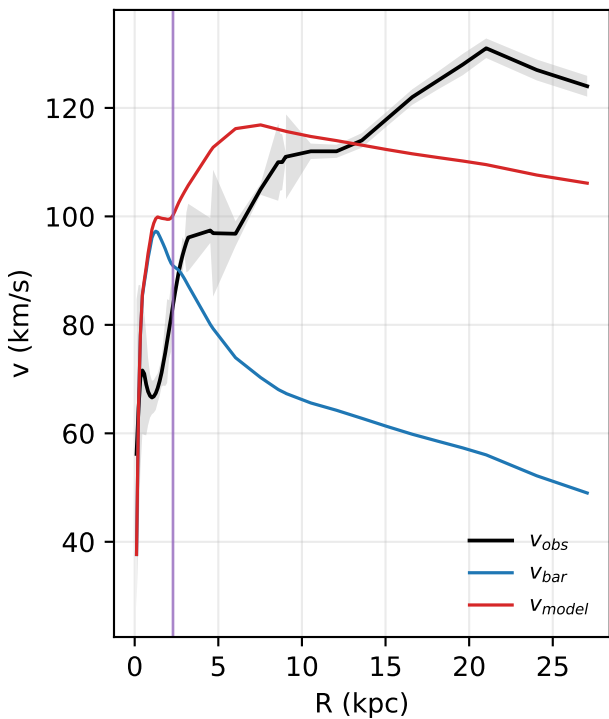

Dyed fabric (inferred effective potential)

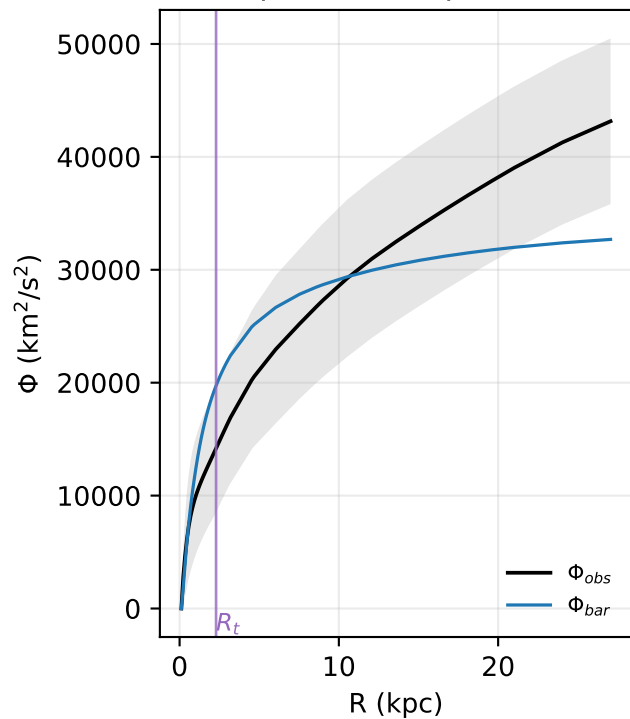

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

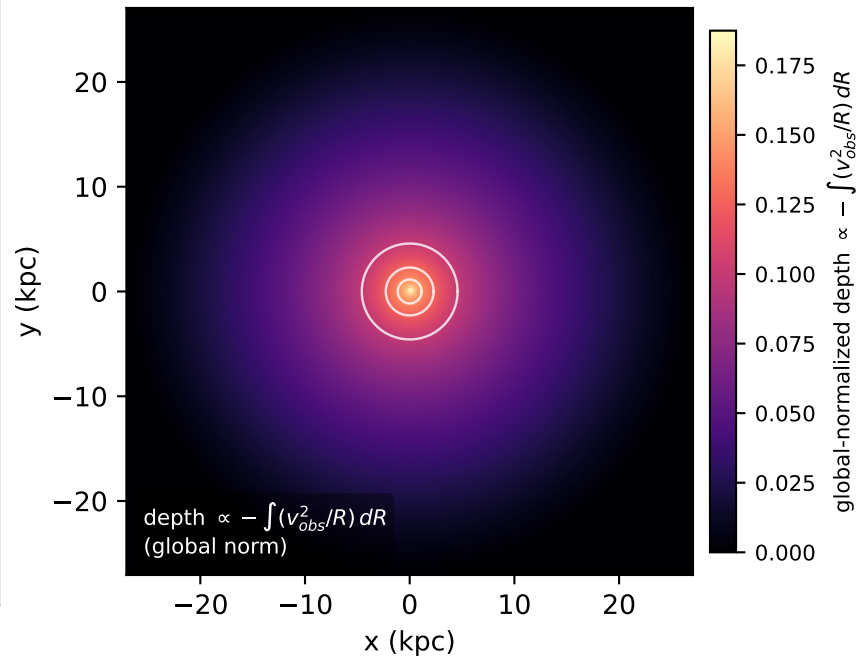

UGC03580: rotation curve

Inferred potential (up to constant)

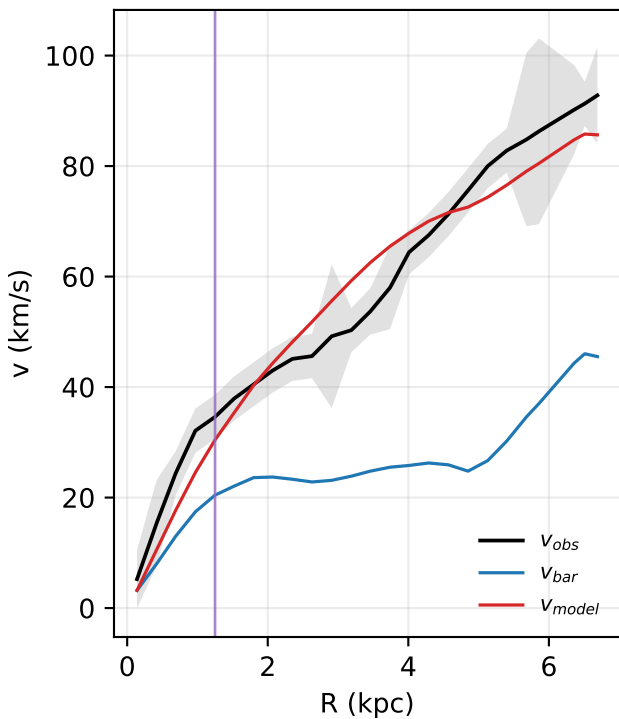

Dyed fabric (inferred effective potential)

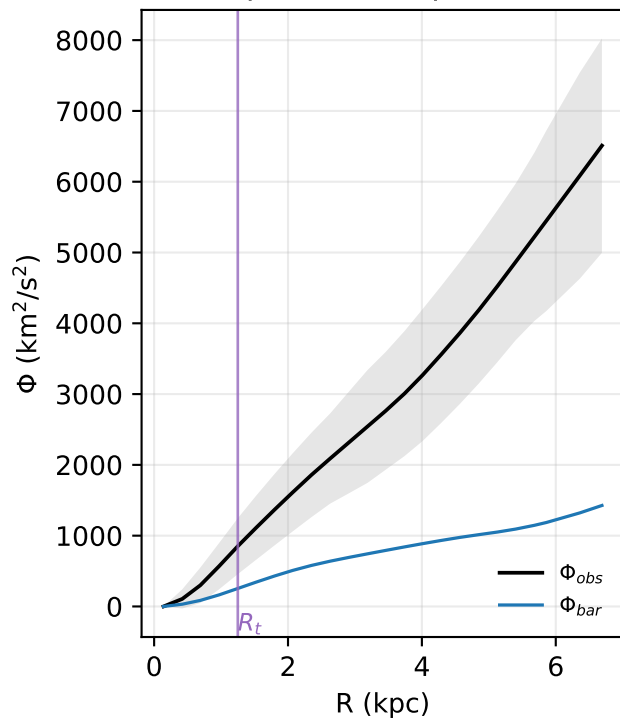

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

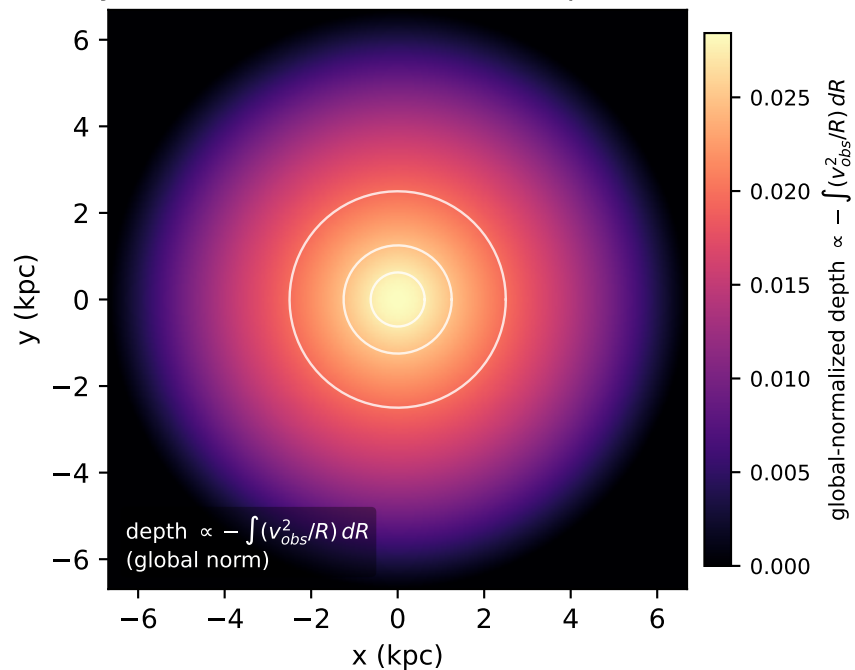

UGC04278: rotation curve

Inferred potential (up to constant)

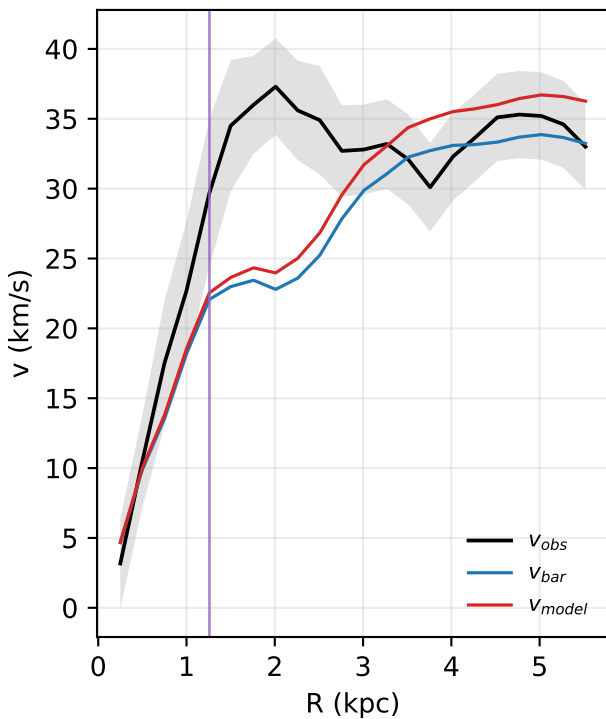

Dyed fabric (inferred effective potential)

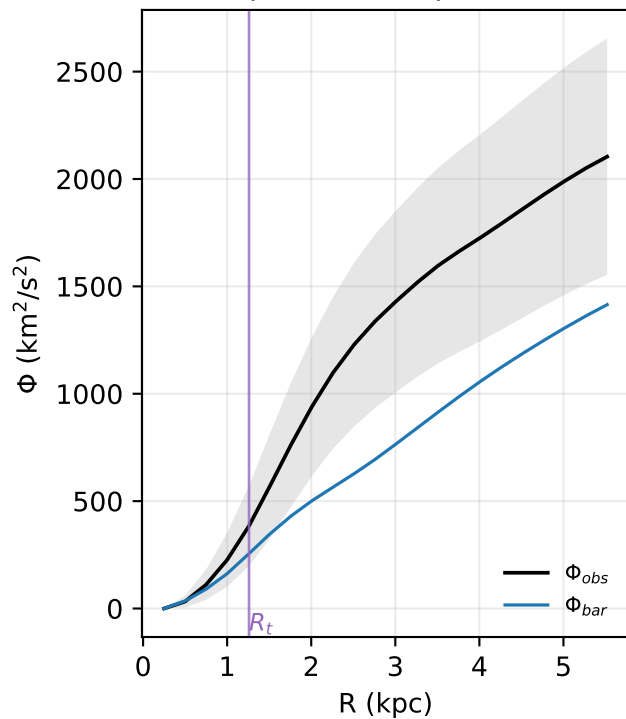

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

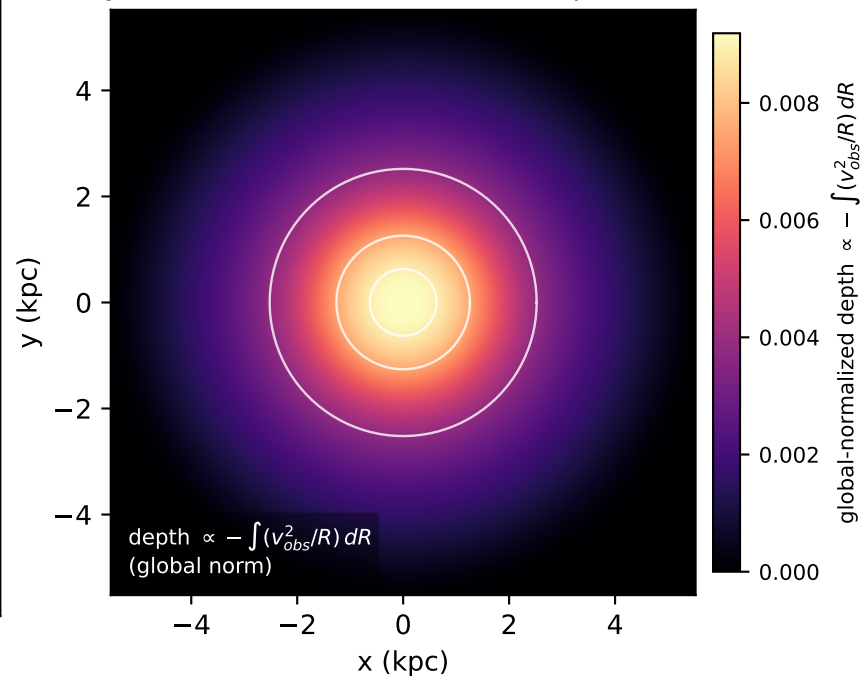

UGC04305: rotation curve

Inferred potential (up to constant)

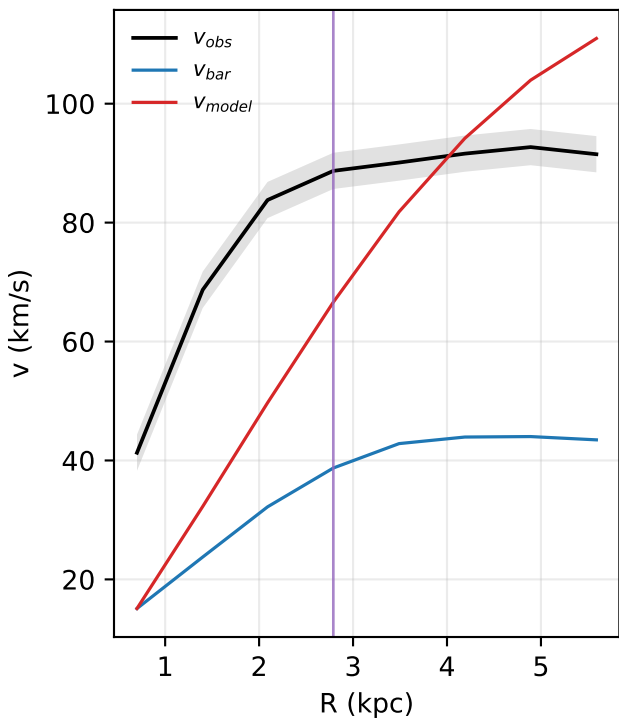

Dyed fabric (inferred effective potential)

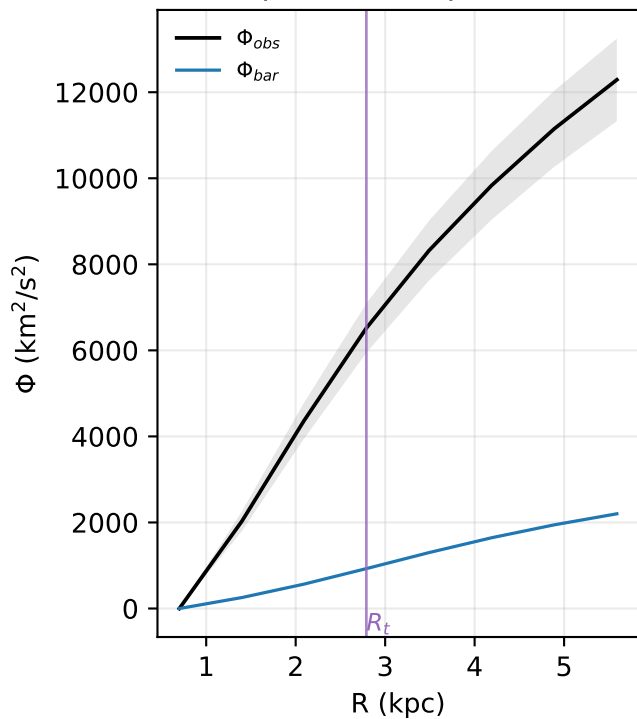

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

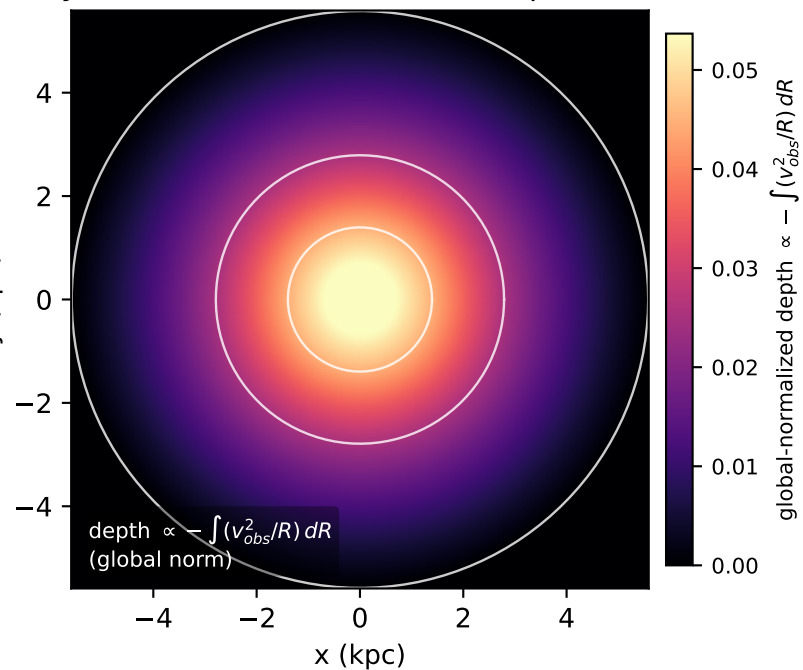

UGC04325: rotation curve

Inferred potential (up to constant)

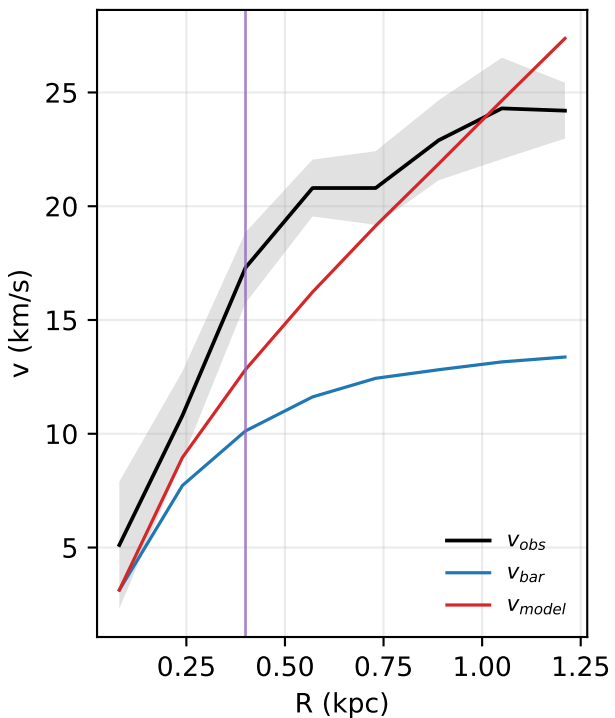

Dyed fabric (inferred effective potential)

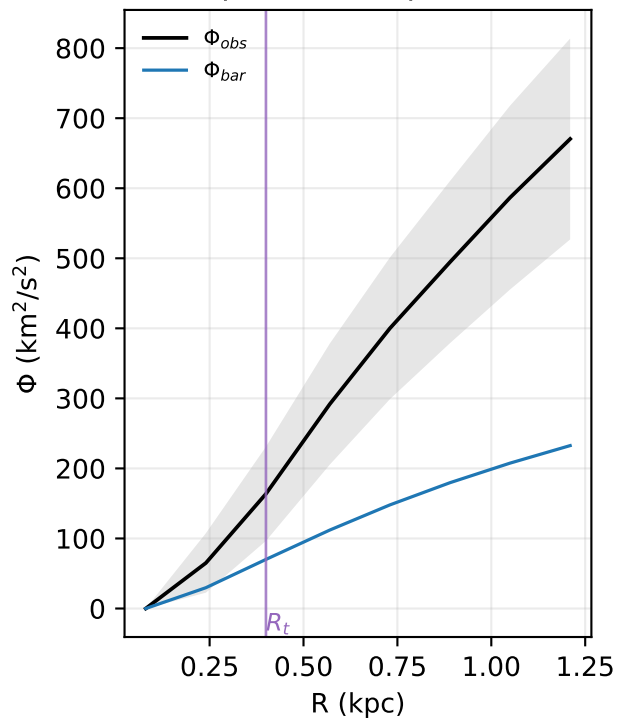

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

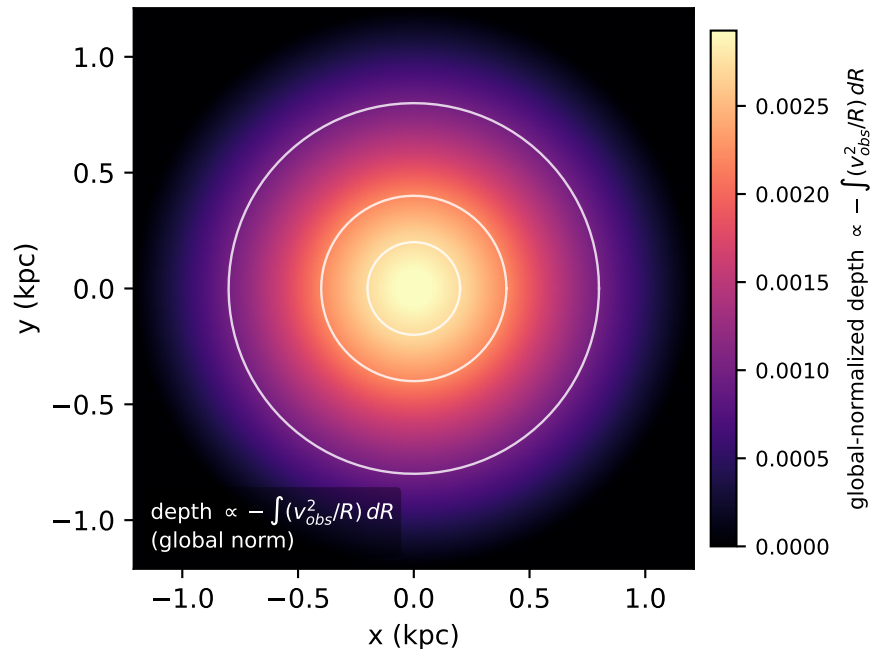

UGC04483: rotation curve

Inferred potential (up to constant)

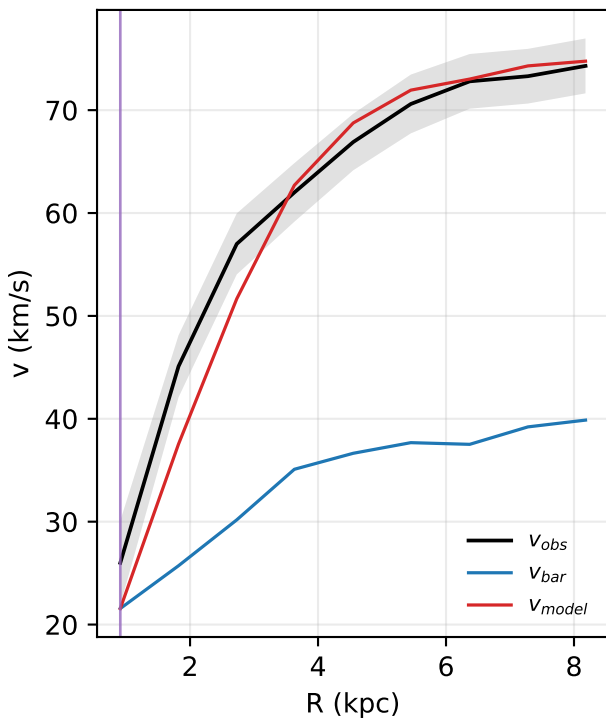

Dyed fabric (inferred effective potential)

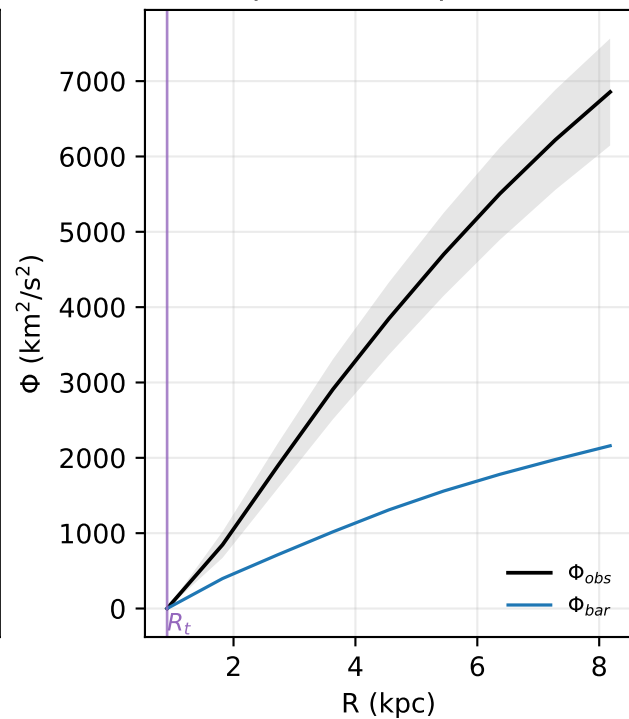

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

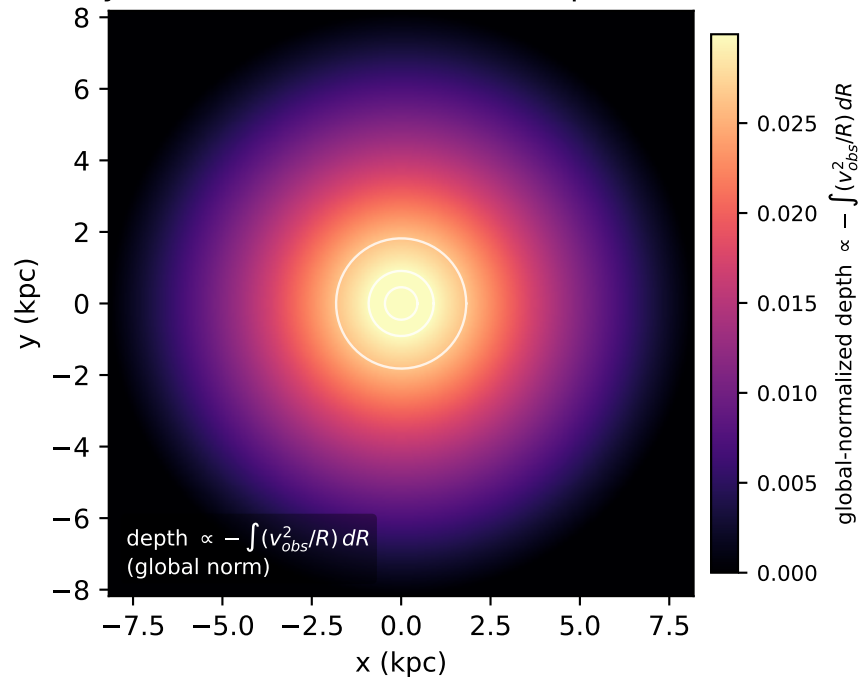

UGC04499: rotation curve

Inferred potential (up to constant)

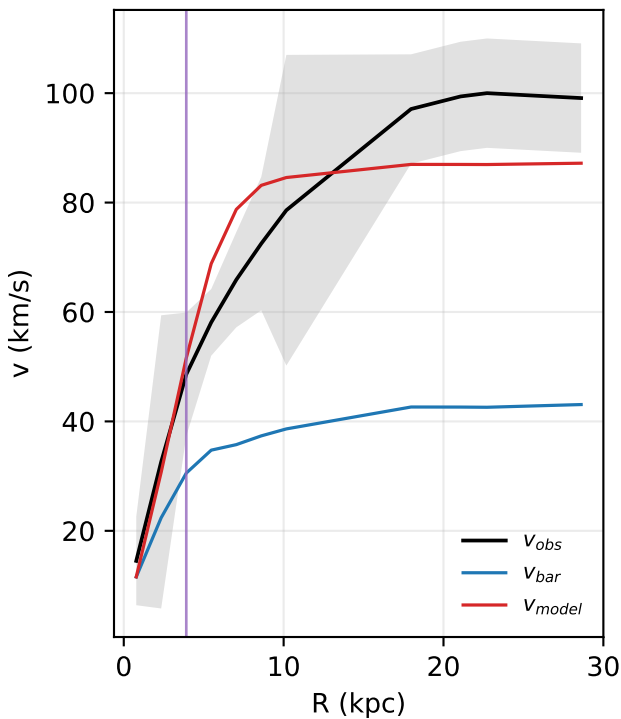

Dyed fabric (inferred effective potential)

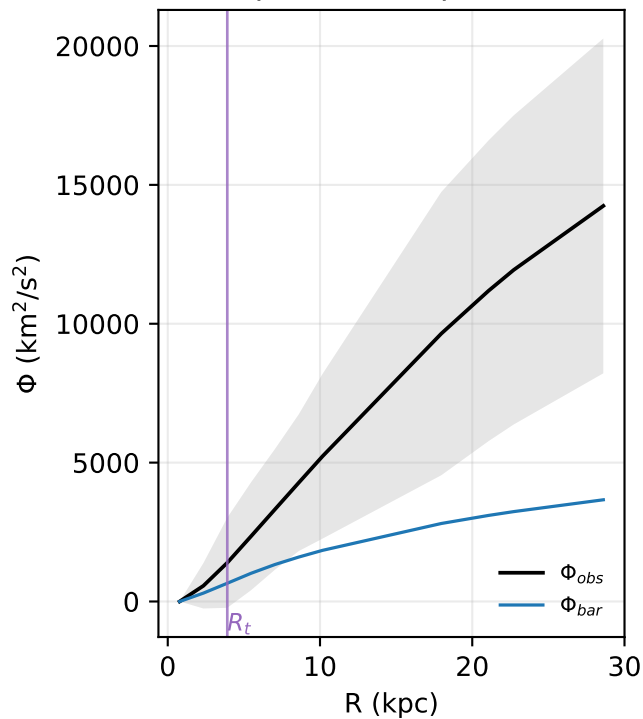

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

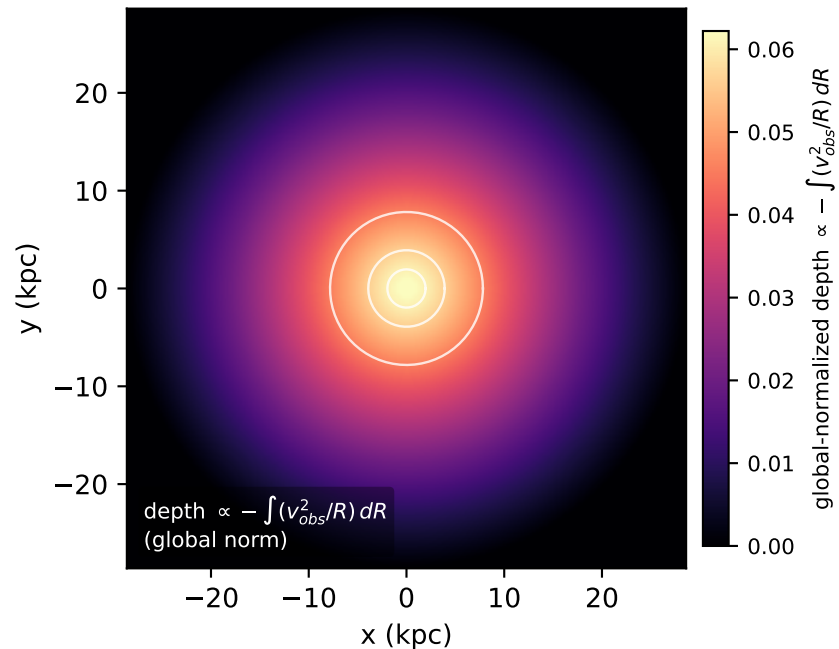

UGC05005: rotation curve

Inferred potential (up to constant)

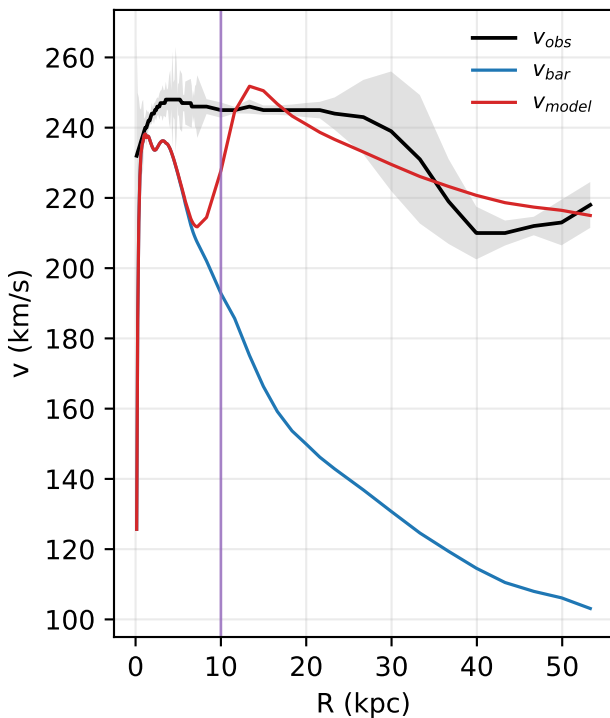

Dyed fabric (inferred effective potential)

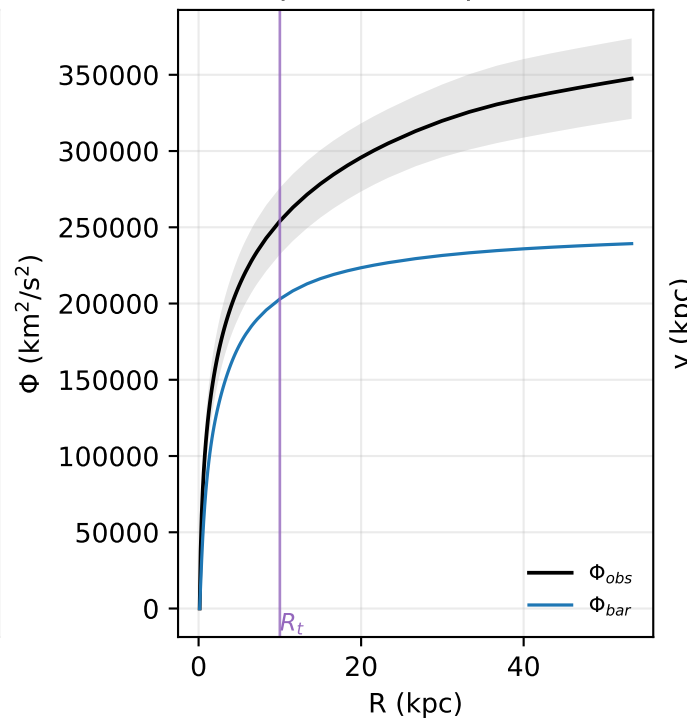

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

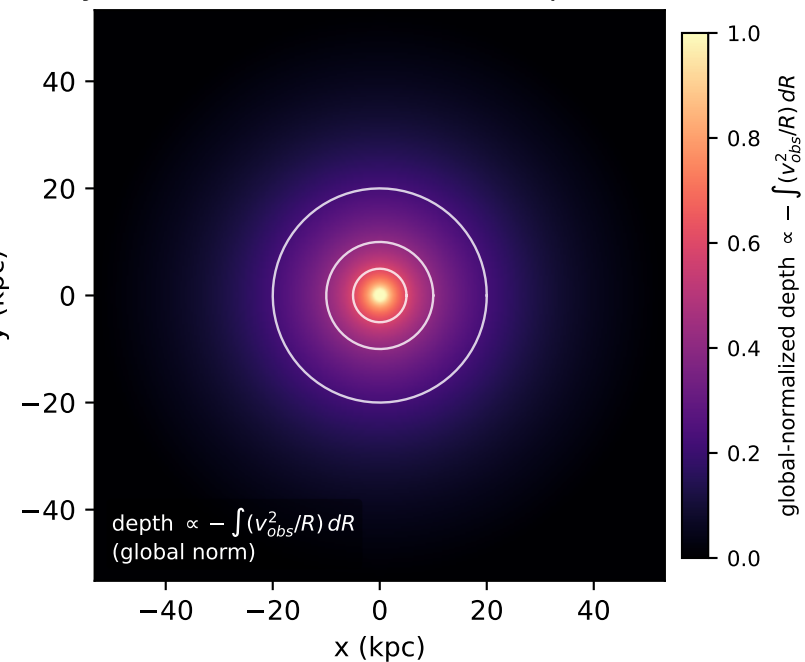

UGC05253: rotation curve

Inferred potential (up to constant)

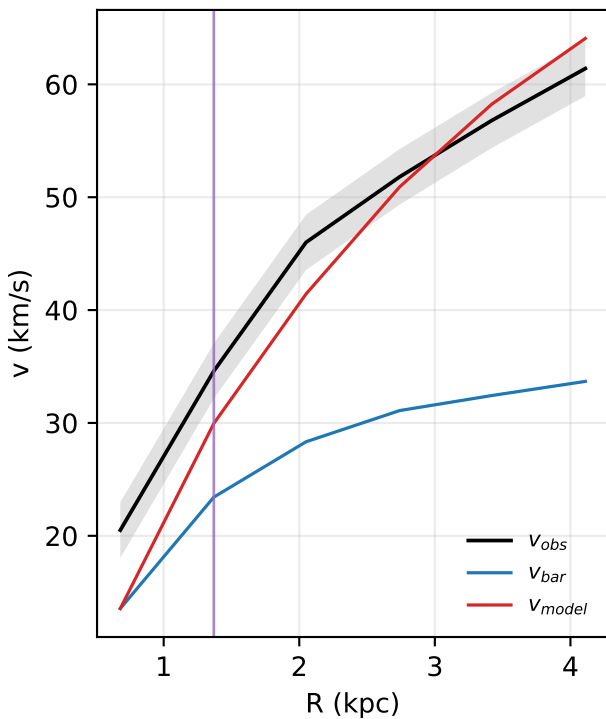

Dyed fabric (inferred effective potential)

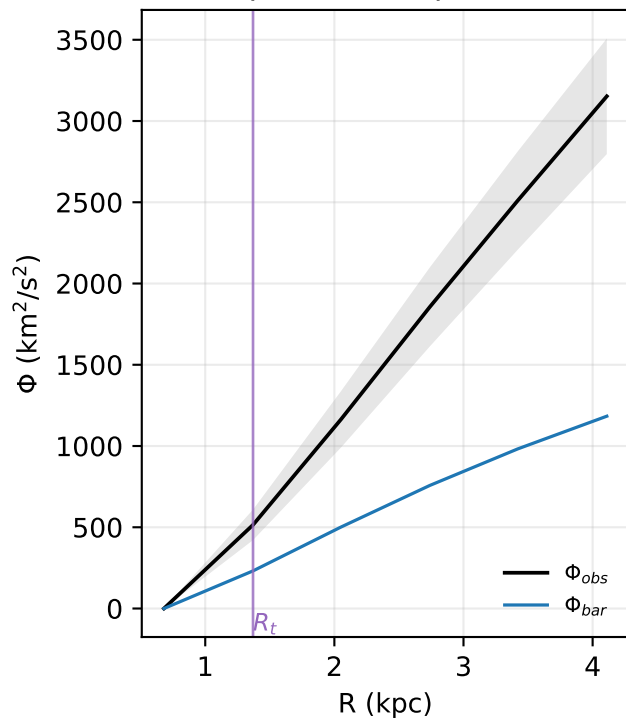

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

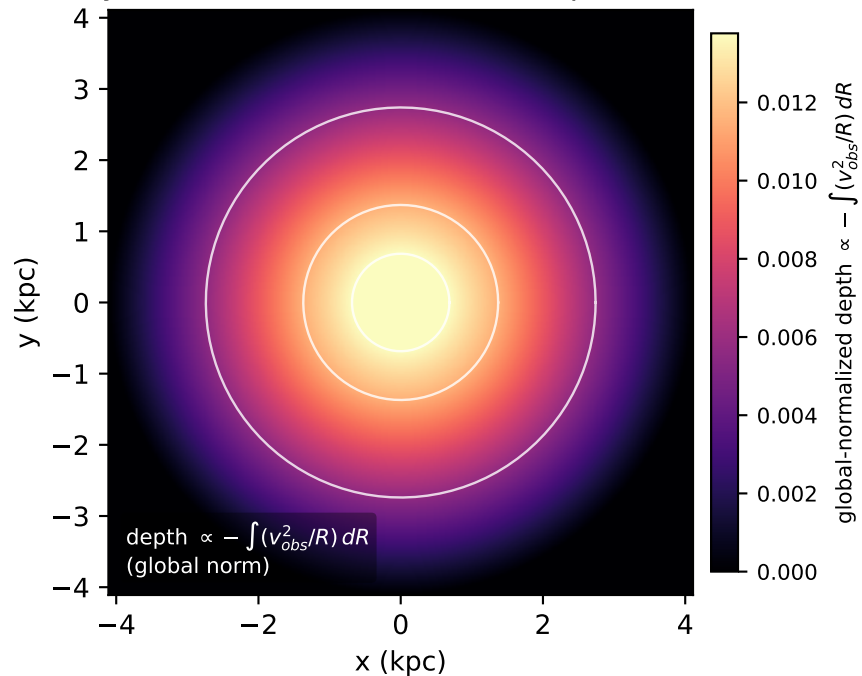

UGC05414: rotation curve

Inferred potential (up to constant)

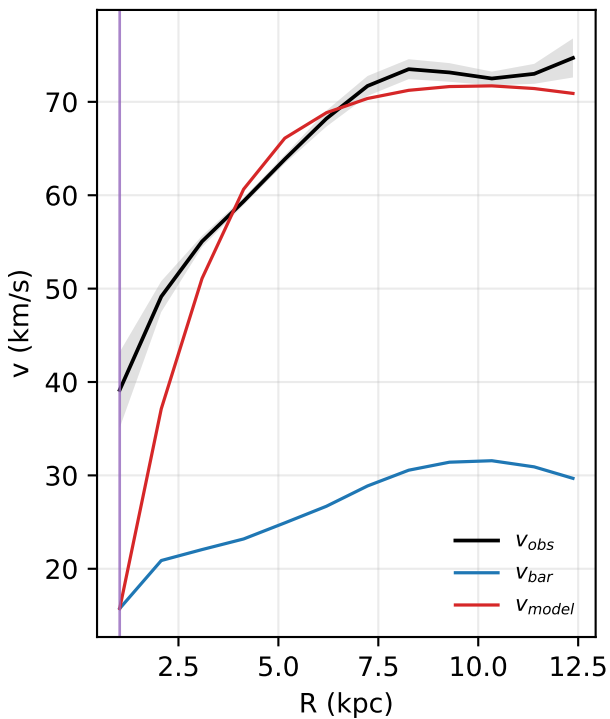

Dyed fabric (inferred effective potential)

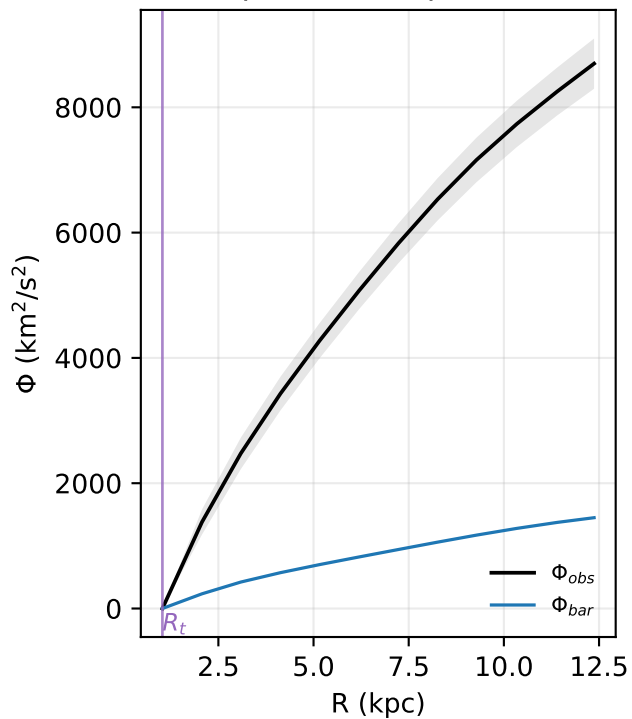

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

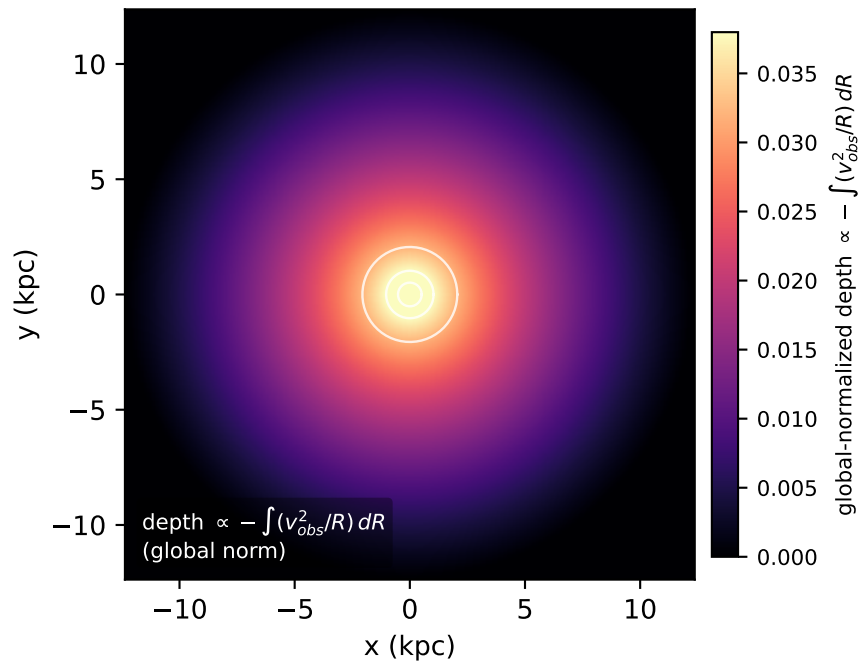

UGC05716: rotation curve

Inferred potential (up to constant)

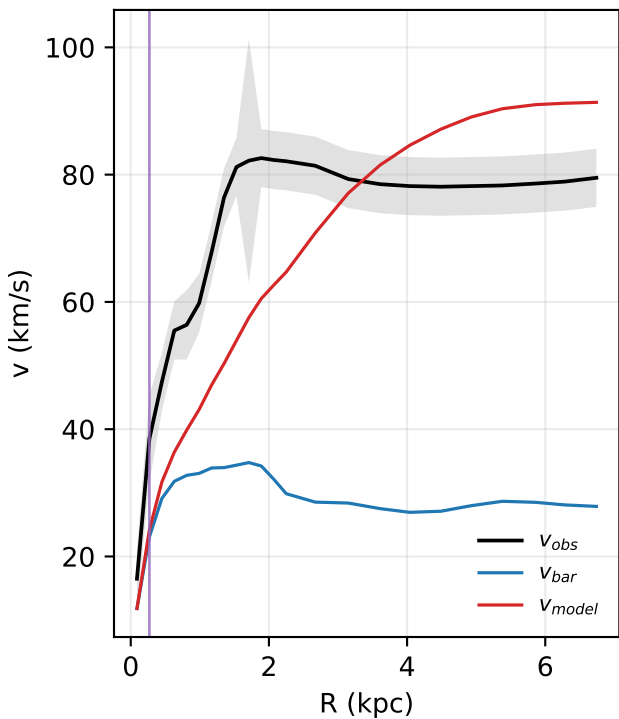

Dyed fabric (inferred effective potential)

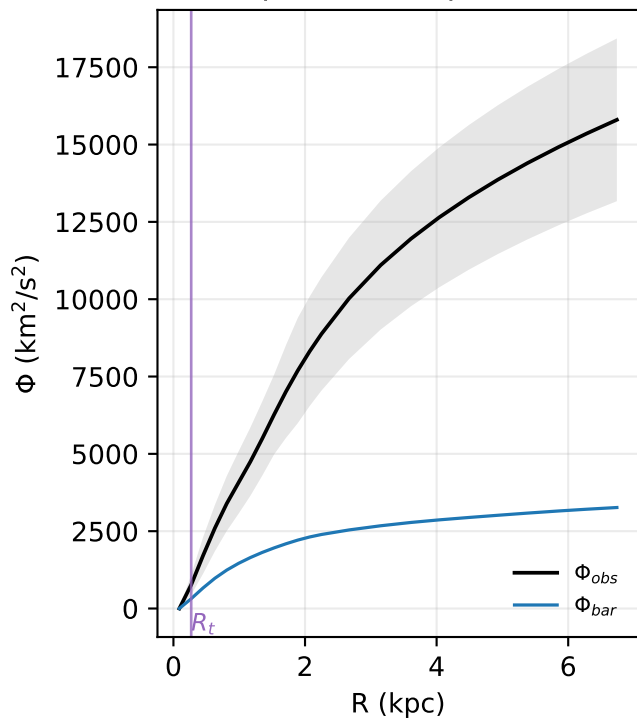

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

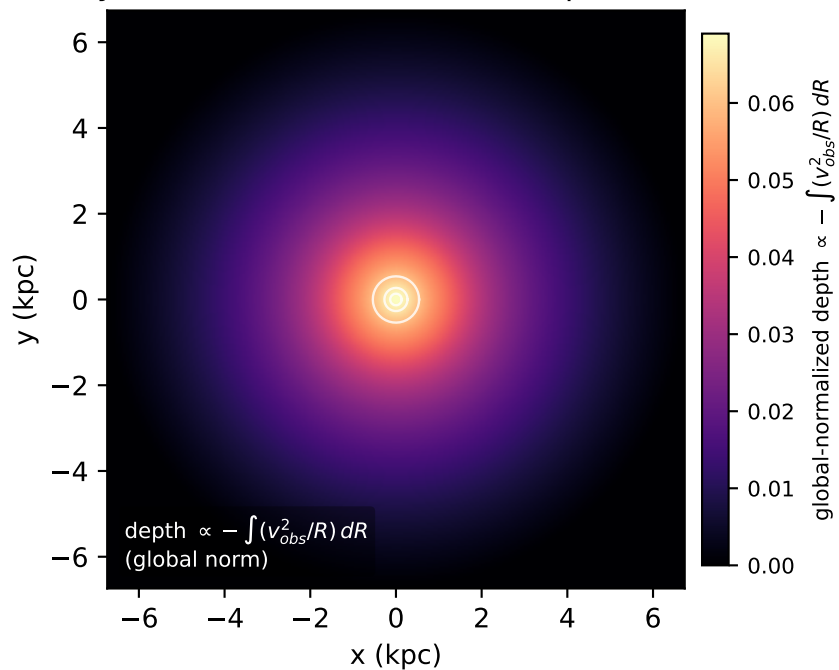

UGC05721: rotation curve

Inferred potential (up to constant)

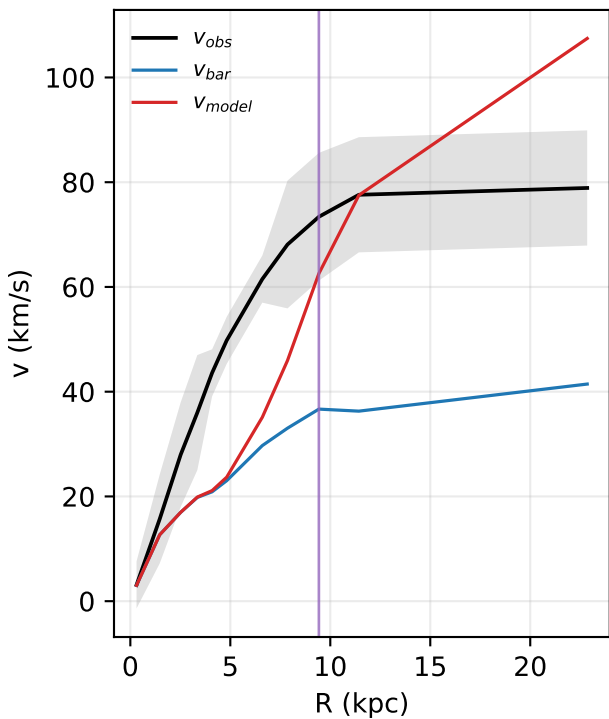

Dyed fabric (inferred effective potential)

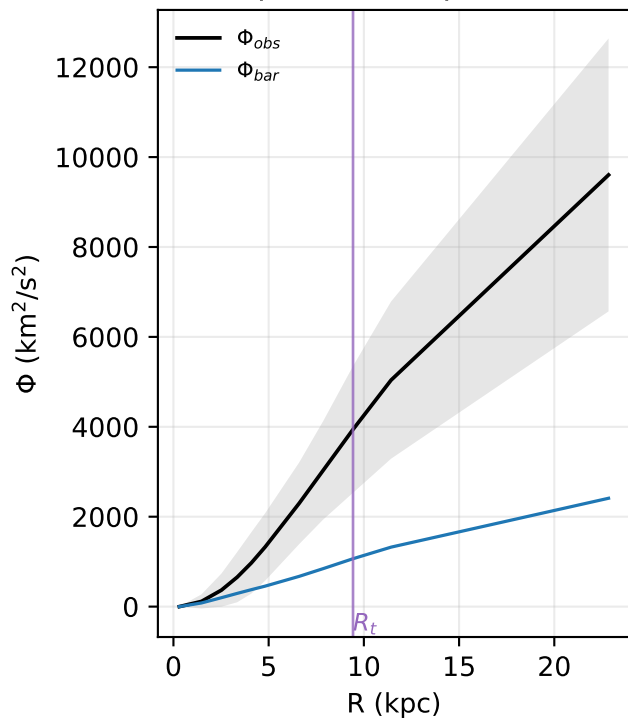

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

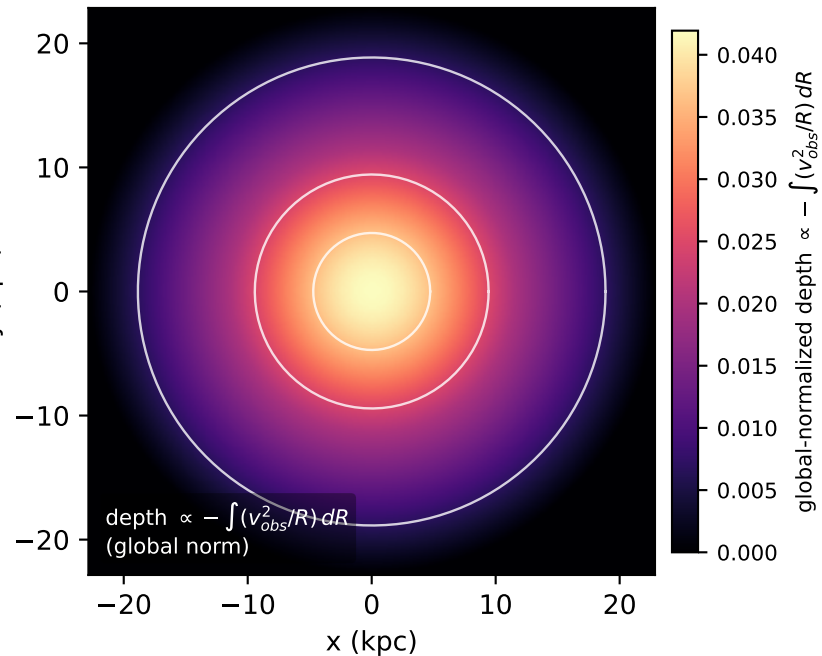

UGC05750: rotation curve

Inferred potential (up to constant)

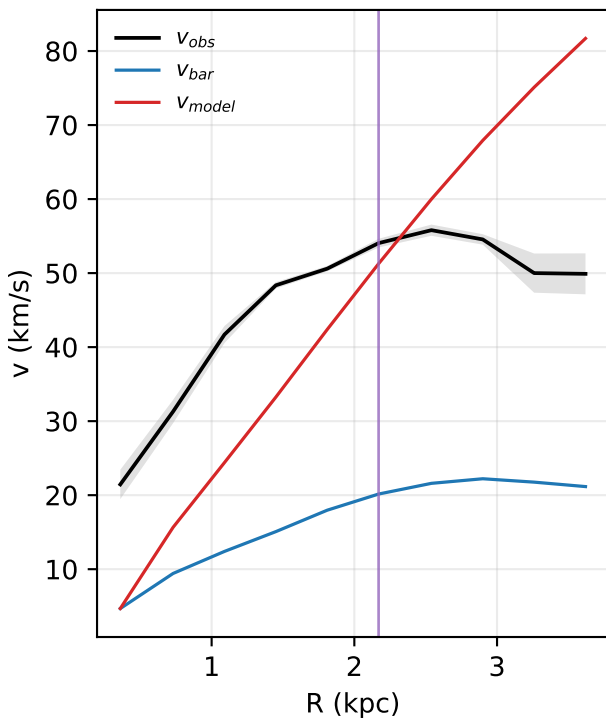

Dyed fabric (inferred effective potential)

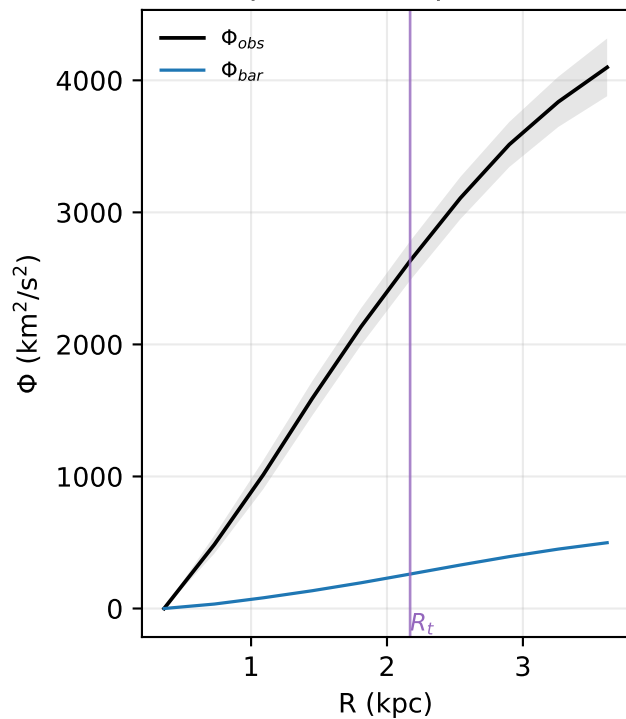

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

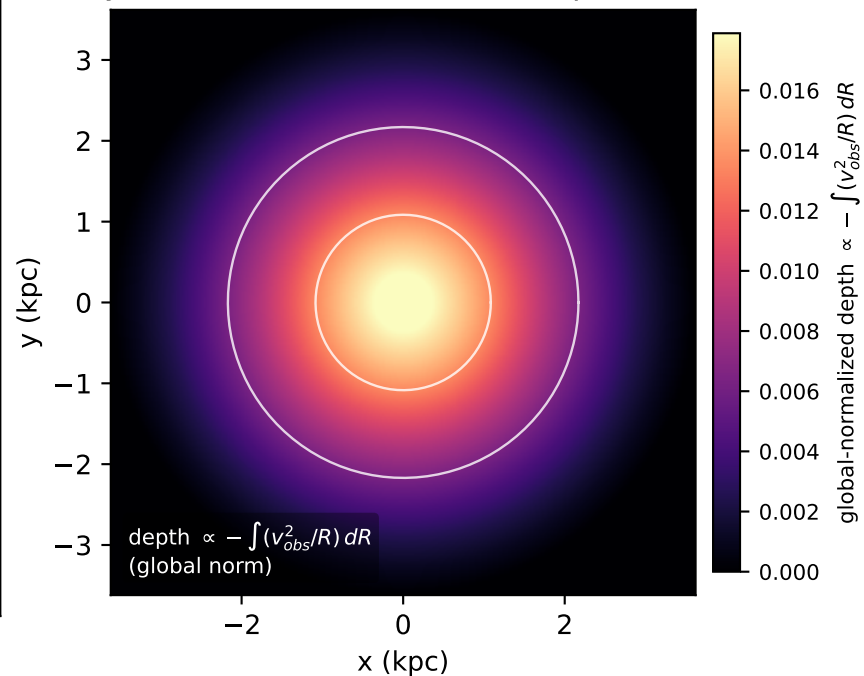

UGC05764: rotation curve

Inferred potential (up to constant)

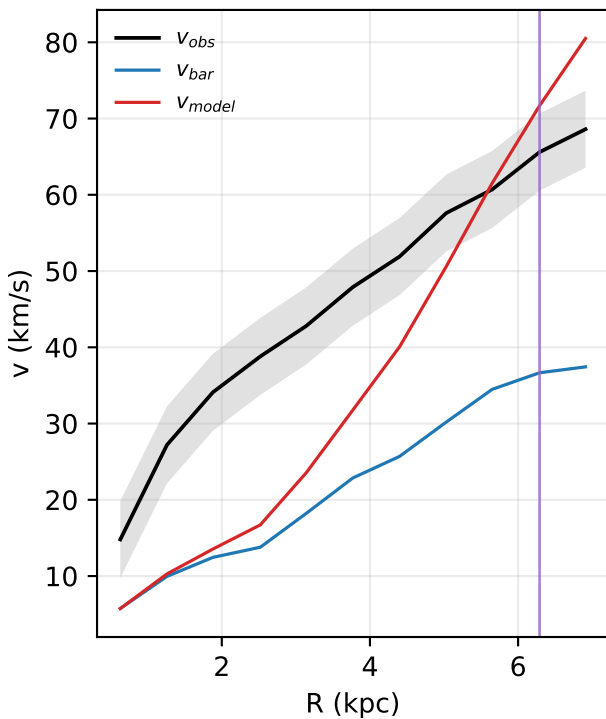

Dyed fabric (inferred effective potential)

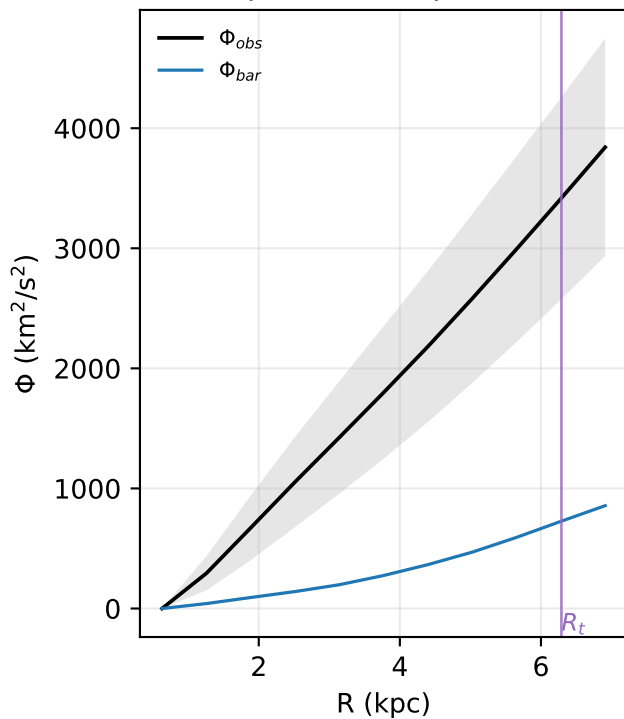

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

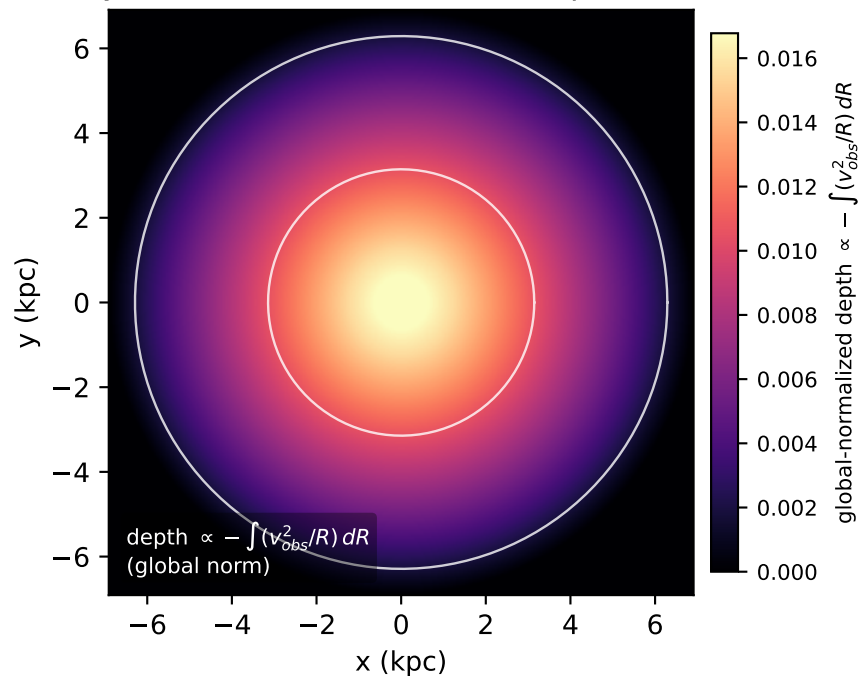

UGC05829: rotation curve

Inferred potential (up to constant)

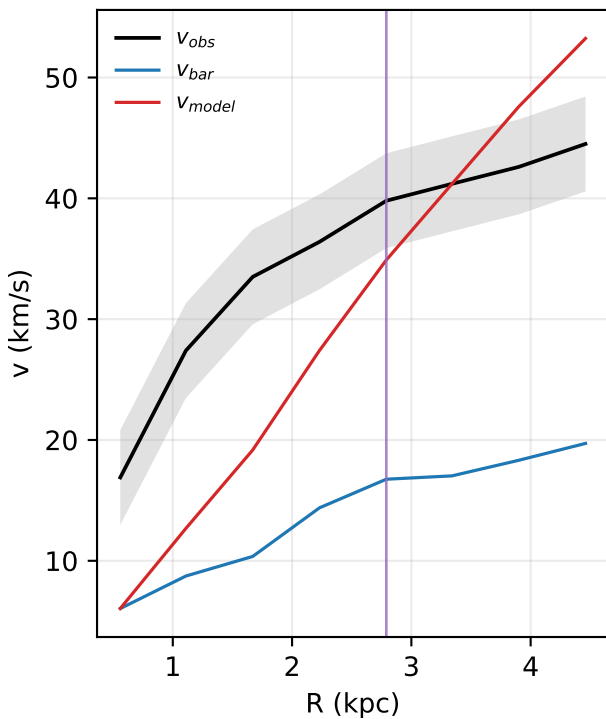

Dyed fabric (inferred effective potential)

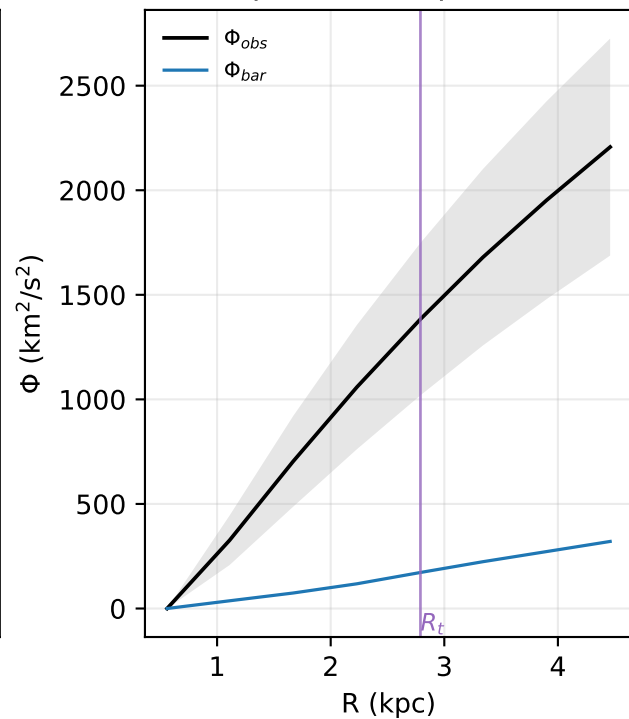

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

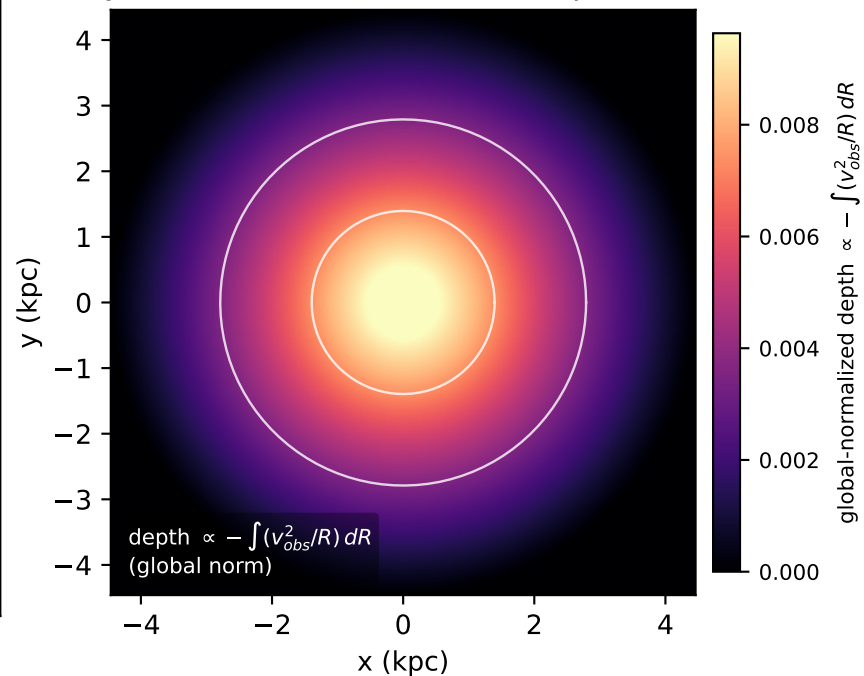

UGC05918: rotation curve

Inferred potential (up to constant)

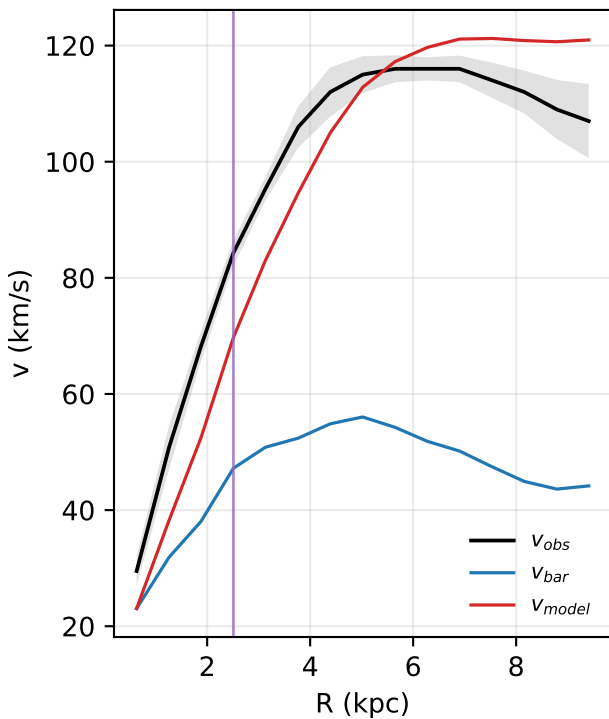

Dyed fabric (inferred effective potential)

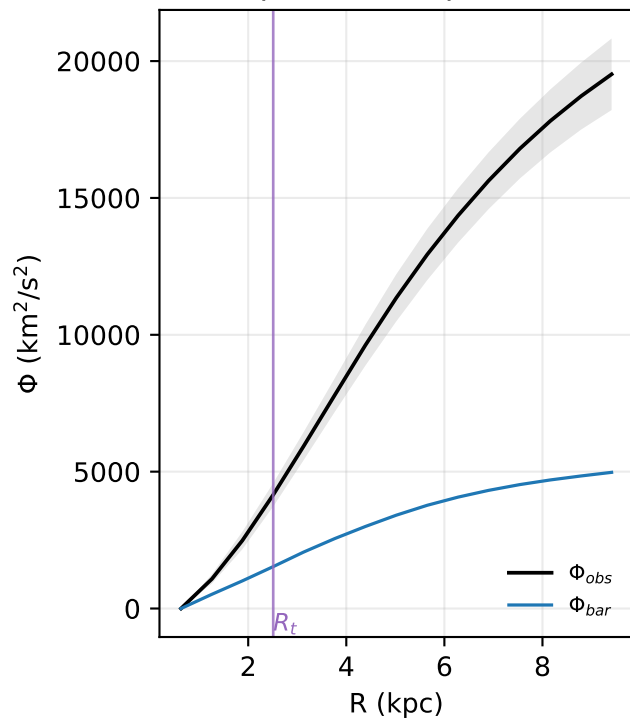

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

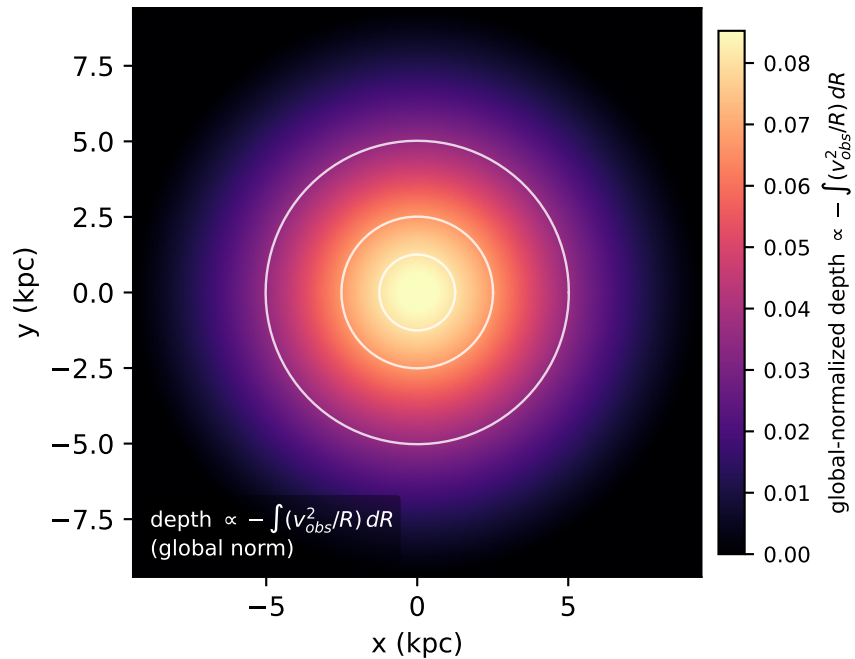

UGC05986: rotation curve

Inferred potential (up to constant)

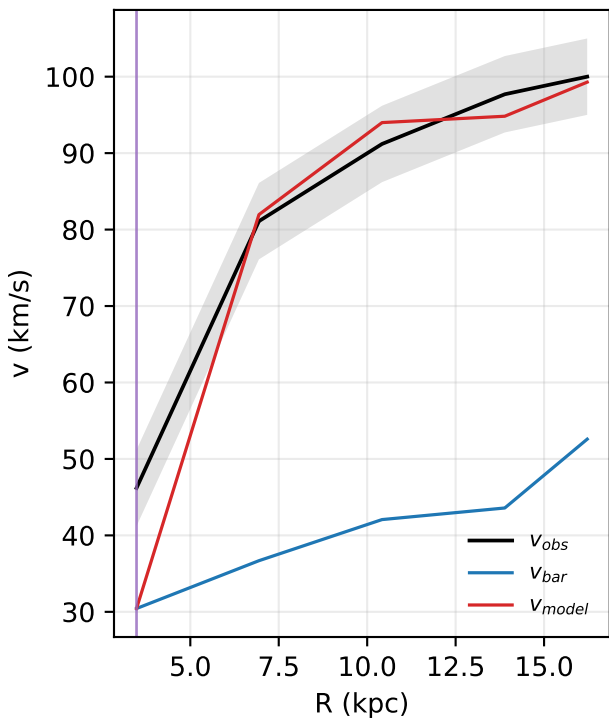

Dyed fabric (inferred effective potential)

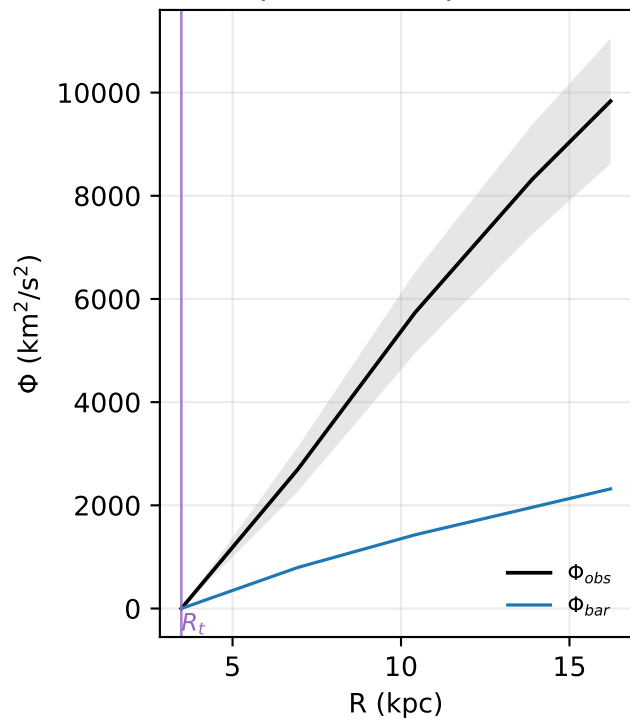

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

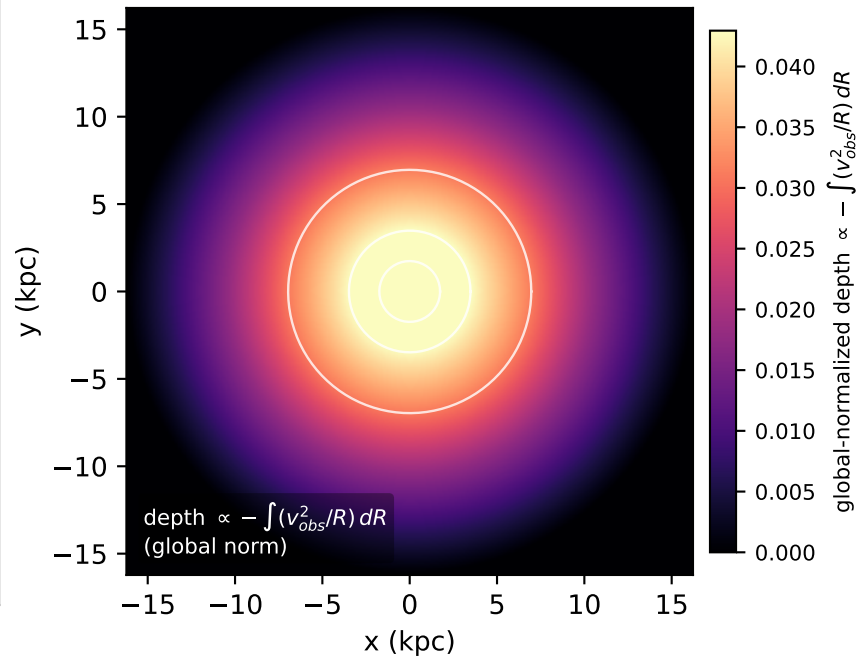

UGC05999: rotation curve

Inferred potential (up to constant)

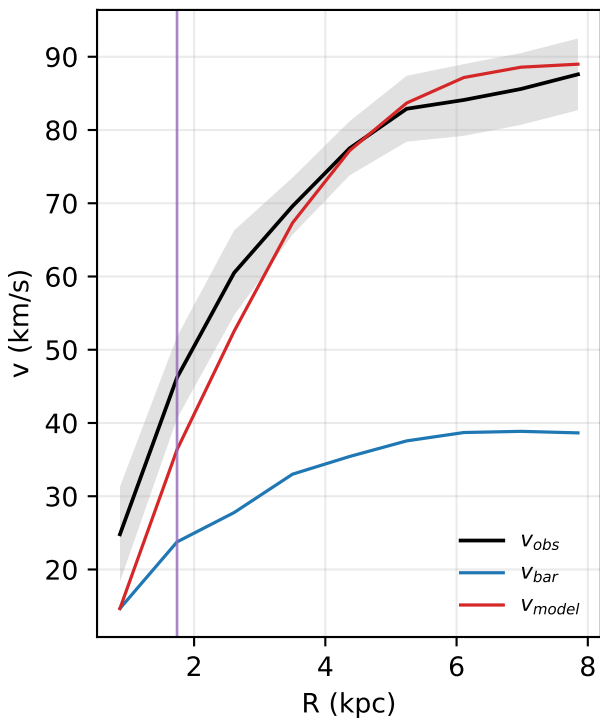

Dyed fabric (inferred effective potential)

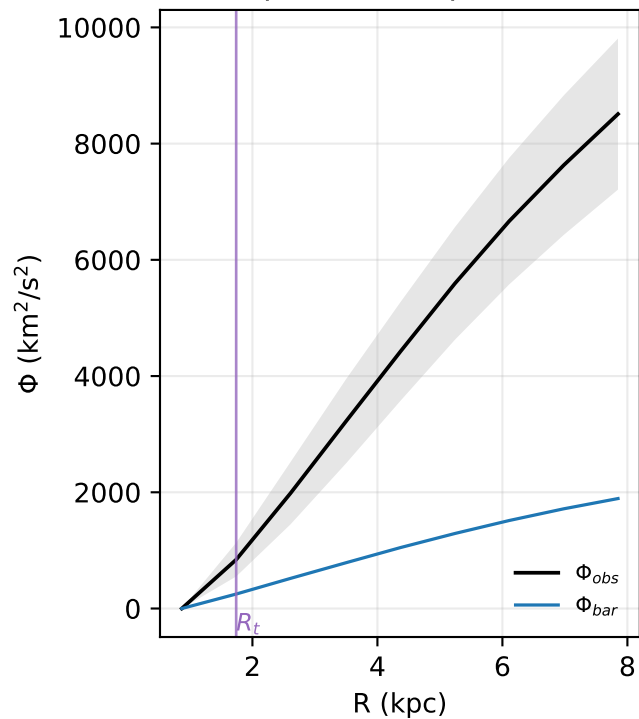

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

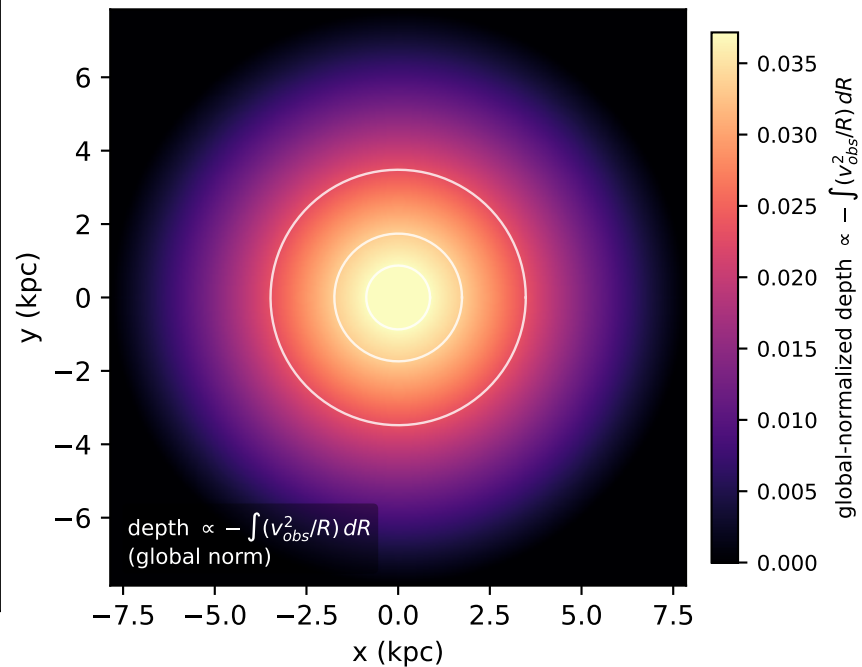

UGC06399: rotation curve

Inferred potential (up to constant)

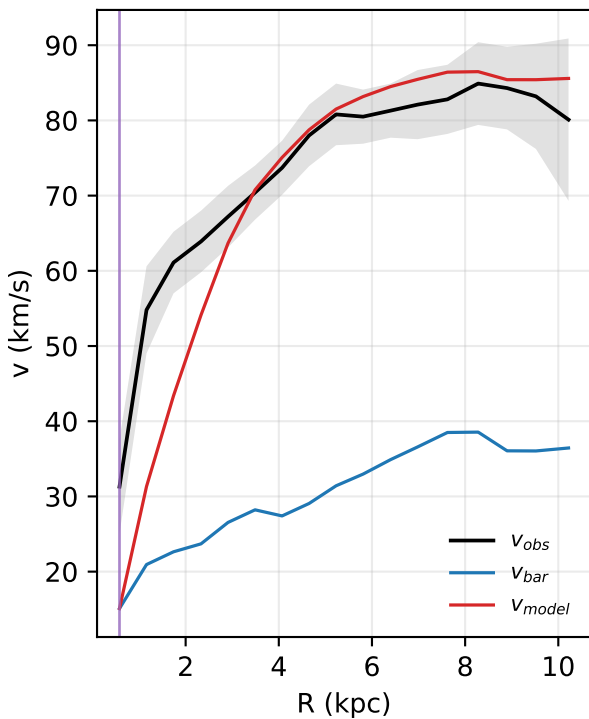

Dyed fabric (inferred effective potential)

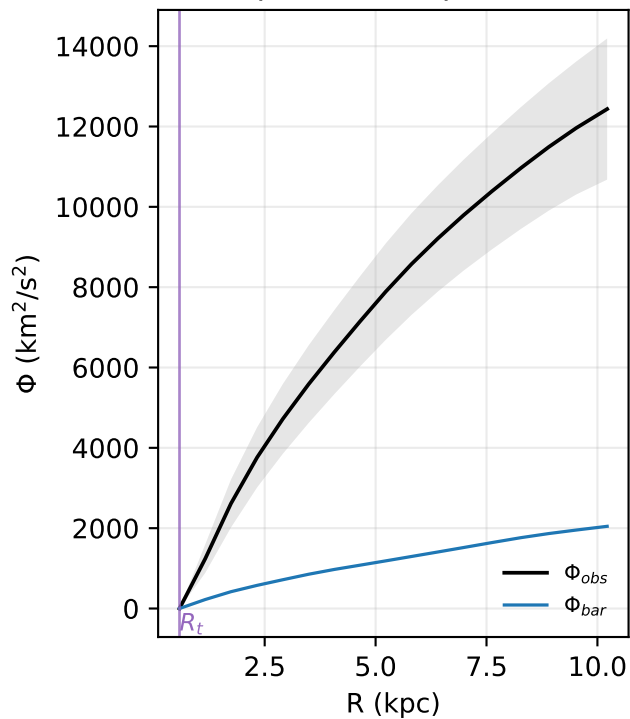

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

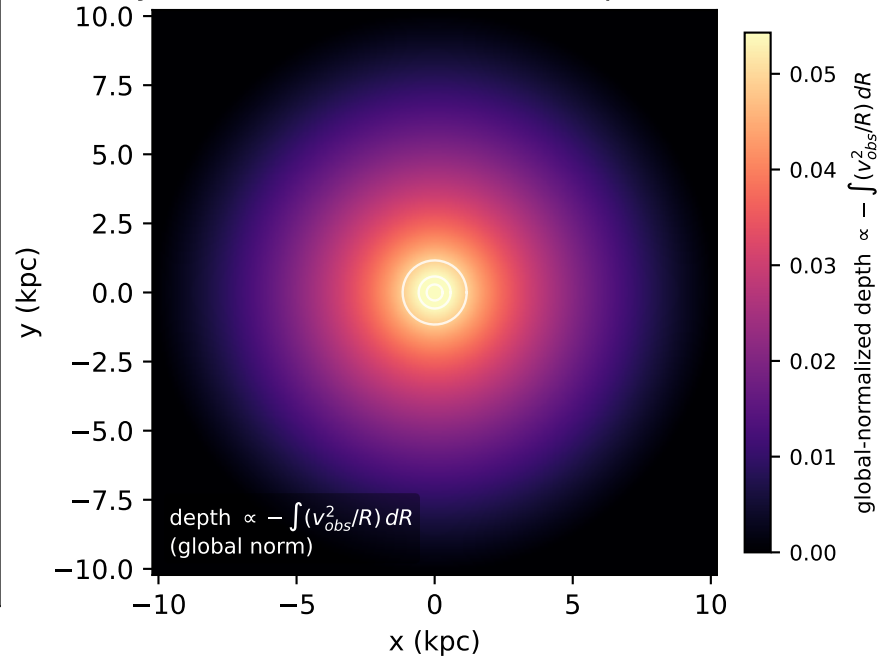

UGC06446: rotation curve

Inferred potential (up to constant)

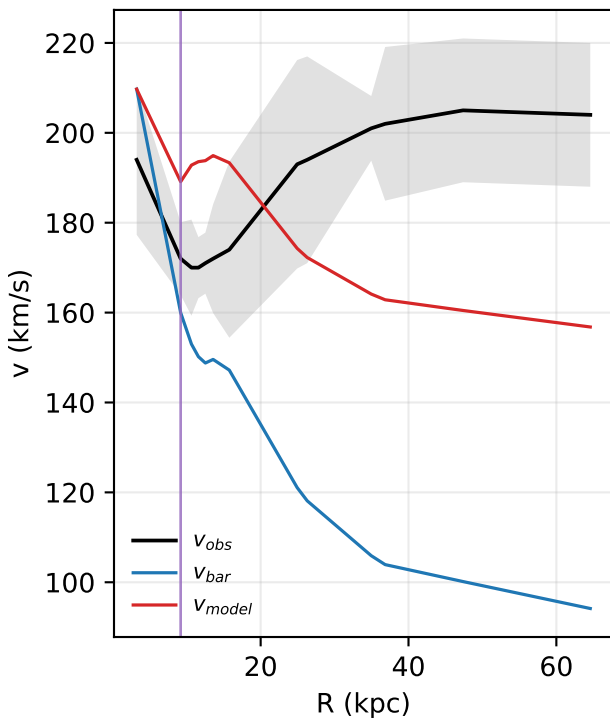

Dyed fabric (inferred effective potential)

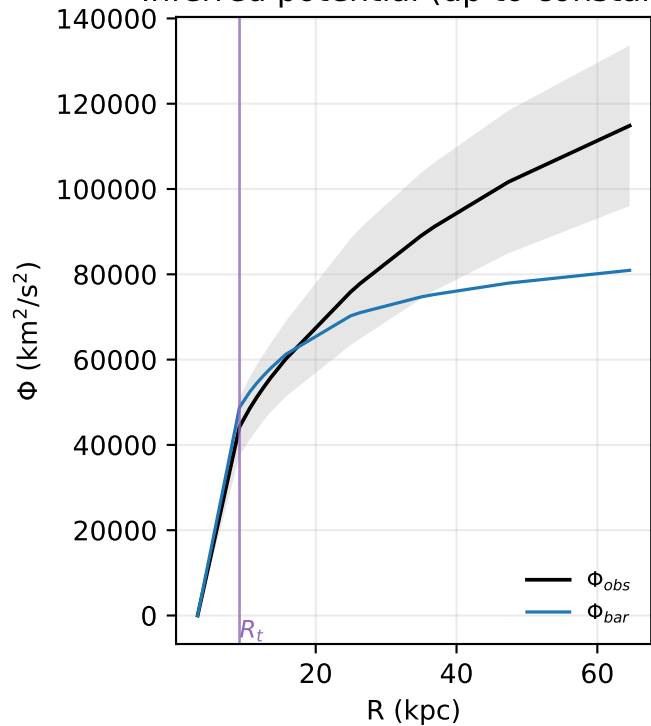

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

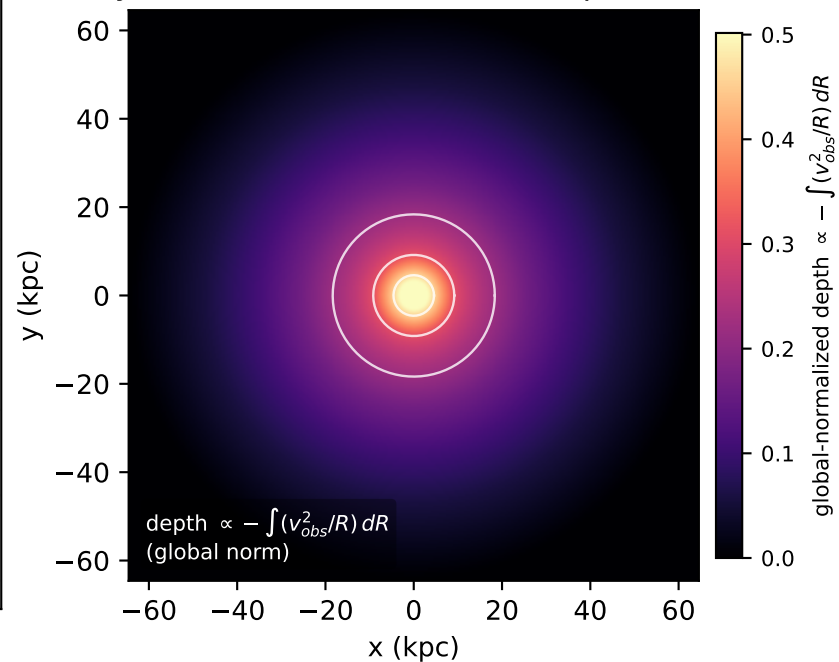

UGC06614: rotation curve

Inferred potential (up to constant)

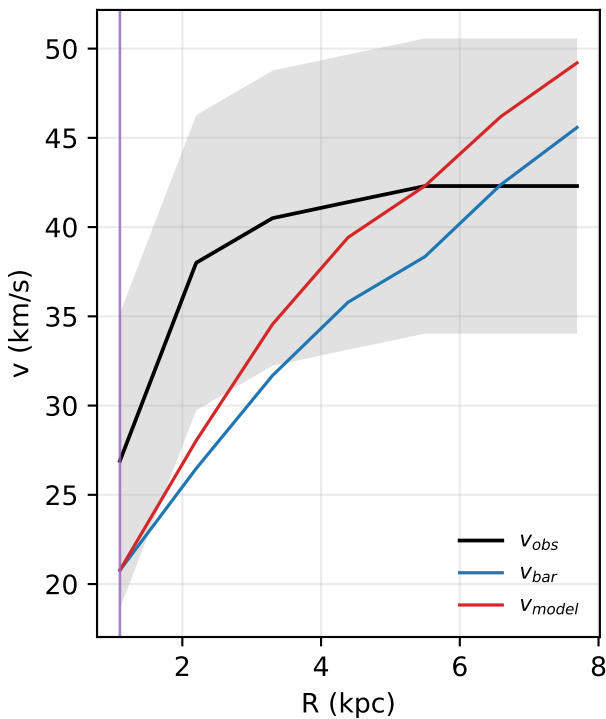

Dyed fabric (inferred effective potential)

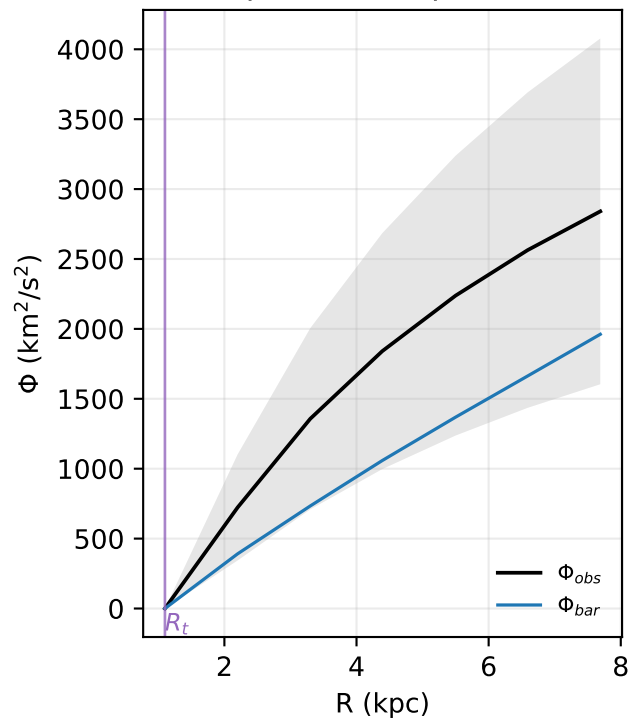

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

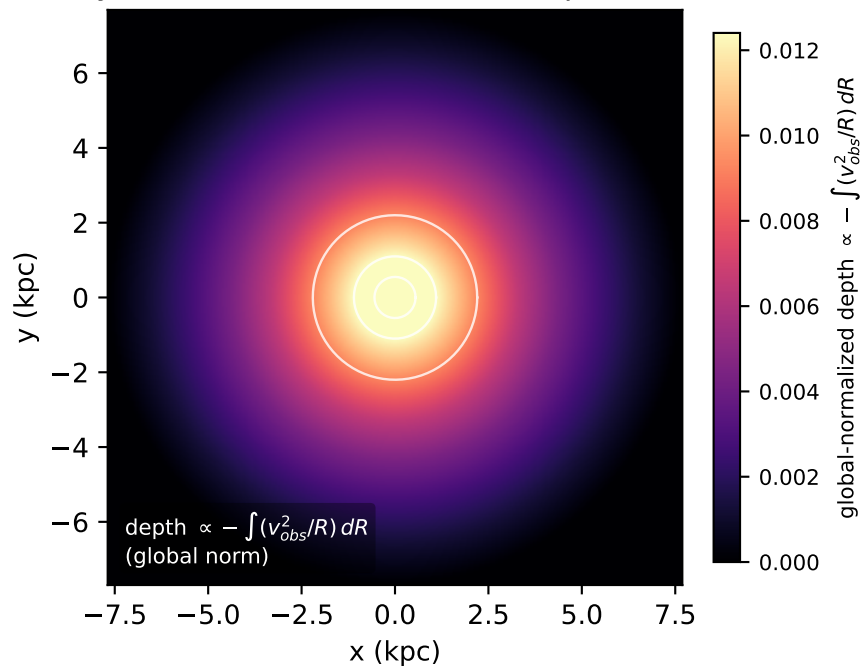

UGC06628: rotation curve

Inferred potential (up to constant)

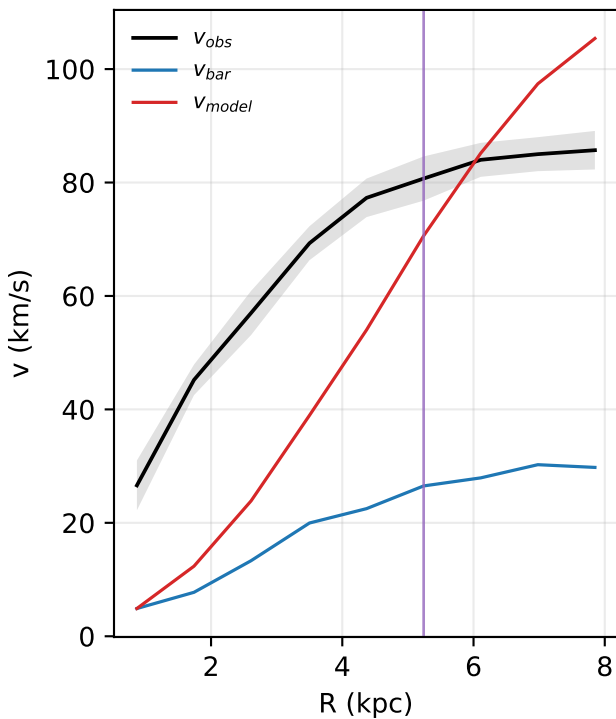

Dyed fabric (inferred effective potential)

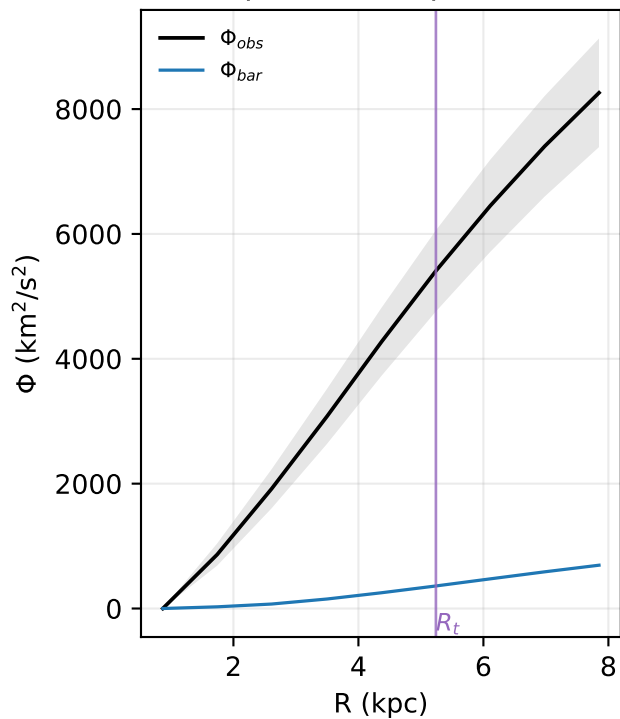

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

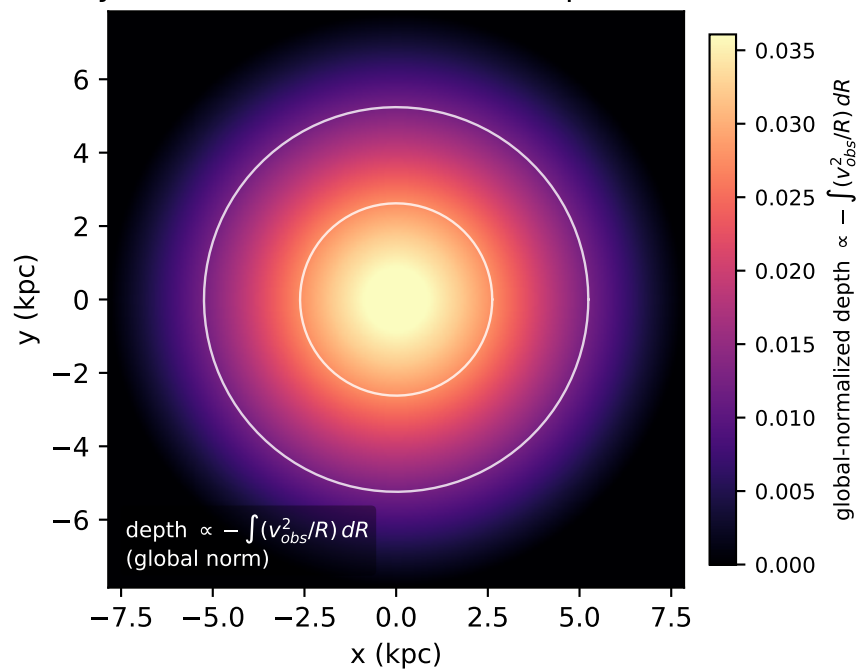

UGC06667: rotation curve

Inferred potential (up to constant)

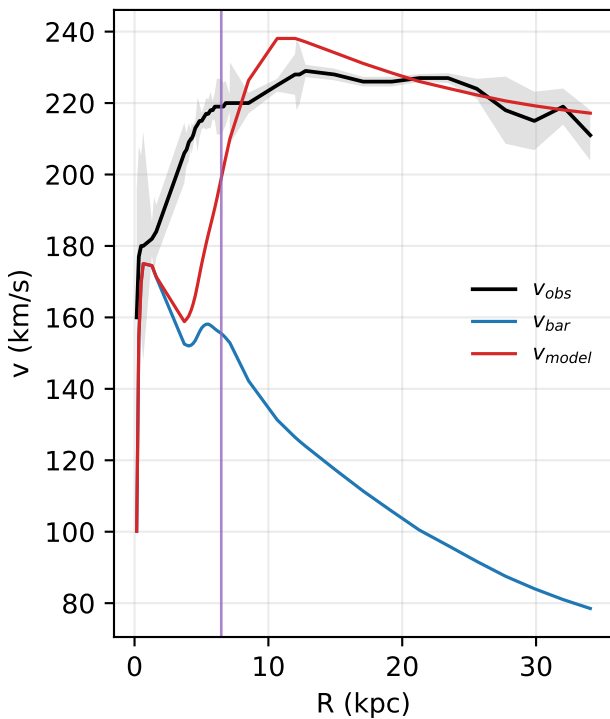

Dyed fabric (inferred effective potential)

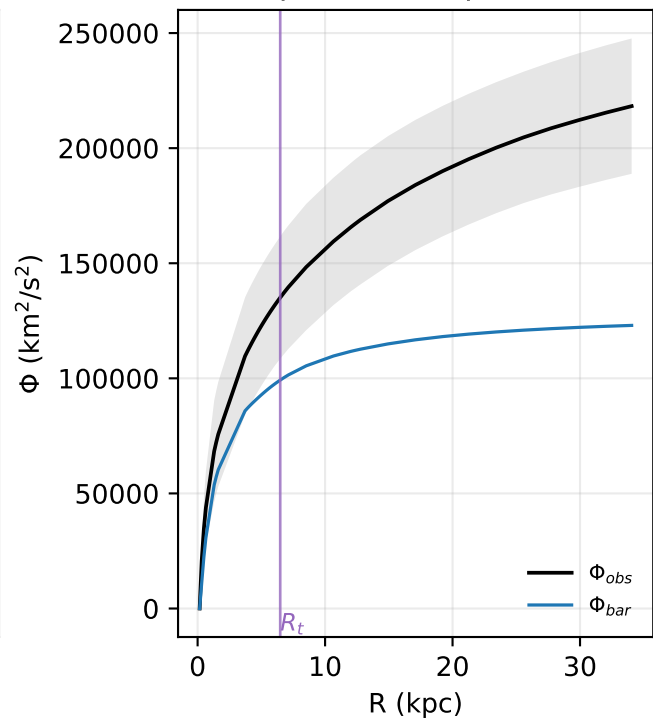

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

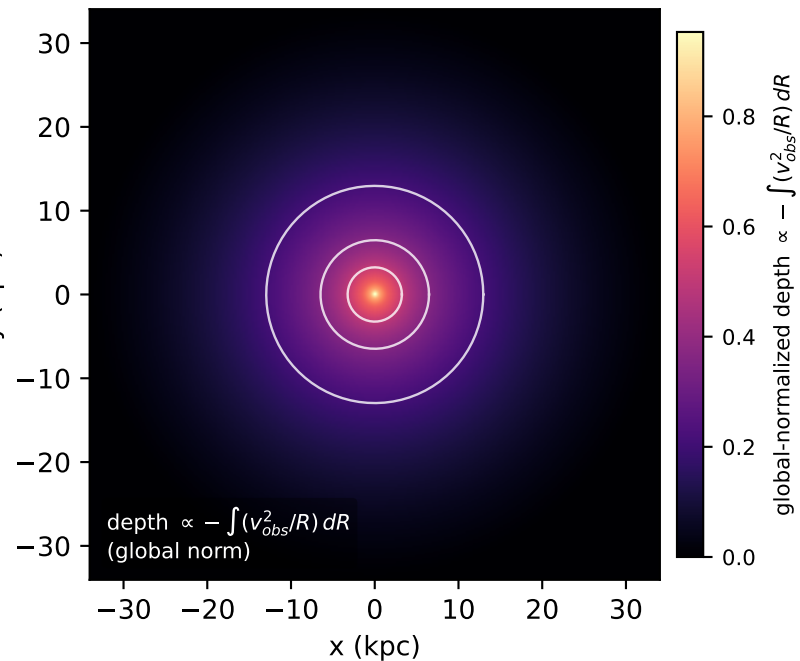

UGC06786: rotation curve

Inferred potential (up to constant)

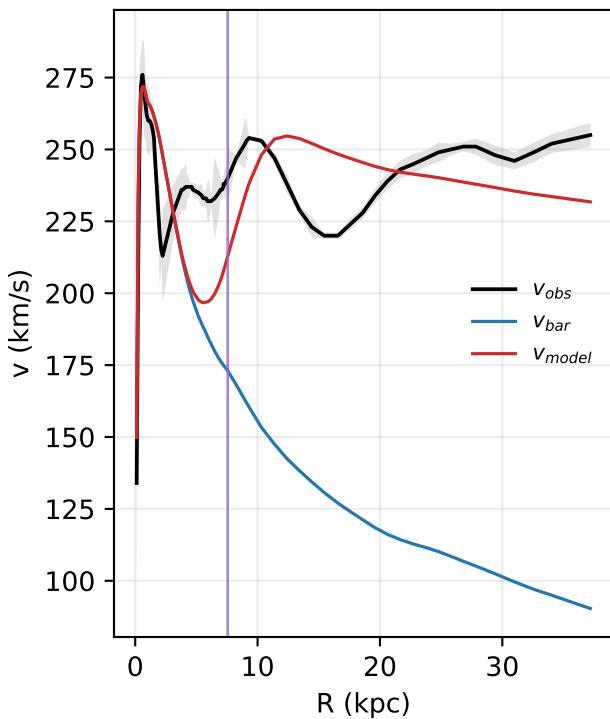

Dyed fabric (inferred effective potential)

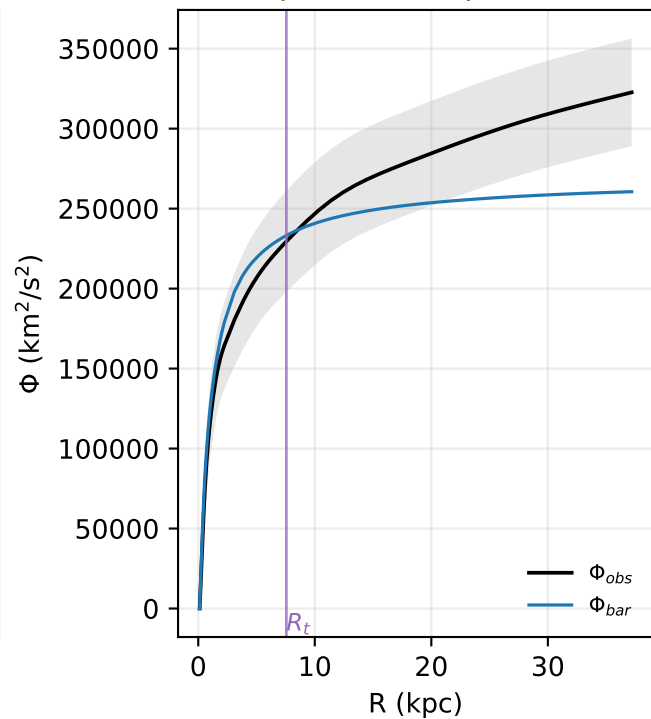

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

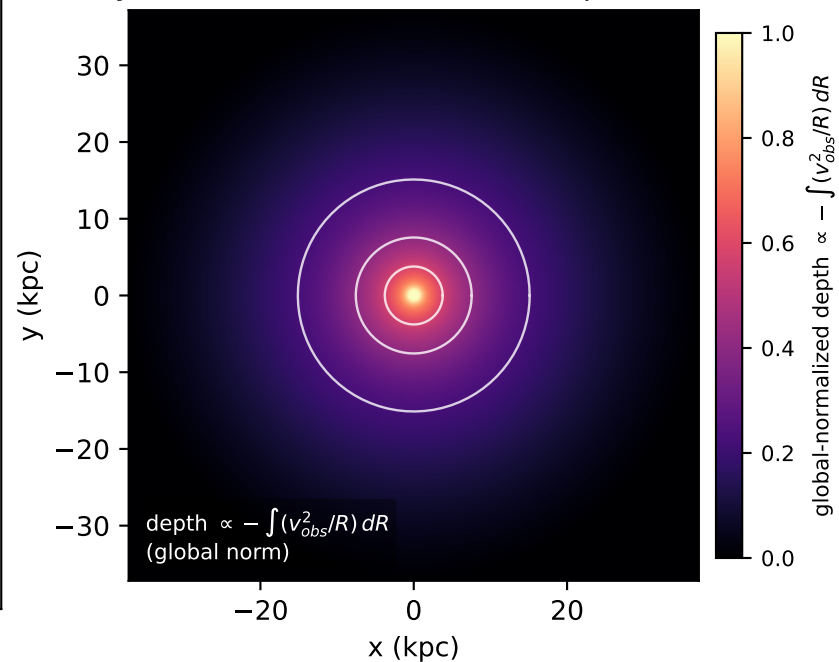

UGC06787: rotation curve

Inferred potential (up to constant)

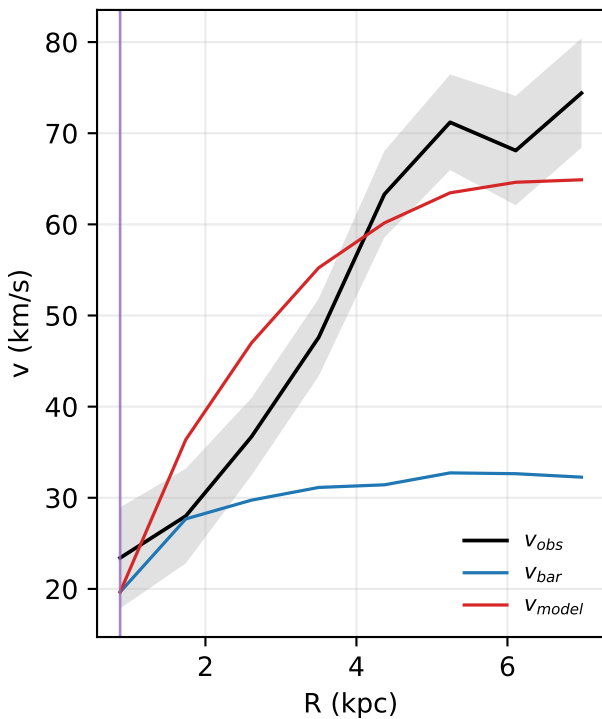

Dyed fabric (inferred effective potential)

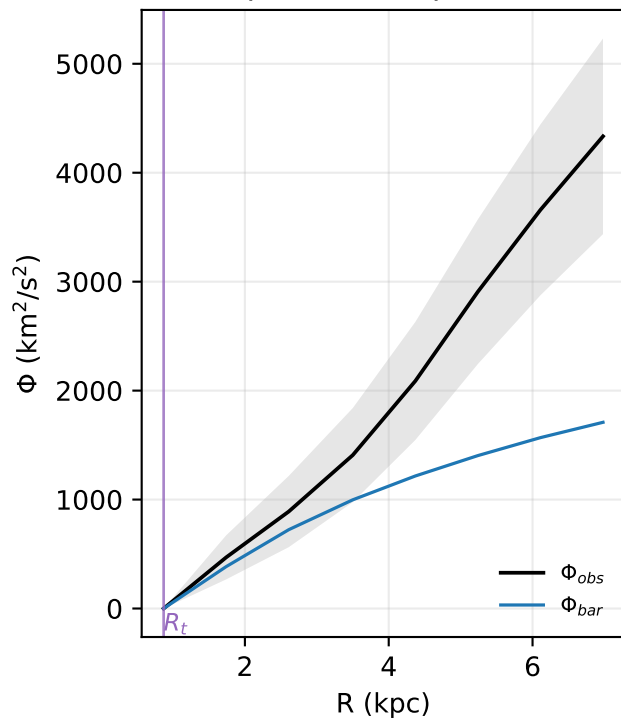

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

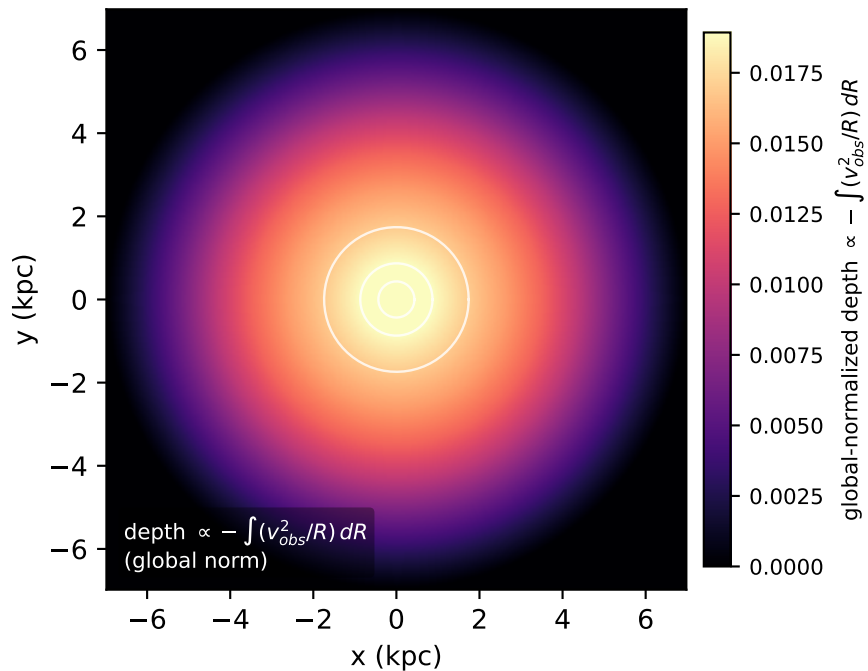

UGC06818: rotation curve

Inferred potential (up to constant)

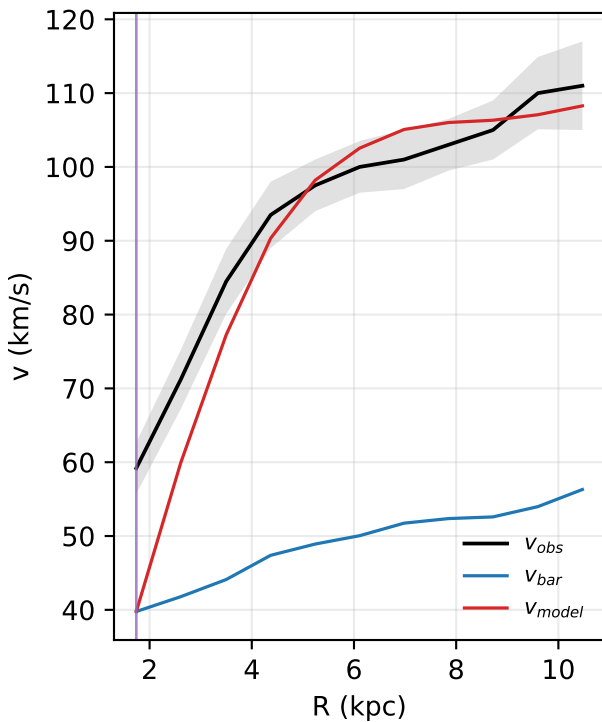

Dyed fabric (inferred effective potential)

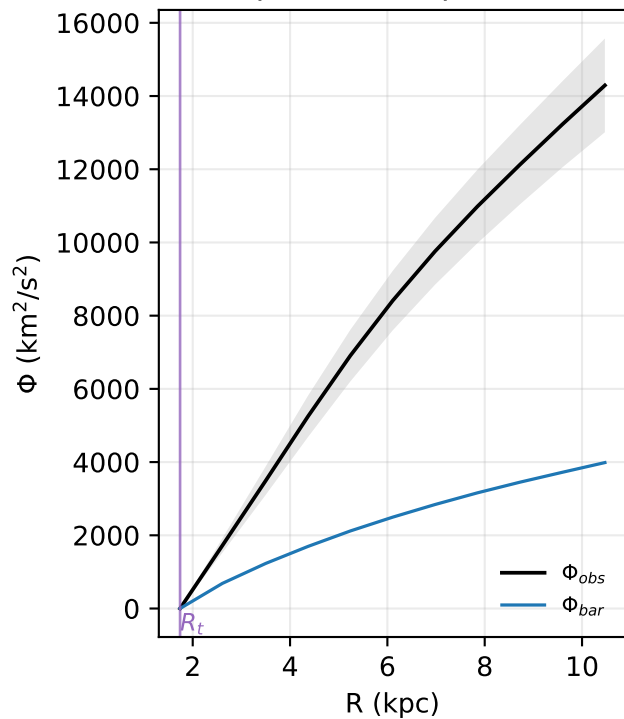

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

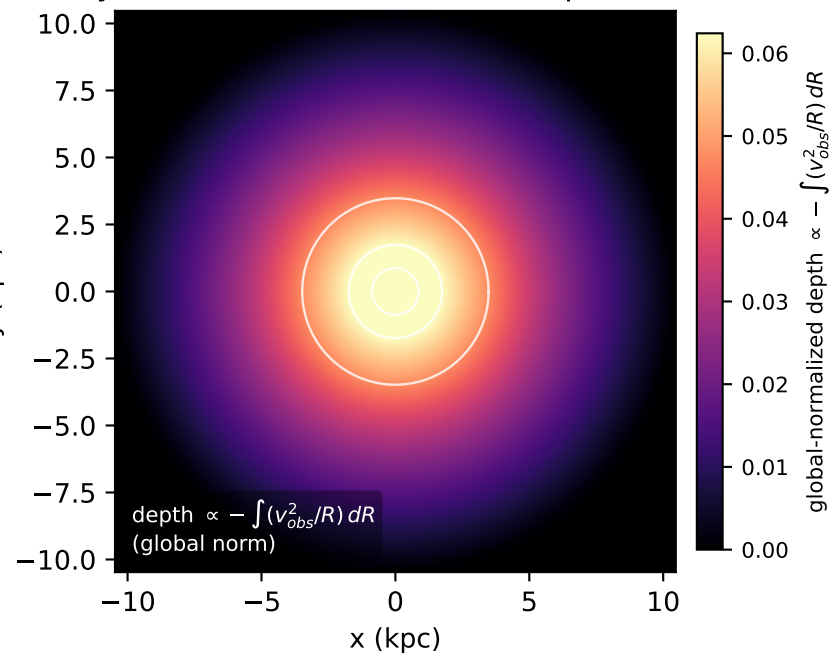

UGC06917: rotation curve

Inferred potential (up to constant)

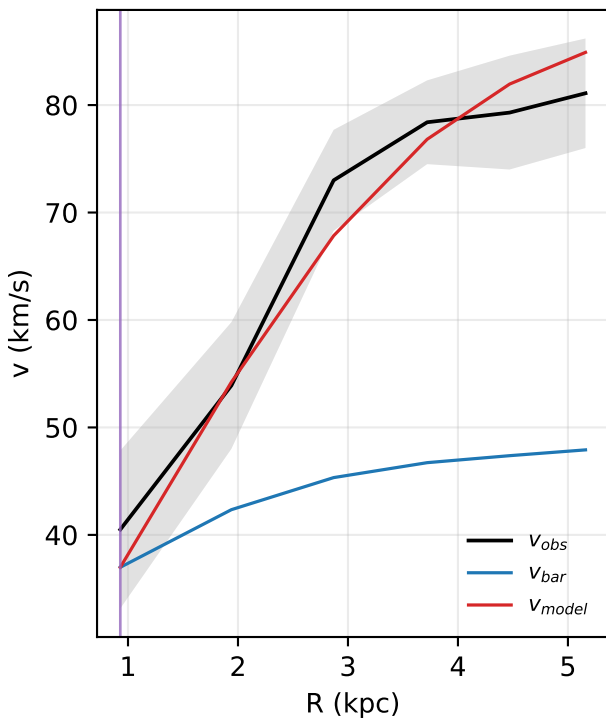

Dyed fabric (inferred effective potential)

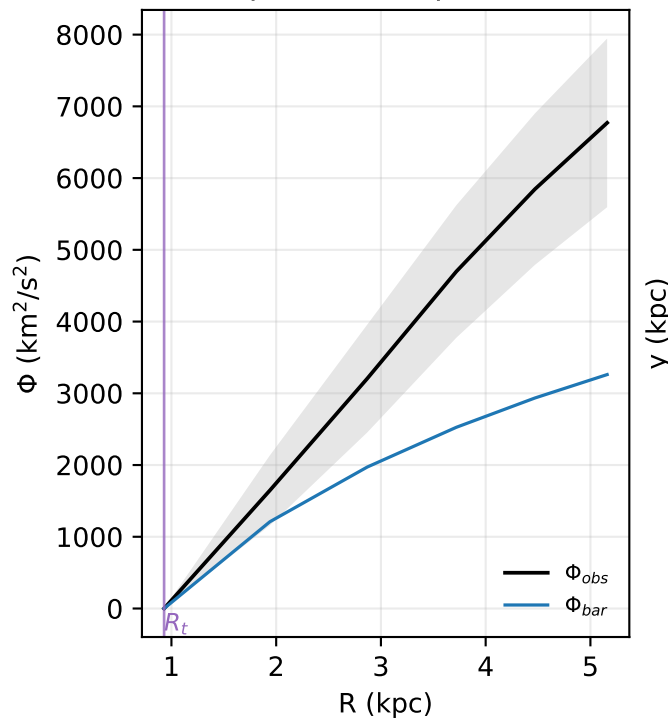

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

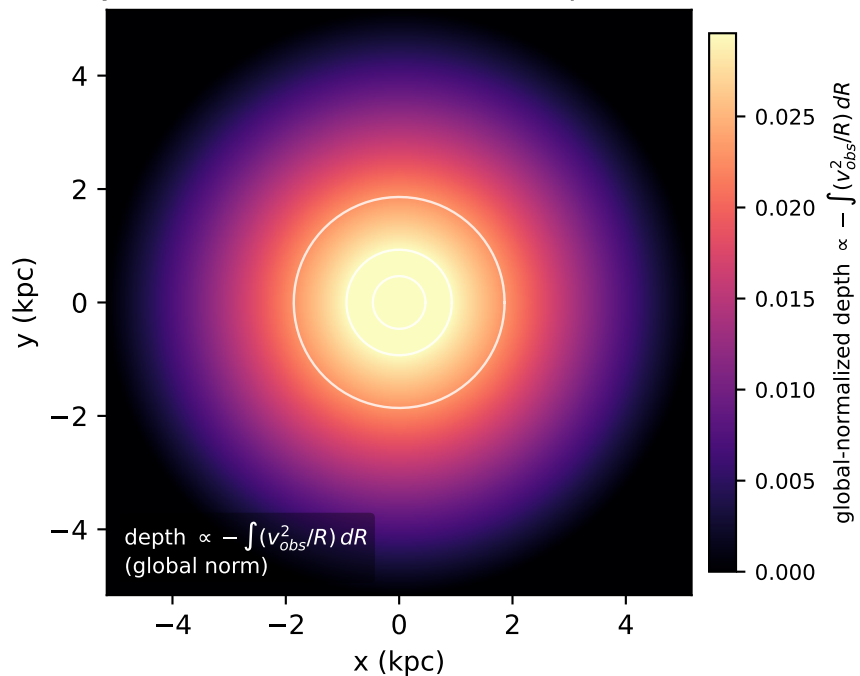

UGC06923: rotation curve

Inferred potential (up to constant)

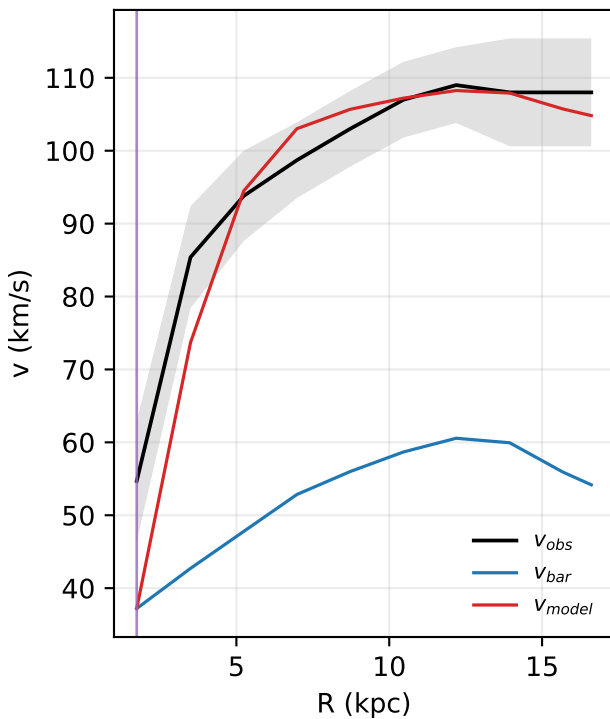

Dyed fabric (inferred effective potential)

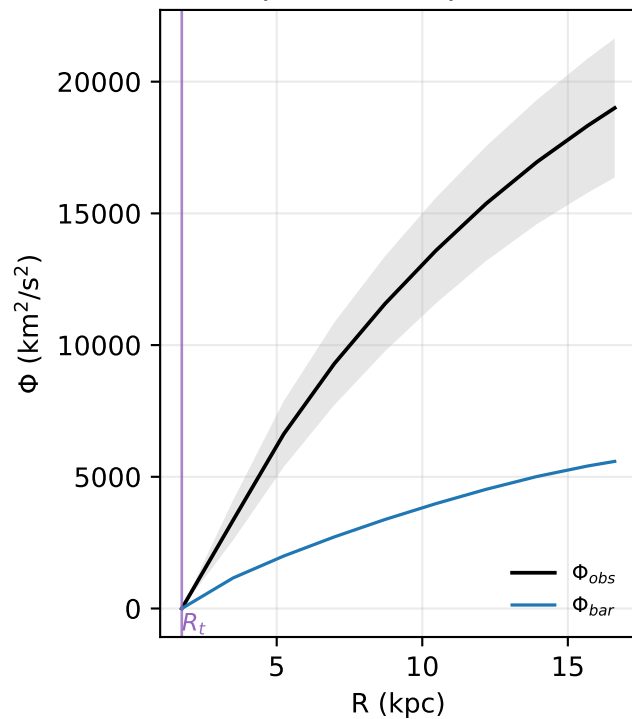

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

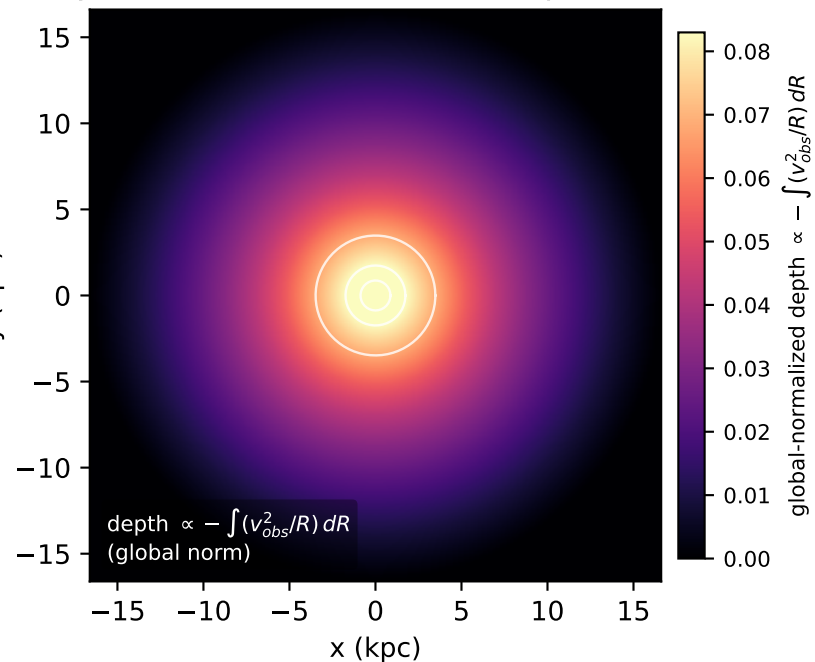

UGC06930: rotation curve

Inferred potential (up to constant)

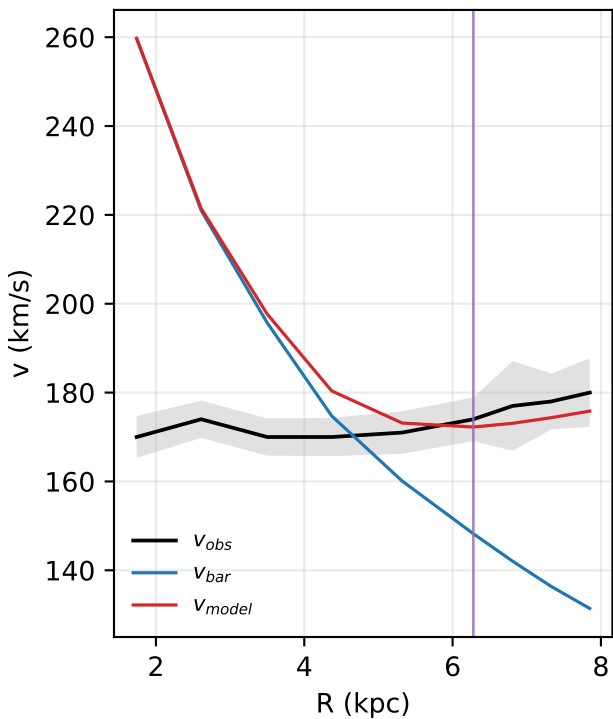

Dyed fabric (inferred effective potential)

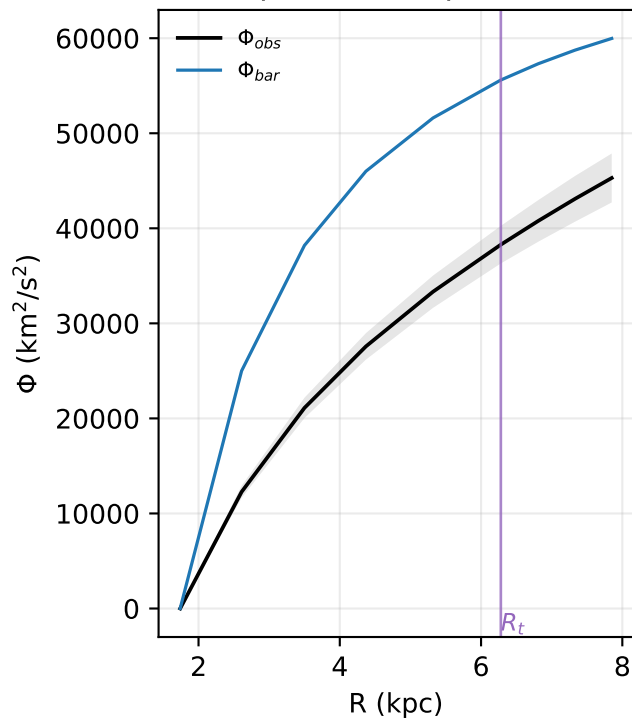

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

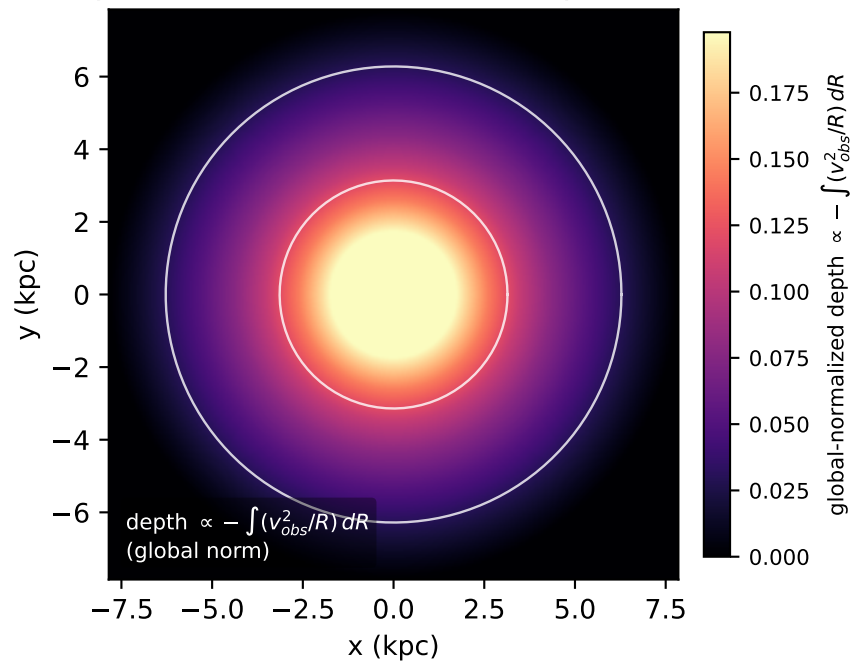

UGC06973: rotation curve

Inferred potential (up to constant)

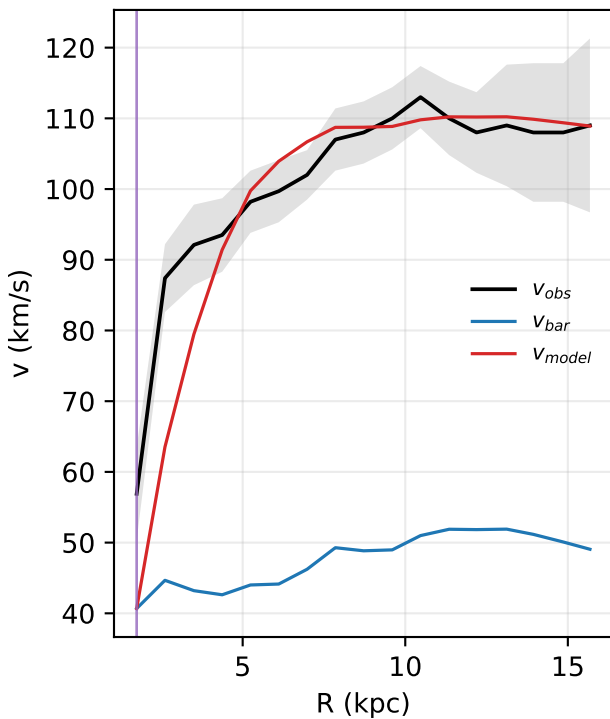

Dyed fabric (inferred effective potential)

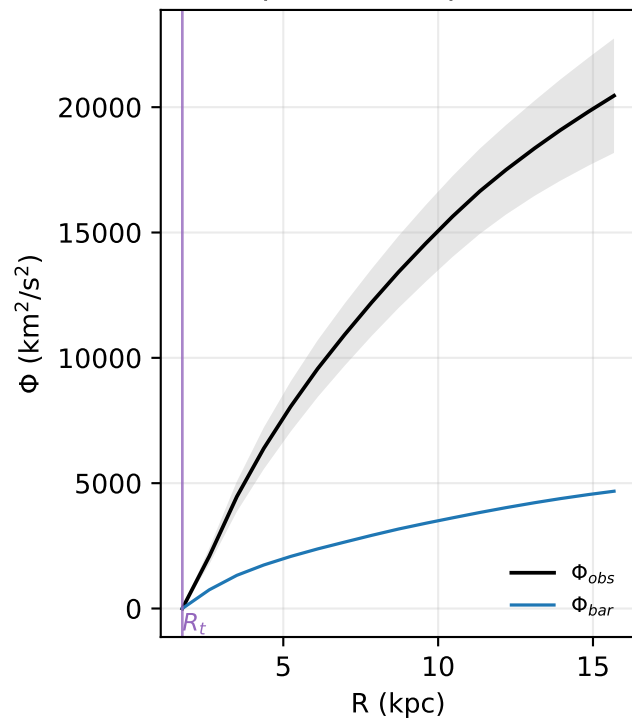

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

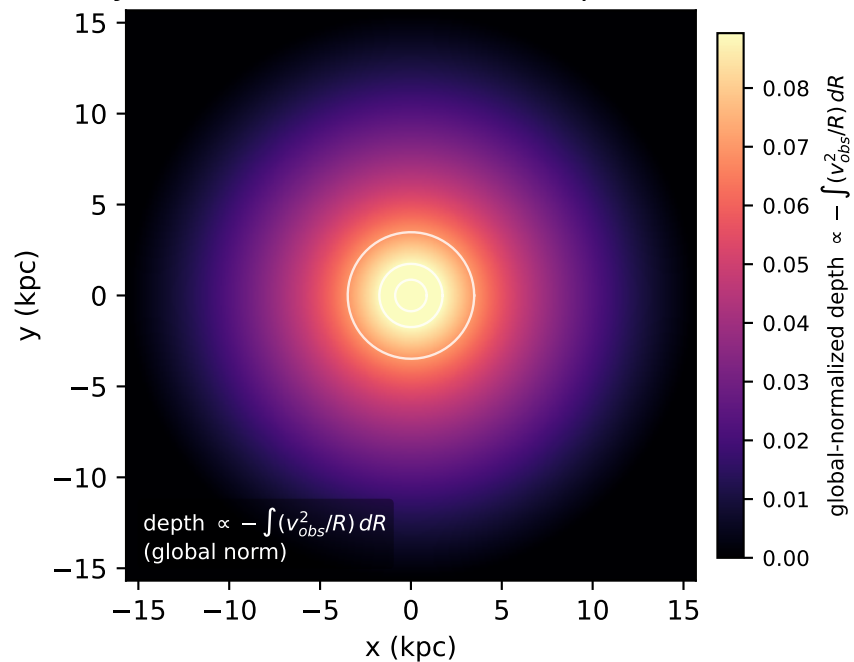

UGC06983: rotation curve

Inferred potential (up to constant)

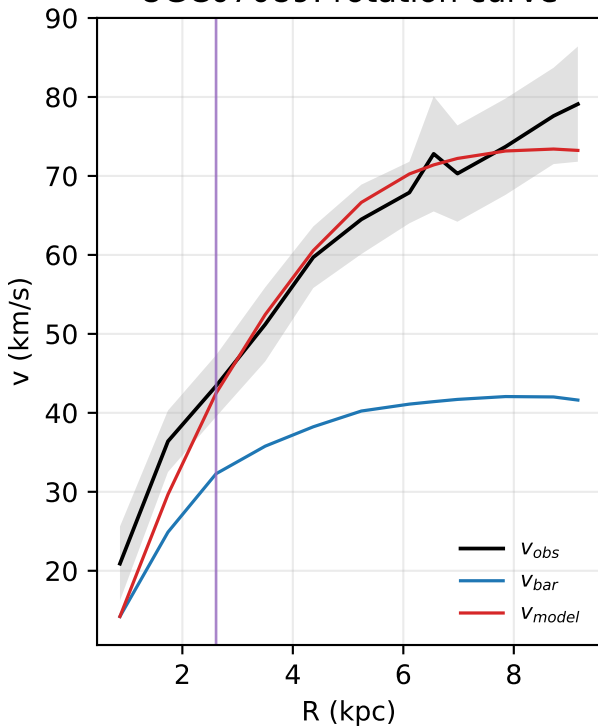

Dyed fabric (inferred effective potential)

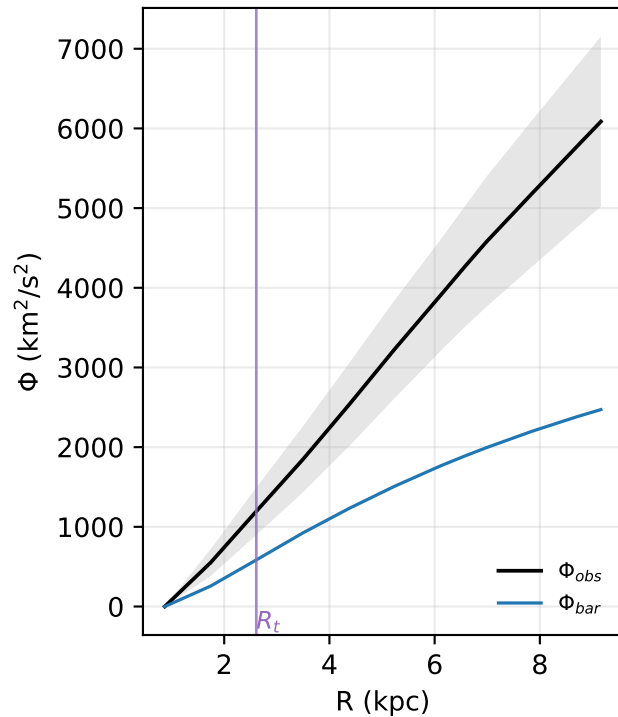

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

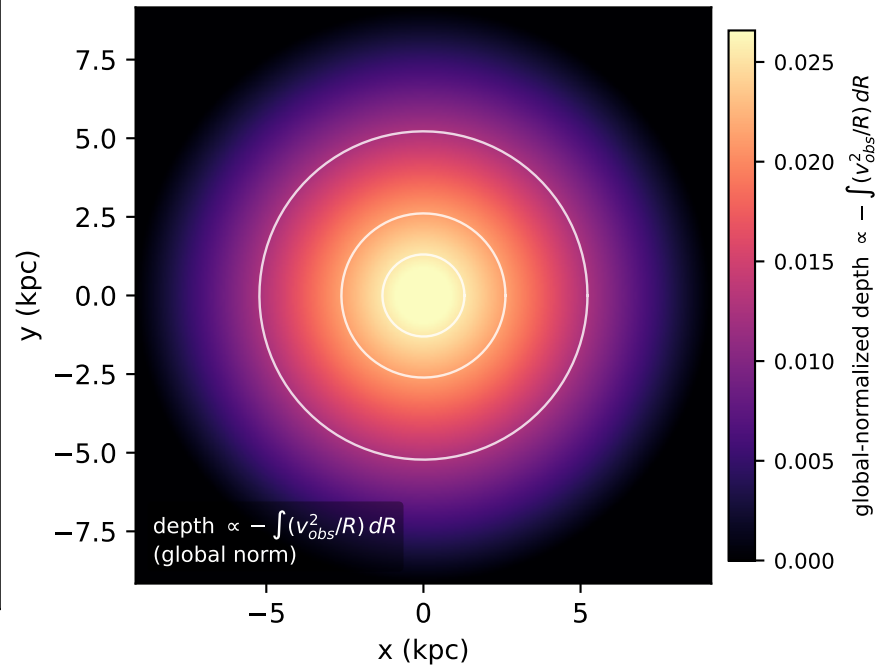

UGC07089: rotation curve

Inferred potential (up to constant)

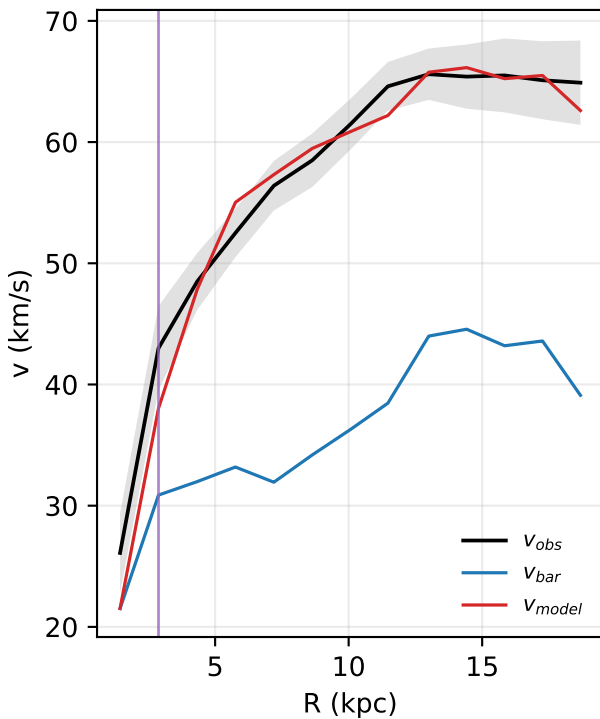

Dyed fabric (inferred effective potential)

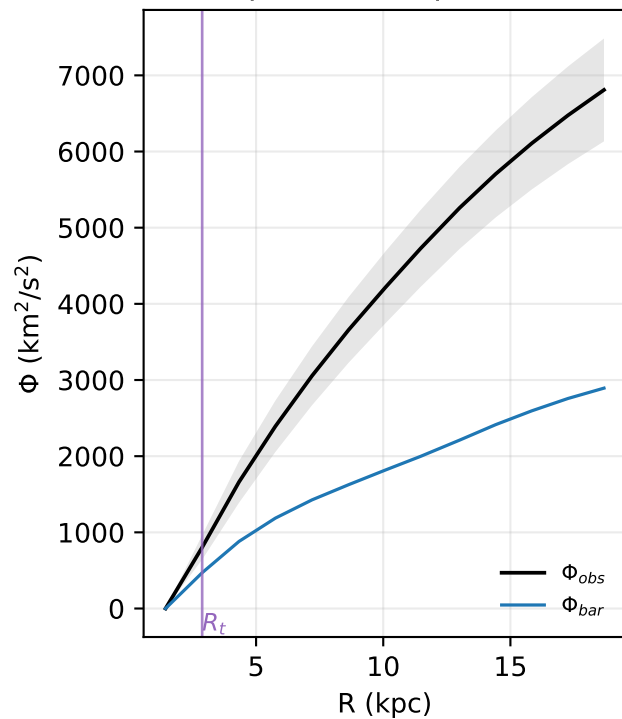

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

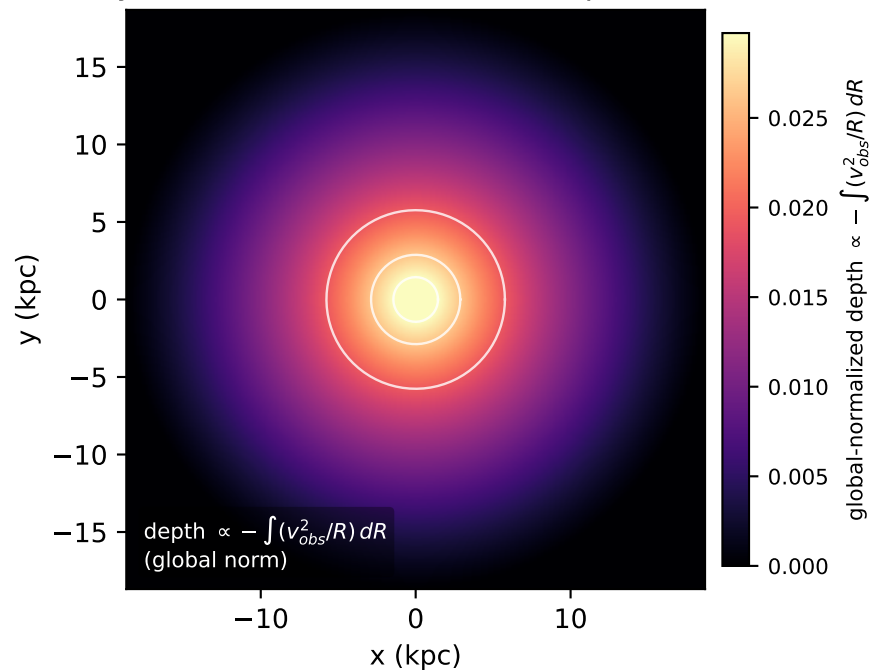

UGC07125: rotation curve

Inferred potential (up to constant)

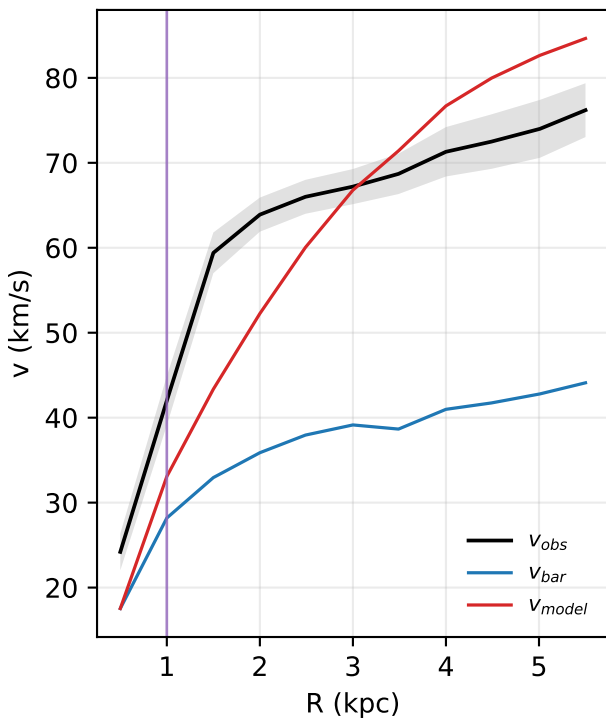

Dyed fabric (inferred effective potential)

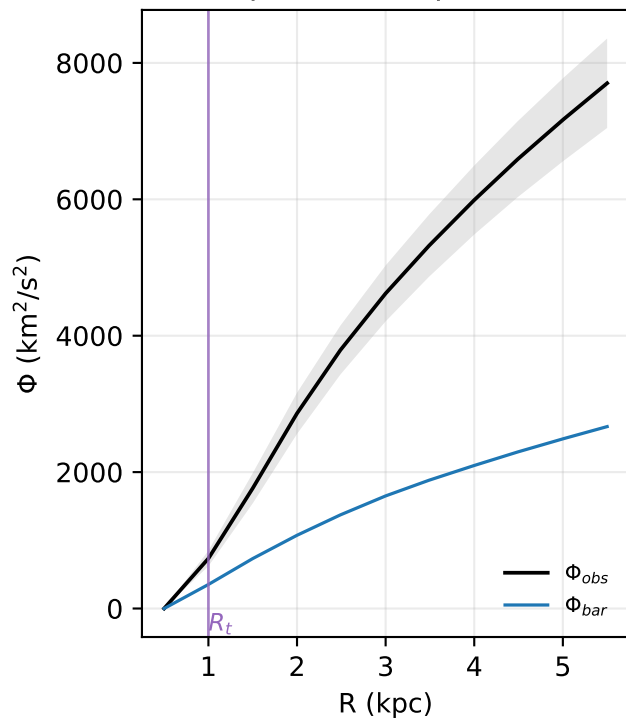

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

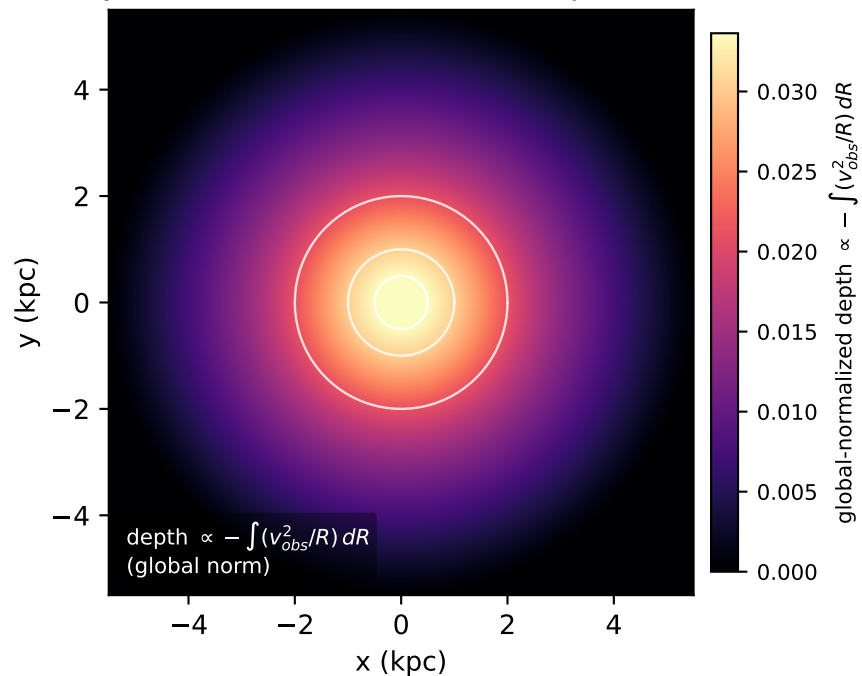

UGC07151: rotation curve

Inferred potential (up to constant)

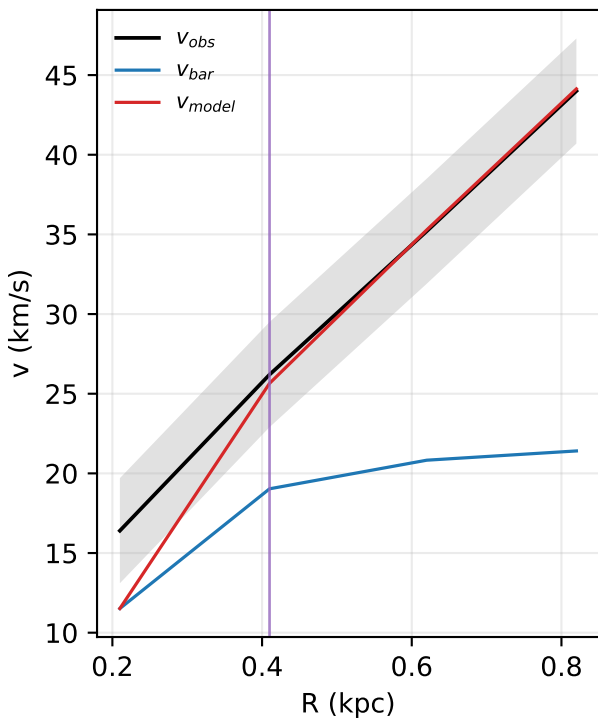

Dyed fabric (inferred effective potential)

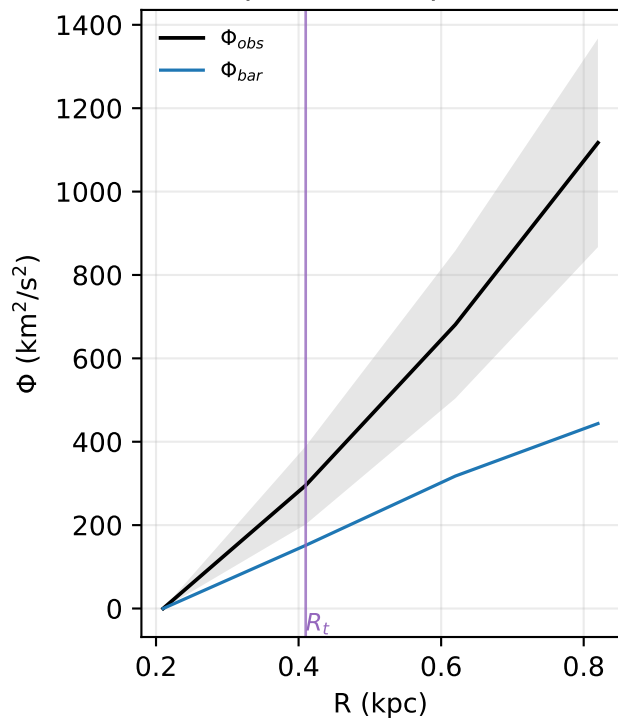

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

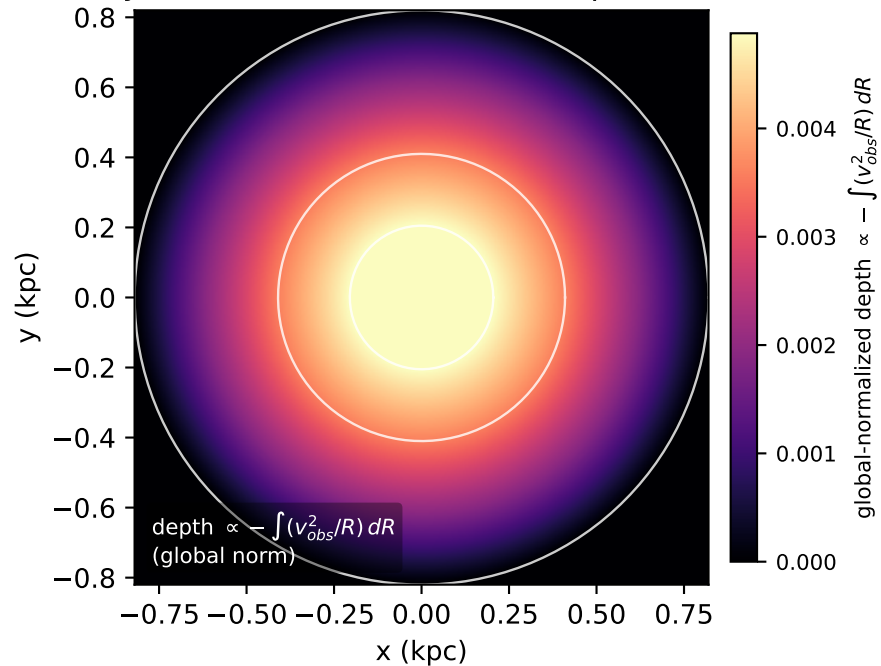

UGC07232: rotation curve

Inferred potential (up to constant)

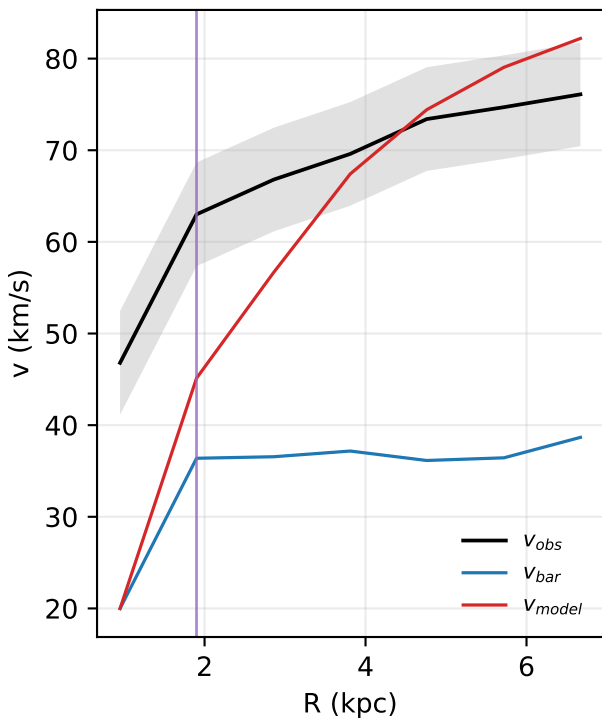

Dyed fabric (inferred effective potential)

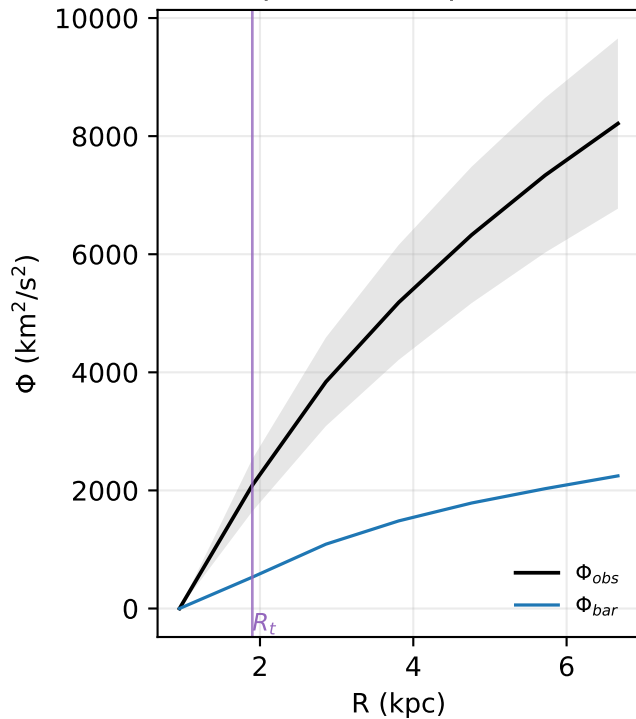

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

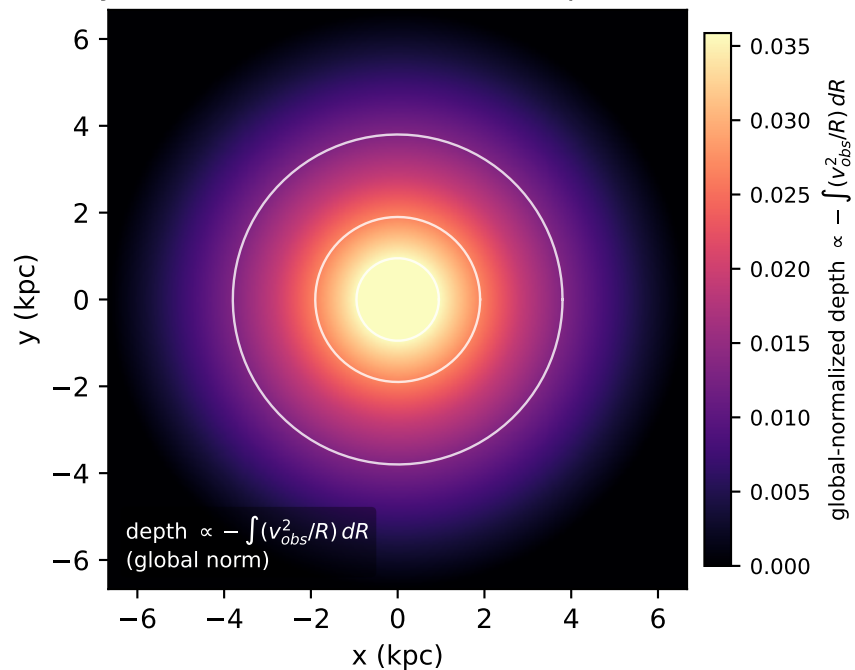

UGC07261: rotation curve

Inferred potential (up to constant)

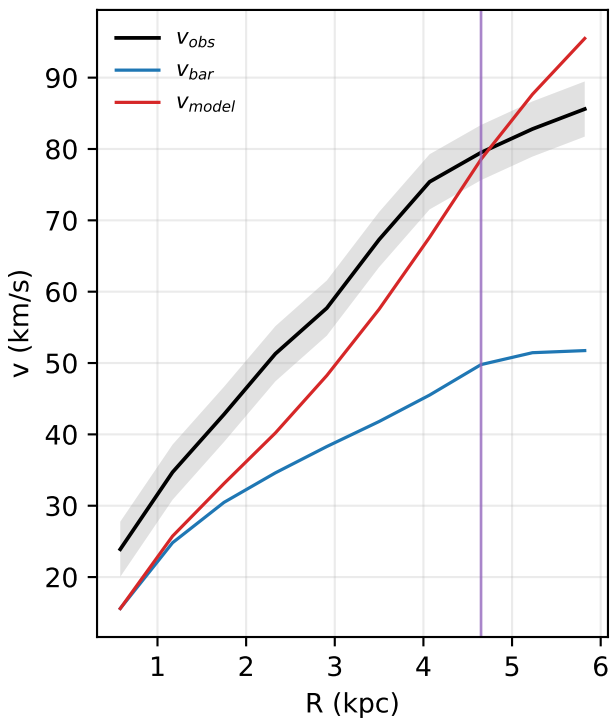

Dyed fabric (inferred effective potential)

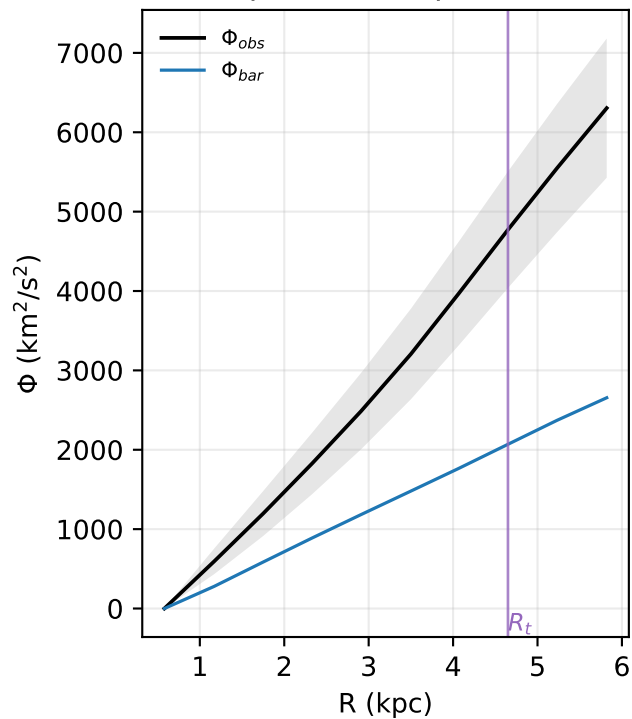

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

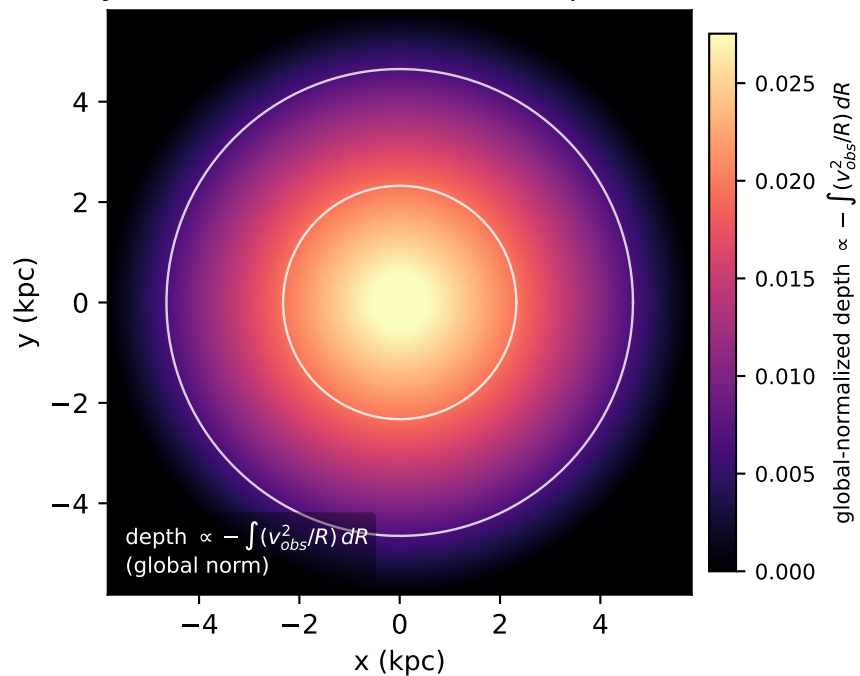

UGC07323: rotation curve

Inferred potential (up to constant)

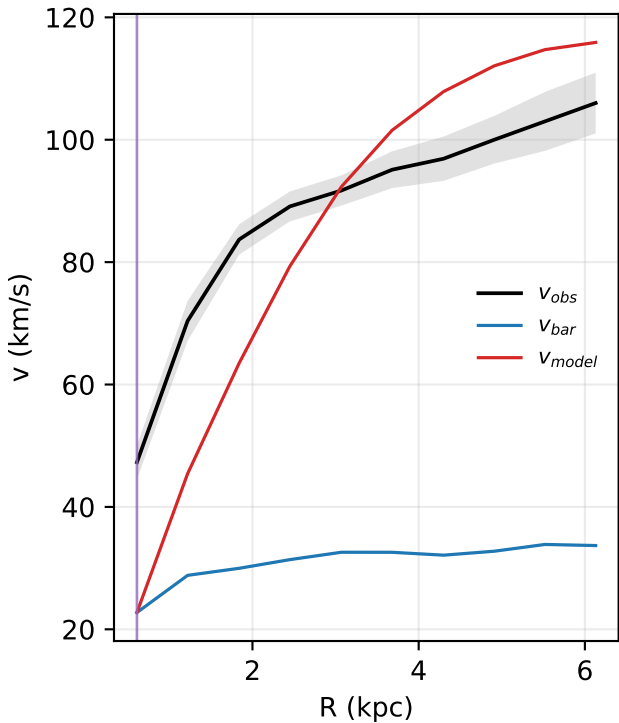

Dyed fabric (inferred effective potential)

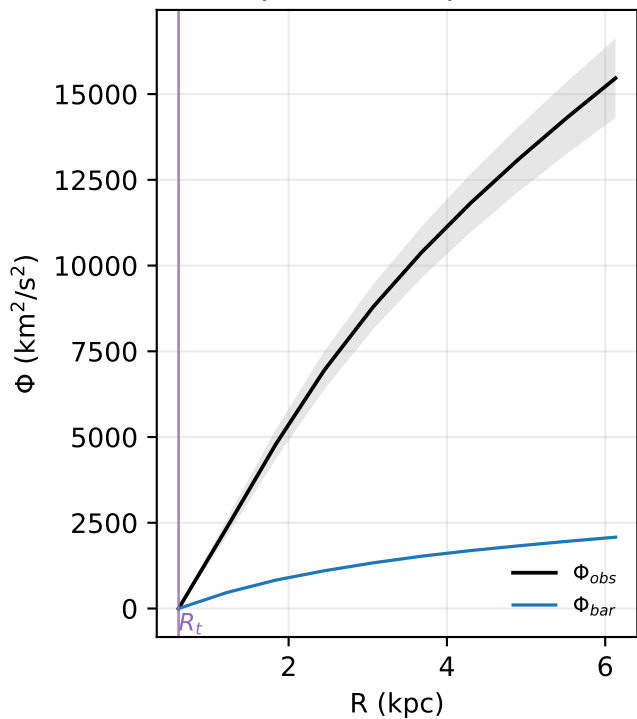

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

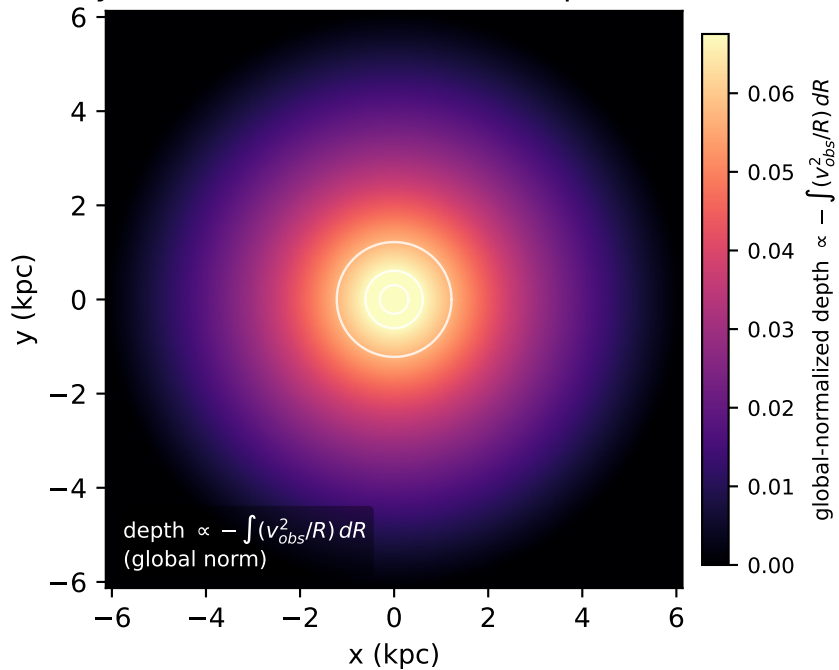

UGC07399: rotation curve

Inferred potential (up to constant)

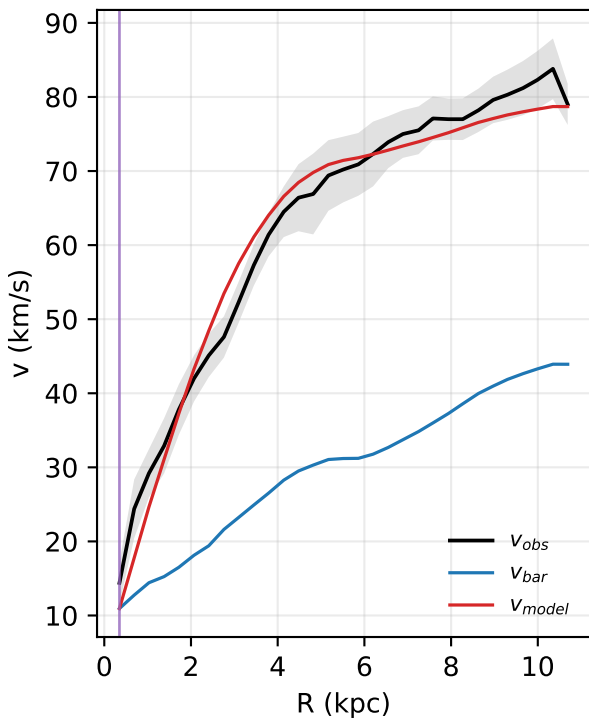

Dyed fabric (inferred effective potential)

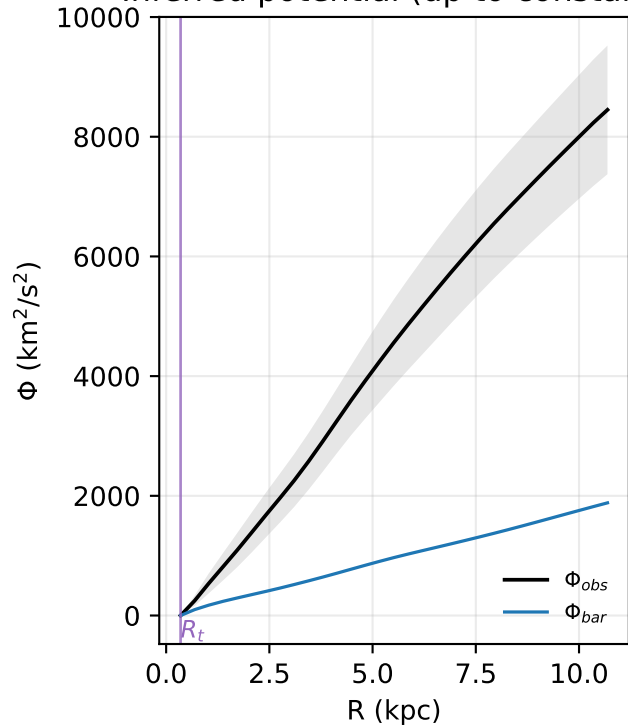

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

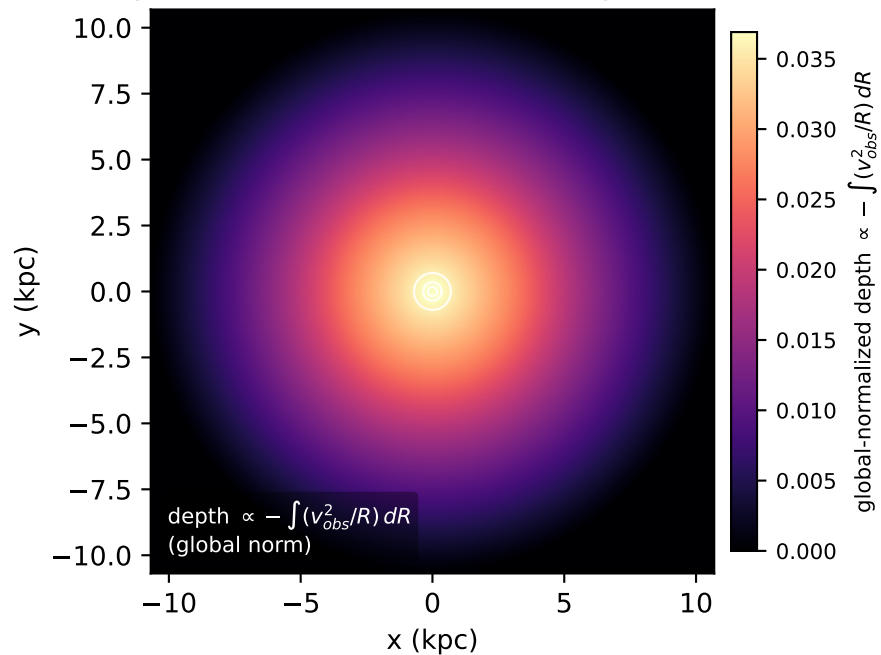

UGC07524: rotation curve

Inferred potential (up to constant)

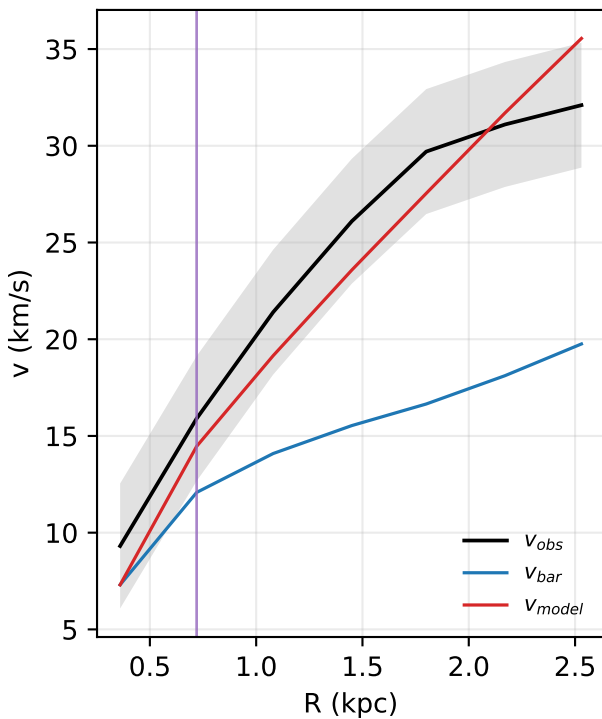

Dyed fabric (inferred effective potential)

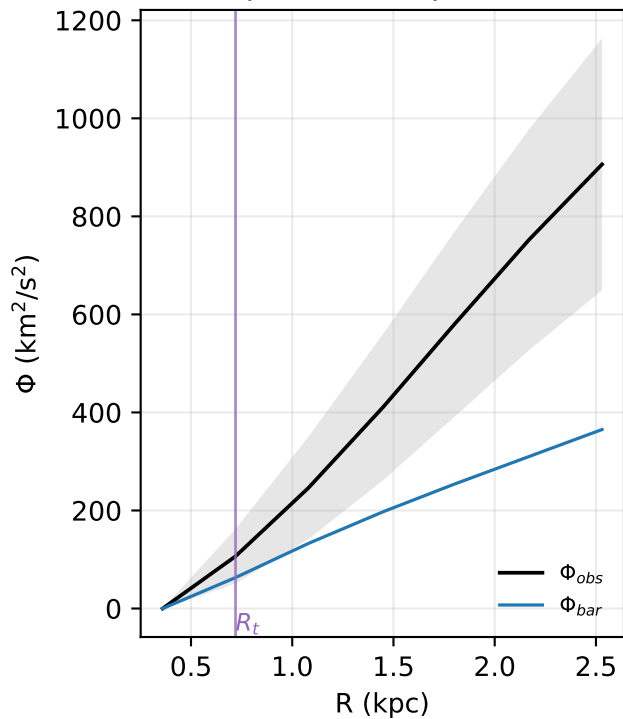

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

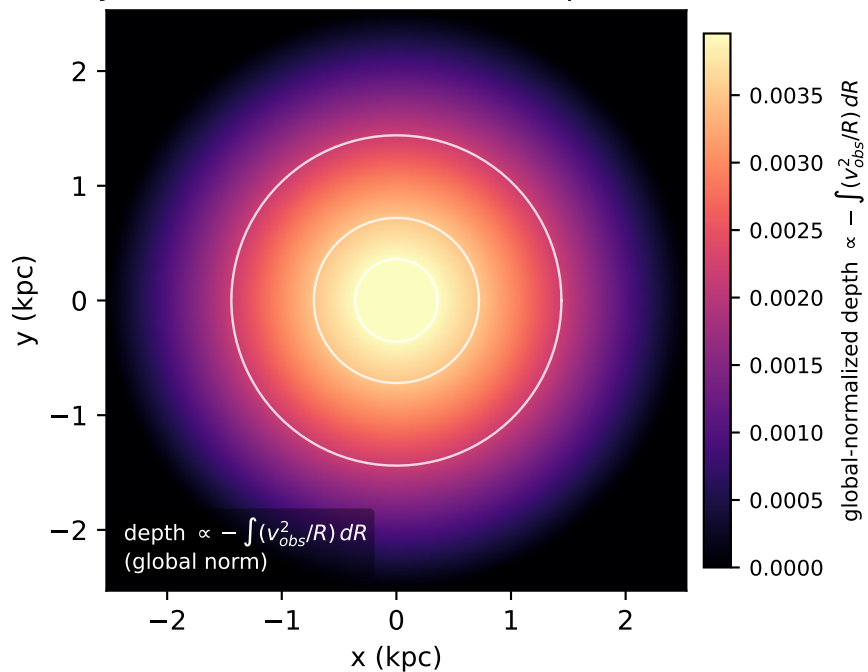

UGC07559: rotation curve

Inferred potential (up to constant)

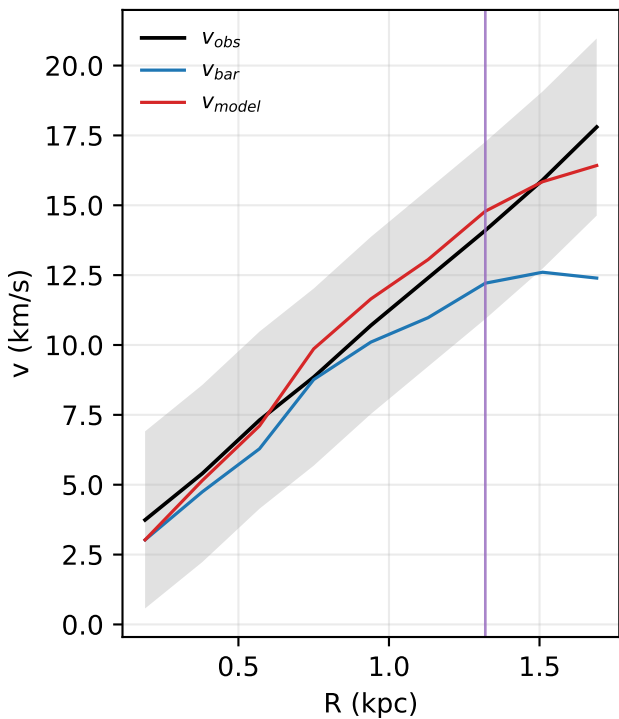

Dyed fabric (inferred effective potential)

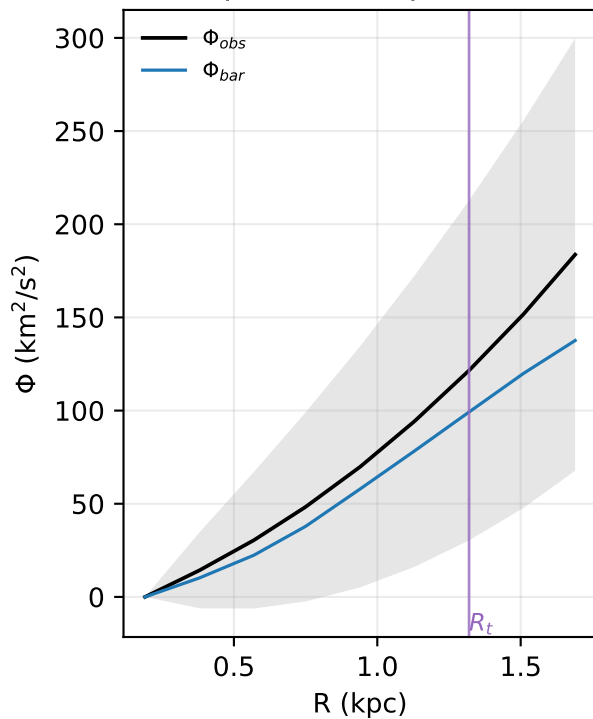

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

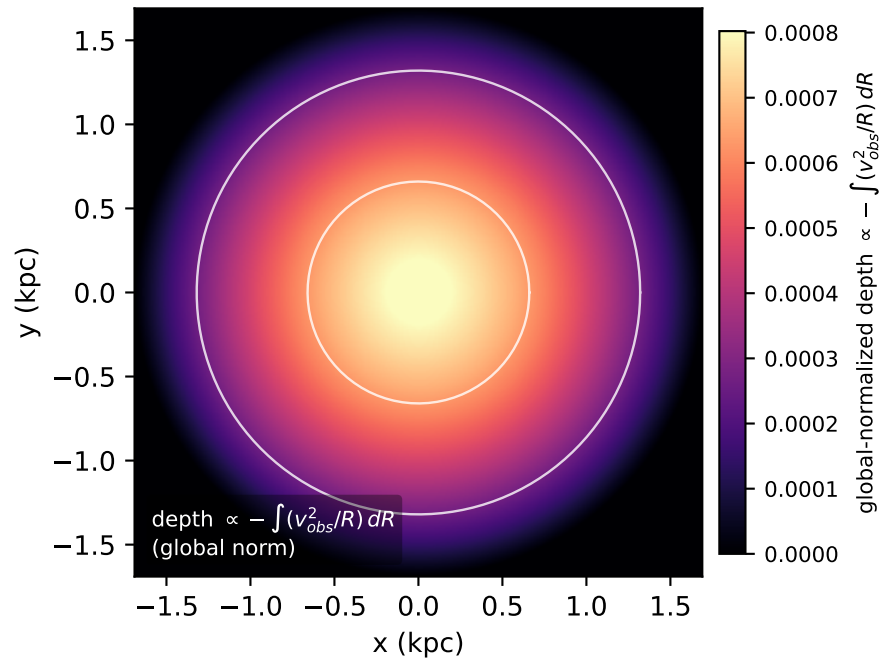

UGC07577: rotation curve

Inferred potential (up to constant)

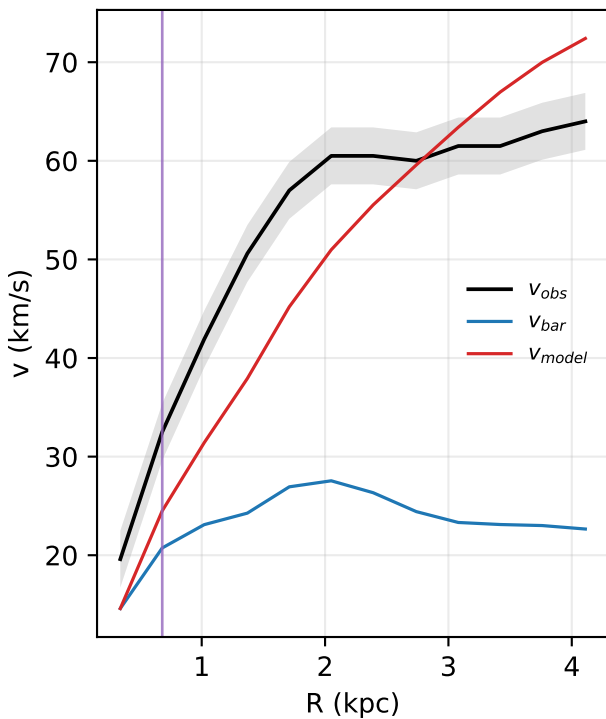

Dyed fabric (inferred effective potential)

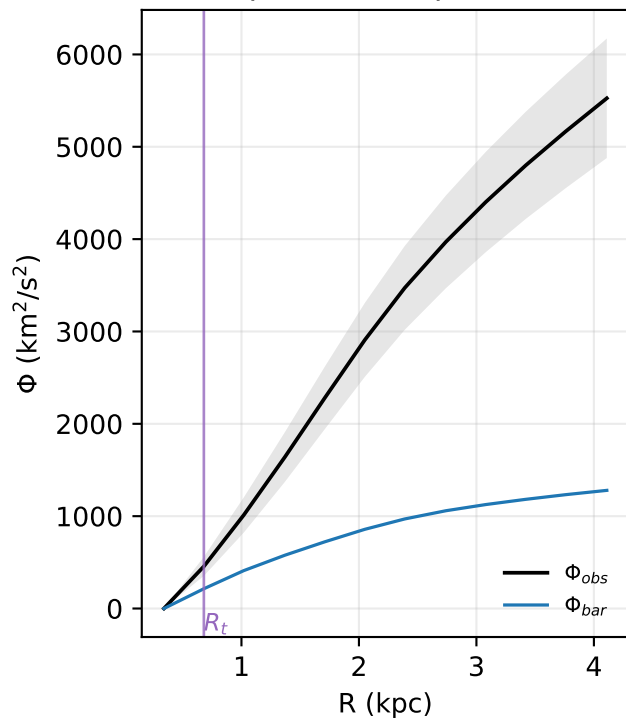

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

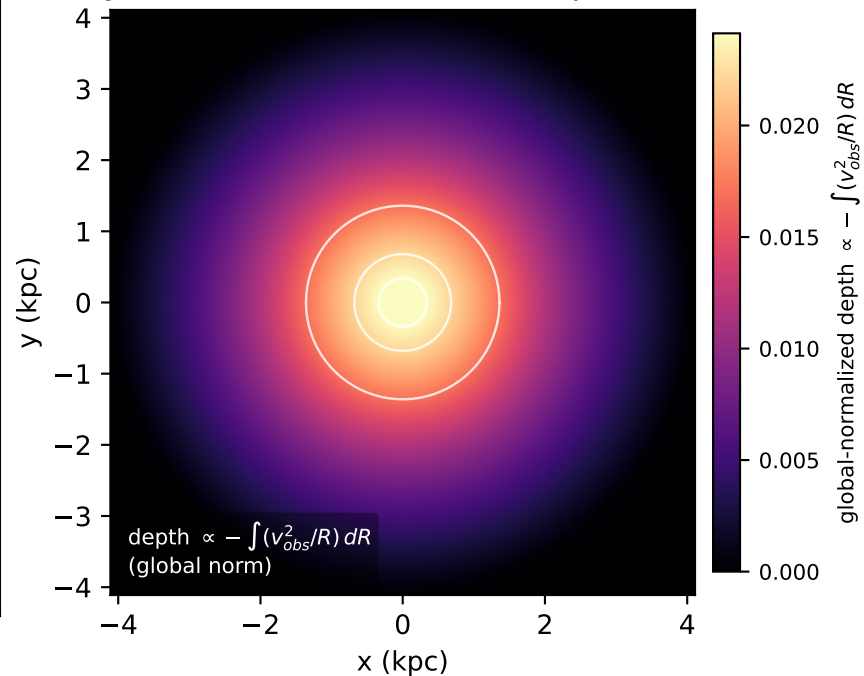

UGC07603: rotation curve

Inferred potential (up to constant)

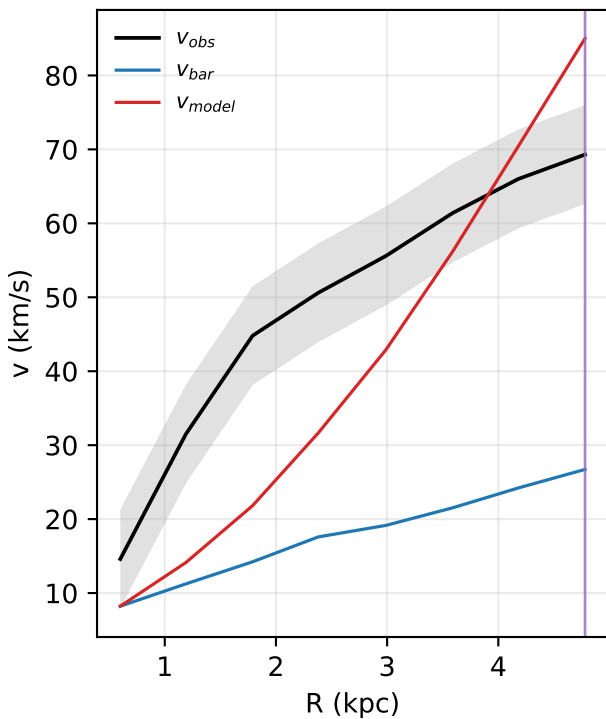

Dyed fabric (inferred effective potential)

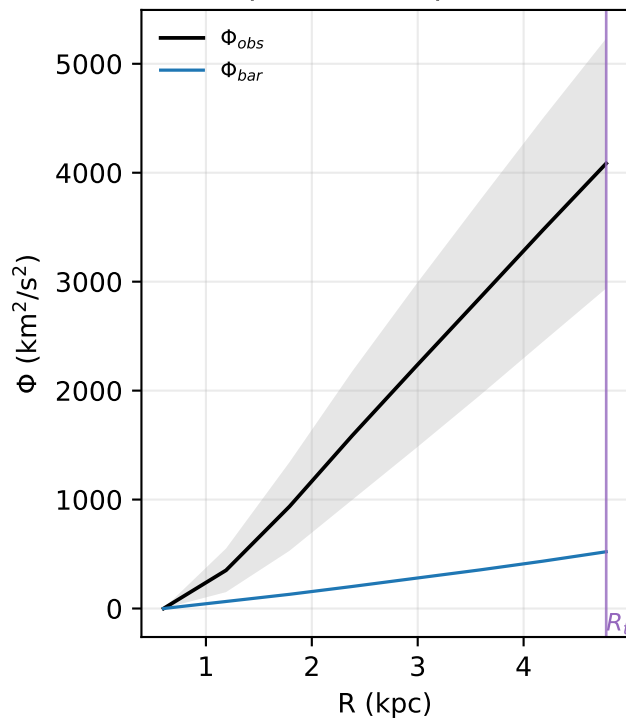

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

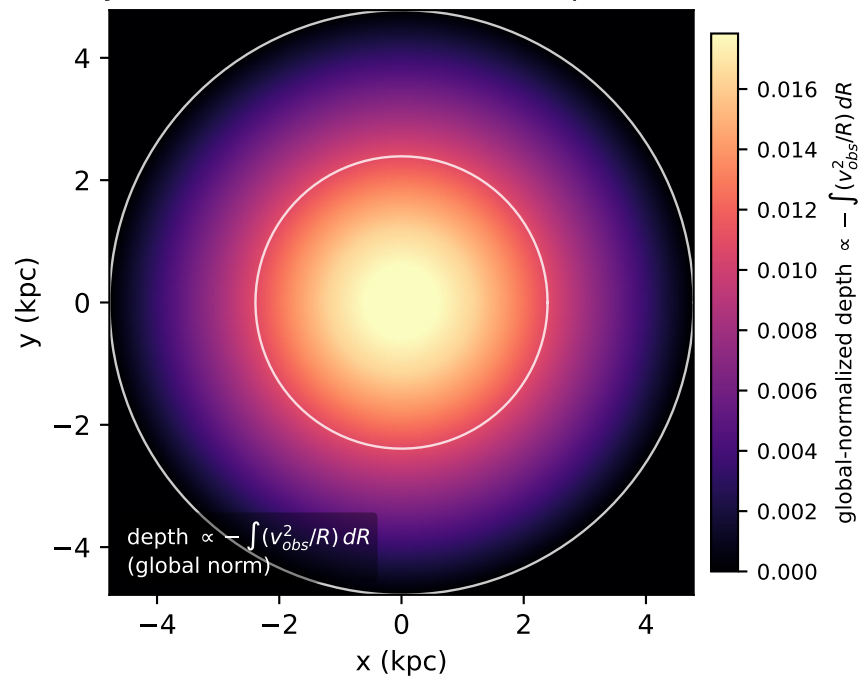

UGC07608: rotation curve

Inferred potential (up to constant)

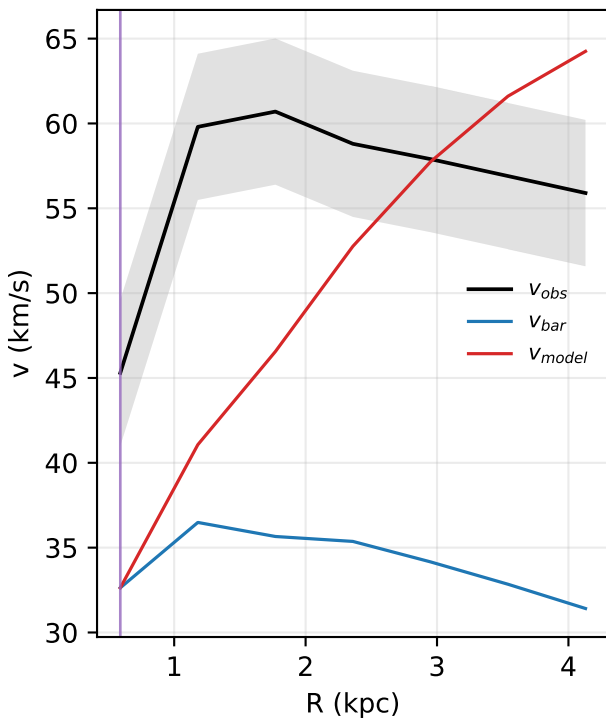

Dyed fabric (inferred effective potential)

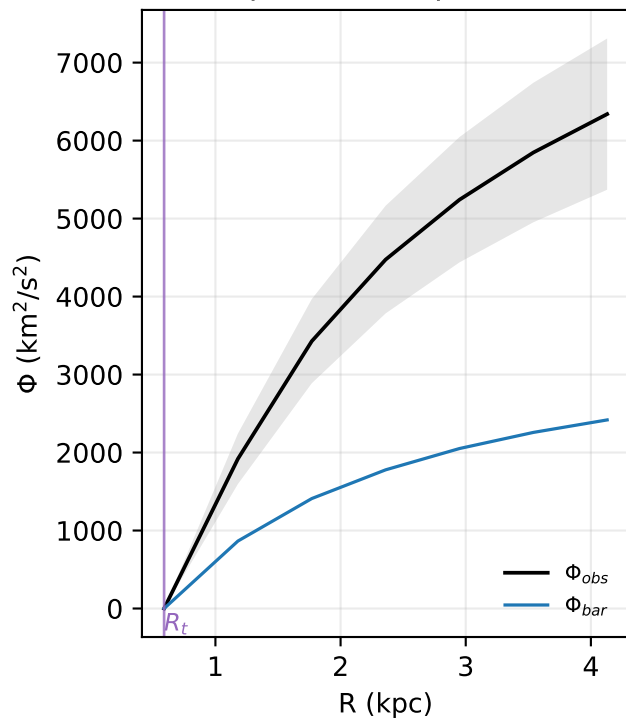

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

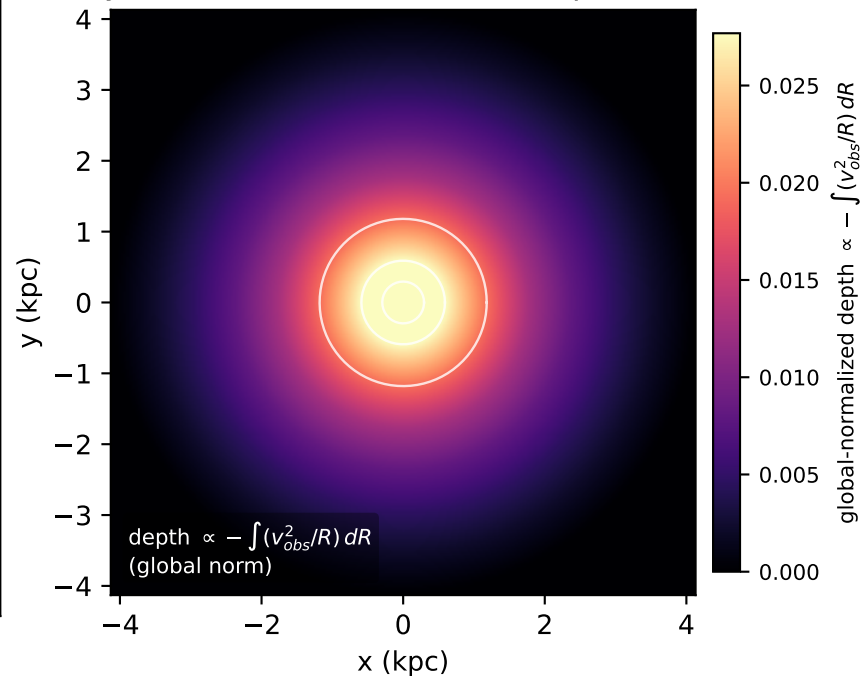

UGC07690: rotation curve

Inferred potential (up to constant)

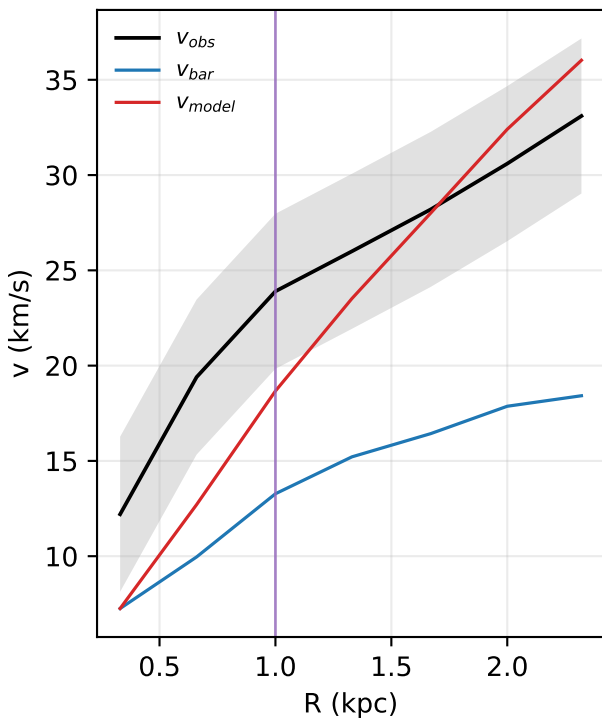

Dyed fabric (inferred effective potential)

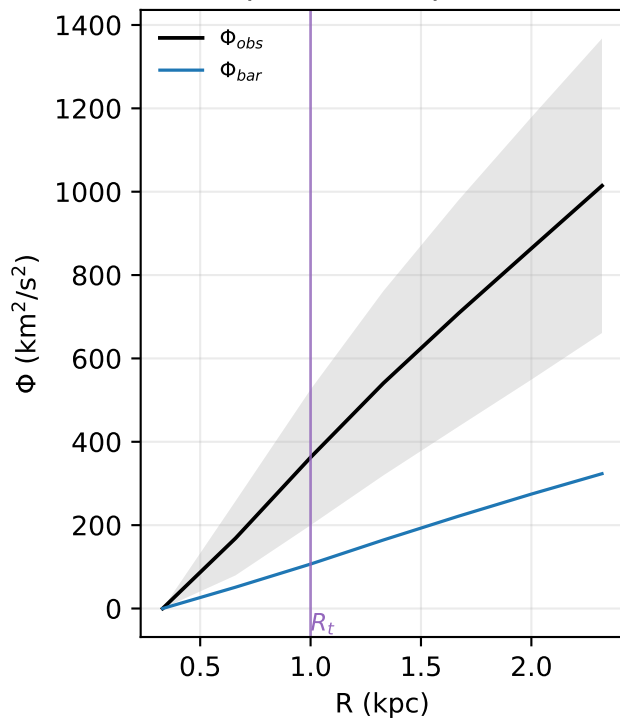

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

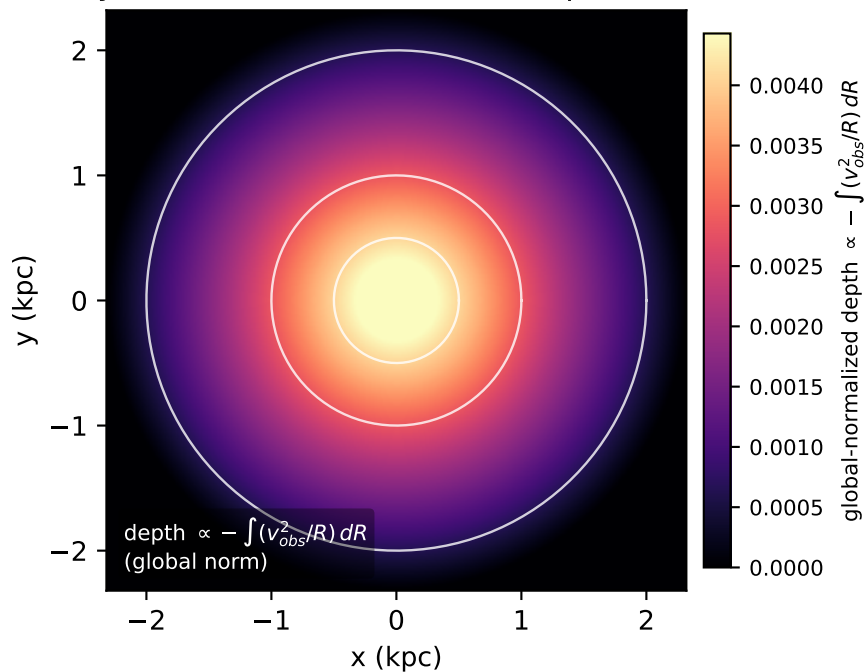

UGC07866: rotation curve

Inferred potential (up to constant)

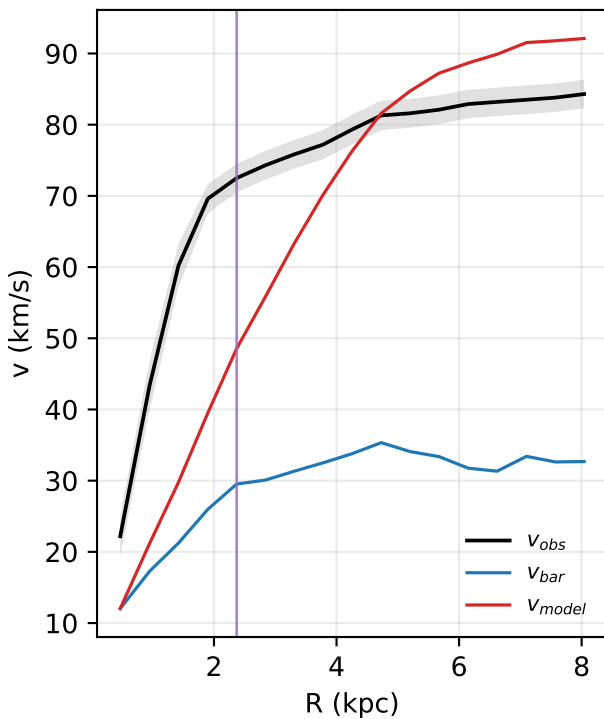

Dyed fabric (inferred effective potential)

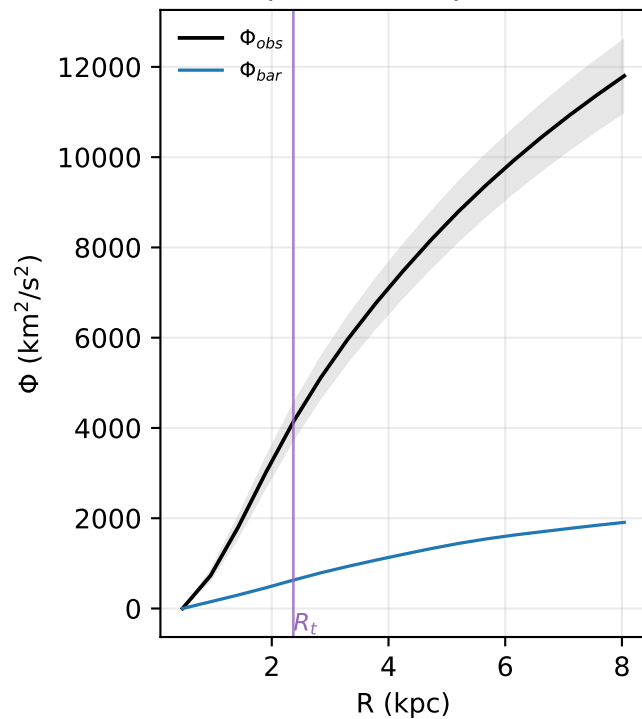

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

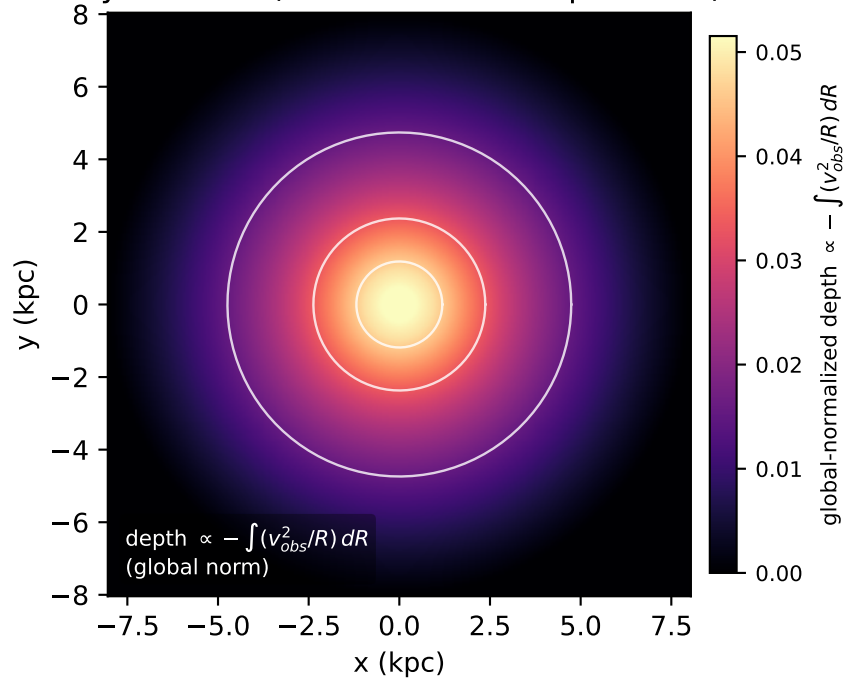

UGC08286: rotation curve

Inferred potential (up to constant)

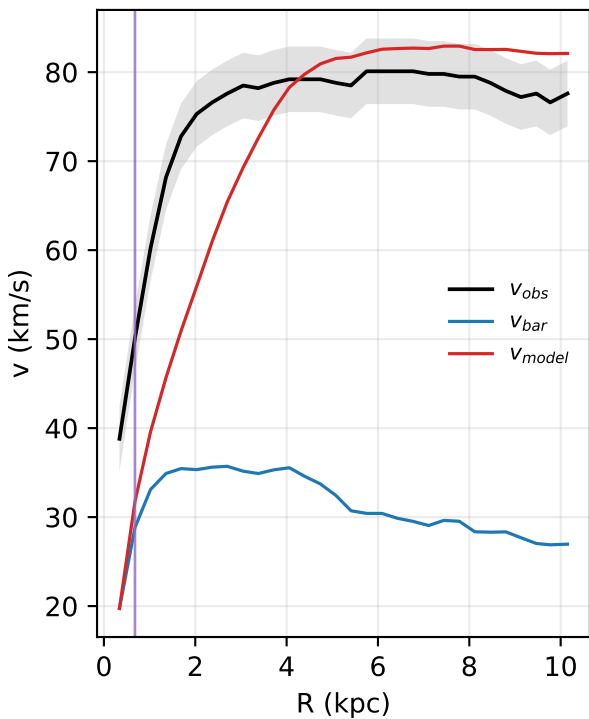

Dyed fabric (inferred effective potential)

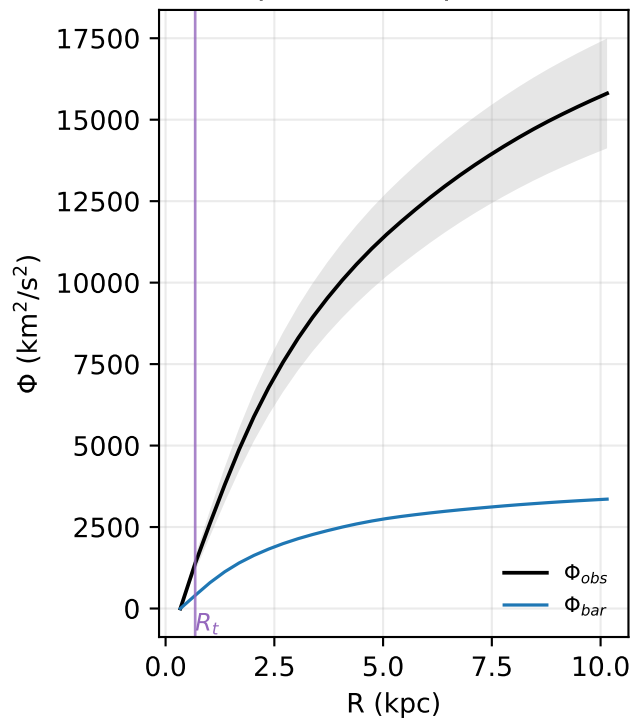

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

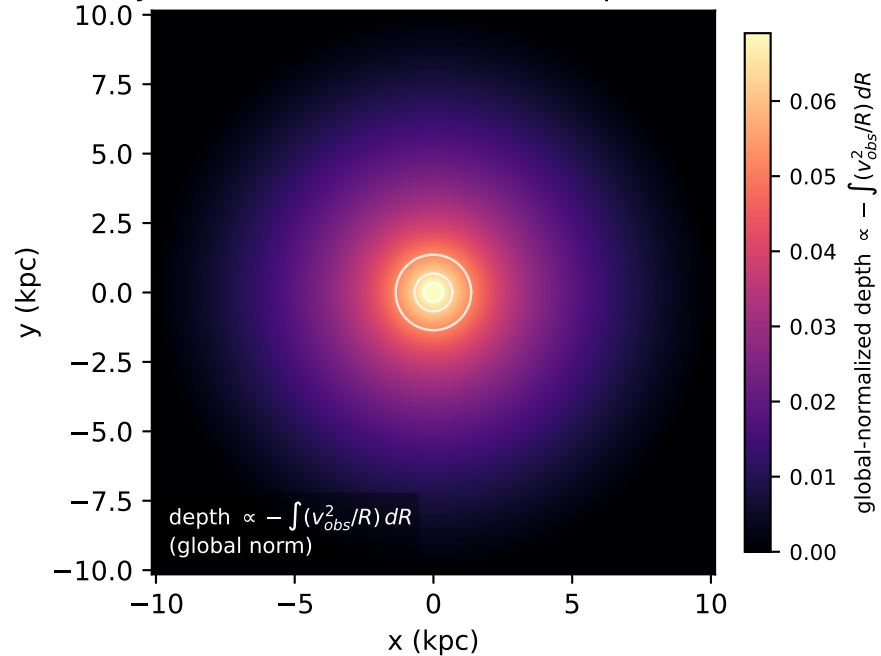

UGC08490: rotation curve

Inferred potential (up to constant)

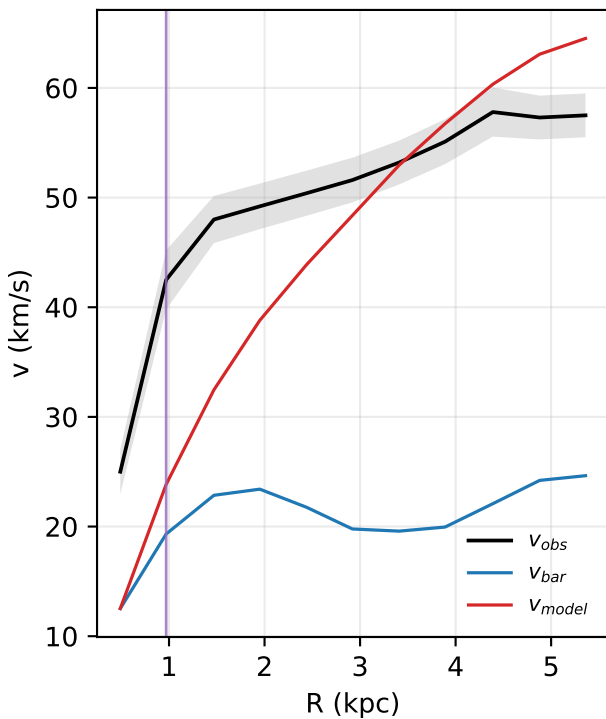

Dyed fabric (inferred effective potential)

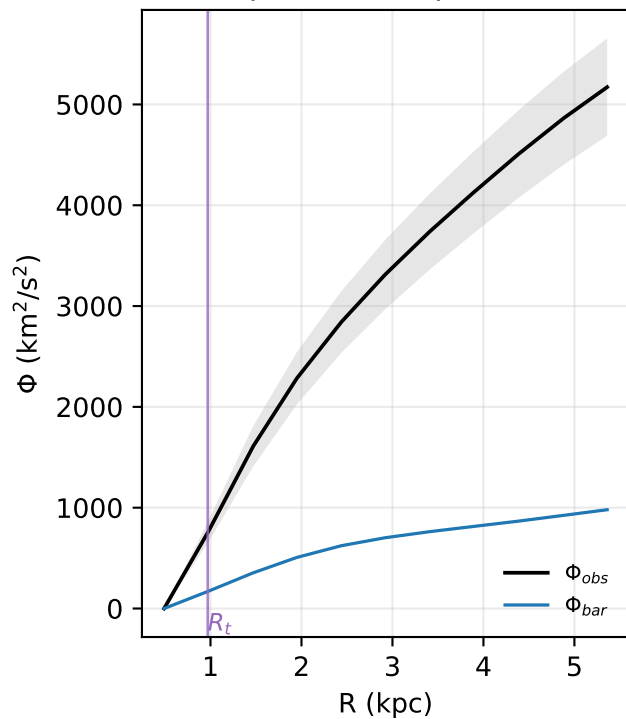

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

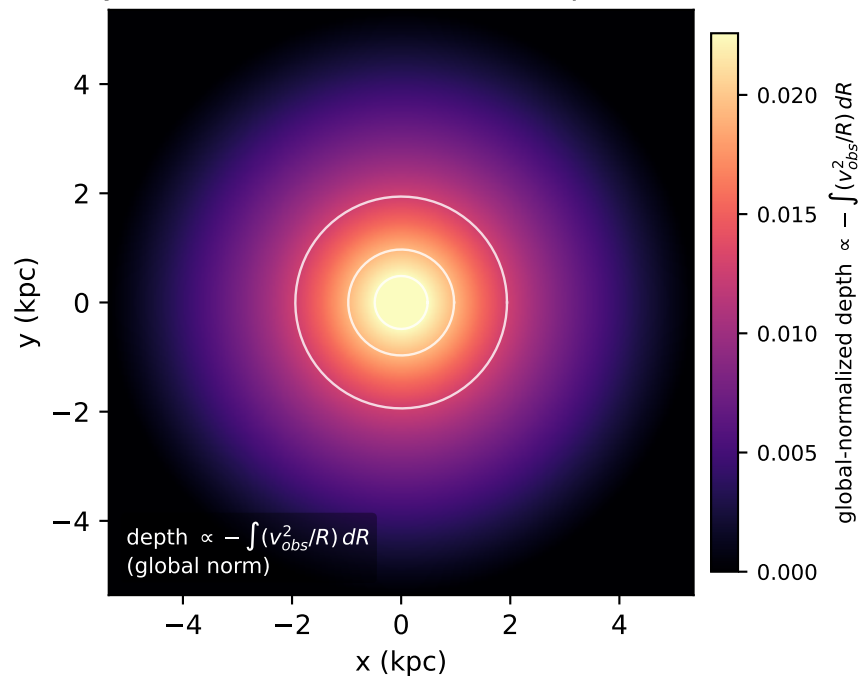

UGC08550: rotation curve

Inferred potential (up to constant)

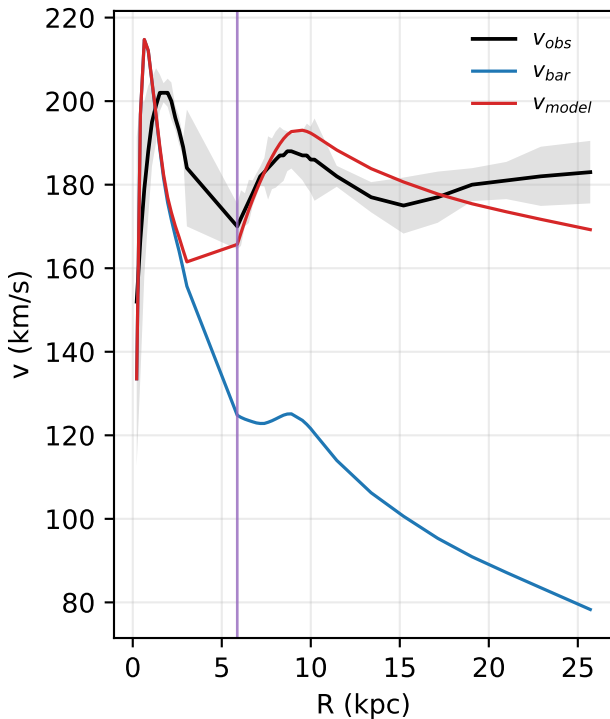

Dyed fabric (inferred effective potential)

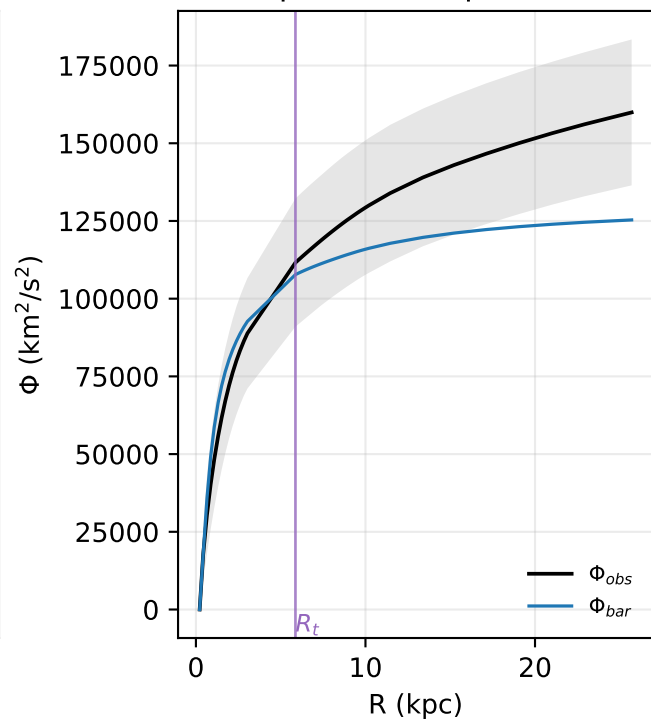

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

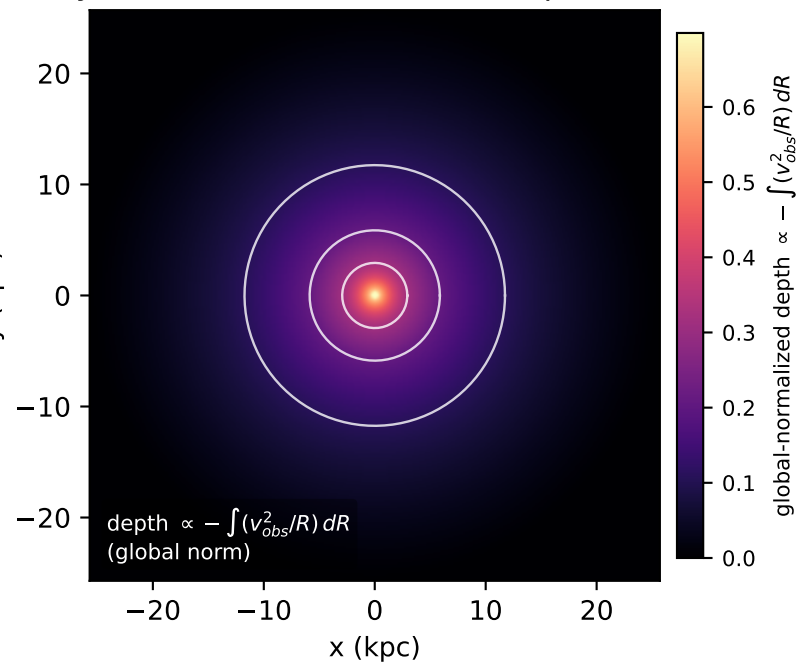

UGC08699: rotation curve

Inferred potential (up to constant)

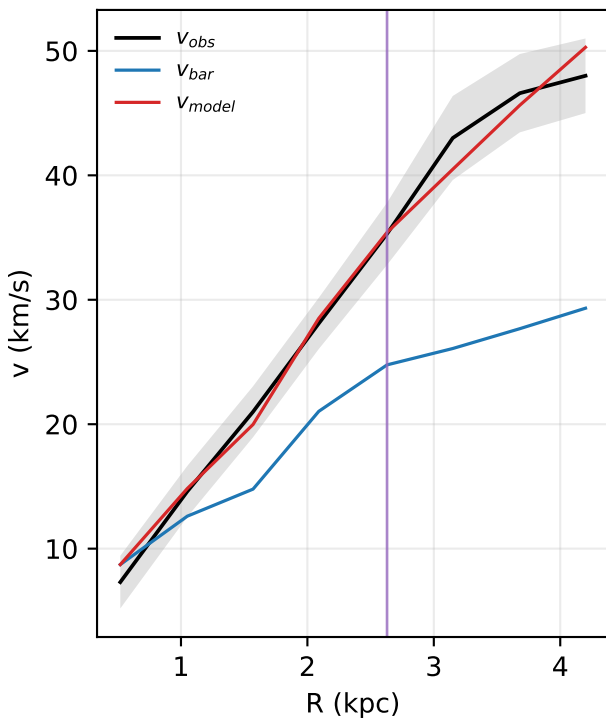

Dyed fabric (inferred effective potential)

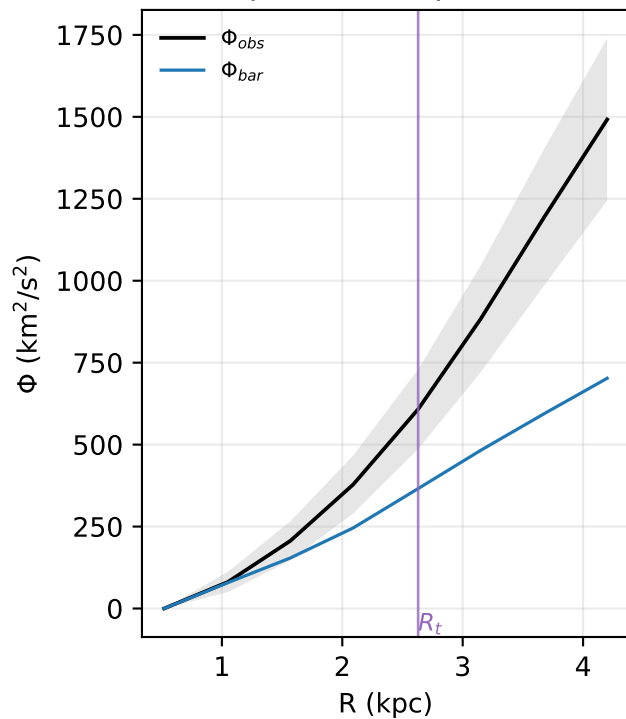

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

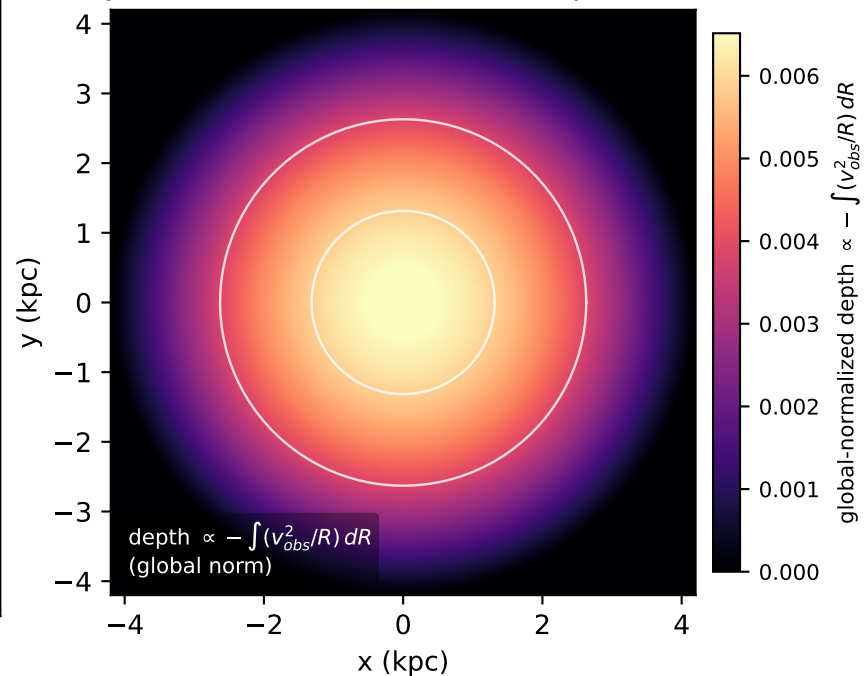

UGC08837: rotation curve

Inferred potential (up to constant)

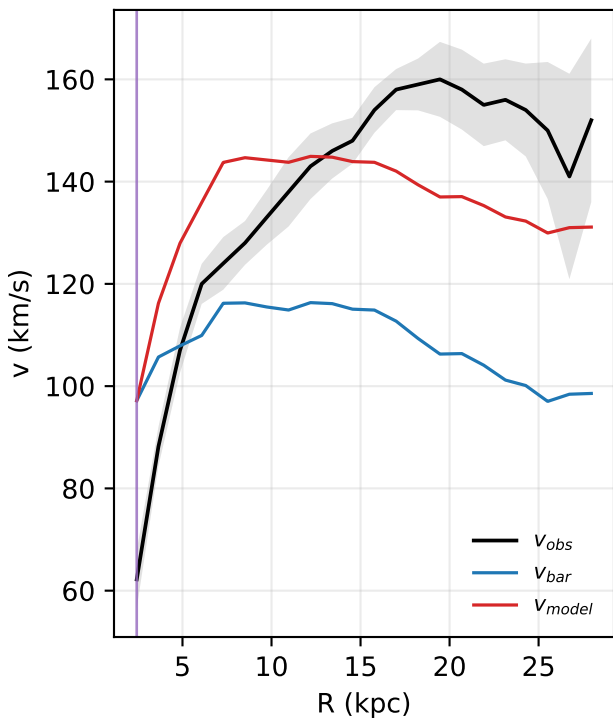

Dyed fabric (inferred effective potential)

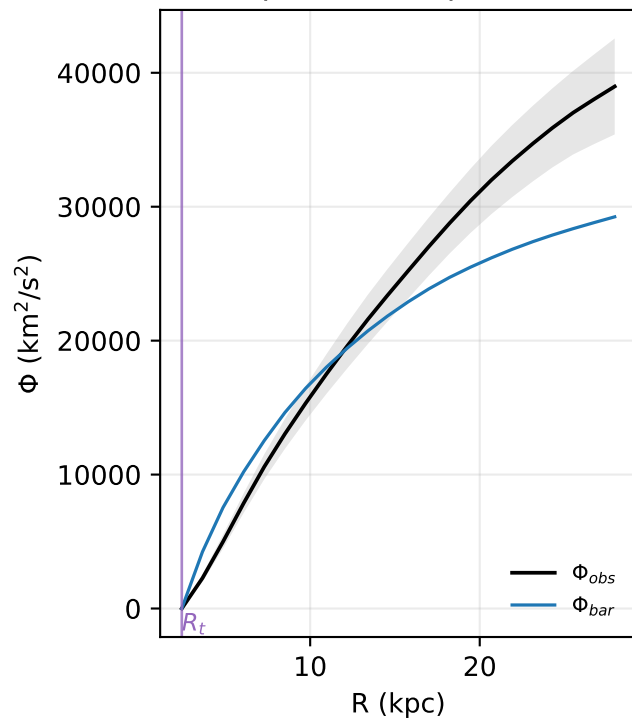

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

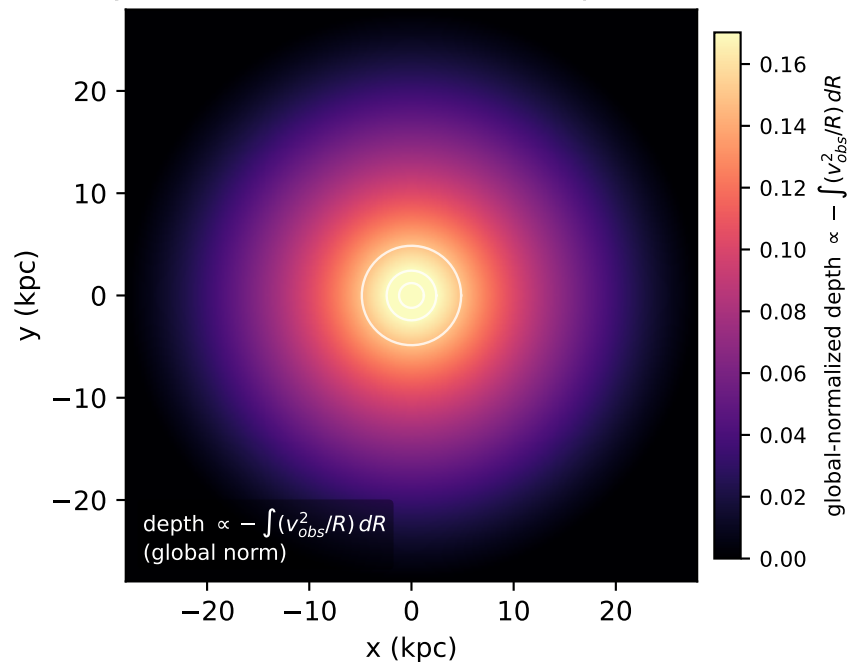

UGC09037: rotation curve

Inferred potential (up to constant)

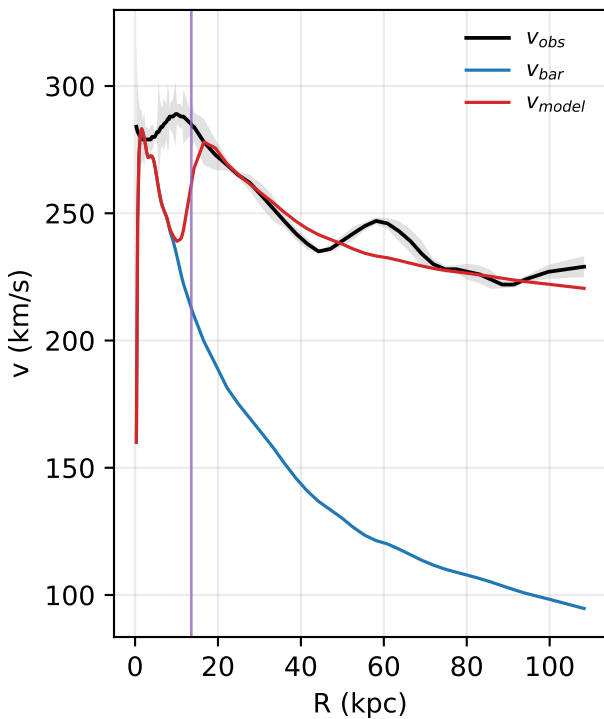

Dyed fabric (inferred effective potential)

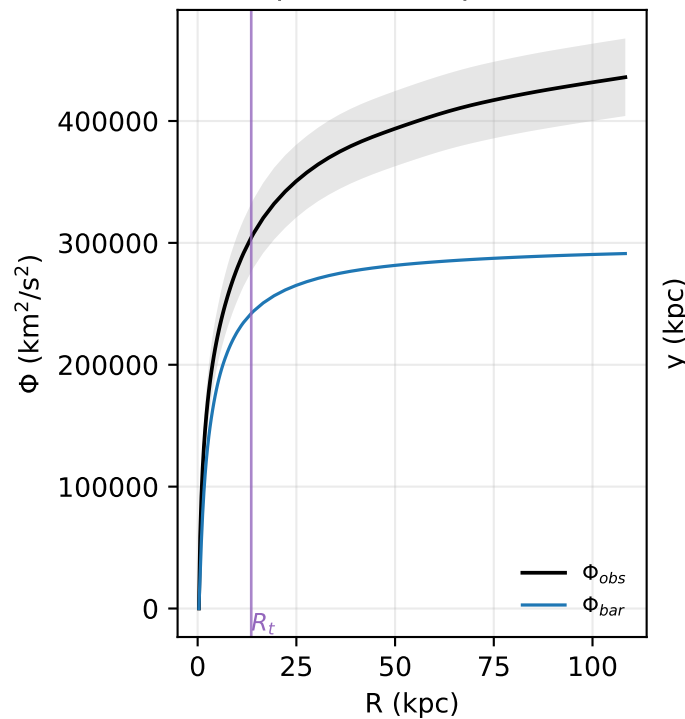

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

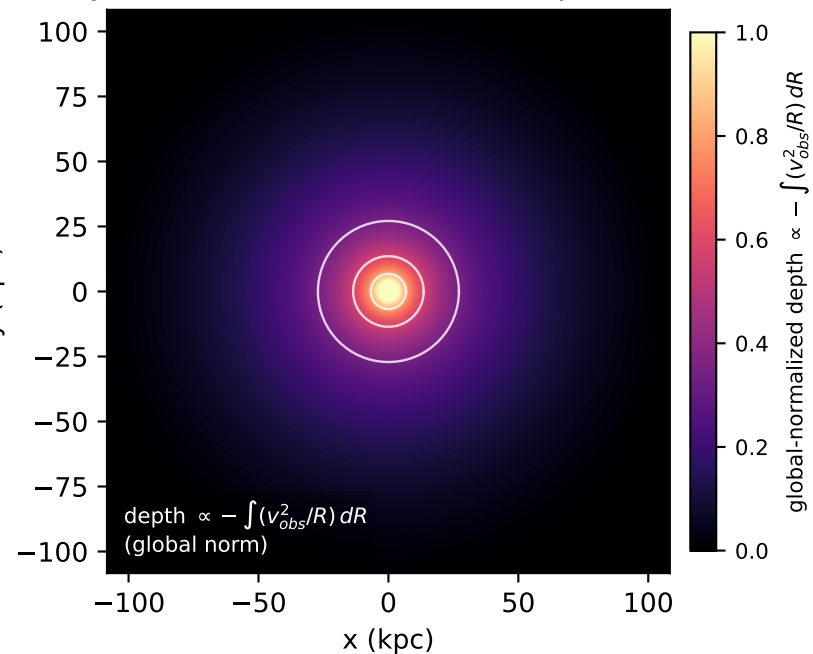

UGC09133: rotation curve

Inferred potential (up to constant)

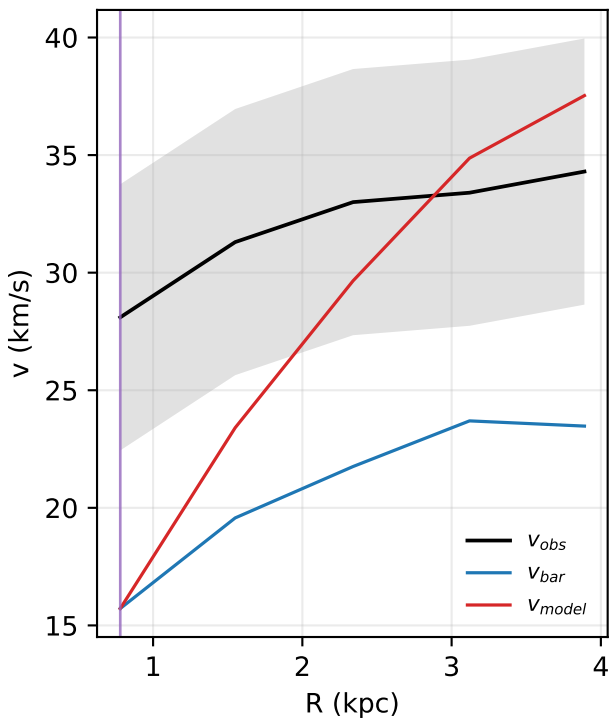

Dyed fabric (inferred effective potential)

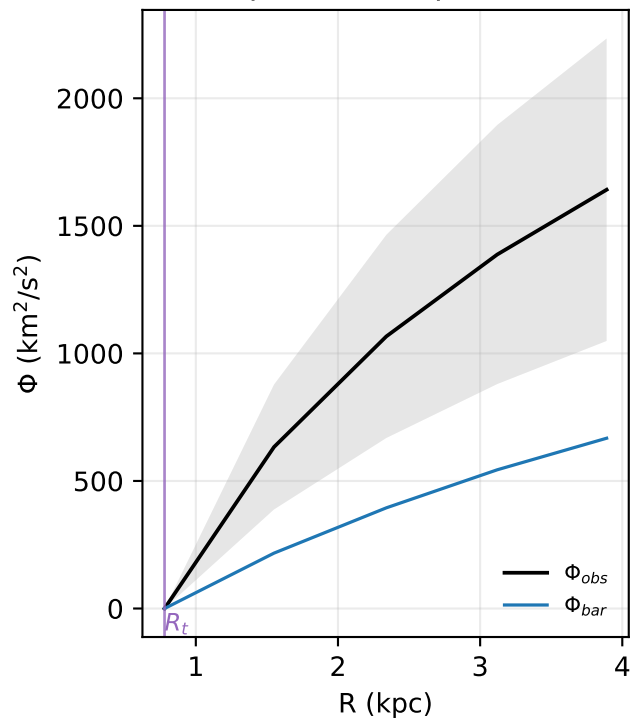

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

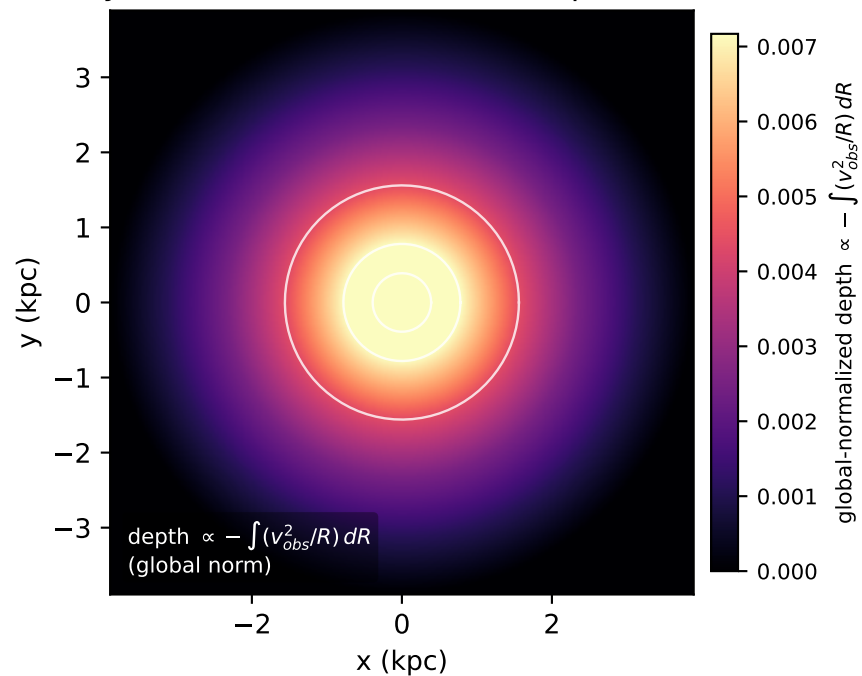

UGC09992: rotation curve

Inferred potential (up to constant)

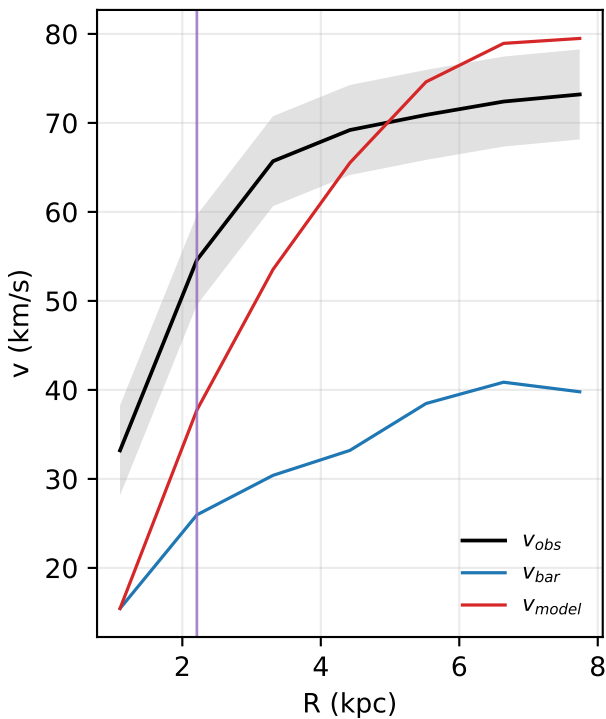

Dyed fabric (inferred effective potential)

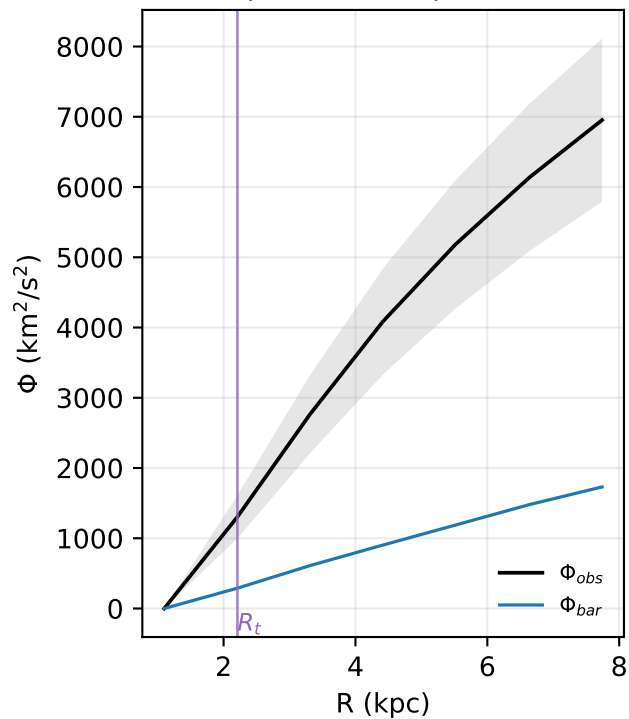

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

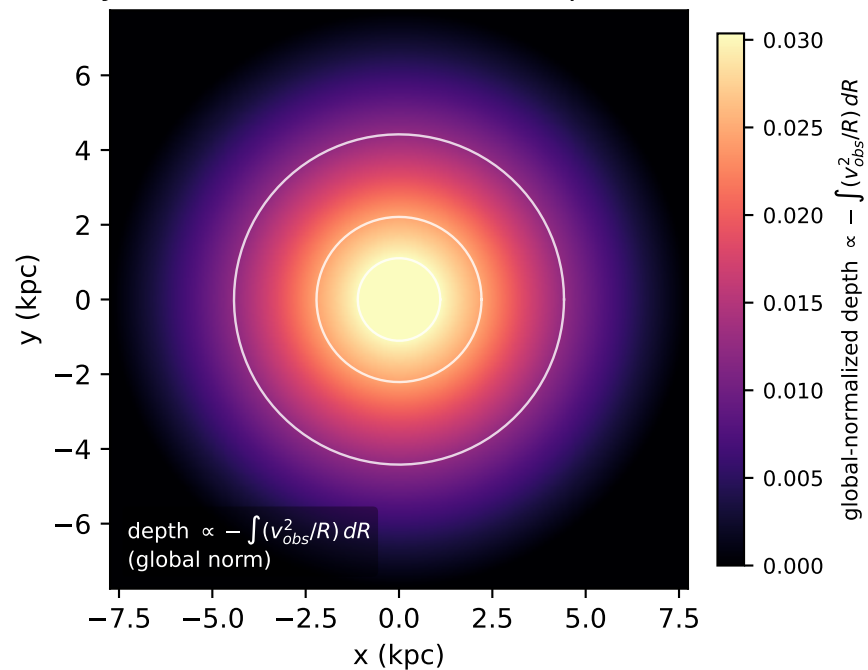

UGC10310: rotation curve

Inferred potential (up to constant)

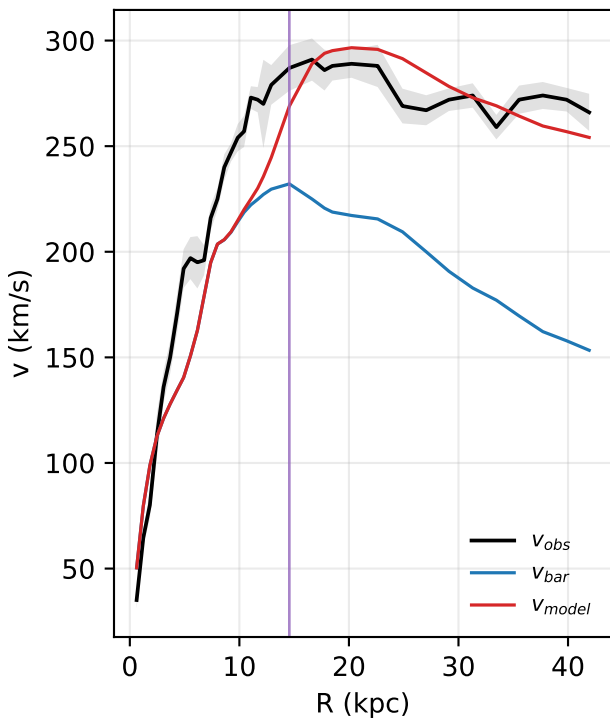

Dyed fabric (inferred effective potential)

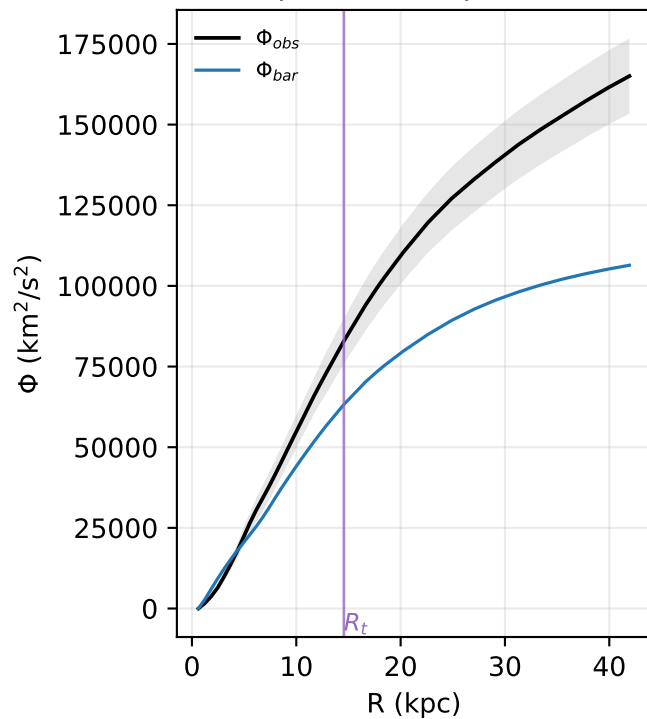

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

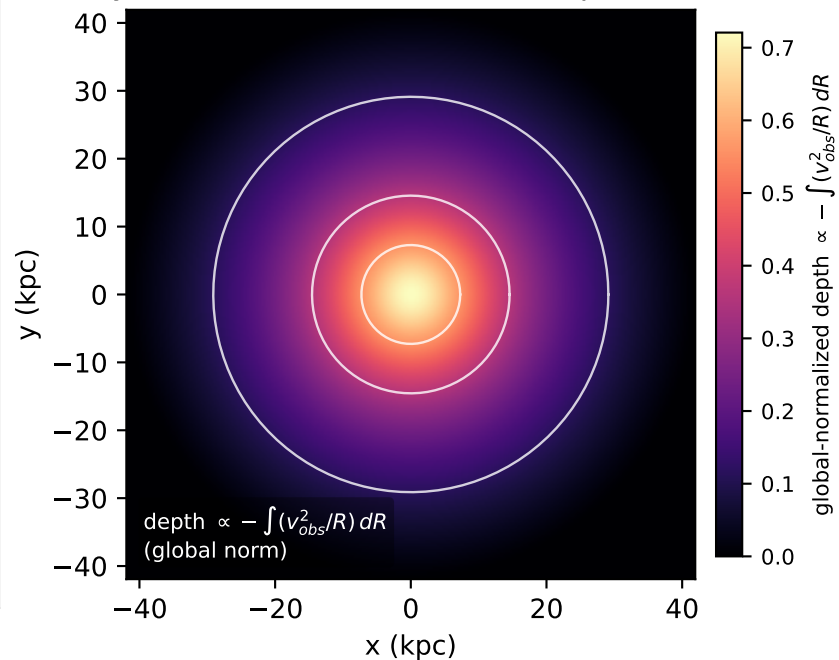

UGC11455: rotation curve

Inferred potential (up to constant)

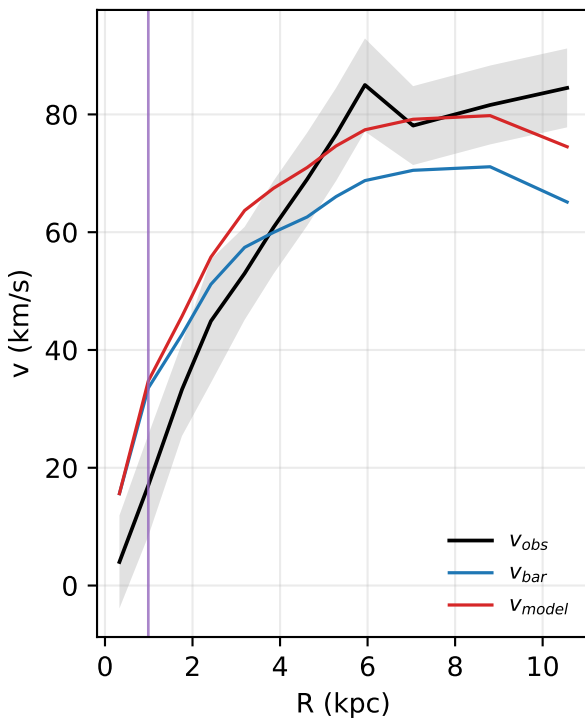

Dyed fabric (inferred effective potential)

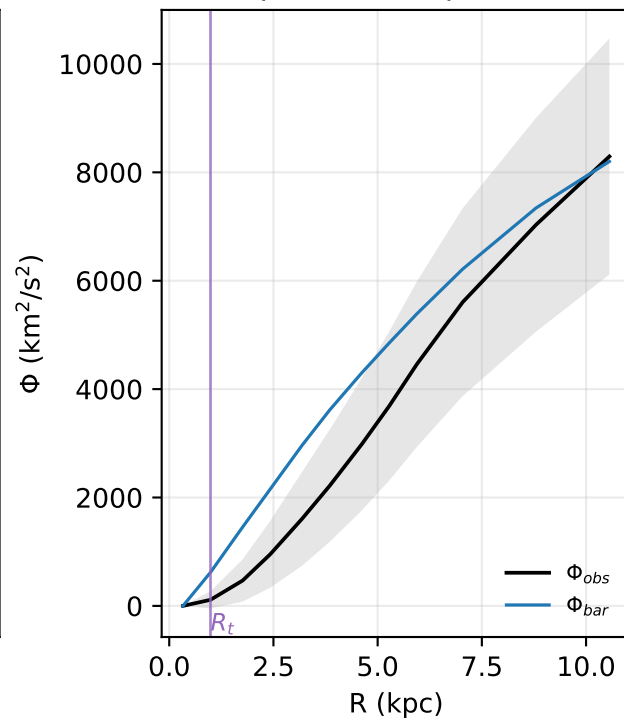

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

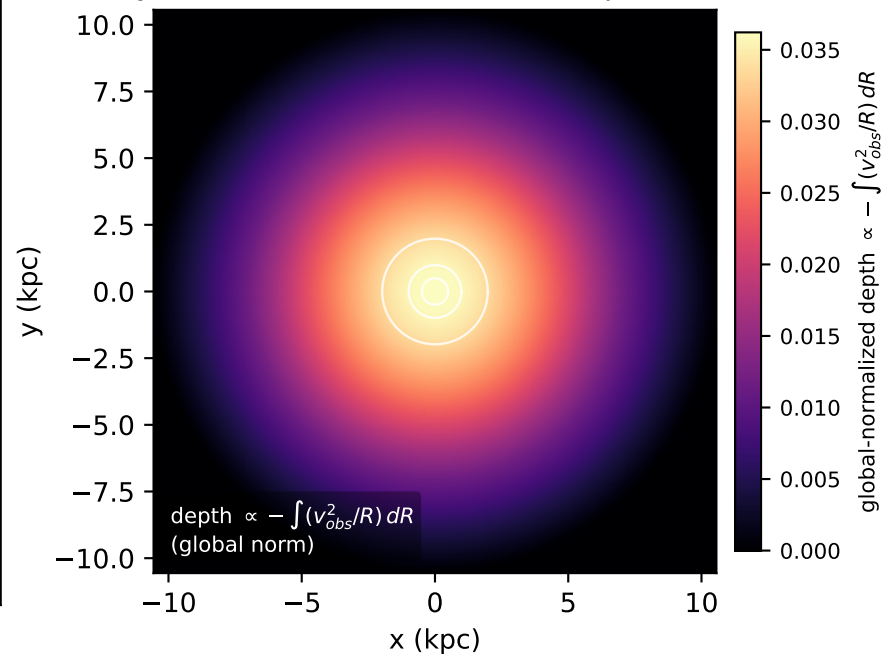

UGC11557: rotation curve

Inferred potential (up to constant)

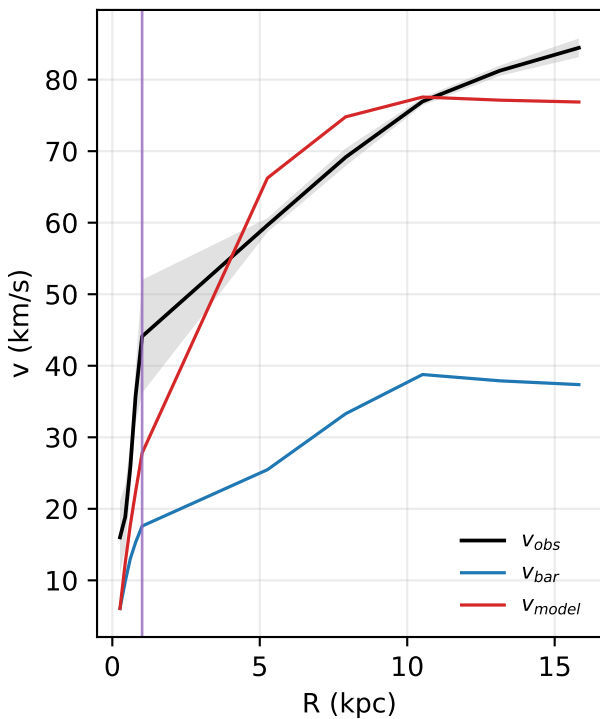

Dyed fabric (inferred effective potential)

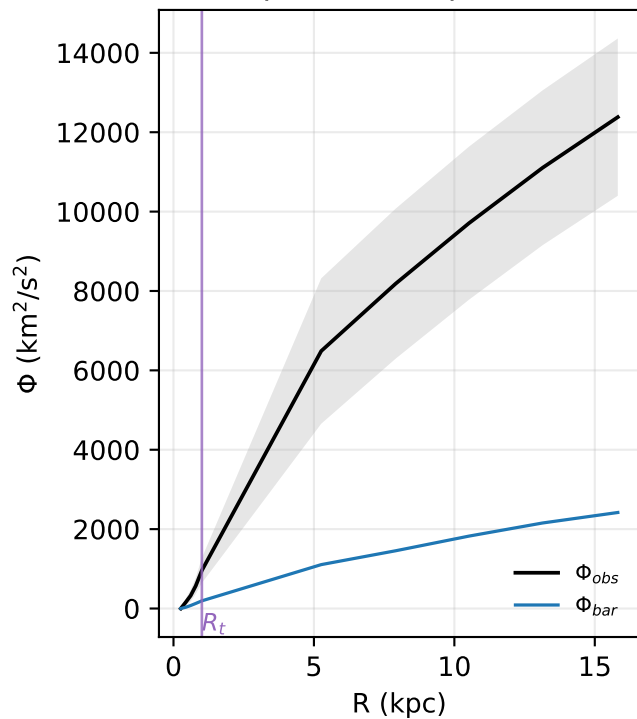

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

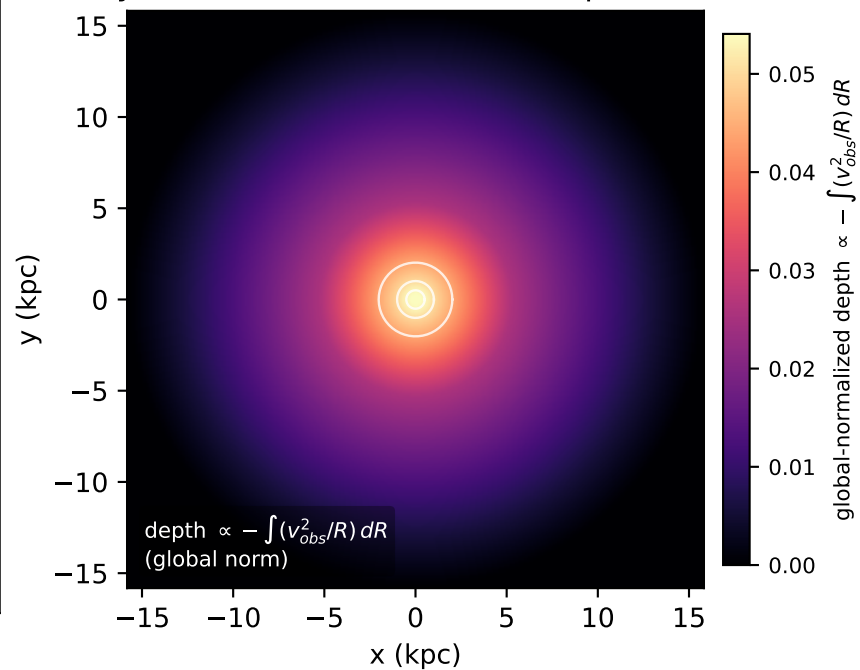

UGC11820: rotation curve

Inferred potential (up to constant)

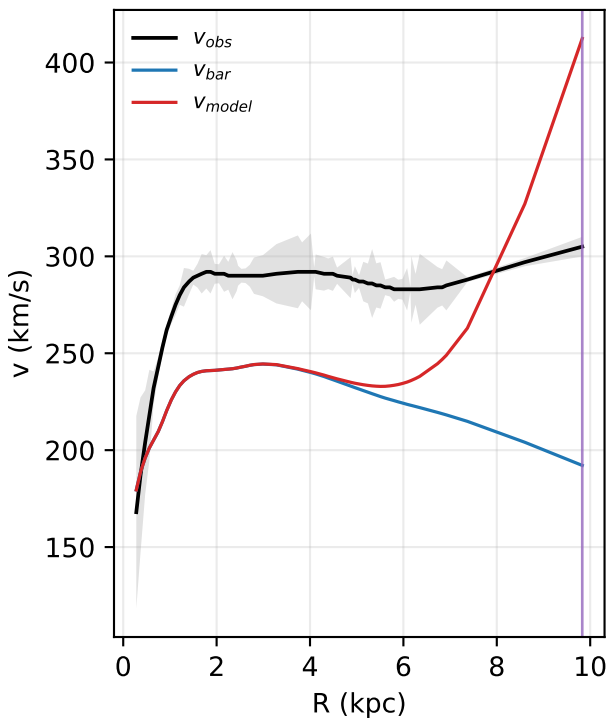

Dyed fabric (inferred effective potential)

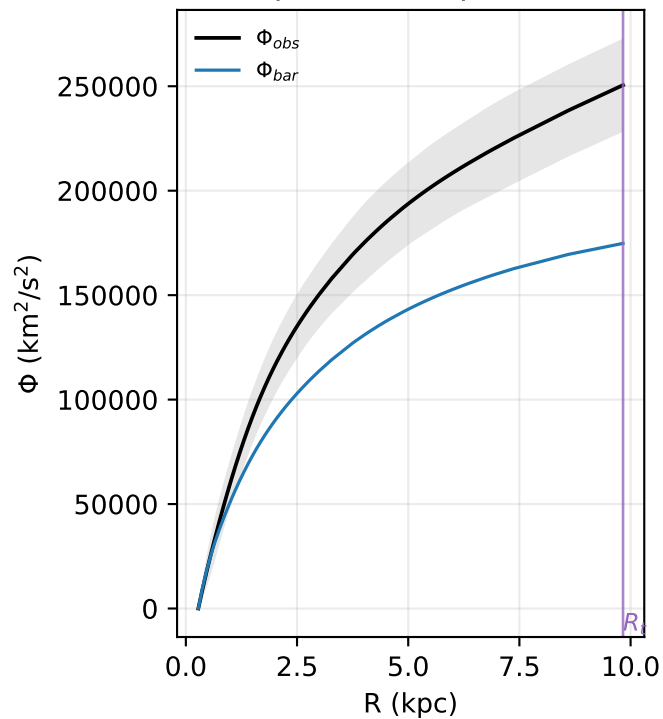

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

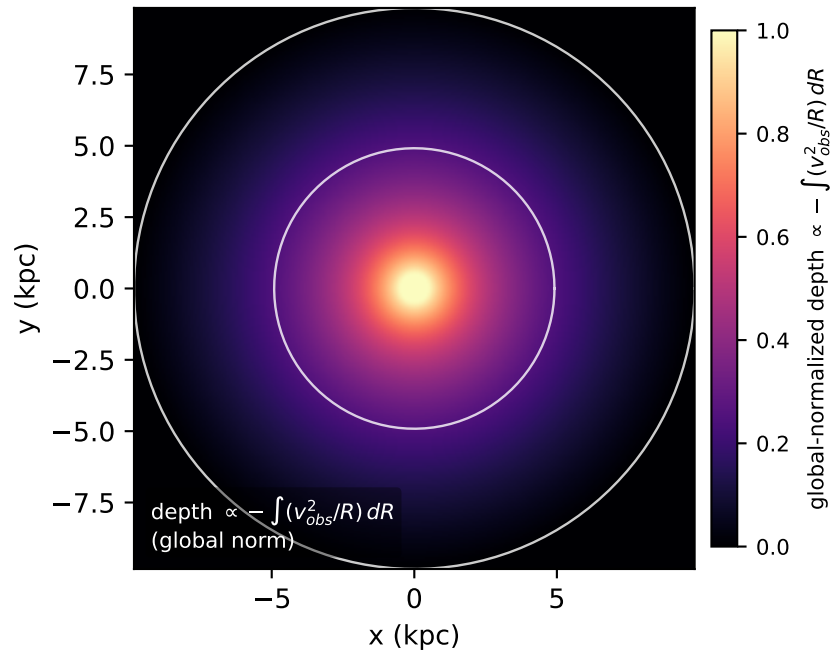

UGC11914: rotation curve

Inferred potential (up to constant)

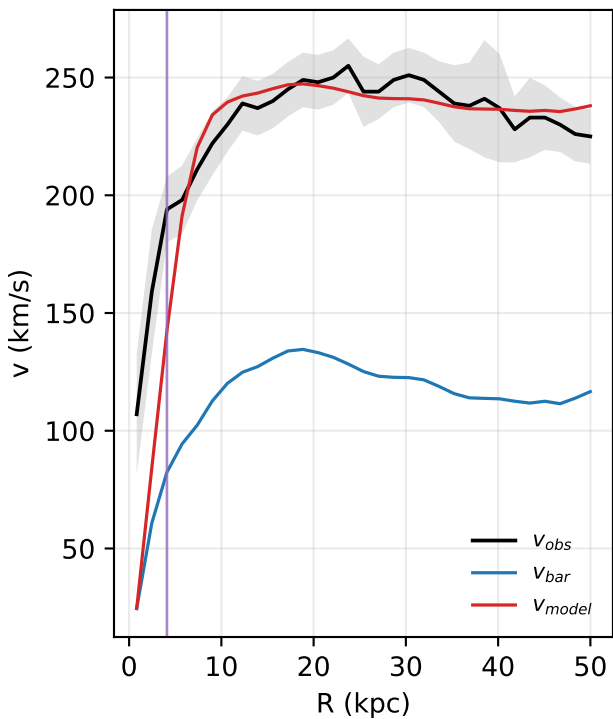

Dyed fabric (inferred effective potential)

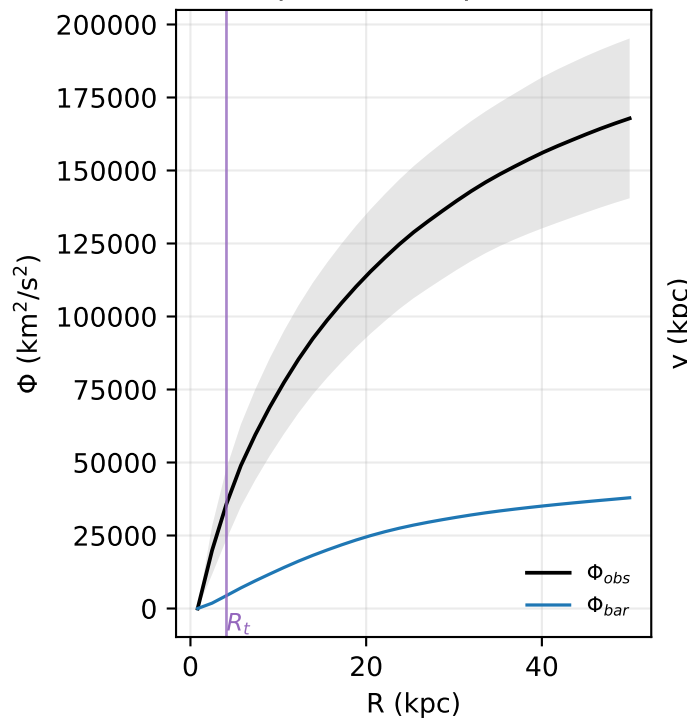

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

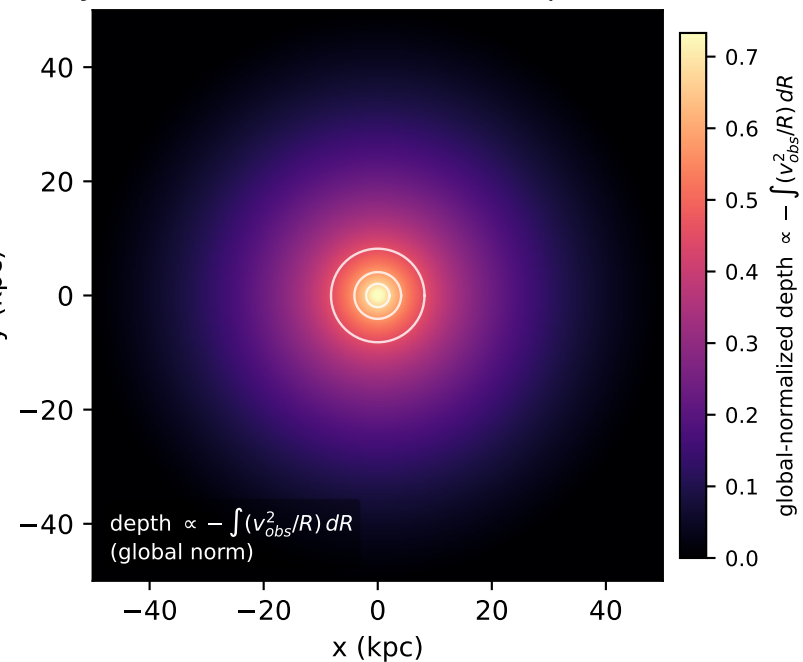

UGC12506: rotation curve

Inferred potential (up to constant)

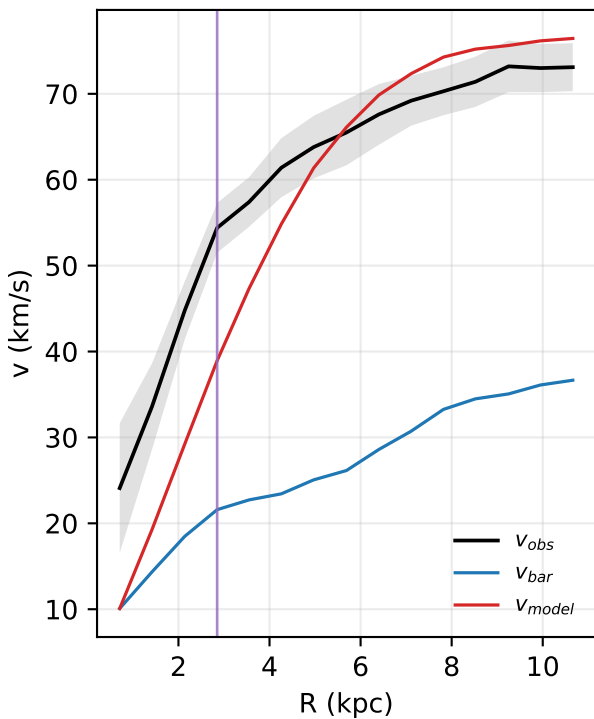

Dyed fabric (inferred effective potential)

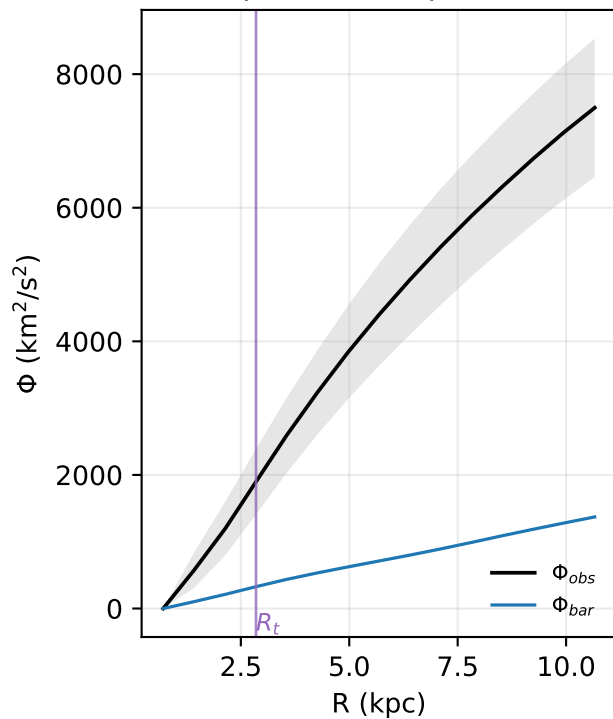

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

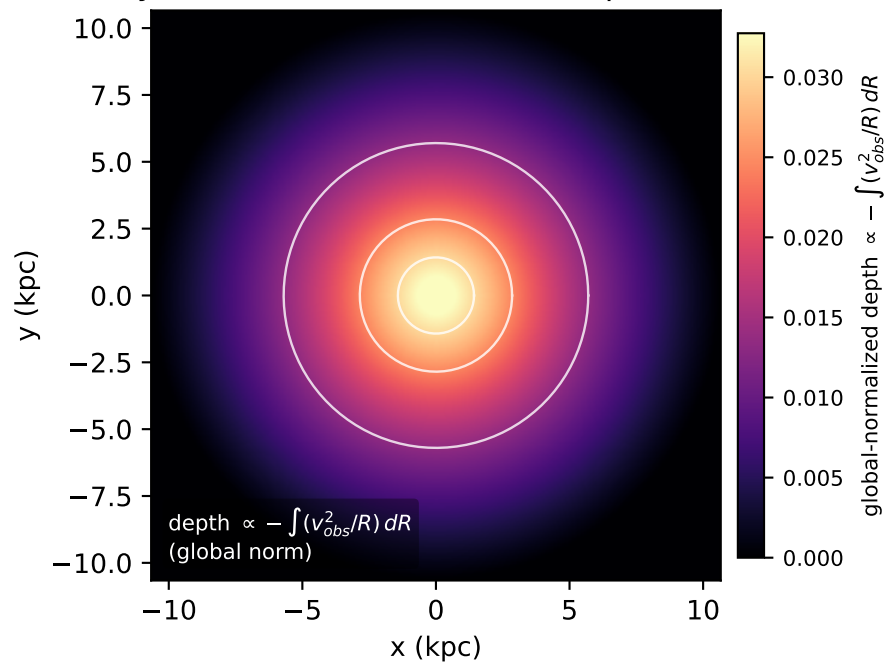

UGC12632: rotation curve

Inferred potential (up to constant)

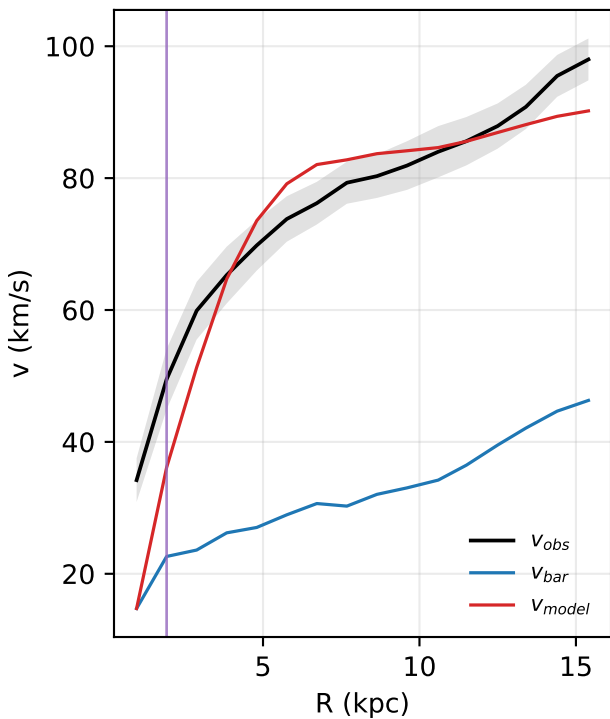

Dyed fabric (inferred effective potential)

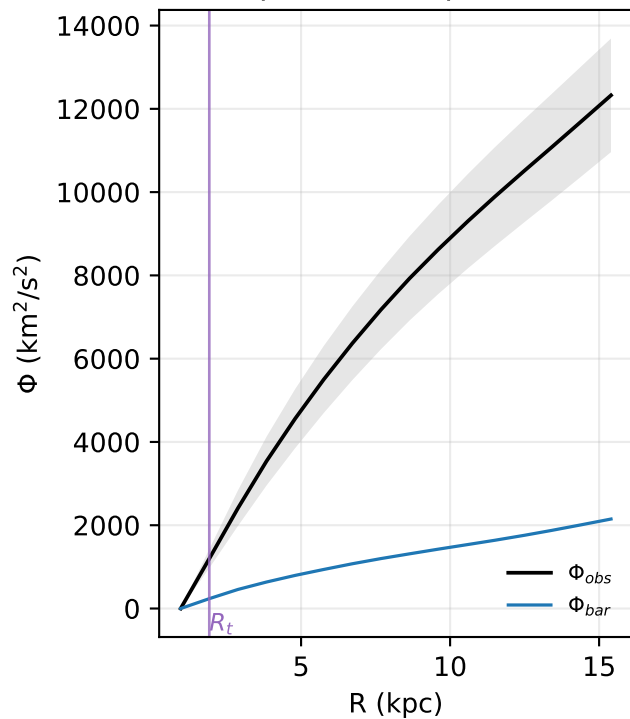

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

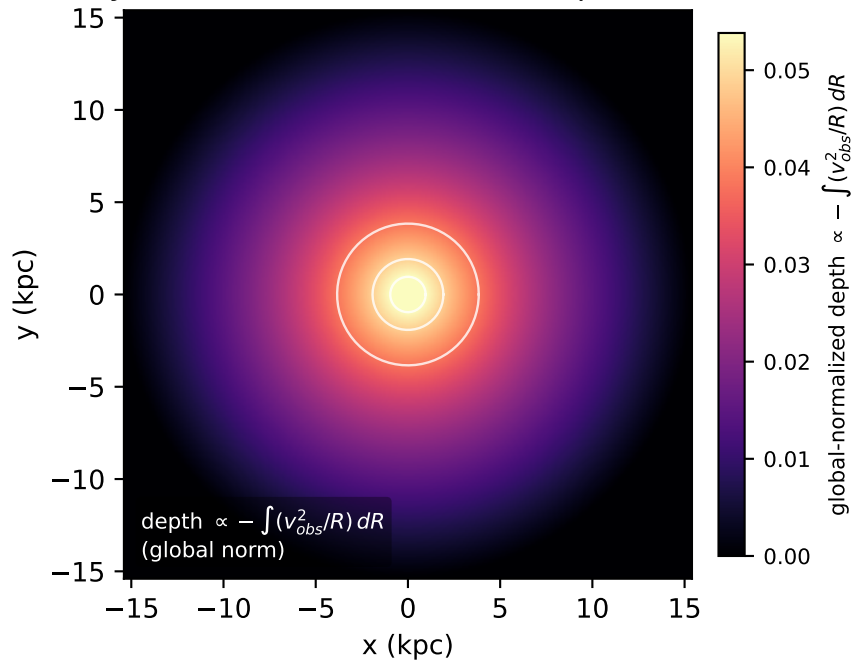

UGC12732: rotation curve

Inferred potential (up to constant)

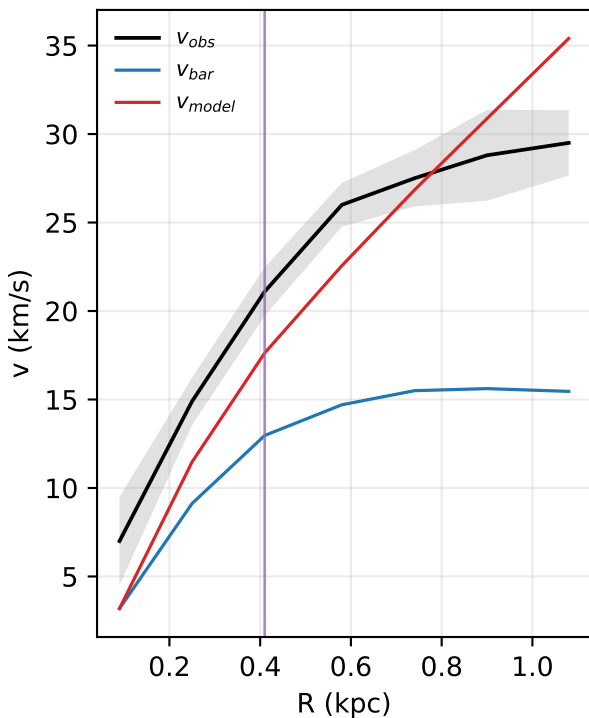

Dyed fabric (inferred effective potential)

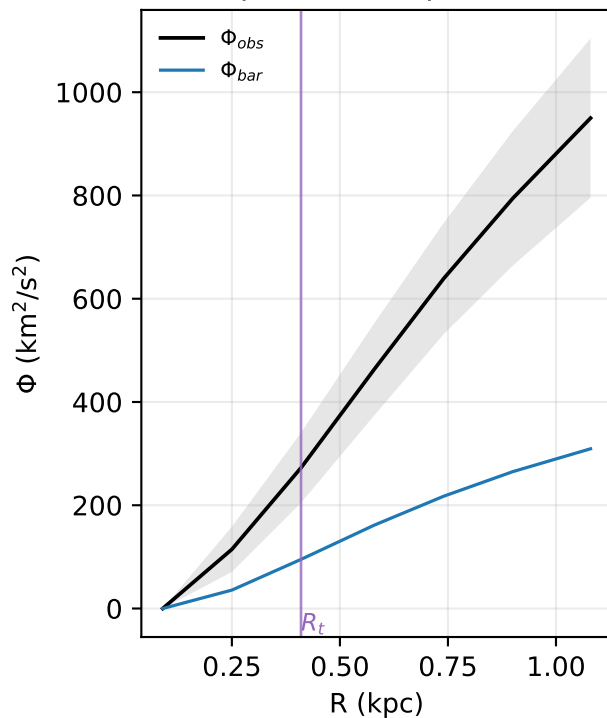

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

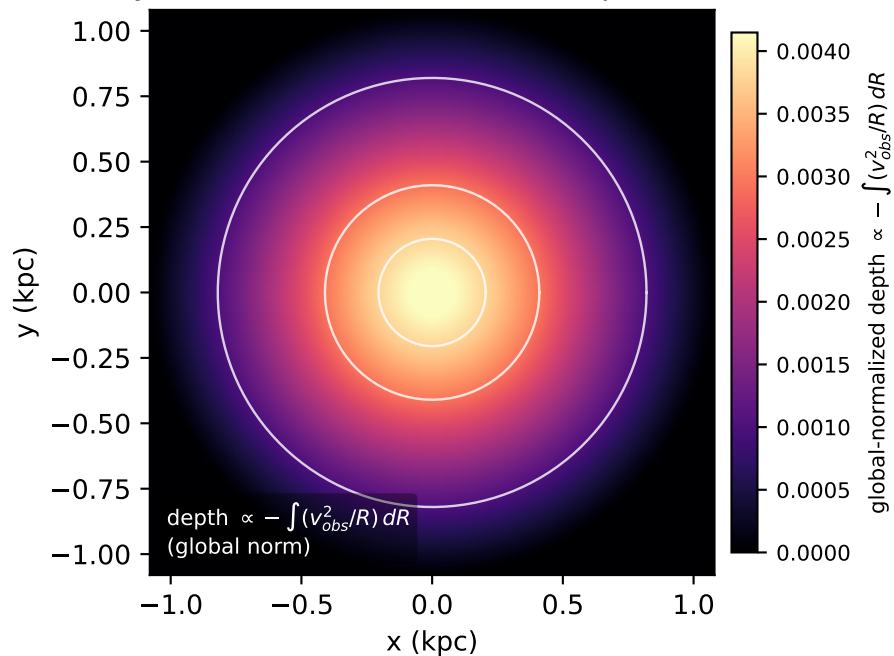

UGCA281: rotation curve

Inferred potential (up to constant)

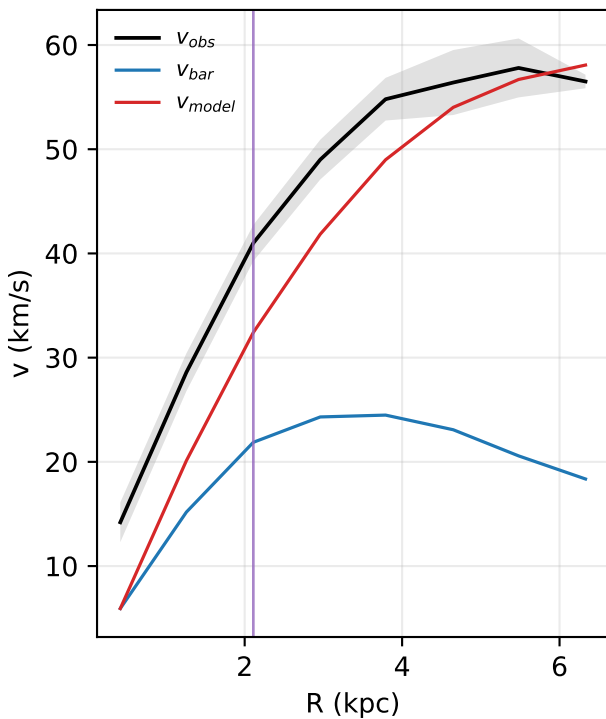

Dyed fabric (inferred effective potential)

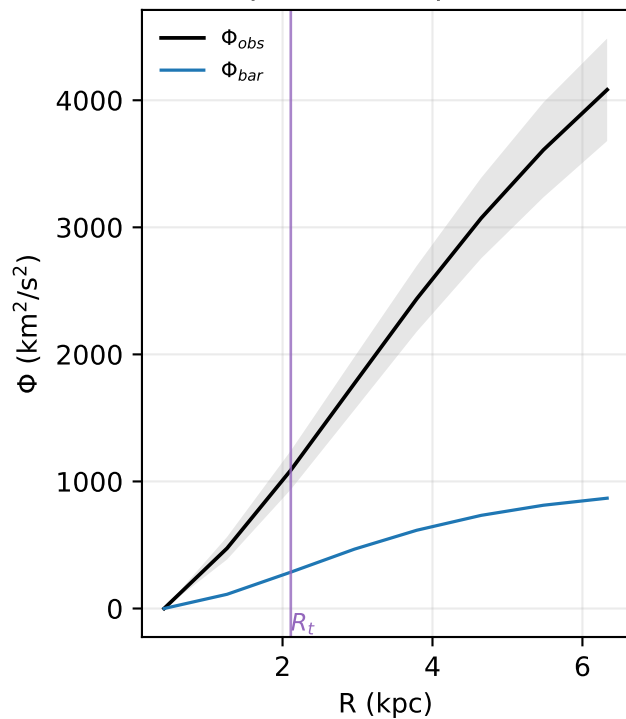

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

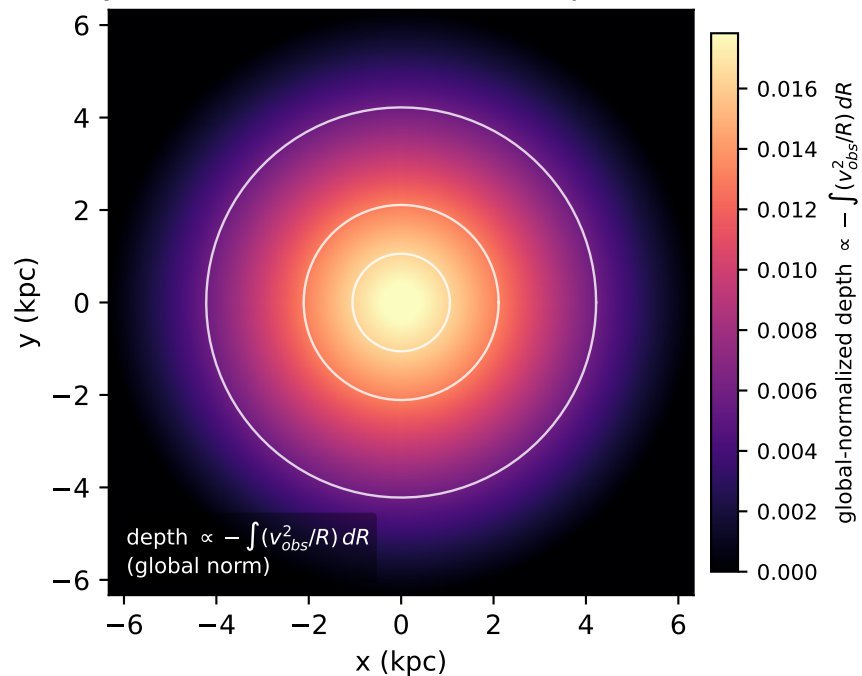

UGCA442: rotation curve

Inferred potential (up to constant)

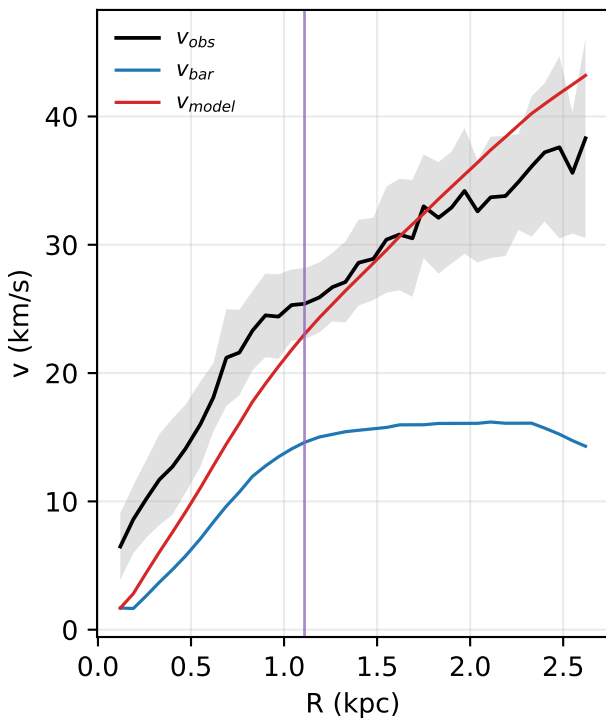

Dyed fabric (inferred effective potential)

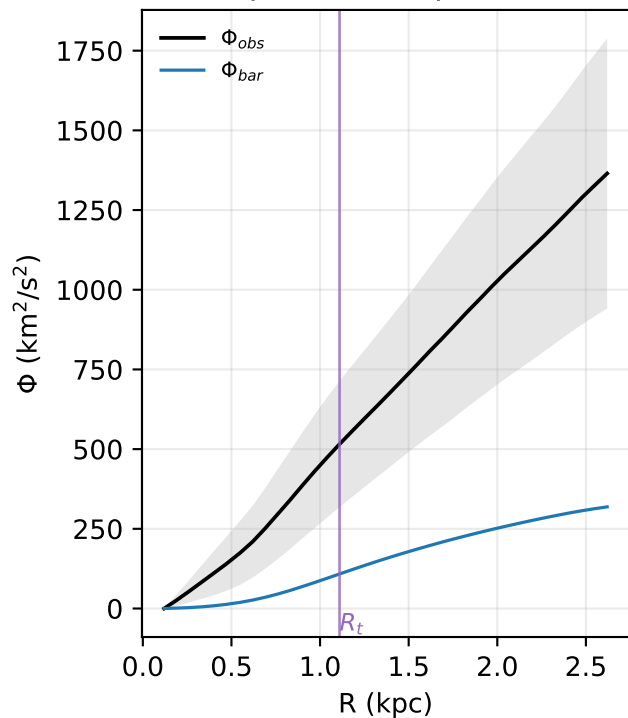

Inferred effective potential depth from $v_{\text{obs}}(R)$; stylized dye map (not a GR embedding); no causal model assumed

UGCA444: rotation curve

Inferred potential (up to constant)

Dyed fabric (inferred effective potential)
